OUR INTEGRATED REPORT

Godrej Properties Limited's Integrated Annual Report aims to offer an overview of our financial and non-financial performances, contributing to both short and long-term value creation for stakeholders. Our strategic value drivers involve six capitals: financial, natural, human, intellectual, manufactured, social, and relationship. In line with the <IR> framework, this report focuses on the six capitals. Through this integrated approach, we reinforce our commitment to purpose-driven sustainable business practices, addressing environmental and social challenges with equal priority to financial performance. This report provides insights into material issues, our operational context, governance structure, value creation strategy, performance against key indicators, and the interdependence of key issues, strategies, performance metrics, value creation, financial data, and statutory reports.

FORWARD-LOOKING STATEMENTS

This integrated report includes forward-looking statements that express our current expectations and perspectives on future events. These statements come with inherent risks and uncertainties that may result in actual outcomes differing significantly from those anticipated or implied. Such statements are typically identified by phrases like "anticipate," "believe," "estimate," "expect," "foresee," "intend," "may," "plan," "project," "should," "will," and similar expressions. These claims are based on assumptions, which, if incorrect, could lead to discrepancies between predicted outcomes and actual future events. We advise readers not to place excessive reliance on forward-looking statements. Following the publication of this report, the Company disclaims any obligation to update these forward-looking statements to account for subsequent events or circumstances.

THIS REPORT IS PREPARED IN ACCORDANCE WITH THE GRI STANDARDS AND WITH REFERENCE TO THE FOLLOWING DISCLOSURE FORMATS

BOARD RESPONSIBILITY STATEMENT

Recognizing our responsibility to stakeholders, the senior leadership of Godrej Properties Limited is committed to presenting a transparent and comprehensive integrated report. We believe this report thoroughly addresses all material matters that could impact our ability to create sustainable value.

DETERMINING THE ESG AND FINANCIAL REPORTING BOUNDARY

The scope of this report includes the strategic narrative and focuses on our ongoing project sites in India, developed either directly or through Godrej Properties’ Special Purpose Vehicles. Unless stated otherwise, information and content are consolidated for business purposes. Where appropriate, the reporting boundary also includes significant risks,

opportunities, that results from entities and stakeholders that affect our ability to create value. These entities and stakeholders may not be directly connected to our financial or non-financial reporting entity, through control or significant influence, but are relevant due to the nature and proximity of the risks, opportunities, and results.

This report details our environmental performance across 50 active project sites, and 8 offices, including our headquarters in Mumbai, which are under our direct operational control. The accuracy of the data and processes presented in our report has been assured by Grant Thornton Bharat LLP, an independent third-party assurance provider. They have conducted their review according to the limited assurance criteria for the Integrated Report, and reasonable assurance criteria for the Business Responsibility and Sustainability Report (BRSR) Core as outlined in the International Standard on Assurance Engagements (ISAE) 3000 (Revised) standard.

AMONGST INDIA'S MOST DIVERSIFIED & TRUSTED CONGLOMERATES

GODREJ GROUP

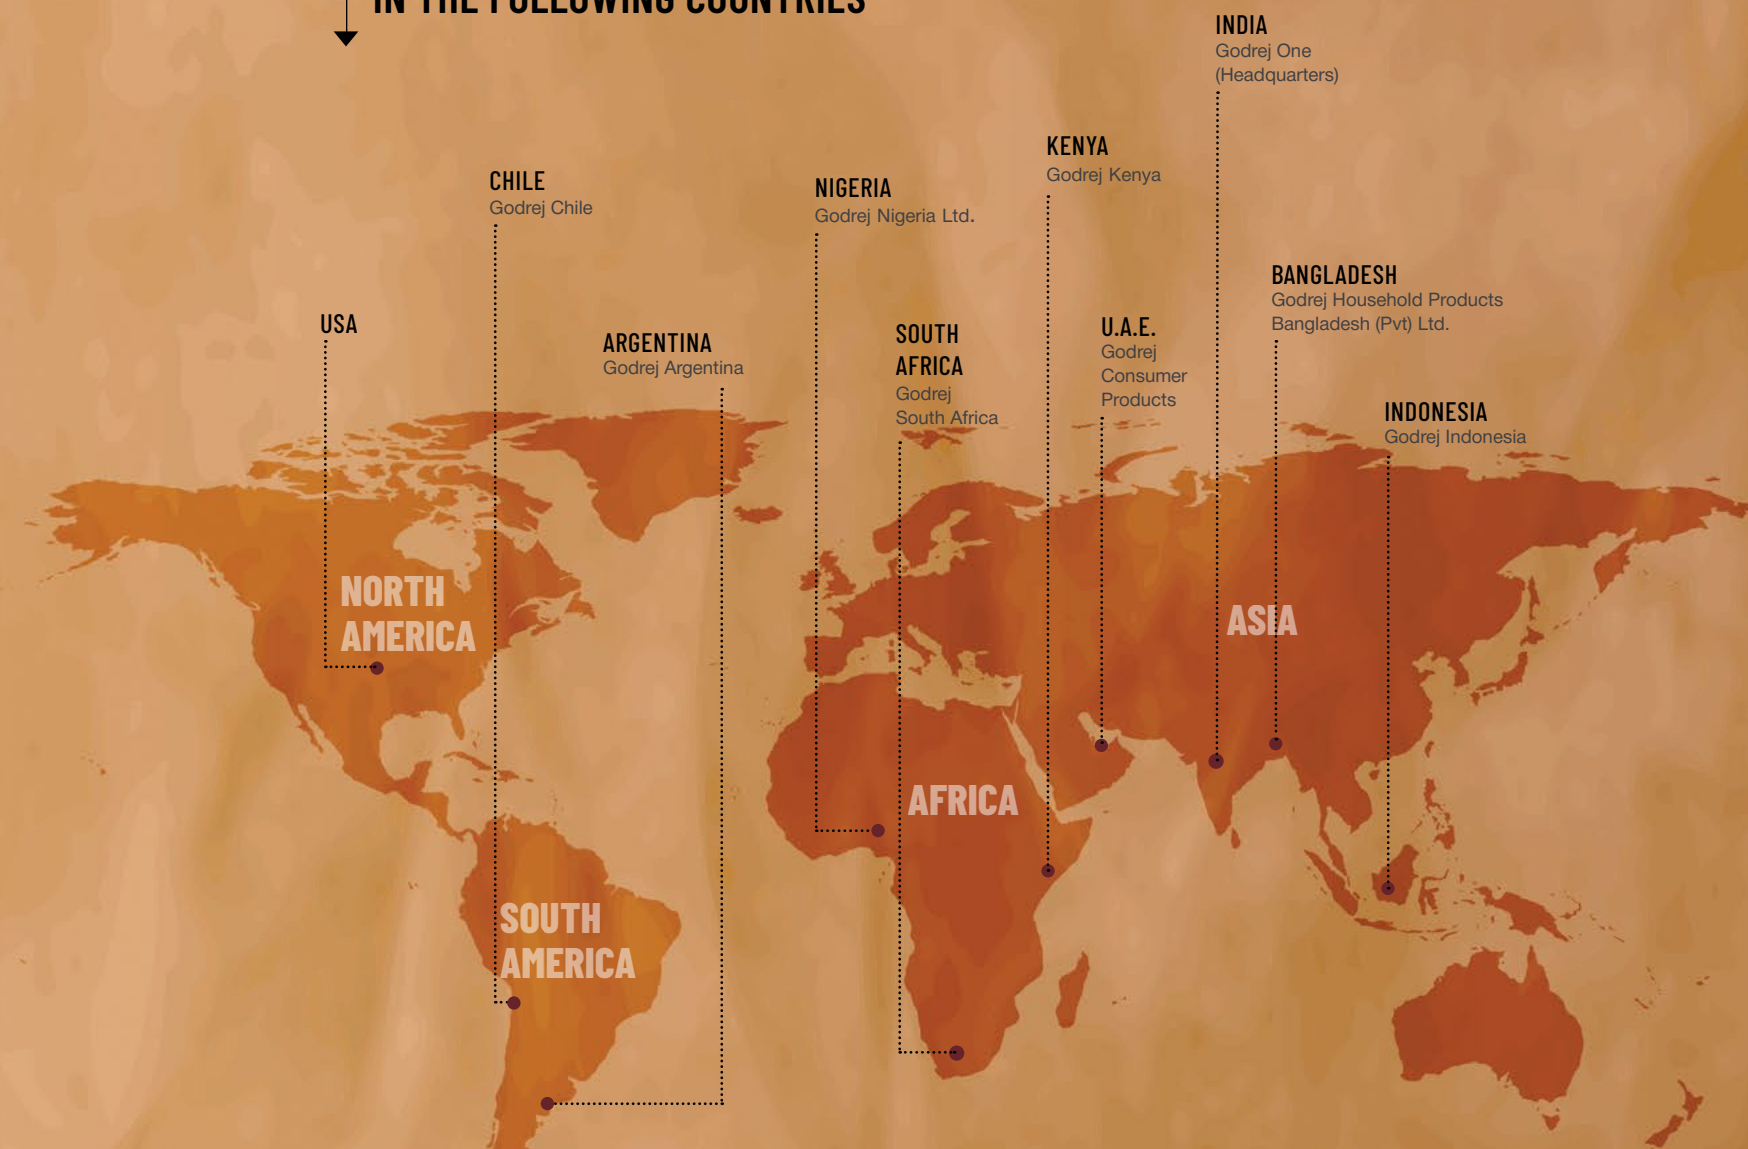

The Godrej Group was established in 1897 out of a desire to demonstrate economic self-sufficiency and excellence within India in the pre-independence decades, the Godrej Group traces its origins to India's Independence and Swadeshi movement. From safes that withstood fires better than products from international competitors, to one of the world's first soaps from vegetable oil, and the ballot boxes for independent India's first general election; the group has a proud tradition of making meaningful products and building businesses

that serve the country's interests. Approximately 23% of the promoter stake in Godrej Group is owned by philanthropic trusts that work on environmental, educational and health care issues in India. The Group also brings together a passion and purpose to make a difference through its Good and Green strategy of shared values to create a more employable Indian workforce, build a greener India, and innovative for 'Good' and 'Green' products.

The Godrej Group comprises a varied business portfolio that includes real estate development,

fast-moving consumer goods, advanced engineering, home appliances, lending and financial services, furniture, security, and agri-care. While a large number of the businesses are privately held, the combined market cap of its publicly listed entities is in excess of USD 15 billion. With a revenue of USD 6 billion and an estimated 1.1 billion consumers across the world that use one or another Godrej product every day, the Godrej Group is amongst India's most diversified and trusted conglomerates.

AN EQUITABLE & GREENER WORLD

Godrej's Good and Green Strategy drives its sustainability journey, guiding the value it creates for stakeholders while addressing environmental, social, and governance concerns relevant to the Group's operations. The Group continuously increases its commitment to environmental sustainability by voluntarily adhering to standards such as the Confederation of Indian Industries (CII) Code for Ecological Sustainable Business and practicing the European Foundation for Quality Management (EFQM) Business Excellence Model. Additionally, the Group actively engages

in initiatives like, India Business Biodiversity Initiative, green building certifications and GreenCo Ratings, and report sustainability performance across all our businesses using the Global Reporting Initiative framework.

Incorporating mangrove conservation into these sustainability efforts marked a transition in the organization's approach from philanthropy to business practice. Godrej Group, the custodian of a large part of Mumbai's mangrove forests, commits to conservation with a systemic approach.

Godrej safeguards, preserves, and manages the largest privately maintained mangrove forest area in Mumbai, which is three times the size of Central Park in New York.

ONE OF INDIA'S MOST TRUSTED DEVELOPERS

Godrej Properties brings the philosophy of innovation, sustainability, and excellence from the Godrej Group to the real estate sector. Each project by Godrej Properties integrates a 127-year heritage of trust and quality with a dedication to cutting-edge design and technology. Since 1985, Godrej Properties Limited (GPL) has been a leading force in the Indian real estate industry.

In recent years, Godrej Properties has garnered over 400 awards, including recognition for its environmental and social initiatives at the Euromoney's Global Real Estate Awards 2023, India Workplace Equality Index 2023, ET Real Estate Awards, and being named 'The Most Trusted Real Estate Brand' in 2019 by the Brand Trust Report. Additionally, it received accolades such as 'Equality and Diversity Champion' at the 2019 APREA Property Leaders Awards, 'The Economic Times Best Real Estate Brand 2018', and 'Builder of the Year' at the CNBC Awaaz Real Estate Awards 2018.

Headquartered in Mumbai, Godrej Properties is present in 11 cities in the country and has a workforce of 3,015 employees.

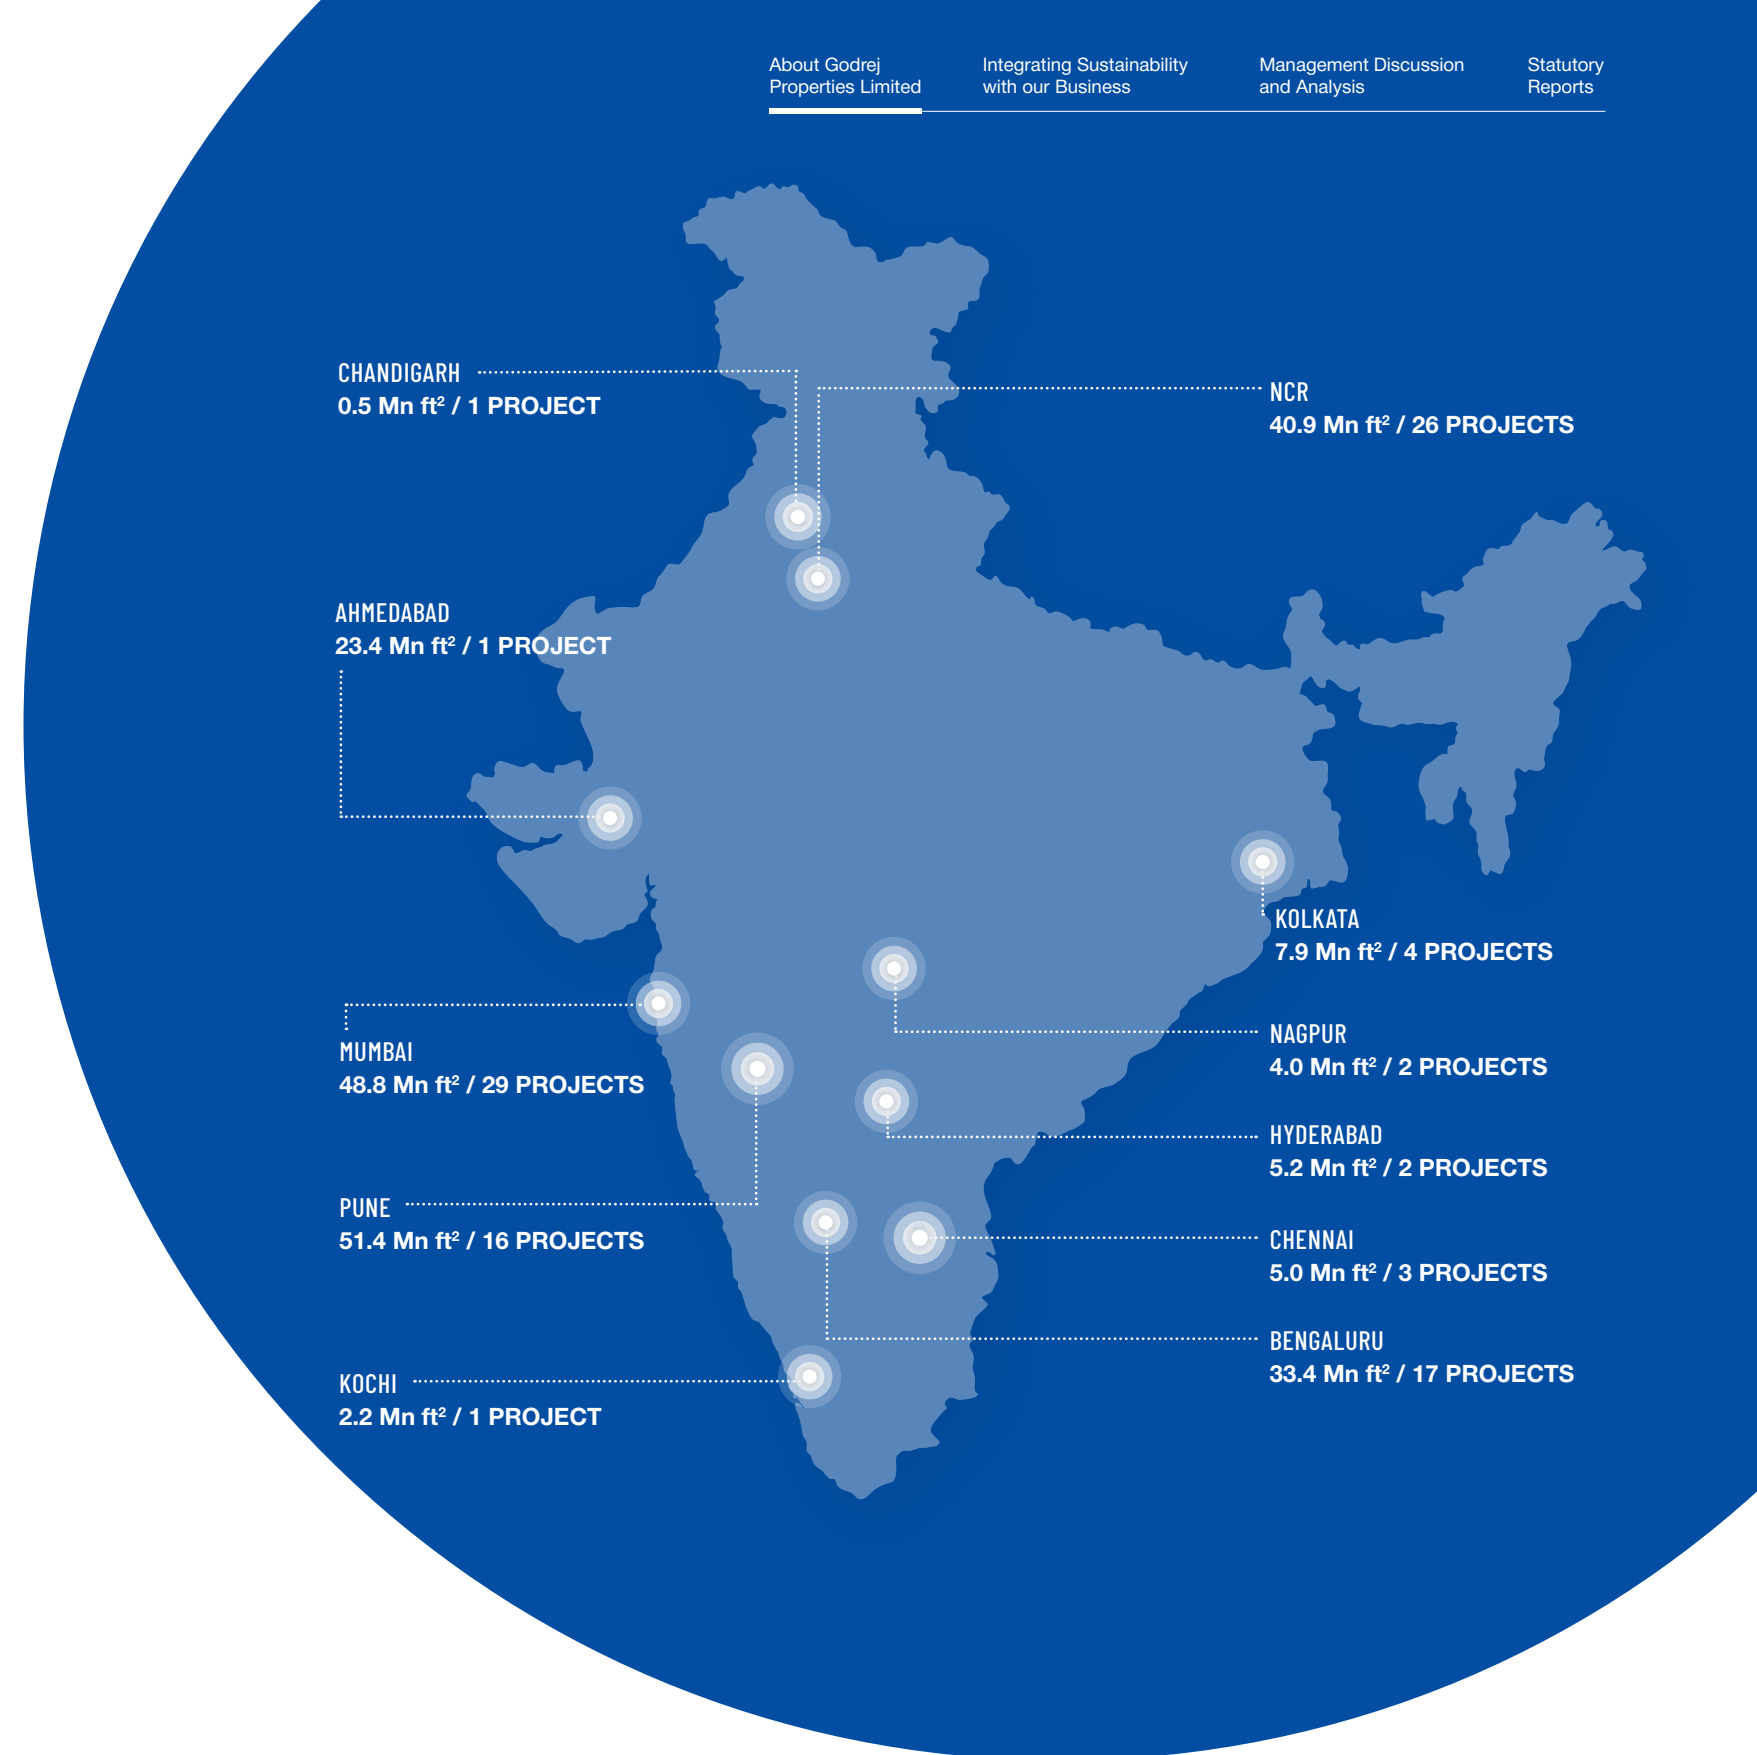

LISTING

In 2010, Godrej Properties became a publicly listed company following a successful IPO mobilising USD 100 Million. GPL is listed on both the National Stock Exchange of India Limited and the Bombay Stock Exchange Limited, with a market capitalization of ₹63,949.54 Cr. as of March 31, 2024. We are among the select developers in India, holding a substantial presence in all major real estate markets across the country.

OUR PRESENCE

As of March 31, 2024, the company had 102 ongoing and forthcoming projects with a combined developable area of 223 million square feet. Our expansion efforts include entering new geographical areas while maintaining our focus on four primary regions: Mumbai Metropolitan Region, National Capital Region, West-East, and South.

OUR STRATEGY

At GPL, we remain committed to our strategy of aiming for high return on equity (ROE). We are the top real estate developer in India by booking value and are present in all key real estate markets such as Mumbai, Bengaluru, Delhi/NCR, and Pune. To achieve disruptive growth, fundamental changes in mindset, processes, belief systems, and business methods are crucial.

We are confident in our ability to leverage the maximum value through our focus on five strategic pillars.

QUALITY FOCUS AND CUSTOMER FIRST

Ensuring a superior product quality has been the most fundamental priorities for the organization. The aim is to constantly build quality obsession throughout the organization to deliver the best-in-class products for our customers. We have adopted an integrated and structured approach and institutionalized across all projects in FY24.

INDIVIDUAL CONTRIBUTION TO A STRONG ORGANIZATIONAL CULTURE

Transformation requires collaboration and an open mindset from each team member. Despite diverse zones and regions, we prioritize an organization-first approach. We have adopted multiple transformative initiatives to boost in-house learning and capability, and to create industry-leading talent pool.

DISRUPTIVE GROWTH

We aim to deliver disruptive growth through strong business development, sales, and execution. Our growth strategy has a disproportionate focus on continuous evaluation of market mix, robust land acquisition framework, accelerated pre-launch process, strengthening product proposition, widening distribution channel and establishing an execution capability in commensurate to upcoming scale.

PROFITABLE GROWTH THROUGH ASSET MANAGEMENT

We emphasize on prudent cost and cash flow management translating into stronger profit delivery and capital efficiency. We have institutionalized a bottom-up strategic approach for continuous budget risk monitoring and on-time risk mitigation to protect any value erosion from underwriting stage and drive profit expansion.

OPERATIONAL EXCELLENCE

We focus on innovation-led operational excellence to accelerate execution at scale, with best of quality and delivery within stipulated time and cost. This approach includes investing in newer construction methods, technology, procurement strategies, and execution models to augment healthy Return on Capital Employed (ROCE) and Return on Equity (ROE).

OUR PORTFOLIO

| Godrej Royale Woods, Bengaluru

RESIDENTIAL DEVELOPMENTS

We design homes that can be held in trust for future generations. Some of the key themes represented in our approach include creating a sense of belonging, brighter living experience, technological innovation, thoughtful amenities, safety, security, and sustainability.

FY2024 SNAPSHOT

PLOTTED DEVELOPMENTS

Our most recent development format provides home buyers with the opportunity to own land and build homes while being connected to state-of-the-art infrastructure. Our plotted developments are planned and delivered to detailed specifications including a well-planned street network with provision for service lines (water, sewage, electricity, broadband) sewage treatment plant, rainwater harvesting, etc.

MIXED USE & TOWNSHIP DEVELOPMENTS

Self-sufficient integrated developments are the future of Indian real estate as prospective homeowners increasingly prioritize and seek proximity to essentials within walking radius. Our focus has been to create a sense of place and a robust framework for multiple asset types including residential, commercial, retail, and civic buildings. Our developments offer different users' distinct opportunities for social and cultural exchange in a people-centric and innovation-driven sustainable environment.

SUSTAINABILITY IN ACTION

At Godrej Properties, our steadfast dedication to enhancing ESG practices and performance, positions us as a leading responsible and sustainable real estate developer, globally.

SCIENCE-BASED TARGETS

Our commitment to environmental stewardship has been strengthened by the approval of our near-term targets by the Science Based Targets initiative (SBTi). This endorsement highlights that our objectives are not only ambitious but also based on scientific evidence, ensuring a significant contribution to global efforts to align with climate actions.

We have set a clear and impactful target in our journey towards achieving net-zero emissions. By FY 2035, our goal is to reduce scope 1 and 2 Greenhouse Gases (GHG) emissions by 72.6% per square meter of area compared to FY 2021. This translates to a significant absolute reduction of 58.8% in our GHG emissions, establishing a new standard for sustainability in the real estate sector. Our focus goes beyond emission reduction; we aim to transform our operations to be more energy-efficient, resilient, and in line with global climate objectives.

We have committed to ensure that 88.5% of our suppliers by emissions covering those involved in purchased goods and services, set science-based targets by FY 2026. This short-term target is crucial as it establishes the foundation for a sustainable supply chain that aligns with our aspirations for net-zero emissions.

DOW JONES SUSTAINABILITY INDICES

We have achieved a significant milestone aligned with the esteemed Dow Jones Sustainability Indices (DJSI). The DJSI is a widely recognized benchmark that evaluates companies based on economic, environmental, and social criteria, including corporate governance, environmental management, climate strategy, labour practices, human rights, and community engagement. We are included in the leadership index of the emerging markets category. This positions us as leaders in global sustainability, with only three companies in the real estate sector worldwide achieving this milestone.

SUSTAINABILITY YEARBOOK MEMBER

Being listed in the Sustainability Yearbook 2024, among 759 companies out of the 9,400 evaluated, highlights our continued dedication and substantial influence in advancing across multiple facets in sustainability.

GLOBAL REAL ESTATE SUSTAINABILITY BENCHMARK

Since 2013, we've been reporting our ESG performance to GRESB. We achieved a 5-star rating in the 2023 GRESB Benchmark Development.

GRESB, an industry-led organization, transparently provides actionable ESG data to financial markets. This aligns with the global sustainability goal of achieving Net-Zero by 2050. GRESB independently collects, validates, scores, and benchmarks ESG data, offering business intelligence, engagement tools, and regulatory reporting solutions for investors, asset managers, and the industry at large. Founded in 2009, GRESB now has a membership of 170 institutional investors and over 2,200 fund managers, companies, and asset operators.

At GPL, GRESB's peer benchmarking has effectively helped us assess and address gaps in our ESG practices.

CDP

We regularly submit reports to the CDP and have upheld a 'B' rating since our last reporting cycle. GPL was recognised as a Supplier Engagement Leader with 'A' rating in 2023 and is among the top 19% assessed for supplier engagement on climate change, based on 2023 CDP disclosure. The CDP, an independent nonprofit, maintains the world's largest database on corporate climate impacts. Its goal is to normalize environmental reporting and risk management in business, promoting disclosure, insight, and action towards a sustainable economy.

FTSE RUSSELL

We are listed in the FTSE India 30/18 Capped Index, which tracks the performance of large and mid-capitalization stocks in India. This index assigns weights to securities based on their free float-adjusted market capitalization and undergoes semi-annual reviews. GPL has been recognized as a Constituent in this index, with an Index Weight of 0.18.

UNITED NATIONS GLOBAL COMPACT

This is our **Communication on Progress** in implementing the principles of the **United Nations Global Compact** and supporting broader UN goals.

We welcome feedback on its contents.

NAVIGATING TOWARDS A SUSTAINABLE TOMORROW

I hope this message finds you and your loved ones well. FY 24 has been a significant year for Godrej Properties, with remarkable success across different areas. Our strong performance shows our commitment to delivering value while prioritizing environmental sustainability, social responsibility, and good governance. These values have consistently guided us on our journey and continue to define our approach to business.

We are proud to announce that Godrej Properties recorded its highest-ever annual sales, cash collections, earnings and project deliveries in FY24. We concluded the year with sales bookings of ₹22,527 Cr., marking an 84% increase compared to the previous year. In fact, the fourth quarter alone achieved a booking value of ₹9,519 Cr. which was more than the booking value we achieved in the entire FY22. FY24 and Q4FY24 were both the best ever annual and quarterly sales achieved respectively by any listed real estate developer in India. This strong outcome was underpinned by substantial volume growth of 31%, translating to 20 million ft². of area sold through the sale of over 14,310 homes as well as a change in the project mix with more premium projects being launched during the year. Your company received an extremely strong customer response to some of our new launches during the year. Godrej Zenith in NCR achieved a booking value of ₹3,008 Cr. and Godrej Reserve in MMR achieved a booking value of ₹2,693 Cr. Both of these projects were the best ever launches for GPL in the respective markets. In FY24, 4 projects including Godrej Aristocrat with a booking value of ₹2,877 Cr. and Godrej Tropical Isle with a booking value of ₹2,098 Cr. crossed ₹2,000 Cr. in value of sales achieved

at launch. GPL's bookings in NCR in FY24 grew 180% to ₹10,016 Cr. and GPL's bookings in MMR grew 114% to over ₹6,545 Cr. The strong sales performance led to record collections of ₹11,436 Cr., a 27% growth from our previous best ever year.

Our reported financial results were strong, with total income surging by 43% to reach ₹4,334 Cr., and net profit increasing by 27% to ₹725 Cr. for FY 24. This was backed by strong project completions of over 12.5 million ft² for FY 24. We expect this strong growth momentum to continue in coming years given our FY 2024 sales booking performance, which will be recognised in the P&L in next 3-4 years as the projects which were sold during the year get completed and delivered to customers. The booking value achieved in FY24 is expected to yield over ₹6,000 Cr. EBIT and ₹3,300 Cr. net profit in due course. Additionally, our pursuit of sustained growth was evident through the addition of 10 new projects, with an estimated revenue potential of approximately ~₹21,225 Cr.

We have a strong launch pipeline that will help us build upon the growth momentum achieved in FY24. We believe that the residential real estate sector in India will continue to grow rapidly in the coming years, providing opportunities for leading developers to participate in sectoral growth while also gaining market share. These projects will play a crucial role in ensuring that we meet our goal of growing our sales at 20% per year while also providing us with the opportunity to expand our margin in line with our objective of achieving an ROE of 20%. We expect to achieve the 20%+ ROE goal by FY27. An important focus area for the upcoming year will

“ Our strategic excellence, driven by customer-centricity and team collaboration, paves the way for sustained success in the real estate sector through disruptive growth and operational excellence.

be to exceed ₹27,000 Cr. in booking value while continuing to deliver another record year for cash collections and project deliveries.

Customer satisfaction remains paramount to our success. In FY 24, we achieved an encouraging Net Promoter Score (NPS) of 68%, reflecting an improvement from 65% in FY 23. This reinforces our commitment to delivering quality across all our projects. To further enhance our operational standards, we have implemented an Integrated Quality Management Framework aimed at strengthening our processes and governance standards.

Our company understands that the world is currently facing climate change risks and environmental degradation. Therefore, we believe that our responsibility to bring joy to our customers extends beyond providing them high-quality homes. We are committed to running a sustainable business and will continue to strengthen our ESG performance

across our operations to make a positive impact on the environment. Our focus on long-term sustainability is not only good for the planet, but also for our customers' well-being. We are dedicated to addressing climate change through prioritized measures involving mitigation, resilience, transparency, and collaboration. Our goal is to systematically address climate-related risks and leverage emerging opportunities for the real estate sector.

Godrej Properties Limited has received approval for our near-term targets from the Science-Based Targets initiative (SBTi). Our commitments include reducing scope 1 and 2 GHG emissions by 72.6% per square meter area by FY2035 (compared to FY2021) and ensuring that 88.5% of our suppliers have science-based targets by FY2026. Moreover, we have reinforced our environmental compliance efforts by implementing the ISO 14001:2015 Environmental Management System (EMS) across all our project locations. We rank among the top 15% in the REM Sector on the

Dow Jones Sustainability Indices (DJSI) and have earned recognition as a member of the Sustainability Yearbook.

GPL has successfully utilized 100% of its CSR funds in FY24. Through our Building and Other Construction worker registration programs, 84,743 construction workers benefitted and ₹235 Cr. of Government funds were unlocked. By diverting over 43,000 tonnes of waste from landfill in FY 24 through our solid waste management projects and by recycling 98% of the construction waste at source, GPL is a Net Zero Waste organisation. With our interventions, we've already transformed 29 villages by managing 4,929 hectares of land to avoid stubble burning, thereby averting 3,566 tonnes of CO2 emissions, and effectively managing 24,648 tonnes of crop residue.

We are committed to the health and safety of our employees and all stakeholders. GPL's Safety Management System is based on a proactive PDCA (plan-do-check-act) cycle with leadership commitment, consultation, and participation

at all the levels and functions to achieve our 'Score Zero' aspiration. All our projects are in compliance with standard safety requirements and are certified with ISO 45001:2018 for Occupational Health and Safety Management System (OH&SMS).

I am grateful to the team at Godrej Properties for their exceptional resilience, commitment, and ambition. We would like to express our gratitude to our customers, joint venture partners, and business associates for their continued support. Finally, we extend our thanks to our shareholders for their continued confidence in Godrej Properties.

Best wishes,

Pirojsha Godrej,
Executive Chairperson,
Godrej Properties Limited.

EQUITY, TRANSPARENCY AND RESPONSIBILITY

We advocate for fair and transparent business practices at GPL. Our corporate governance framework ensures robust engagement with all stakeholders, facilitating our adaptation to evolving circumstances. This framework oversees business strategies, ensuring fiscal responsibility, ethical conduct, and fairness to regulators, employees, customers, vendors, investors, and society at large.

Eight committees, led by board members, oversee key areas of focus, guiding corporate strategy, implementing, and monitoring its effectiveness, and reviewing corporate performance, risk, and other policies. The Board acknowledges the significance of diversity for long-term success and comprises seven Directors with diverse

geographic backgrounds, ages, genders, races, ethnicities, cultural backgrounds, skills, and industry experiences, thereby maintaining a competitive edge.

Throughout the financial year, the Board convened four times, following a structured agenda. We aim for a 50% share of independent directors on the board and enforce a 50% attendance requirement for all board members.

SUSTAINABILITY INTEGRATION IN BUSINESS OPERATIONS

At GPL, our dedication lies in generating value for both our internal and external stakeholders. This commitment is exemplified through our 6P framework, which intricately intertwines sustainability into our operational processes. We have synchronized these 6Ps with the six capitals within the framework, focusing on financial, manufactured, human, natural, intellectual, and social & relationship capitals.

Our existing 6P framework, which encompasses Product, Partnerships, People, Process, Profit, and Planet, seamlessly aligns with these six capitals. This integration not only caters to the needs of our stakeholders but also correlates with our key material issues, thus aiding in risk mitigation and capitalizing on emerging opportunities.

The 6Ps serve as dynamic levers that can be skilfully utilised to foster value-added interconnections and forge mutually beneficial propositions, resulting in win-win outcomes.

We create spaces that enable everyday joys; one community, one family, and one home at a time.

PROFIT

Create economic value through a sustainable business model, facilitating a mutually beneficial proposition for responsible profit generation throughout our value chains.

PLANET

Minimize our environmental footprint and dependency on limited resources. Focus on maintaining water positive status as we scale, expand carbon neutrality aspirations to cover Scope 3 Greenhouse Gases (GHG) emissions and reduce waste to landfill.

PRODUCT

Design and build sustainable products and services throughout our development footprint, with a comprehensive understanding of impacts generated by our products throughout their entire life cycle.

PROCESS

Transform compliance into opportunities by optimizing processes and allocating resources effectively. Implement robust risk assessment and management strategies, particularly to address the challenges posed by climate change.

PEOPLE

Ensure the health, safety, diversity, equity, inclusion, well-being, happiness, knowledge, and care for our employees, customers, workers, and communities.

PARTNERSHIPS

Influence, collaborate, and co-create with partners along the value chain to establish a resilient ecosystem for a sustainable future.

HOW WE CREATE VALUE

At GPL, we believe in an integrated value creation approach across the six capitals. We create value by investing in people to be an employer of choice; focusing on delivering quality products and providing exemplary customer experience; supporting our suppliers and vendors; maintaining a robust balance sheet ensuring cash generation and growth; building strong community relationships to create a positive legacy; and constantly engaging with the Government and municipal bodies to support effective regulation.

Our understanding of the interdependence of the capitals is the core to the creation of shared value throughout our business ecosystem.

ENGAGING WITH OUR STAKEHOLDERS

We identified key challenges that could impact our company's decision-making, operations, and overall performance. To thoroughly assess our primary risks, we adopted a materiality approach, considering qualitative and quantitative factors related to likelihood and impact across various dimensions. Our materiality assessment aligns with integrated reporting's six capitals and complies with the latest Global Reporting Initiative (GRI) 2021 Standards.

STAKEHOLDER ENGAGEMENT PROCESS

Identifying our major issues requires contributions from every business unit and function within the organization. This task is a collective responsibility across the company, emphasizing the importance of both formal and informal engagement with our key stakeholders. We follow established debriefing procedures, create training modules, and organize internal conferences where local managers gather to share operational best practices.

MATERIALITY ASSESSMENT

We align our material themes with the GRI Universal Standards 2021. In FY2024, we streamlined our material topics into seven key themes impacting the economy, environment, and society. Our materiality assessment and stakeholder engagement follow AA1000 principles, focusing on Materiality, Completeness, and Responsiveness.

OUR APPROACH

(as per GRI Universal Standards 2021)

Risk Identification

We identify key sustainability and value creation factors across our ventures, operations, and initiatives. We engage external stakeholders to pinpoint significant issues. We evaluate GPL's financial performance, position, and the impact of climate change and ESG risks. We assess the ESG impact of our operations and their contribution to climate change risks.

Analysing Materials and Prioritizing Identified Concerns

We identify issues, investigate root causes, collaborate with stakeholders, and assess their business impact. We prioritize topics using the Double Materiality Principle, considering how the company affects the economy, society, and environment (Inside Out), and how external factors affect the company (Outside In).

Implementation and Validation of Management

The Board and Senior Management assess identified issues for effectiveness and adequacy. They approve materiality assessment outcomes, identify required adjustments, and develop an action plan. This process integrates into the Company's Enterprise Risk Management (ERM).

Reporting and Monitoring

We regularly assess risk alignment with our tolerance levels and address them as needed in our ongoing risk management cycle. We conduct a biennial review of materiality results with data assurance from a designated third-party provider, as detailed in the report.

MATERIAL THEMES AND TOPICS

The table below links our materiality which is categorized under 7 broad themes with 19 topics featuring across the following themes.

	ENVIRONMENT MANAGEMENT Energy Efficiency, GHG Management, Waste Management, Water Management, Environment Management & Compliance, Air Quality Management
	SOCIAL RESPONSIBILITY Living Wage, Occupational Health and Safety Worker/Labor Practices, Employee Engagement and Development, Diversity, Inclusion & Equal Opportunity
	STAKEHOLDER ENGAGEMENT Community-Centric Sustainability, Customer Engagement
	GOVERNANCE ETHICS AND COMPLIANCE Corporate Governance, Data Privacy & Security
	INNOVATION AND TECHNOLOGY Technology and Innovation
	SUPPLY CHAIN AND PRODUCT QUALITY Sustainable Supply Chain, Product & Service Quality
	RISK MANAGEMENT AND RESILIENCE Resilience & Risk Management

19 MATERIAL TOPICS

TOP MATERIAL TOPICS

S.NO.	MATERIAL TOPIC	DESCRIPTION	PAGE REFERENCES
1	CUSTOMER ENGAGEMENT	At GPL, we shape perceptions, adapt, and promote growth to enhance our market position. We prioritize positive interactions, recognizing their essential role in our success. Effective customer sustainability management yields significant benefits, such as appreciating asset value, increasing satisfaction, reducing costs, and ensuring regulatory compliance. Our strategies involve aligning financial interests, measuring resources, and mandating sustainability requirements. We are dedicated to creating spaces that foster everyday joys, enriching one community, one family, and one home at a time.	Pages 170-177
2	DIVERSITY, INCLUSION & EQUAL OPPORTUNITY	At GPL, we broaden our talent pools and increase our market relevance by cultivating an inclusive workplace. This approach establishes a positive corporate reputation, elevates employee engagement, and ensures legal compliance. Our diverse teams drive innovation, aligning with our social responsibility and contributing to long-term success in the competitive real estate industry. Currently, we have a 30.84% diversity ratio, reflecting our commitment to inclusivity. We actively recruit LGBTQ+ individuals and Persons with Disabilities (PwD), and we maintain gender-neutral policies and processes across all operational areas and sites, embracing our "All Are Welcome" theme.	Pages 148-157
3	OCCUPATIONAL HEALTH & SAFETY	At GPL, we prioritize Occupational Health and Safety (OHS), tailoring it specifically for the real estate sector to emphasize workplace well-being and strict adherence to safety standards. Our commitment to employees' physical and mental health is recognized in legal frameworks and reflects our dedication to safety practices and risk mitigation. We have established comprehensive health and safety policies and adhere to IS 3768, 1983 standards for data compilation, guiding us in computing frequency and severity rates for industrial injuries and classifying industrial accidents. Additionally, our Health and Safety Management System (HSMS) ensures systematic implementation of our safety protocols. Our primary focus is to support our employees in managing both personal and work-related concerns, empowering them to navigate sensitive situations effectively, both within and outside the workplace.	Pages 178-185
4	CORPORATE GOVERNANCE	At GPL, we ensure transparency, legal compliance, and stakeholder trust through effective corporate governance. This approach attracts capital and facilitates project execution. By integrating sustainability and ethical practices, we lay the foundation for long-term success. Our core elements include responsible remuneration policies, anti-corruption measures, transparent governance, and grievance redressal mechanisms. These elements foster an ethical culture and uphold our reputation. Our proactive approach to compliance and risk mitigation, grounded in integrity, is vital for sustained success in the competitive real estate industry. With eight specialized committees and professional expertise, our Board operates with integrity and transparency.	Pages 32-37

5	GHG MANAGEMENT	GHG management at GPL encompasses tracking the carbon footprint across construction, operation, and maintenance phases. Our focus on emission reduction is integral to meeting sustainability targets, ensuring regulatory compliance, and upholding environmental stewardship. Recognizing the significant impact of 'Purchased Goods and Services' on emissions, we have prioritized collaboration with key suppliers to address emissions potential. Our commitment to reducing emissions aligns with climate science standards, as evidenced by our participation in SBTi. Implementation of strategies like energy-efficient designs and renewable energy adoption further strengthens our environmental responsibility, bolsters our reputation, and appeals to environmentally conscious stakeholders.	Pages 84-93
6	PRODUCT & SERVICE QUALITY	At GPL, we prioritize quality, service, and construction excellence as fundamental pillars of success in the real estate industry. Our commitment to meeting buyer expectations, adhering to codes, and providing strong warranties is aimed at ensuring customer satisfaction and building a positive reputation. We believe that offering high-quality properties sets us apart and fosters loyalty among our clients, leading to positive word-of-mouth referrals. Stringent quality control measures are essential to avoid any financial setbacks or legal issues associated with subpar construction practices. Our focus extends to key factors such as location, facilities, construction quality, building durability, business potential, market demand, and local feedback. By continuously enhancing our offerings, we build trust among our customers and maintain a strong brand presence. Effective communication is another aspect we prioritize. We ensure timely updates, announcements, and emergency alerts to keep our residents and customers well-informed. Our community management application plays a crucial role in enhancing residents' quality of life and fostering a safe and efficiently run community.	Pages 114-127
7	WASTE MANAGEMENT	We prioritize recycling and efficient waste reduction to minimize our environmental impact, demonstrating our commitment to sustainability. Our strict compliance with environmental laws and focus on reducing our ecological footprint not only enhance cost-effectiveness but also improve stakeholder perceptions, aligning us with ethical standards and environmental responsibility. Our proactive measures extend to strict adherence to waste management regulations, supported by a dedicated policy and strategy outlined in our waste management plan. This plan encompasses comprehensive strategies for waste reduction, segregation, collection, recycling, and reuse, along with efficient waste diversion and disposal methods. Moreover, we emphasize compliance, provide training, and ensure continuous monitoring and reporting to gauge our progress in waste management efforts.	Pages 106-109

Within and Outside GPL	Positive outcomes: Enhanced employee satisfaction, improved reputation Negative outcomes: Increased labor costs	Employees, Suppliers, Communities	Policy on modern Slavery Policy on child labour/ forced or compulsory labour Incidents reported on child labour	GPL conducts regular reviews, overseen by the Management Committee, to ensure that its practices align with the principles set forth in the International Bill of Human Rights, the International Labour Organization's Declaration on Fundamental Principles and Rights at Work, as well as with relevant local laws that pertain to our operations When faced with a suspected instance of child labour, we emphasize sensitivity rather than strict enforcement. Our focus is to establish a friendly interaction with the child, ensuring their comfort and well-being 0

OUR MATERIAL ISSUES AND METRICS FOR ENTERPRISE VALUE CREATION

MATERIAL ISSUE	GHG MANAGEMENT	DIVERSITY, INCLUSION & EQUAL OPPORTUNITY	OCCUPATIONAL HEALTH AND SAFETY
RISK / OPPORTUNITY	Risk	Opportunity	Risk
BUSINESS CASE	Effective GHG management is crucial for us to mitigate regulatory risks, control operational costs, and maintain a positive reputation. With stricter environmental regulations and rising energy costs, we must proactively manage our emissions to avoid penalties and meet the growing demand for sustainable real estate solutions.	Embracing Diversity, Inclusion & Equal Opportunity (DIEO) isn't just a moral obligation but also a vital factor in our business success. In the real estate sector, where innovation, creativity, and collaboration are paramount, cultivating a diverse and inclusive culture drives better performance, smarter decisions, and higher employee involvement. Our dedication to DIEO gives us a competitive edge, drawing top talent, boosting customer satisfaction, and reducing risks linked to discrimination and exclusion.	Effectively managing Occupational Health and Safety (OHS) risks is crucial for us at GPL to maintain cost efficiency and operational excellence. Addressing workplace accidents, health hazards, compliance risks, and reputation damage directly impacts our bottom line by reducing direct and indirect costs, legal expenses, and reputation-related losses.
BUSINESS IMPACT (COST/ REVENUE/ RISK)	Risk	Revenue	Cost
BUSINESS STRATEGIES	We comply with GHG regulations, invest in energy-efficient technologies, and implement robust reporting. We enhance efficiency by adopting energy-efficient designs, integrating renewable energy, and using smart building technologies. We boost our reputation with transparent sustainability reporting, green certifications, and community outreach. Notably, our Carmichael Road project and Godrej One have achieved Net Zero Energy status.	At the Maan Hinje Model Site, we ensure our workforce mirrors the community by hiring diverse cohorts, aiming for a mix of 50% cis-men, 40% cis-women, and 10% LGBT + PwD employees. Our "Everyone is Welcome Here" theme promotes inclusivity, creating a safe and welcoming environment for all. At Godrej Properties, diversity and inclusion are vital for our success, and the Model Site reflects our commitment to these values.	We mitigate OHS risks and ensure a safe, productive, and financially sustainable work environment through proactive measures, compliance efforts, safety investments, and incident response planning. Our GPL Safety Manual clearly outlines roles and responsibilities for all stakeholders, ensuring strict adherence to safety protocols during project execution. We empower workers with the right to refuse unsafe work, prioritizing safety to prevent accidents and injuries.
TARGET/ METRIC	We aim to reduce scope 1 and 2 GHG emissions by 72.6% per square meter compared to FY 2021, achieving a 58.8% absolute reduction. This will set a new sustainability standard in the real estate sector. By FY 2026, 88.5% of our suppliers, especially those involved in purchased goods and services, will set science-based targets, laying the groundwork for a sustainable supply chain aligned with our net-zero aspirations.	We aim to have 35% representation across all cohorts of Cis-Women, LGBTQIA+, PwD employees by the end of FY2025.	<ol style="list-style-type: none">1. Digitization of GPL Safety Management System to make paperless system (except legal related documents)2. Competency Building for Operations teams through training / workshops / engagement sessions.3. Online tracking of compliance of Horizontal Deployment process for entire life cycle of the project4. To identify parameters for selection of safety champion (safety professional) & Safety ambassador (Line management)5. To further strengthen GPL Audit Score Process by modifying Element III Scoring criteria to reflect ground level implementation at GPL Projects6. To ensure the involvement of key stakeholders in monitoring and implementation of Safety Management System at GPL.7. To deploy competent contractors/ vendors to ensure compliance of GPL Safety Management system during project execution.8. To ensure 100% Legal compliance at all GPL Projects

MATERIAL ISSUE	GHG MANAGEMENT	DIVERSITY, INCLUSION & EQUAL OPPORTUNITY	OCCUPATIONAL HEALTH AND SAFETY
TARGET YEAR	2026, 2035	2025	2024
PROGRESS	We have reduced our Scope 3 emissions by 19%	We have achieved a gender diversity of 30.84% in FY 2023-24.	Our total recordable work-related injuries decreased from 4 in FY2023 to 1 in FY2024.
EXECUTIVE COMPENSATION	We commit to enhancing ESG performance by integrating indicators into annual goals, with 16% of employee performance and compensation tied to sustainability targets within functions. Executive remuneration aligns with key material issue targets. Zonal CEOs oversee environment, social, and governance indicators and collaborate on plans to meet targets.		

OUR MATERIAL ISSUES AND METRICS FOR EXTERNAL STAKEHOLDERS

COVERAGE	>50% of business activity	
EXTERNAL STAKEHOLDERS	Environment, Society, Consumers/End-Users, External Employees (Suppliers)	Society, External Employees (Suppliers, Contractors, Consumers/End-Users, Environment)
TOPIC RELEVANCE ON EXTERNAL STAKEHOLDERS	Our water management efforts conserve resources, reduce pollution, improve public health, and empower communities.	Our sustainable supply chain practices support societal well-being, preserve the environment, and strengthen supplier relationships. By mitigating risks, driving innovation, and promoting efficiency, we contribute positively to society while fostering responsible business conduct throughout our supply chain.
OUTPUT METRICS	Water positivity.	By FY 2026, we aim to ensure that 88.5% of our suppliers, especially those in purchased goods and services, establish science-based targets as part of our commitment.
IMPACT VALUATION	<p>The UN's FY2023 theme, "Be the Change," highlights the urgent global water and sanitation crisis. India leads in water scarcity, with nearly 120 million households lacking clean water. Smart water management in housing projects under the Smart Cities Mission is crucial.</p> <p>At GPL, we pioneer innovative water practices worldwide. We believe in a united approach with policymakers, corporations like us, and individuals driving change. We've upgraded water management with advanced facilities and smart meters.</p> <p>Aligned with our commitment, we launched an integrated watershed management program in Maharashtra's Beed district.</p>	We're actively conducting workshops to educate and engage our suppliers in setting science-based targets (SBTi), emphasizing sustainability goals. Moreover, we regularly assess suppliers to ensure they align with our sustainability objectives. Additionally, we've implemented policies for a robust Code of Conduct and ethical procurement practices, enhancing ethical and sustainable sourcing throughout our supply chain.
IMPACT METRIC	We positively impact the environment by conserving water through smart management and sustainable practices. These efforts also reduce our energy consumption and carbon emissions, contributing to environmental sustainability. Additionally, our CSR initiatives in three villages enhance community well-being and set a leadership example in environmental stewardship, inspiring broader adoption of sustainable practices in society.	Our initiatives, including workshops and assessments for suppliers to align with sustainability goals, positively impact both suppliers and society. These efforts encourage sustainable practices among suppliers, fostering innovation and efficiency. Implementing robust policies for ethical sourcing enhances ethical practices throughout our supply chain, promoting fair labour and environmental protection while setting a positive example for other industries.

OUR STRATEGIC RISK MANAGEMENT

We understand that risks are potential events or situations that could harm GPL's operations, finances, reputation, or stakeholders. At GPL, we strategically manage risks by assessing various risk categories like external business factors, operational complexities, finances, and sustainability concerns. This helps us foresee challenges and create effective strategies for risk control. Our proactive approach not only reduces potential negative impacts but also allows us to seize opportunities from understanding risks better. Major of our potential risks arise from different areas such as:

EXTERNAL ENVIRONMENT RISKS

These stem from economic changes, market shifts, geopolitical issues, or regulatory adjustments outside our control. We prioritize identifying, analysing, and evaluating these risks to understand their impact and manage them effectively.

OPERATIONAL CHALLENGES

These include the day-to-day management of GPL's properties, including maintenance, tenant relations, and property processes. Timely addressing of these risks is critical to maintaining smooth operations.

FINANCIAL VOLATILITY

These pertain to our financial activities and reporting processes, such as liquidity, interest rates, and credit. Active monitoring and management of these risks are vital for ensuring financial stability.

SUSTAINABILITY CONCERNS

These encompass environmental, social, and governance factors influencing our operations and reputation. This includes risks related to environmental impact, social responsibility, employee well-being, and community engagement. Integrating sustainability into risk management practices promotes responsible business conduct.

REBA No. P51800023915

Godrej Avenue Eleven Project Site

At GPL, we conduct an annual risk identification and assessment process to improve our decision-making abilities, strengthen our resilience to market changes, enhance investor trust in our risk management expertise, and maintain compliance with regulatory standards. This approach cultivates a proactive risk management culture, builds stakeholder confidence, and supports our long-term sustainability goals.

OUR RISK GOVERNANCE FRAMEWORK

We have a robust risk governance framework with dedicated operational risk management functions:

- **Operational Risk Ownership (first line):** Our front-line employees and operational roles, such as risk managers and business unit heads, own and manage risks. They assess, evaluate, and monitor risks and the proposed risk treatment plans.
- **Risk Management and Compliance Oversight (second line):** Our Executive Risk Management Committee (ERMC) at the executive level sets control standards and oversees compliance. They review action plans, monitor mitigation progress for Risks That Matter (RTM), and oversee risk identification, assessment, and mitigation strategies.
- **Independent Audit Unit (third line):** Our Audit Committee provides independent assurance on the effectiveness of risk management and compliance processes. They authorize the Risk Management charter and policy and initiate actions for non-performance of required actions.
- Our ERMC oversees efficient risk management execution and policy compliance. We've implemented an enterprise-wide Risk Management Framework in our Charter, identifying and mitigating risks. The Committee meets semi-annually, or more often if urgent. We appointed a Chief Risk Officer who oversees the risk management process.

WE ACTIVELY CULTIVATE AN EFFECTIVE RISK CULTURE ACROSS THE ORGANIZATION THROUGH VARIOUS METHODS AND CHANNELS, INCLUDING:

Awareness

- We provide regular risk management education for all non-executive directors.
- We use multiple channels and formats to raise awareness about key risks, distributing communication products via email and workplace platforms.
- We provide information on cyber risks, data privacy, and compliance with regulations.

Training

- We conduct focused training on risk management principles throughout the organization.
- We organize workshops for key functions, such as general managers, to improve their understanding of risk-related issues.

Drills and Tests

- We conduct periodic crisis management drills to simulate scenarios like fires, sabotage incidents, and falls from height.
- We test business continuity plans, including information security, at least once a year.

Performance Metrics/ Incentives

- We include "risk" as a metric for measuring employee performance and include financial incentives that incorporate risk management metrics.

Stakeholder Communication

- We engage with stakeholders through comprehensive reports to communicate key risks, risk management measures, controls in place, and emerging risks.
- We ensure stakeholders understand our risk landscape and mitigation efforts.

Please refer our Risk Management Policy for further details.

EMERGING RISK	CRTITICAL CHANGE TO EARTH SYSTEM	HUMAN DEVELOPMENT
Category	Environmental	Societal
Description	Human activities are rapidly and significantly warming the planet, leading to rising sea levels, melting polar ice caps, and more frequent and intense extreme weather events. These changes are affecting ecosystems, biodiversity, and human societies worldwide, causing both local and global impacts.	Human development expands people's freedoms, opportunities, and capabilities to lead valued lives, achieve personal well-being, and contribute to societal progress. The main types of human development include physical development (growth and health), cognitive development (learning and mental skills), emotional development (self-awareness and empathy), and social development (relationships and communication skills).
Specification (w.r.t. company)	Implications for real estate companies: <ol style="list-style-type: none"> Physical risks (Rising sea levels, more frequent and intense extreme weather events, and shifting climate patterns): It can pose direct threats to real estate assets, leading to increased costs for maintenance, repairs, and insurance. Regulatory risks (Regulatory policies to adapt to clean fuels etc.): Improve energy efficiency, reduce emissions, and adapt to new building codes and standards restraining finances. Market risks (Changing consumer preferences, increased awareness of sustainability issues): Shift in consumer preference (more environmentally friendly, energy-efficient, and resilient to climate change alternatives). Reputational risks: Real estate companies that fail to address climate change and sustainability issues may face reputational damage, which can affect their ability to attract investors, customers, and talent. 	<ol style="list-style-type: none"> Skilled workforce: Helps in efficient execution of projects and provide high-quality services to customers. Increased demand: People's income levels and living standards raise with human development, leading to a higher demand for quality housing and commercial spaces, thereby benefiting the real estate sector. Sustainable communities: Creating sustainable communities by incorporating essential amenities, green spaces, and social infrastructure, enhances the quality of life and attract potential buyers and tenants. Socially responsible investment: Demonstrates social responsibility and aligns with the growing emphasis on Environmental, Social, and Governance (ESG) factors in investment decisions.
Potential impact	<ul style="list-style-type: none"> Heavy rainfall can lead to flooding, damaging physical assets and disrupting operations, increasing costs for repairs. It induces soil instability, posing safety hazards and decreasing workforce productivity. Property damage, data loss, and construction delays are potential impacts, affecting project timelines and client handover. High temperatures and heatwaves elevate energy costs and workforce wages due to reduced productivity, affecting project expenses. They disrupt ecosystems, potentially lowering property value or increasing operational costs for resilient infrastructure. Water scarcity elevates our water procurement costs, impacting project expenses and sustainability efforts. It raises operational challenges, including health risks and disruptions to water-dependent systems, necessitating costly investments. Prioritizing water conservation is vital for maintaining green certifications and ensuring smooth operations despite limited water availability. 	<ol style="list-style-type: none"> Social responsibility: <ul style="list-style-type: none"> Failing to address social issues can lead to reputational damage and loss of trust among stakeholders. Skill development and technology-driven societies: <ul style="list-style-type: none"> Failing to adapt to technological advancements and changing customer preferences can lead to a loss of market share and reduced profitability. Revenue generation: <ul style="list-style-type: none"> Economic disparities and unaffordable housing prices can limit the customer base and affect revenue stability. Sustainable communities: <ul style="list-style-type: none"> Neglecting sustainability aspects can result in environmental degradation, health issues, and reduced long-term value of properties.

EMERGING RISK	CRTITICAL CHANGE TO EARTH SYSTEM	HUMAN DEVELOPMENT
Mitigation actions	We conducted an assessment of physical risk scenarios using two Shared Socioeconomic Pathways (SSPs): SSP-1 (aligned with RCP-2.6) and SSP-5 (aligned with RCP-8.5). This assessment included site surveys, peer reviews, and stakeholder consultations, followed by a thorough 4-factor analysis considering likelihood, impact, vulnerability, and onset speed. Our approach prioritized material climate risks in vulnerable locations such as Mumbai, Ahmedabad, Bengaluru, and Delhi-NCR, taking into account temperature, precipitation, water scarcity, and climate hazards. We have enhanced resilience planning for our projects to address risks posed by extreme weather events. During the design and planning phases, we now mandate elevated plinth levels to mitigate the risk of water ingress in building basements.	At GPL, we support human development through programs like BOCW registration, which has benefitted 84,743 workers. We provide LTFI training to enhance managerial effectiveness for our people managers. We promote inclusivity by appointing LGBTQIA+ individuals and PwD in management positions. To support a healthy and safe workspace, we offer a late-night cab facility and a Caregiver Policy to assist women. We actively invest in ensuring social protection for our workers.

OUR COMMITMENT TO SUSTAINABLE DEVELOPMENT GOALS

To evaluate how our business processes and activities influence the environment and society, GPL undertakes evaluations of significant matters from a sustainability perspective. The 17 Sustainable Development Goals (SDGs) provide a holistic framework that encompasses the social, environmental, and governance dimensions of sustainability. Utilizing this framework, GPL pinpoints the most urgent challenges and formulates practical responses. Our primary areas of emphasis for tackling these challenges include the following data points:

EMPOWERING OUR WORKFORCE (P. 136)
<p>We are committed to a people-centric HR approach, focusing on diversity, rewards, career growth, and learning.</p> <p>We provide LTFI training to improve managerial effectiveness for our people managers</p>
BUILDING TALENT FOR THE SECTOR (P. 140)
<p>We prioritize developing effective people managers as they are vital for a high-performance culture. Our annual structured learning journey enhances their leadership capabilities and team support.</p> <p>2,344 employees received constructive feedback in FY 2023-24.</p>

OPTIMIZING ENERGY EFFICIENCY IN OUR OPERATIONS (P. 96)
<p>We are committed to sustainable practices, integrating technologies like solar systems, and auto-dimmable lights in parking areas to reduce environmental impact and enhance efficiency across our facilities.</p> <p>65-70% renewable energy, significantly reducing our energy usage, costs, and environmental impact.</p>

PROMOTING SUSTAINABILITY THROUGH INCLUSIVE ECOSYSTEMS (P. 116)

Our built portfolio is certified under IGBC Green Homes and IGBC Green Residential Societies enabling a sustainable lifestyle for our customers including thermal comfort, daylighting among other provisions that align our focus on good health, productivity, and well-being for our customers.

We have received Platinum, Gold and Silver Ratings for our Green Homes, New Buildings and Green Residential Societies.

PROMOTING SUSTAINABILITY THROUGH INCLUSIVE ECOSYSTEMS (P. 116)

All our offices are IGBC Health and Well-being Certified.

Four of our offices at NCR, Bengaluru, Kolkata have been certified under IGBC Health and Well-being

LINKING ESG PERFORMANCE WITH CSR IMPACT (P. 194)

Capacity building on access to social welfare schemes has improved the well-being for our workers.

Access to entitlements and well-being for 200,000 construction workers

EQUITY, TRANSPARENCY AND RESPONSIBILITY (P. 37)

We strive to promote equitable representation of women across our workforce. Our policies and programmes are aligned with industry best practices to facilitate growth and progress of our women workforce.

By FY 2028, we aim for 50% representation of cis-women, LGBTQIA+ individuals, and Persons with Disabilities (PwD) in all positions. We have implemented systems that support this goal, including a late-night cab facility and a Caregiver Policy specifically designed to assist women.

CONSERVING WATER (P. 98)

We promote water conservation by partnering with local communities, minimize groundwater use with efficient fixtures and rainwater harvesting, and reduce irrigation needs using native plants and efficient systems.

Our integrated watershed management program in Maharashtra's Beed district demonstrates our unwavering commitment to maintaining a water-positive stance.

LINKING ESG PERFORMANCE WITH CSR IMPACT (P. 194)

Our partnerships with social action platforms have promoted dignity and equity for industry employed informal workers.

84,743 workers benefited through BOCW registration related programs

BEING DIVERSE AND INCLUSIVE (P. 148)

We strive to continuously further our commitment towards diversity, equity, and inclusion across our workplaces through our policies, measures, and initiatives with measurement of quantitative impact.

Diversity Ratio = 30.84% (Cis-Women – 28.78% LGBTQ+ – 1.82% PWD – 0.23%)

LINKING ESG PERFORMANCE WITH CSR IMPACT (P. 194)

We promote social protection for our workers through our partnerships with NGOs and regulatory bodies. Our focus is on registration under Building and Other Construction Workers (BOCW) and other welfare schemes

A sum of ₹ 2.97 Cr. was spent to ensure the social protection of workers in FY 2023- 24

CONSERVING WATER (P. 98)

As on date, we are currently water positive across our operations by offsetting our consumption through our CSR projects.

Water Recharged for every litre of water withdrawn making us a water positive group = 7,656 million litres.

COMMITTING TO CONSTRUCTION WASTE MANAGEMENT (P. 106)

Through responsible management of waste generated on our construction sites, we have been able to input waste into recycling value chains to extract value

98% of Waste Recycled/Reused

PRESERVING OUR NATURAL ECOSYSTEMS (P. 110)

PROMOTE PEACEFUL AND INCLUSIVE SOCIETIES FOR SUSTAINABLE DEVELOPMENT, PROVIDE ACCESS TO JUSTICE FOR ALL AND BUILD EFFECTIVE, ACCOUNTABLE AND INCLUSIVE INSTITUTIONS AT ALL LEVELS

PROMOTING SUSTAINABILITY THROUGH INCLUSIVE ECOSYSTEMS (P. 116)

We have extended our commitment towards sustainability beyond building certifications (IGBC Green Homes/ equivalent) to include IGBC Green Residential Societies in the product use phase. Our commitment for a green product now spans the entire life cycle (project launch to handover) and beyond (post-handover) and covers our entire development portfolio.

Our focus lies in guaranteeing an efficient system for managing waste, optimizing daylighting, reducing power costs by 15-20%, and providing numerous health lifestyle benefits to our home buyers.

ENSURING A SUSTAINABLE SUPPLY CHAIN (P. 188)

As a sustainable real estate developer, we ensure responsible procurement of materials for construction activities. Through robust supply chain engagement, we are working to systematically improve resource efficiency across construction sites.

Commitment that 88.5% of our suppliers, specifically, those related to Purchased Goods and Services, adopt Science-based targets by 2026.

OUR EMISSIONS PROFILE (P. 84)

As part of our emissions mitigation plan, we identified significant emission hotspots of purchased goods with the relevant supply chain. We will address this as part of our commitment on climate action through Science Based Targets initiative (SBTi).

We commit to reduce Scope 1 and 2 GHG emissions 72.6% per square metre area by 2035 from a 2021 base year, equivalent to an absolute reduction of 58.8%.

EMBEDDING HUMAN RIGHTS ACROSS OUR VALUE CHAIN (P. 186)

We conduct Human Rights Self-Assessments at all our operational project sites and offices. Our Human Rights Policy aligns with the United Nations Human Rights Guidelines, ensuring our commitment to upholding human rights standards.

Our company wide Human Rights due diligence is applicable to: Own employees, Women, Children, Contractual Employees, Supply chain.

LINKING FINANCIAL DISCLOSURES WITH CLIMATE IMPACT

HOW WE GOVERN CLIMATE-RELATED RISKS AND OPPORTUNITIES

GPL acknowledges the heightened risk posed by climate change and its profound impacts on the environment, society, and the economy. With the real estate sector accounting for 40% of anthropogenic greenhouse gas (GHG) emissions, and international agreements like the Paris Agreement advocating for an urgent transition to a low-carbon economy, there is an increasing expectation for intensified efforts towards decarbonization within this industry.

Government, investors, and the public are increasingly committed to achieving net-zero emissions by 2050 to mitigate the most severe potential consequences of climate change and limit global warming to 1.5°C above pre-industrial levels. However, the prevalence of severe storms, frequent fires, extreme heat, landslides, and cyclones underscores the urgency of addressing climate-related challenges.

Moreover, operational disruptions during construction and handover phases are becoming more frequent due to unpredictable weather patterns. Recognizing that 95% of our emissions stem from activities beyond our buildings, achieving net zero emissions solely through our own efforts is practically unfeasible.

Consequently, we rely on a variety of external factors, such as government policies and regulatory actions, to fulfil our commitments towards a net-zero future.

We maintain our dedication to enhancing our ESG performance. ESG performance metrics have been incorporated into the company's annual objectives and associated compensation tied to sustainability objectives within their respective roles, departments, and activities. We persist in integrating climate resilience into our procurement processes, operations, and project transitions. Additionally, executive compensation is now linked to the attainment of critical targets related to material issues.

Zonal CEOs hold accountability for overseeing all site-related environmental indicators, including energy intensity, across all GPL regional, marketing, and site offices. Each zone is actively collaborating with the central Administration and Human Resources teams to formulate strategies for transitioning to renewable energy sources, aiming to meet the SBTi targets for Scope 1 and Scope 2 greenhouse gas (GHG) emissions.

An effective governance structure is vital for seamlessly integrating sustainability within the organization, demanding steadfast leadership, clear guidance, and strategic impact.

4. Implements EMS (ISO 14001) protocols and ensures zero non-conformities at site.

We've established an ESG committee at the board level to oversee ESG and climate matters, focusing on strategic issues material to the business. This committee defines sustainability goals, shapes investor communications, monitors key indicators' progress, and assesses interventions. Climate issues are integrated into the Board's agenda and undergo annual evaluation.

IDENTIFYING CLIMATE RELATED RISKS & OPPORTUNITIES

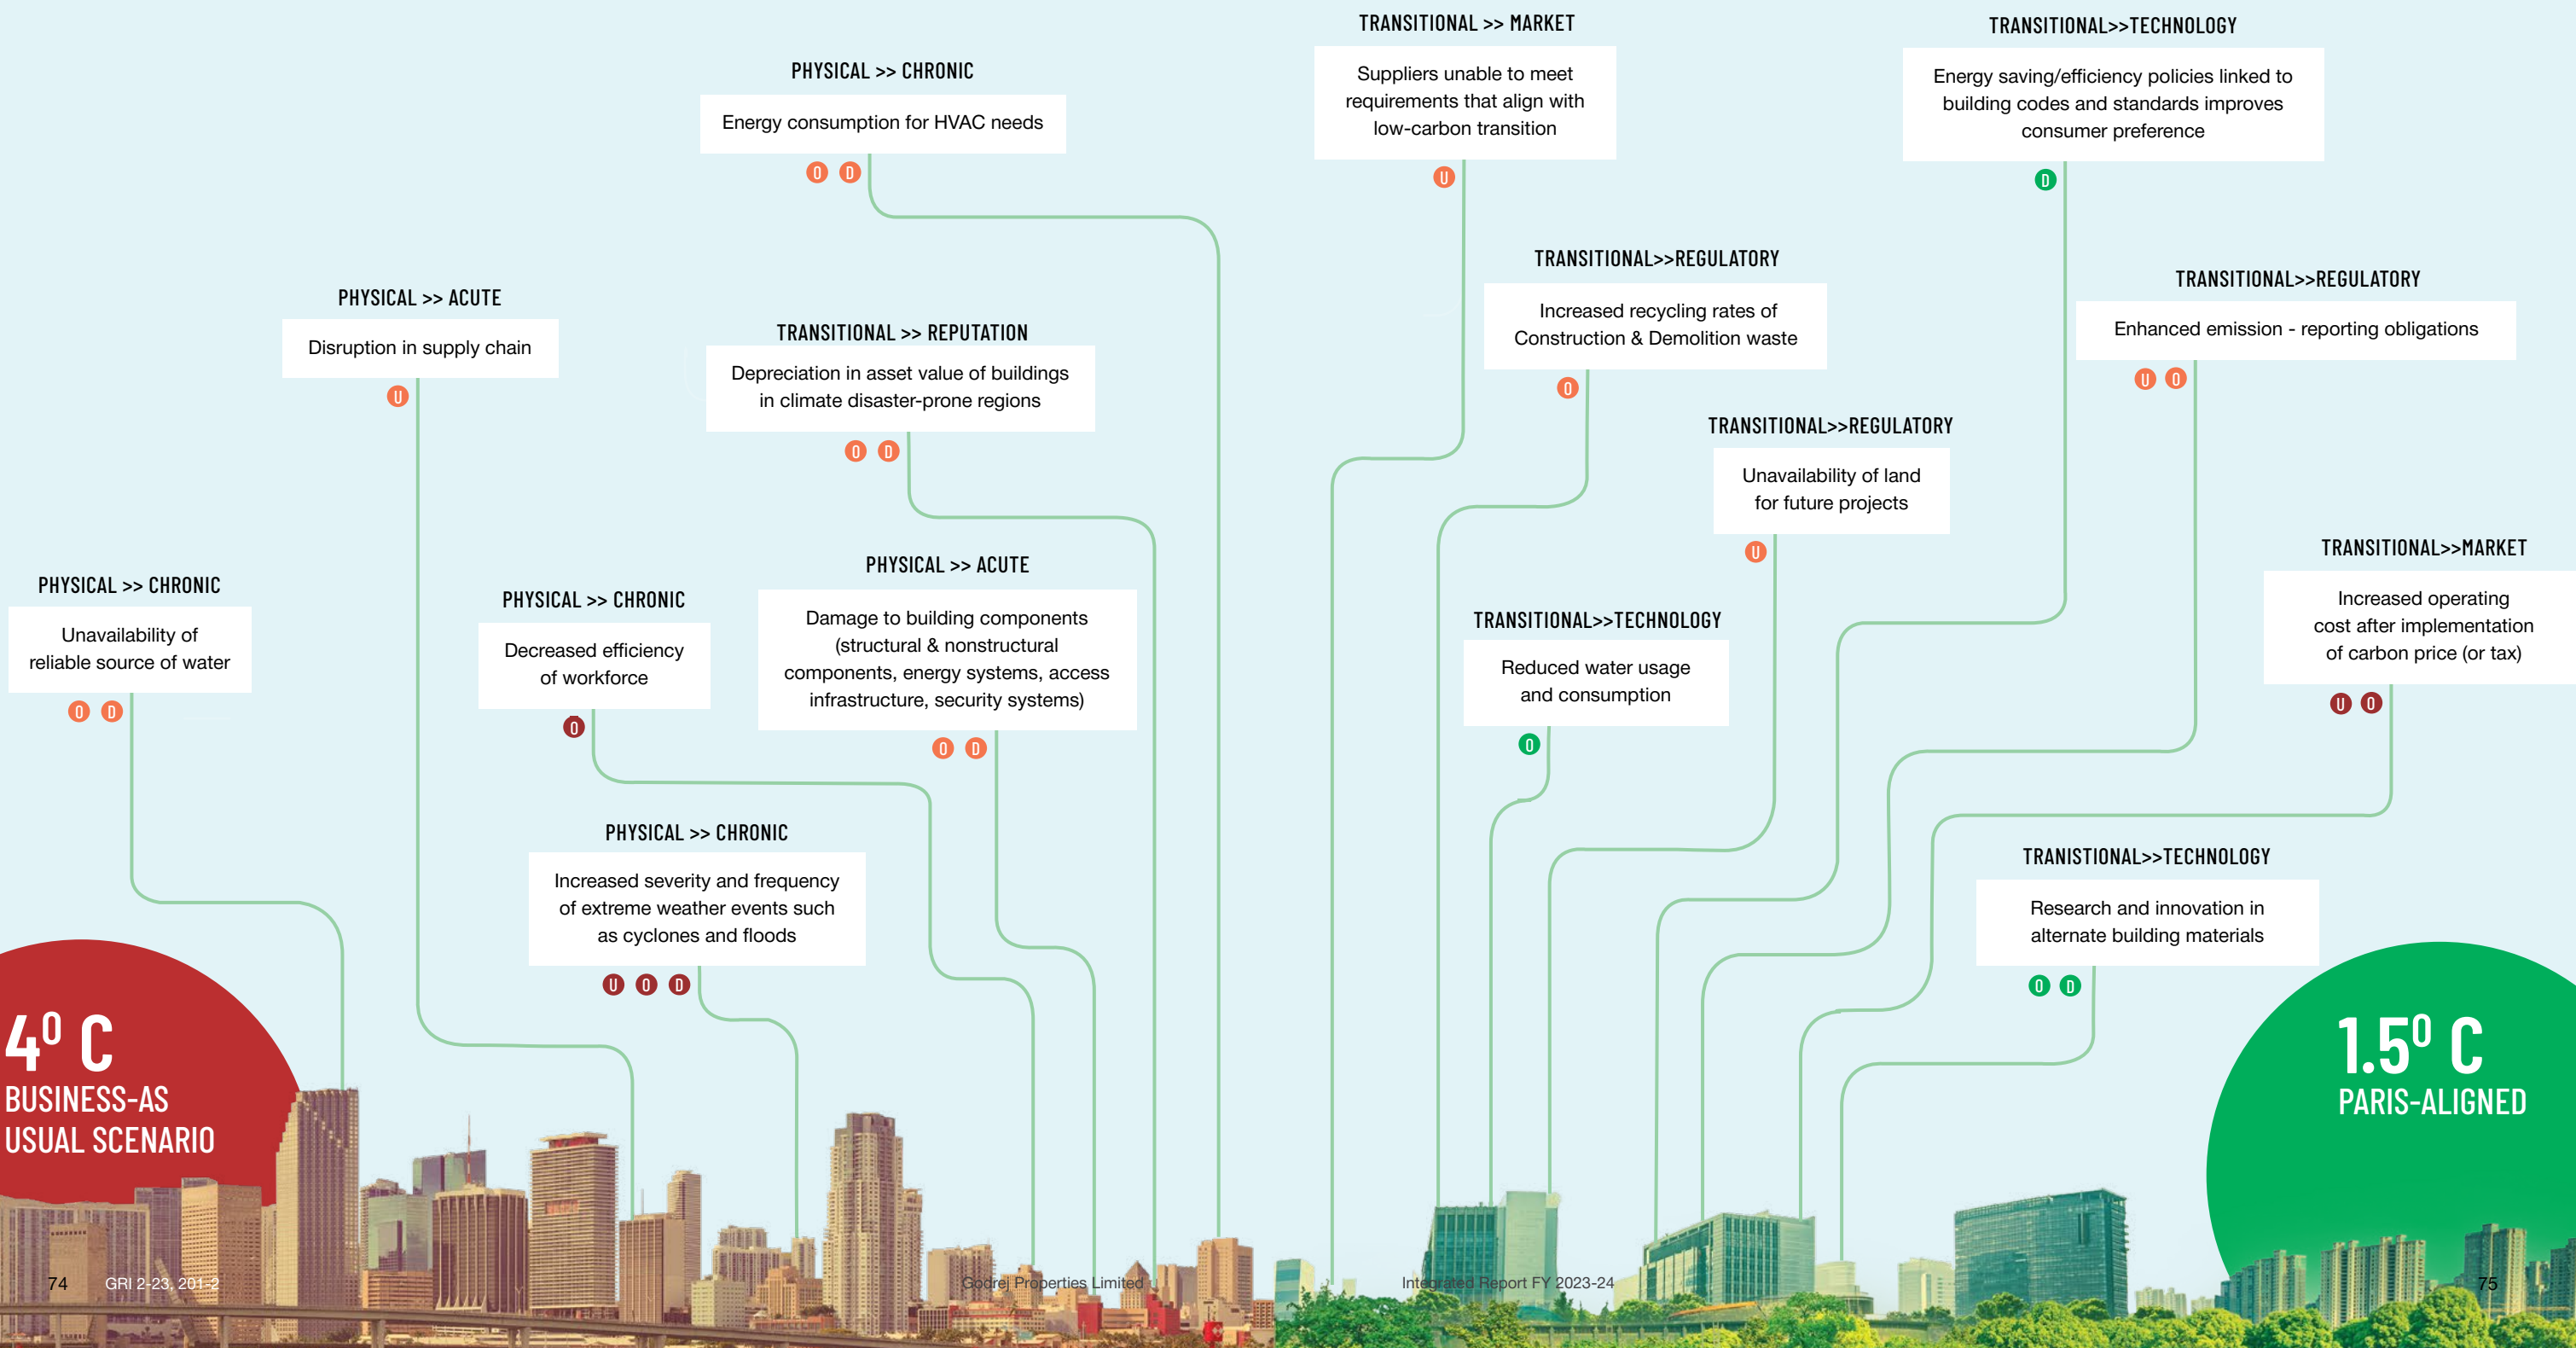

Our climate scenarios stem from our FY 2022-23 scenario analysis, encompassing an assessment of transition and physical climate risks. We evaluated potential climate-related risks alongside opportunities for climate mitigation. We firmly believe that a nascent risk such as climate change does not limit its impact to our site operations alone but permeates throughout our entire value chain.

To fortify our dedication to climate resilience, GPL has incorporated the TCFD's guidance into the management structure and overall approach to climate change-related risks and opportunities.

PRIORITIZED RISKS MAPPED TO CAPITALS

GPL has aligned the climate-related risks with the six capitals in the IR framework, which include financial, natural, human, intellectual, manufactured, and social and relationship capitals.

	 FINANCIAL	 NATURAL	 HUMAN	 INTELLECTUAL	 MANUFACTURED	 SOCIAL AND RELATIONSHIP
HEAVY PRECIPITATION	Heavy Rainfall can lead to flooding, damaging physical assets, and disrupt operations, building materials and equipment which can lead to increased cost for replacing or repairing the damaged materials, affecting the overall project cost.	Heavy precipitation induces soil instability, soil erosion and flooding, damaging the construction site.	On-site workers can face safety hazards caused by slippery construction sites, elevating the risk of accidents and falls. Furthermore, there can be loss in productivity of the workforce due to heavy rainfall.	Heavy precipitation can cause property damage, disrupting operations and potentially leading to data loss, compromising intellectual property integrity.	Construction process can be impeded and delayed by heavy rainfall, causing challenges in establishing foundations, pouring concrete and laying asphalt.	Substantial impact on timelines of the project, resulting in delay in the handover of the project to the client.
TEMPERATURE	High temperature and heatwaves lead to higher energy consumption costs along with increase in workforce wages due to loss in productivity, ultimately impacting the project cost.	High temperatures can disrupt ecosystems, impacting biodiversity, water sources, and habitats which can lead to reduced property value due to environmental degradation or increased operational costs for climate-resilient infrastructure.	High temperature and heat waves can impact the health and productivity of the workforce, reducing the productivity in the workforce adversely compromising the output.	High temperatures can affect tangible assets, leading to operational disruptions and influencing market perception.	High temperature can impact the building materials such as concrete that can form cracks due to extreme heat.	Substantial impact on timelines of the project, resulting in delay in the handover of the project to the client.
WATER SCARCITY	Water scarcity leads to increase in total cost of water procurement from third parties, resulting in increase of the overall project cost.	Real estate is highly water intensive industry. Water scarcity would result in increased procurement cost of water for construction activities.	Health issues such as dehydration, operational disruptions in water-dependent systems, and the need for costly investments to manage water scarcity impact budget allocation and pose challenges in maintaining a sustainable employer reputation.	Water conservation and efficiency are imperative for obtaining positive ratings in green building certifications.	Disruption in the production processes due to limited water availability.	Substantial impact on timelines of the project, resulting in delay in the handover of the project to the client.
CARBON PRICING MECHANISMS	Increase in operating cost after implementation of carbon price and overall project cost.	Carbon pricing can escalate operational expenses, notably for energy-intensive buildings, influencing financial outcomes and investment strategies.	Higher energy costs due to carbon pricing can strain budgets, affecting employee benefits, wellness programs, and overall workforce satisfaction.	Opportunity: Carbon pricing creates opportunities for collaboration and partnerships for leveraging technologies for construction.	Carbon pricing mechanism can increase the production costs of carbon intensive building materials such as aluminium, concrete, bricks and glass	An overall increase in project costs directly affects the expenses borne by consumers and has a significant impact.

PHYSICAL CLIMATE-RELATED RISK SCENARIO ANALYSIS

Climate Change Scenario Analysis is a vital tool for organizations to evaluate potential future risks and opportunities stemming from climate change. It allows them to understand and manage climate-related risks effectively, a critical aspect for investors and stakeholders.

According to the Task Force on Climate-related Financial Disclosures (TCFD), organizations should explore various scenarios, including one in line with the 2015 Paris Agreement’s goal of limiting global warming to 1.5°C above pre-industrial levels. Additionally, they should assess a

business-as-usual (BAU) scenario, where physical risks such as flooding, heatwaves, and water scarcity are predominant.

To evaluate physical risk scenarios, GPL utilized two Shared Socioeconomic Pathways (SSPs): SSP-1 (aligned with RCP-2.6) and SSP-5 (aligned with RCP-8.5). This assessment involved site-level surveys, peer reviews, and stakeholder consultations. Each identified risk underwent a thorough 4-factor analysis, considering likelihood, impact, vulnerability, and speed of onset. This comprehensive approach, factoring in adaptability and time dependence,

is particularly valuable for climate change assessments. Finally, risks were ranked to prioritize material climate risks.

The assessment focused on locations vulnerable to the overall impacts of climate change, including factors like temperature, precipitation, water scarcity, and climate hazards. It identified Mumbai, Ahmedabad, Bengaluru and Delhi-NCR as four specific locations facing heightened vulnerability to the physical effects of climate change.

OVERALL CLIMATE CHANGE IMPACT

GPL operates multiple project sites across Mumbai, Delhi, and Bangalore. Mumbai and Delhi-NCR are particularly susceptible to the compounded impacts of climate change,

including shifts in temperature, precipitation patterns, water availability, and associated climate risks.

Specifically, Mumbai hosts 16 project sites, Bengaluru with 5 project sites, and Delhi-NCR accommodates 11 sites. Although Ahmedabad only houses 1 project site, it too confronts significant vulnerability owing to diverse climate stressors. As GPL expands and relocates projects, we remain attentive to climate vulnerabilities across geographies.

Our analysis delved into the vulnerability of locations to each climate stressor under the scenarios of Shared Socioeconomic Pathways (SSP-1 and SSP-5). A concise summary of our findings is presented in the table below.

TCFD MATURITY MAP

We assessed potential climate-related risks & corresponding opportunities for climate mitigation. Our firm conviction is that an emerging risk like climate change does not confine its impact solely to our site operations; rather it extends across our entire value chain.

To fortify our dedication to climate resilience, GPL has incorporated the TCFD's guidance into the management structure and overall approach to climate change-related risks & opportunities.

MITIGATING CLIMATE RISKS

HOW WE MITIGATE CLIMATE RISKS

Risk management is fundamental to fostering resilience within our business and ensuring the robustness of our processes. Our approach to risk management encompasses the entire spectrum, from identifying and categorizing risks to implementing effective mitigation strategies.

We continuously review and update our risk management policies to align with evolving market dynamics and industry best practices. Moreover, we conduct sensitivity analysis and stress testing over time to bolster our readiness in handling risks.

The Risk Management Committee is tasked with overseeing the company's risk management function, ensuring adherence to established policies and procedures. To systematically identify and address risks, we have established an enterprise-wide Risk Management Framework through our Risk Management Charter.

Following a comprehensive assessment of climate-related risks, we have integrated prioritized climate-related risks into GPL's Enterprise Risk Management (ERM) framework. These include:

- Current Regulation
- Emerging Regulation
- Technology Risk
- Legal Risk
- Market Risk
- Reputational Risk
- Acute Physical Risk
- Chronic Physical Risk

We are working diligently to reduce our Scope 1, Scope 2, and Scope 3 GHG emissions footprint and to minimize our waste to landfill.

Godrej Properties Limited

HOW WE MEASURE OUR PROGRESS

Our climate-related targets are intricately intertwined with our Environmental, Social, and Governance (ESG) objectives, which are embedded throughout the company, from top-level management to every function. To track progress, we employ robust internal dashboards while ensuring transparent public disclosure, supported by external assurance.

In bolstering our sustainability endeavors, we've implemented a company-wide Occupational Health & Safety (OH&S) Management system and an Environment Management System (EMS). Furthermore, obtaining ISO certifications for our construction sites underscores our dedication to climate responsiveness and resilience.

Godrej Properties stands as a water-positive and carbon-neutral entity across its operations, encompassing Scope 1 and Scope 2 greenhouse

gas (GHG) emissions. Our ongoing efforts focus on reducing Scope 1, Scope 2, and Scope 3 GHG emissions while proactively minimizing our waste footprint across operations.

Resilience planning for our projects has been enhanced to address risks posed by extreme weather events. During design and planning phases, we now mandate elevated plinth levels to mitigate the risk of water ingress in building basements.

OUR CLIMATE COMMITMENTS

In the FY 2023–2024, we conducted a thorough risk assessment and scenario analysis concerning climate change, adhering to the guidelines provided by the Task Force on Climate-related Financial Disclosures (TCFD) Framework. Throughout this reporting period, we have prioritized addressing the risks associated with climate change. Consistent with the principles of the Paris Agreement, we

have been actively engaging in the Science Based Target (SBT) initiative since 2020. Our targets, aimed at reducing scope 1 and 2 greenhouse gas (GHG) emissions by 72.6% per square meter area by FY2035, have received approval.

Looking ahead, our dedication to assessing the financial implications of climate change on our business remains unwavering. We are committed to disclosing quantified impacts—both risks and opportunities—across various climate change scenarios during the upcoming Carbon Disclosure Project (CDP) reporting cycle. Moreover, our enterprise risk management framework will systematically integrate actual climate change risks. Finally, in subsequent TCFD-aligned disclosures, we aim to enhance the scenario analysis concerning physical climate risks, particularly at our construction sites.

DRIVING DECARBONIZATION AND ADVANCING TOWARDS ACHIEVING NET ZERO STATUS

The real estate sector holds a significant responsibility for the global carbon footprint, contributing to nearly 40% of total emissions. Given these statistics, prioritizing sustainability in real estate isn't just important for addressing climate change; it's essential for creating a greener and more sustainable future.

India has taken a significant step towards sustainability by committing to achieve net-zero greenhouse gas emissions by 2070 and aiming to derive 50% of its energy from renewable sources by 2030. In line with this commitment,

we are dedicated to accelerating the transformation of the built environment towards sustainability through investing in innovative decarbonization solutions.

We are working towards achieving net zero emissions by 2050. To fulfill this commitment, we have already initiated actions to reduce our emissions in accordance with our SBTi validated targets. We continue to be carbon neutral (for Scope 1 & 2). We are collaborating with our value chain partners, in line with our sustainable procurement policy, to tackle Scope 3 emissions.

OUR EMISSIONS PROFILE

Given our business activities, GPL has identified 'Purchased Goods and Services' as the main source of emissions, along with critical suppliers based on emissions potential. We have aligned with climate science by committing to SBTi to reduce these emissions. We have implemented best practices and effective mitigation measures for our critical suppliers, who remain a priority as we strengthen our leadership position as a sustainable real estate developer.

The operations in our real estate sector have Scope 3 emissions as the majority of all our emissions.

Our aim is to collaborate with our supply chain partners by emissions covering purchased goods and services which forms a major part of our Scope 3 emissions

Including our material suppliers who deal with concrete (Ready-Mix Concrete), tiles, steel (Thermo-Mechanically Treated Reinforcement), and cement within the scope of SBTi emission targets will cover two-thirds of our supply chain, which constitutes 80.45% of our Category 1 emissions.

We have achieved carbon neutrality for Scope 1 and Scope 2 greenhouse gas emissions. This year, we have intensified our actions to tackle Scope 3 emissions through our supplier engagement program.

ADDRESSING OUR EMISSIONS

ENABLING EMISSION ABATEMENT

Our strategy to mitigate climate change centers on managing emissions. We’ve taken several steps, like using more clean energy, supporting energy efficiency, and offsetting emissions through afforestation and land use projects. Currently, we’ve achieved carbon neutrality for Scope 1 and 2 greenhouse gas emissions.

We have obtained approval for our Science Based Targets, a joint initiative of CDP, the UN Global Compact, the World Resources Institute, and WWF. This initiative aligns with our commitment to climate action. Our GHG reduction targets have been validated and are consistent with the decarbonization efforts necessary to keep global warming below 1.5 degrees Celsius.

The Science Based Targets initiative (SBTi) has set standards that are a crucial milestone. It's the first science-based certification for corporate goals to reduce emissions, aligning with the Paris Agreement's aim to limit global warming to 1.5 degrees Celsius. These goals give businesses a clear path to reduce greenhouse gas (GHG) emissions and address the severe impacts of climate change.

SCOPE 1 + 2
4,071
(tCO₂e)

GPL HAS ACHIEVED AN ANNUAL LINEAR REDUCTION RATE OF 5.8% OVER THE TARGET PERIOD, FOLLOWING ITS GROWTH PATTERN.

By the FY 2035, our goal is to reduce scope 1 and 2 greenhouse gas (GHG) emissions by 72.6% per square meter of area compared to FY 2021. This translates to a significant absolute reduction of 58.8% in our GHG emissions.

SCOPE 3
1,594,025
(tCO₂e)

WE HAVE BEEN CONDUCTING COMPREHENSIVE SUSTAINABLE SUPPLY CHAIN WORKSHOPS AND INFLUENCING SUPPLIERS TO ADOPT SBTI TARGETS.

We are committed to ensuring that 88.5% of our suppliers, particularly those involved in purchased goods and services, set science-based targets by FY2026.

GPL'S COMMITMENT TO SBTi

Our emission reduction targets to Science Based Targets initiative (SBTi) have been approved. SBTi is a collaborative effort involving CDP, the UN Global Compact, the World Resources Institute (WRI), and World Wide Fund (WWF).

GPL has had its emission reduction goals approved by the SBTi, showing our commitment to aligning with scientifically grounded targets.

Over the years, we have monitored intensity related to our emissions interchangeably using both constructed area and Developable Area. Moving forward, we aim to streamline our approach by using total built up area as the primary metric for a given reporting period. This would allow us to effectively track our operational metrics, both within our operations and throughout our value chain.

CHARTING OUR PATH TO EMISSIONS REDUCTION

Our Scope 1 & 2 direct emission reduction target for each FY, aligned with a linear reduction rate consistent with the 1.5°C goal, has been approved by the SBTi.

In our efforts to decrease Scope 1 & 2 emissions from the FY 2020-21 baseline, we have identified various clean energy alternatives for electricity consumption:

- Utilize 100% green power sourced from the grid.
- Combining grid electricity with solar power.
- Utilizing green power from the grid alongside solar energy.
- Resort to grid electricity if none of the options are viable.

Through the exploration of these clean energy alternatives, our objective is to broaden our energy sources and substantially diminish our dependency on fossil fuel-based electricity. Our approach will entail a blend of strategies, considering factors such as availability, feasibility, cost-effectiveness, and alignment with our emission reduction objectives.

Our process flow follows these sequential steps:

1. Establish the baseline Scope 1 & 2 emissions from the base year.
2. Define an absolute emissions reduction target for the designated target year.
3. Determine the necessary office space allocations for Regional, Site, and Marketing Offices for the target year.
4. Specify the emissions intensity for the target year.
5. Calculate the requisite emission reduction to achieve the target by the designated year.
6. Project the expected emissions level for the target year.
7. Determine the required electricity sourced from green alternatives. Identify applicable energy options for each office type, including Grid Electricity, 100% Green Power, Hybrid (Grid Electricity and Solar), and Green Power from the Grid and Solar.

MITIGATING TRANSITIONAL RISKS IN THE MOVE TO A LOW-CARBON ECONOMY

DRIVING LOW CARBON TRANSITION USING ICP

As part of our climate strategy to mitigate transition risks toward a low-carbon economy, we are establishing our Internal Carbon Price (ICP). According to the TCFD framework, carbon pricing is crucial for scenario analysis, reducing transition risks. Aligning with CDP's ICP objectives, we consider GHG emissions scope, pricing methodology, and impacts. Companies use ICP to drive low-

carbon investments, enhance energy efficiency, encourage internal behavioral changes, and capitalize on low-carbon opportunities.

Globally, carbon markets like the EU Emission Trading System (ETS) drive ICP implementation. Many Asian countries, including Japan and Korea, have increased ICP disclosure. India's proposed 2022 Energy Conservation Bill aims to establish a domestic carbon market, highlighting ICP's role in the low-carbon transition

REDUCING OUR CARBON FOOTPRINT

Our Internal Carbon Price (ICP) focuses on sustainable material initiatives. Initially, we identified the top emitters within Scope 3, Category 1 construction materials: concrete, cement, tiles, and steel. We are now analyzing alternatives to reduce our carbon footprint, such as using Supplementary Cementitious Materials (SCM) like Granulated Ground Blast Furnace Slag (GGBFS).

SETTING AN APPROPRIATE ICP

Our Internal Carbon Price (ICP) is centered around sustainable material-based initiatives. The initial phase involved creating an emission profile of the most significant emitters among construction materials within Scope 3, Category 1. Concrete (RMC-Ready Mix Concrete), Cement, Tiles, and Steel emerged as the top emitters. Through a comprehensive material and market analysis, we are currently identifying alternative materials/products that could contribute to reducing our carbon footprint. For instance, we are exploring the increased use of Supplementary Cementitious Materials (SCM) like Granulated Ground Blast Furnace Slag (GGBFS).

VISION FOR GPL'S ICP

At GPL, we envision a gradual progression of our Internal Carbon Price (ICP) from an implicit carbon price to a carbon fee model.

Our ICP raises awareness about carbon impacts, and as we advance on our low-carbon journey, it will drive sustainable operations. The ICP is a dynamic tool, adapting alongside our sustainability strategy to ensure alignment with evolving objectives and market dynamics.

STRATEGY AND IMPLEMENTATION

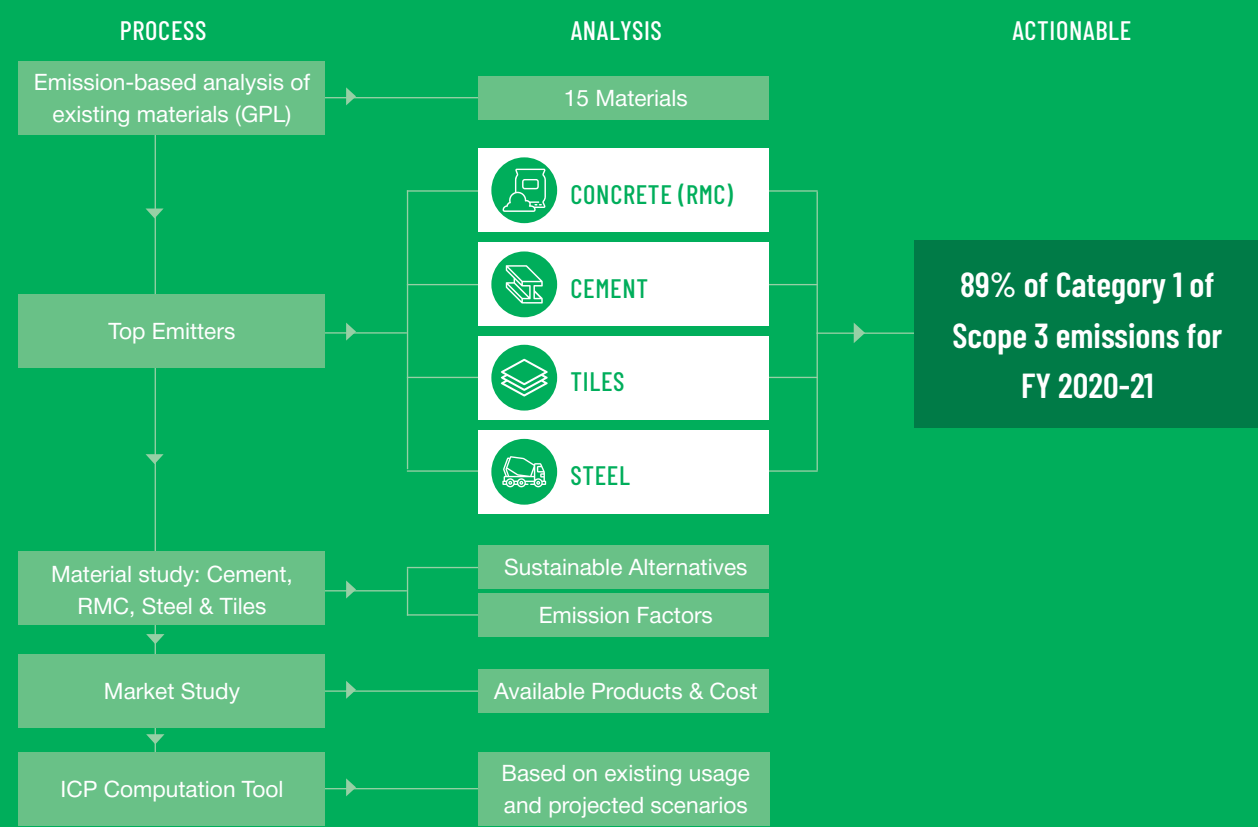

As part of our climate strategy to mitigate transition risks to a low-carbon economy, we developed a robust methodology to implement ICP during the current reporting year. We are establishing the preliminary ICP figure of ₹978 per metric tCO₂e and reviewing and strengthening the ICP, which we will fully disclose in our next public reports.

Since 99.82% of our baseline year (FY 2020-21) emissions are Scope 3, with 82.89% from Category 1 of Purchased Goods and Services, our sustainability initiatives for setting GPL's ICP derive from these

emissions. Our SBTi Scope 3 target commitment states that 88.5% of our suppliers related to Purchased Goods and Services adopt Science-based targets by 2026. We foresee that implementing ICP will drive our low-carbon transition and streamline our ESG strategy.

The implicit carbon price quantifies the capital investment necessary to achieve the company's climate-related objectives and is derived from the company's carbon footprint. It aids in assessing the risk associated with projects/products by considering emissions without directly impacting cash flows.

OPTIMIZING ENERGY EFFICIENCY IN OUR OPERATIONS

INTEGRATING ENERGY CONSCIOUSNESS

At Godrej Properties Limited, we recognize that the bulk of a building's energy consumption occurs during its occupancy.

Recognizing that 90% of a building's total energy consumption occurs while it is occupied, GPL understands the significance of energy usage as a substantial expense. Our long-term economic and environmental sustainability relies on the reduction of energy consumption and associated costs. To achieve this, we integrate energy-saving features into the design and construction of our buildings. Furthermore, we implement conservation measures across all aspects of our operations to minimize energy requirements.

Our energy management system (EnMS) focuses on improving energy efficiency and sustainability. Key components include conducting energy audits to identify improvement opportunities and setting quantified energy-saving targets. Implementing targeted actions, such as upgrading HVAC systems, reduces energy use, while regular evaluations ensure effectiveness of these measures. Incorporating clean and green energy sources, investing in R&D, and providing employee training further enhance energy efficiency.

Our operations at Godrej City Project have transitioned to utilizing 65-70% green energy, significantly reducing our energy usage, costs, and environmental impact.

We are dedicated to reducing our operations' carbon footprint by advocating for eco-efficiency and adopting renewable energy sources whenever viable.

To ensure continual enhancement in our energy performance and efficiency, we adhere to international benchmarks and standards such as the Energy Conservation Building Code (ECBC) and the Energy Performance Index (EPI) established by the American Society of Heating, Refrigerating, and Air-Conditioning Engineers (ASHRAE).

CONSERVING WATER

Water scarcity is one of today's most pressing global challenges. To improve water management and promote efficiency, we have implemented a comprehensive water management strategy. This strategy helps us address water-related issues, risks, and opportunities while engaging meaningfully with stakeholders. Water stress occurs when water demand exceeds available resources or when poor water quality limits usage.

India has a baseline water stress score of 3.6, indicating that annual water usage is between 40%-80% of available resources. Among 181 countries, India ranks 41st, placing it in the high-risk category for water stress.

Our total fresh water consumption rose from 218.17 million litres to 291.57 million litres, marking a 34% increase, in line with our expanded construction activities. Water intensity per unit of constructed area has decreased. The built-up area intensity has slightly increased due to a smaller percentage increase in built-up area as compared to constructed areas, and external factors such as project complexity, geographical and climatic variations, and different construction stages. Water usage fluctuates based on the stage of construction. Early stages such as excavation and foundation laying are particularly water intensive. As we progress to finishing stages, the water requirement per unit area tends to decrease. This fluctuation affects the overall water intensity when averaged across all stages of multiple projects.

IGBC Green Homes Rating Systems	Water-efficient plumbing fixtures lower water consumption, reduce operational costs, and achieve sustainability goals, thereby enhancing the project's value and attracting environmentally conscious buyers.
OCCUPANCY STAGE 	Rainwater Harvesting to enhance ground water table and reduce municipal water demand by harvesting rain water.		Rainwater harvesting offers occupants opportunities for water conservation, cost savings, sustainability, reliability, and improved indoor air quality, making it a valuable and eco-friendly practice.

KEY ASPECTS OF OUR WATER MANAGEMENT STRATEGY ARE

ENGAGE WITH CUSTOMERS

Spread awareness regarding the significance of water preservation and its environmental ramifications. Share practical guidance on implementing water-saving practices within individual properties. Collaborate with community-based organizations or initiatives focused on water conservation to host educational workshops, initiatives, or gatherings. Such endeavors foster a sense of community engagement, motivating customers to actively engage in conserving water resources.

REDUCE IRRIGATION WATER REQUIREMENTS

Utilize indigenous flora and vegetation that are naturally suited to the regional climate and demand less water. Resilient species that are drought-tolerant can flourish with minimal irrigation, leading to a decrease in overall water consumption. Implement water-efficient irrigation methods like drip irrigation or micro-sprinklers. These systems deliver water precisely to the plant roots, minimizing evaporation and ensuring effective water distribution.

MINIMIZE DEPENDENCE ON GROUNDWATER

Incorporate water-saving fixtures like low-flow faucets, toilets, and shower-heads into all structures. Introduce rainwater harvesting systems to gather and store rainwater for non-potable purposes such as irrigation, toilet flushing, and cleaning.

ENCOURAGE DESIGN OF WATER EFFICIENT HOMES

Create water-efficient design standards and checklists offering precise guidance for architects and facilities management teams. These resources should encompass details on water-saving fixtures, appliances, landscaping methods, and rainwater harvesting tactics.

ENHANCE AWARENESS

Promote awareness by highlighting the importance of water efficiency, especially in residential developments recognized with the IGBC Platinum rating. Encourage individual water metering and emphasize the benefits of water-efficient design, such as reduced water bills, environmental sustainability, and long-term cost savings.

MEASURE WATER CONSUMED

Implement water monitoring systems equipped with sensors to monitor water flow and usage across different sections of the property. Such systems offer valuable insights into specific areas exhibiting high or excessive water consumption.

ENSURE REDUCTION IN POTABLE WATER REQUIREMENTS

Achieve a reduction in potable water demand by integrating water-saving and low-flow fixtures.

REPLENISHING MORE THAN WE CONSUME

At GPL, we are strongly dedicated to minimizing our environmental impact as much as possible. To do this, we've adopted sustainable water management practices across our operations to lower water usage. We also support water harvesting and recycling efforts whenever feasible, aiming to reduce our dependence on freshwater resources. During this reporting period, our total water consumption was 352.58 million liters.

In line with our dedication to water conservation, we initiated an integrated watershed management program in the Beed district of Maharashtra. Through our corporate social responsibility (CSR) endeavors, this initiative has positively impacted three villages, covering a combined area of 3,300 hectares. Our assessments have indicated annual groundwater recharge of 7,656 million litres in the area, significantly surpassing the water consumed within our reporting boundary. We remain resolute in our commitment to maintaining a water-positive stance as we continue to make strides forward.

OPTIMIZING RESOURCE UTILIZATION THROUGH STRATEGIC MAPPING

OUR APPROACH

We have embraced a targeted strategy aimed at minimizing our direct impact on natural resource consumption and pollution. Through the conservation of natural resources, we aim to make a modest yet significant contribution to the well-being of societies and the environment in which we operate. Recognizing the paramount importance of this endeavour, we have implemented stringent measures to ensure responsible procurement and efficient utilization

of these resources. Our commitment lies in promoting a circular economy that fosters the preservation of ecological balance. To monitor our progress over time and establish benchmarks, we have conducted a comprehensive mapping of material consumption across various categories. This enables us to track our material usage and measure our progress in this area.

RESPONSIBLE UTILIZATION

SUPPORT

Our objective is to utilize certified green building products, materials, and machinery.

PROMOTE

By stipulating that a minimum of 50% of the project's material costs must be allocated to materials procured within the operational radius or limits, we endorse the local sourcing of building materials to mitigate the environmental footprint associated with logistics.

ENCOURAGE

In each project, we strive to acquire and utilize alternative eco-friendly building materials such as VOC paints, adhesives, sealants, and others for interior finishing.

REPLACE

We have initiated the procurement of new renewable wood products certified by the Forest Stewardship Council (FSC), Programme for the Endorsement of Forest Certification (PEFC), or an equivalent certification.

OPTIMIZE

Efforts in construction material utilization are directed towards minimizing reliance on natural resources.

PROMOTE

Recycling and reusing materials can significantly diminish the necessity to extract new resources.

Some notable initiatives encompass:

- Utilization of Excavated sand for backfilling
- Use of Sewage Treatment Plant (STP) water for curing and horticulture
- Repurposing waste concrete cubes for pavements and steel yards
- Incorporating waste AAC blocks for sunken filling
- Re-utilizing aluminium shuttering

COMMITTING TO CONSTRUCTION WASTE MANAGEMENT

We are dedicated to minimizing waste at its source and employ a steadfast approach to ensure safe and sustainable disposal. Our commitment entails strict compliance with waste management regulations, and we adopt a proactive “beyond compliance” stance to mitigate the environmental impact of our waste generation.

HAZARDOUS WASTE

Hazardous waste encompasses materials such as solvents, and cleaning agents, lead based paints, oils, and electronic waste, posing risks to human health, the environment, or property. GPL prioritizes the proper disposal of all hazardous waste through authorized third-party entities, adhering rigorously to applicable laws and regulations.

NON-HAZARDOUS (Other Categories)

At GPL, non-hazardous waste streams encompass soil, construction waste debris, and metal scrap. Soil is either repurposed for backfilling purposes or directed to authorized landfills. Metal scrap is sent to authorized recyclers for proper processing. Construction waste debris, meanwhile, is routed to municipality-authorized agencies in strict accordance with regulations.

NON-HAZARDOUS (Organic Waste)

GPL conducts composting, and the resulting compost is utilized for project landscaping or in our plant nursery. In certain instances, it is handed over to authorized agencies for appropriate management.

REDUCING, REUSING AND RECYCLING CONSTRUCTION WASTE

Reducing, Reusing and Recycling construction waste are key strategies aimed at minimizing the environmental impact of construction activities. These strategies emphasize on careful planning and design to optimize material use, processing materials that would otherwise be discarded into reusable products and using salvaged or reclaimed materials from one construction project in another. Benefits of these practices include reducing landfill waste, conserving natural resources, lowering construction costs, and reducing energy consumption associated with extracting and processing new materials.

We have a dedicated policy commitment and strategy for managing construction and demolition waste through our waste management plan. This plan outlines strategies and procedures, including waste reduction, segregation and collection, recycling and reuse programs, efficient waste diversion and disposal, compliance and training, as well as monitoring and reporting. More than 50% of our sites have already implemented waste separation practices. Furthermore, we actively participate in prioritizing the use of recycled products through exchanges, engaging in both the purchase of recycled materials and the sale of recyclable materials.

Through our research study 'Waste Matters', conducted regarding the onsite construction waste management, it is estimated that more than 85% of the waste generated on a construction site is not accounted for and is largely cement, debris, aggregates, soil, gypsum, and other regular waste. Further, we were able to assess that 3.64kg per sq ft of construction waste is generated in a mid-scale residential Mivan construction project in India.

MATERIAL RECOVERY FACILITY

A Material Recovery Facility (MRF) is a recovery or recycling facility which helps in segregating waste into different types so that it can further be recycled. These facilities recover tonnes of waste that would otherwise end up in landfills. The sorted waste is further sent to the recyclers for recycling.

In order to responsibly address the construction waste, we have diligently taken steps to develop a 'SOP' and to install a MRF at our construction sites. MRFs were operationalised on site to separate metals, wood, plastics, and debris and these are segregated and stored efficiently so that all of it can be recycled.

BIODIVERSITY ASSESSMENTS

At GPL, we prioritize the identification and monitoring of protected areas surrounding our project sites to assess our impact on them. To better understand the local ecosystem, including flora, fauna, and ecological dynamics, we conducted comprehensive biodiversity surveys at Maan Hinjewadi, Mahalunge, and Manjari. Specialized stream surveys were also undertaken to document native topology, aiding us in aligning our development activities to minimize habitat disturbance.

Insights from these surveys guided our selection of native tree species for plantation efforts. Recognizing the importance of preserving and restoring native biodiversity, we're extending these surveys to all our development sites. This proactive approach underscores our commitment to environmental stewardship and sustainable development practices.

Environmental Impact Assessments are carried out at each of our sites as required by the Ministry of Environment, Forest, and Climate Change (MOEFCC) regulations.

- GPL abstains from conducting operational activities within the notified areas, as well as its notified eco-sensitive zones, areas of the World Heritage sites, and IUCN (International Union for Conservation of Nature) Category I-IV protected areas. (Applicable for all operations)
- GPL commits to continuing to practice "No Net Deforestation" throughout all its operations.

We at GPL implement a structured approach to mitigate environmental impact, ranging from avoidance and minimization to restoration and offsetting, demonstrating our commitment to responsible environmental management in our projects:

1. AVOIDANCE

- We strictly prohibit operations, construction, and development activities in legally protected areas, including those designated as category Ia, Ib, II, III, or IV by the International Union for Conservation of Nature (IUCN).
- Technical standards have been established to integrate biodiversity and ecosystem management into decision-making processes for both new and existing projects.
- Standard operating procedures (SOPs) are in place to prevent the introduction of invasive species during vehicle and goods transportation.

2. MINIMIZATION

Environmental Management Plans (EMPs) are utilized to reduce pollution in air, noise, water, and soil.

Greenbelt development is undertaken to mitigate the impact of pollutants.

Regular reviews of compliance with Biodiversity Management Plans are conducted across all project sites.

3. RESTORATION

Efforts include replanting native and endangered flora, removal of invasive species, restoration of water bodies, and rehabilitation of disturbed areas to support biodiversity conservation.

4. OFFSETTING

- Initiatives focus on enhancing vegetation in barren lands and establishing medicinal plantations on community grounds to promote biodiversity, engaging local communities in the process.
- Planting of native species is emphasized to drive ecological progress.

5. TRANSFORMATION

- Activities encompass protection of endangered wildlife and plant species, establishment of conservation centers for at-risk species, provision of wildlife rescue services, and support for forest fire prevention measures.
- Engagement with local communities is prioritized for livelihood improvement, backed by public awareness campaigns and training programs for forest personnel.
- Sustainable practices are encouraged through the usage of eco-certified wood.

NURTURING NATURAL ECOSYSTEM

As a real estate firm, we prioritize understanding and mitigating our impact on biodiversity. This involves identifying, assessing, and valuing biodiversity dependencies and impacts, leading to the creation of comprehensive action plans for protection and restoration. Prior to construction, environmental impact assessments are routinely conducted at all sites, encompassing considerations of socio-economic, cultural, and human health impacts alongside ecological factors.

This approach ensures projects conserve between 15% to 20% of the natural topography. None of our project sites are located in ecologically sensitive zones, and there have been no reported adverse effects on biodiversity near World Heritage sites or IUCN Category I-IV protected areas. Furthermore, we've engaged in extensive tree planting endeavours, with 47,897 trees planted across our operational regions this year alone.

We pledge to prevent, alleviate, and counteract biodiversity impacts from new developments and operating assets by rigorously adhering to a thorough process of due diligence and risk assessment. Our approach ensures biodiversity dependencies and risks are assessed within the local context of each asset or operation, considering adjacent areas and activities upstream and downstream. Our commitments to biodiversity are seamlessly integrated into our Environmental Management System (EMS), encompassing the identification of biodiversity risks and opportunities throughout design, construction, and maintenance phases. Guided by our Environmental Policy,

we are committed to biodiversity restoration and aspire to achieve a net positive impact on biodiversity.

Key commitments under this policy include:

- Creating tools to evaluate and document GPL's biodiversity impacts.
- Conducting assessments to gauge the biodiversity effects of operations and projects, aiming for a net positive outcome.
- Improving the biodiversity quality of GPL sites to enrich their ecological diversity.

PROMOTING SUSTAINABILITY THROUGH INCLUSIVE ECOSYSTEMS

OUR APPROACH

As a founding member of the Indian Green Building Council (IGBC), we at GPL, significantly contribute to empowering real estate experts, promoting green building adoption, and facilitating certification. Our proactive involvement with IGBC and our efforts to enhance our own ratings foster continual improvement and support the overall enhancement of IGBC ratings. We are committed to providing sustainable solutions for our customers. We adopt renowned rating systems such as IGBC, LEED, and GRIHA. Since 2010, we have integrated these systems in most of our projects. In 2016, we elevated our standards by requiring a minimum IGBC Silver certification or its equivalent for all our developments. 100% of our project portfolio* to be certified by FY 2025.

QUANTIFYING OUR GREEN BUILDING IMPACT

We conducted a study to measure how green building affects crucial resident livability metrics such as daylighting, water, and waste management. This study analyzed 43,242 green homes being developed up to FY 2020-21, outlining the concrete advantages of green homes for our customers. We will repeat this study every 3 years to consistently track the impact. The next study will be conducted in FY 2025.

SUSTAINABLE LIFESTYLES THROUGH GREEN BUILDINGS

Acknowledging the significant opportunity for resource conservation within multi-dwelling residential complexes, the Indian Green Building Council (IGBC) introduced the IGBC Green Residential Societies Rating System. This initiative is designed to offer guidance to residential communities in monitoring and reducing their usage of natural resources. Through this program, residents can access a range of both tangible and intangible benefits.

KEY BENEFITS DESCRIBED BY IGBC

- Water conservation ranging from 30-50% and energy savings of 20-30%.
- Implementation of effective waste management systems.
- Optimal daylighting for excellent illumination. 15-20% cut of power costs
- Reduction of power costs by 15-20%.
- Provision of health and lifestyle benefits for homebuyers.

By expanding our green building mandate to encompass the usage phase, we offer customers tangible benefits derived from our initiatives. We're actively integrating a comprehensive facility management strategy into the Green Residential Societies certification process, aiming for a more holistic approach to sustainable living.

- We integrate sustainable design and renewable energy to minimize environmental impact.
- We prioritize eco-conscious infrastructure, including rainwater harvesting and waste management.
- We foster community engagement through shared green spaces and collaborative initiatives.
- We emphasize green building certifications to enhance our developments' desirability.
- We promote sustainable transportation with pedestrian-friendly layouts to reduce fossil fuel reliance.
- We align our projects with government policies for sustainable urban development.
- We ensure buildings are within a 10-minute walk of transportation hubs.
- We implement energy efficiency schemes to lower energy bills for low-income residents.
- We adopt low-maintenance design practices and offer affordable pricing for first-time buyers.

While we promptly encourage our customers to save energy and reduce waste, our Headquarters, Godrej One has also achieved Net Zero Energy and Net Zero Waste to Landfill.

TECH-DRIVEN GREEN INNOVATION FOR TOMORROW

In recent years, the real estate sector has witnessed a remarkable shift towards sustainability and environmental responsibility, catalyzed by technological advancements. These innovations not only reduce carbon footprints but also enhance energy efficiency and foster healthier living environments. At GPL, we are spearheading this transformation with our tech-driven green solutions that revolutionize how we design, manage, and conceptualize real estate assets.

ADVANCED WASTEWATER MANAGEMENT

In Godrej City, we have embraced cutting-edge wastewater treatment technology, specifically the Upflow Anaerobic Sludge Blanket (UASB) with trickling filter Sewage Treatment Plant (STP) system. This innovative system offers exceptional efficiency, with up to 95% effectiveness, and features such as low construction costs and a long service life. By implementing this system, we have reduced energy consumption by 20%, operational costs by 35%, and significantly cut noise and air pollution. This move has resulted in substantial savings of ₹3.45 crore over 18 months, along with a notable reduction in irrigation water usage.

HARNESSING SMART TECHNOLOGY

The installation of Smart Water Meters and solar panels has been pivotal in our sustainability efforts. At Phase-1 of our development, Solar Power Systems have generated 221,543 kWh of clean energy, translating to savings of ₹42 Lakh on electricity costs. These systems are projected to curtail CO2 emissions by 192 to 261 tCO2 per location by 2025, contributing to ₹46.3 Lakh in net savings over two years, inclusive of tax benefits.

SHIFTING TOWARDS RENEWABLE ENERGY

Our Solar Power Systems deployed across various sites have significantly reduced our reliance on conventional energy sources, resulting in substantial savings on electricity costs. For instance, one of our developments has generated 221,543 kWh of clean energy, with plans to exceed 1 million kWh within five years. This transition is expected to lower CO2 emissions and save ₹46.3 Lakh over two years.

EMBRACING GREEN ENERGY SOURCES

We have introduced a conventional source of electricity to power GPL's offices and project sites in the West-East Zone, leveraging onsite renewable energy options like Solar PV and Wind farms. This initiative, coupled with collaborations for green energy supply, aims to slash fossil fuel consumption, minimize carbon emissions, and contribute significantly to environmental conservation.

ENHANCING SECURITY WITH WIRELESS CCTV

Adoption of Wireless CCTV systems has not only bolstered security but also reduced environmental impact by eliminating cables. This has led to lower installation and maintenance costs, clearer images over time, quicker repairs, and a notable reduction in carbon footprints. The wireless setup offers a sustainable, long-term solution lasting up to 10 years.

ENHANCING OUR ENVIRONMENTAL MANAGEMENT COMMITMENT

Our Environmental Management System (EMS) integrates ESG goals across our business value chain. All our GPL sites hold ISO 14001:2015 certification, an international standard for enhancing environmental performance.

We have integrated our EMS with compliance and risk management systems to ensure a comprehensive ESG strategy, enhancing our ability to identify and address risks and environmental impacts through policy integration, employee training, and specialized performance tracking.

In the upcoming financial year, we will continue certifying current and future sites through surveillance audits. We comply with Indian environmental regulations via Environmental Policies and Procedures.

Our goal, per our Environmental Management Policy, is to certify all buildings under recognized green rating systems like IGBC, LEED, and GRIHA, mandating a minimum IGBC Silver rating (or equivalent) for ongoing and upcoming projects.

During project planning, we conduct technical due diligence and initial environmental audits, establish baseline performance, and provide training to facility managers and residents. We also perform environmental due diligence for land acquisitions. We promote waste segregation, provide waste bins, and install Organic Waste Converters for organic waste management.

Our commitment includes effective waste management in design, construction, and post-handover facilities management, aiming for zero waste to landfill. We review and update our Policy annually, with changes approved by the ESG Committee.

TRAININGS CONDUCTED:

- We conducted EMS Rollout Module Training for 47 environmental managers across project sites.
- We trained 37 environmental managers as EMS internal auditors for ISO 14001:2015 in FY 2023-24.
- We provided 2-day training on applicable environmental laws in the real estate and construction sector.
- We conducted training for the preparation of Aspect-Impact register, EMS documentation, and monitoring for environmental managers.

INTEGRATING GREEN SPENDS WITHIN BUSINESS OPERATIONS

Our green expenditures for the product include consultant fees, certification costs, specific procurement, and execution expenses. Certification and consultant fees consist of IGBC/GRIHA charges, bi-annual environmental compliance fees, 'Consent to Operate' renewals, and any registration or consulting charges related to environmental activities. Procurement and execution costs involve investments in dual

plumbing water systems, 5-star LED street lights, low-flow CP and sanitary fixtures, 5-star HVAC units, and similar items. Green site expenditures cover operational costs. Our expenditures align with our commitment to greening our sites, which includes installing solar panels, conducting monthly stack emissions and water monitoring, implementing dust suppression measures, and

more. Waste management is a key area of focus, and our spending in this area includes waste storage, collection, and disposal at our construction sites. Additionally, we prioritize supporting our workers through health check-ups and maintaining worker accommodations. Our community initiatives involve programs aimed at assisting local communities affected by our operations.

FOSTERING ETHICAL EXCELLENCE

To ensure effective operations and mitigate future risks, we must integrate ethical behaviour throughout our entire organization. This enhances our reputation, attracts, and retains customers, fosters employee loyalty, and addresses investor concerns. At GPL, we prioritize ethics and values at every level of our business practices. We take pride in our robust governance and efficient risk management. Our philosophy envisions building relationships based on trust with both internal and external stakeholders, where integrity remains at the core of our actions.

We reinforce our commitment to accountability and transparency through a comprehensive set of policies that guide ethical conduct in all aspects of our business. These policies serve as benchmarks for upholding high moral standards. Our employees and directors embody these policies through their sound actions that lead to positive social, economic, and environmental outcomes. The Board of Directors and Senior Management oversee all business ethics policies and regularly review them to ensure alignment with widely accepted industry standards.

COMPLIANCE MANAGEMENT SYSTEM

At GPL, we recognize the critical importance of legal and regulatory compliance in our operations. To achieve this we are utilizing an advanced IT-enabled legal support service, called Legatrix which provides our management with a centralized dashboard that offers a comprehensive view of our compliance status. Our centralized compliance dashboard provides timely deadline reminders, tracks post-filing compliance documents, maps regulatory requirements, and securely records uploaded documents. We remain committed to social and economic compliance and have not received any reports of Non-compliance with laws concerning social and economic parameters. Our Compliance System is Audited by our Assurance Partner

The Environmental Clearance (EC) for Godrej Reflections Project was cancelled by National Green Tribunal (NGT) in February 2020 on account of the alleged non-compliance of the buffer norms of Kaikondrahalli Lake in Bengaluru. The Hon'ble Supreme Court has stayed the NGT Order, and the matter is pending for hearing.

In this financial year, GPD, promoter of Godrej Horizon Project, has been impleaded in a NGT Matter on the allegation that the RG Plantation is proposed on the 7th floor whereas the factual aspect is to the contrary wherein compulsory RG is provided on mother earth and additional plantation is on the 7th floor podium. The matter is yet to be heard and pending for consideration before the NGT, West Zone.

ANTI-CORRUPTION COMPLIANCE PROGRAM

Corruption, including bribery in all forms, poses a significant risk with potential detrimental consequences. To address this risk, GPL has established an Anti-Corruption Compliance Program. This program acts as a robust framework to prevent, detect, and address compliance-related issues. It is integral to our efforts against financial crimes.

KEY ASPECTS OF THE PROGRAM INCLUDE

Prevention and Detection

The Anti-Corruption Compliance Program proactively prevents corrupt practices through regular assessments, audits, and risk evaluations to identify vulnerabilities.

Legal Compliance

We ensure our compliance processes align with local laws and regulations, emphasizing non-negotiable adherence to legal standards.

Honesty and Fairness

Our commitment to honesty and fairness is central, promoting ethical conduct and transparency in all business transactions.

Employee Training

GPL provides comprehensive anti-corruption training during employee orientation, ensuring understanding of responsibilities and contributing to a corruption-free environment.

No employees were dismissed or disciplined in FY 2023-24 for corruption because we had 0 incidents reported.

CODE OF CONDUCT: GUIDING OUR ACTIONS

At GPL, we understand that ethical conduct is fundamental to our organization's success. Our Code of Conduct (CoC) acts as a guide, directing every employee, board member, and senior leader toward principled behaviour.

VIOLATION OF CODE OF CONDUCT (COC)

All employees, regardless of their employment status (full-time, part-time, or daily wage), including those in permanent, temporary, ad hoc, consultant, probationary, trainee, or intern roles, bear the responsibility of promptly reporting any breach they become aware of whether directly or indirectly to their manager, Business Head, HR department, or designated whistleblowing officer.

- Upon discovery, any individual found to have violated the Code of Conduct (COC) or engaged in fraudulent activities will be immediately terminated from our organization.
- In such instances, we will file a First Information Report (FIR) at the local police station and take necessary steps to recover the fraudulent amount.
- Within GPL, we will communicate the names of the individuals involved through official channels, informing all employees of their termination due to fraudulent activities.

Furthermore, we will publicly disclose the name(s) of the individual(s) in local newspapers to notify external stakeholders of our disassociation with them. Details will be shared as deemed necessary.

WHISTLEBLOWER MECHANISM

The whistleblowing mechanism provides a platform where instances of code violations, discrimination, harassment, or safety concerns can be reported anonymously. During the quarterly meetings of the Audit Committee, the Board of Directors is informed about every complaint.

KEY ELEMENTS OF OUR CODE OF CONDUCT

Clarity in Expectations

- The CoC sets clear behaviour expectations, serving as more than a document but a roadmap for our conduct.
- We also follow zero-tolerance approach towards breaches, such as discrimination, bribery and corruption.
- It ensures consistency in our actions across all interactions with colleagues, customers, vendors, and investors.

Aspirational Principles

- Our CoC embodies aspirational principles beyond mere compliance, emphasizing doing what's right even in the absence of oversight.
- We uphold high standards, recognizing integrity as non-negotiable.

Accessibility and Transparency

- The CoC is accessible to all stakeholders, including customers, vendors, and investors, prominently featured on our website.
- We prioritize transparency, evident in our CoC's accessibility and presentation.

Connection to Employee Compensation

- Adherence to the CoC is not optional; it directly links to employee compensation.
- Upholding ethical standards influences how we reward our team members.

Disciplinary Actions

- In instances of breaches or violations, we swiftly respond with measures such as warnings, and dismissals.
- Accountability is key to safeguarding our values.

Information Security and Cybersecurity

- Our commitment to ethical behaviour extends to integrating information security and cybersecurity into employee evaluations.
- Protecting our data and systems is part of our ethical responsibility.

Performance Integration

- CoC compliance isn't separate from performance but integral to it.
- Our employees understand that ethical conduct contributes significantly to our overall success.

EMPOWERING OUR WORKFORCE

Our employees play a pivotal role in propelling our organization forward. Their expertise, unwavering commitment, and well-being significantly impact our operational and financial achievements. We remain steadfast in creating a secure and nurturing work environment, irrespective of geographical location. Our robust framework, including our Code of Conduct, core values, and comprehensive policies, ensures the protection and promotion of human rights across all levels

of our operations. We actively foster an inclusive culture, encouraging employees to express their concerns through our accessible channels, including an open-door policy and a dedicated whistle-blower policy.

Our people-centric approach extends to fair compensation, rewards, career growth, continuous learning opportunities, and flexible work arrangements. Notably, any substantial operational changes undergo rigorous board discussions, with employees receiving 15 days' advance notice.

BUILDING TALENT FOR THE SECTOR

At Godrej, our unwavering focus lies in cultivating the next generation of leaders. We make early assessments based on performance and potential, and not just seniority and tenure.

- We continue to invest in fresh talent from campus for the perspective and potential they bring in, at the graduate and postgraduate level.
- Structured Campus Programs at L1 and L2 to build talent for the sector.
 - With a target to build campus as a strong pipeline of talent, we have increased our intake from 46 to 200 at L1 across Sales, Customer Centricity, Operations, Finance and Legal

- functions. We have increased our intake from 15 to 30 at L2 level across Business Development, Strategy, Sales & Marketing, HR, and General Management.
- L1 hiring campuses include IITs, NITs, Lady Shri Ram College Delhi, St Xavier's Kolkata et al.
 - L2 hiring campuses include ISB, XLRI, IIM Indore, IIM Lucknow, MDI, IIFT, SIBM, SCMHRD et al.

LEADERSHIP PROGRAMS

BUSINESS LEADERSHIP PROGRAM (BLP)

Our initiative aims to attract and nurture prospective Profit & Loss (P&L) and Functional leaders. This 1-year Management Trainee (MT) program serves the following key objectives:

Exposure Across Verticals Participants gain exposure across diverse verticals, broadening their understanding of our organization.	Performance Evaluation GPL evaluates MTs' performance and potential across various functions, ensuring a comprehensive assessment.	Future Leadership Pipeline BLP actively cultivates a pipeline of future leaders, drawing in top-quality talent to contribute to GPL's growth.

ZONAL EXECUTIVE COMMITTEE AND MANAGEMENT COMMITTEE EFFECTIVENESS PROGRAM

At GPL, our management team undergoes an integrated leadership journey, designed to foster growth. This journey includes tailored diagnostics, focused development inputs, and executive coaching programs.

TALENT WAR ROOM

At Godrej Properties, our goal is to take an 'internal-first' talent acquisition approach, wherein we give first right of applying to open positions to internal talent in the organization. The 'internal-first' TA approach not only helps in backfilling vacant positions, but also promotes career development within the organization and results in greater employee satisfaction and engagement.

We promote internal talent movements and identify "ready-now" talent who are able to take up next-level roles. Talent War Room was organized in all zones and 266 incumbents have been identified with readiness of zero to 24+ months. As we go along, our intent must be to place these candidates into suitable roles as per readiness and other profile details identified during Talent War Room.

DEVELOPMENT CENTRES

We prioritize employee development through our specialized Development Centres. Over 42 GPL employees have participated in these programs, receiving high-quality, actionable feedback. These centres play a crucial role in supporting employees as they transition across levels, gaining deeper insights into their capabilities and preparing them for next-level roles. Specifically:

MANAGEMENT DEVELOPMENT CENTRE (MDC)

GPL Alchemy

TRANSFORMING TALENT: GPL ALCHEMY

At GPL, we actively administer a range of programs aimed at enhancing employee skills across various levels, encompassing both functional and leadership domains.

Through our in-house learning academy, GPL Alchemy, we provide functional training in Business Development, Design Strategy, General Management, Sales & Marketing, and Customer Centricity. In the upcoming year, we are expanding Alchemy to include Operations, Quality, and Sustainability.

Additionally, we offer comprehensive leadership programs aligned with our "Building from Within" talent strategy. These programs focus on Leadership Coaching, Leading Teams for Impact, Leading Self, Zonal Leadership Effectiveness, and Early Manager Leadership. In the next fiscal year (FY2025), we plan to broaden our leadership initiatives to encompass managerial effectiveness and introduce a top 25 leaders’ program, among other offerings.

Since its launch, GPL Alchemy has successfully engaged around 1400 employees within nine months, achieving an impressive cumulative Net Promoter Score (NPS) of 60+.

Through Alchemy, we deliver a diverse array of learning programs:

- **Profitability Track:** Modules covering Financial Acumen, RE Finance, strategic decision-making, benefiting 75 P&L and related functions.
- **Design Track:** Includes Product Frameworks standardization and masterclasses with industry-leading faculty.
- **Sales Academy:** Focused on enhancing Sales Essentials capabilities.
- **Business Development Track:** Collaborating with Simon Horton on Deal Negotiation Mastery.
- **Customer Centricity Track:** Launched with essential modules focused on customer-centric approaches.

At our organization, we've meticulously crafted a robust learning and development strategy. This strategy serves as our guiding compass, ensuring that we effectively nurture and support our employees throughout their journey.

LEADING TEAMS FOR IMPACT (LTFI)

We recognize that the role of a people manager is pivotal in shaping a high-trust, high-performance culture. An employee's perception of the organization is profoundly influenced by their manager. Consequently, we place substantial emphasis on nurturing and advancing our people managers. In the current year, 34 people managers embarked on a purposeful learning journey, supported by a meticulously designed pre- and post-intervention roadmap. This holistic approach equips them to excel as effective leaders, driving impact across the organization.

We have crafted a robust learning and development strategy which serves as our guiding compass, ensuring that we effectively nurture and support our employees throughout their journey.

MY LEARNING SPACE

At GPL, we leverage My Learning Space, an automated learning management system, to curate and assign 15 learning resources to our employees. These resources align with the development areas identified during their performance and development conversations.

CATALYZE

we’ve introduced our in-house program called Catalyze. This program is specifically designed to nurture the skills of our promising junior talent, preparing them to assume leadership roles in critical projects. The 6-month intensive capability-building journey focuses on strategic thinking, influencing, and team leadership. To enhance their learning experience, we collaborate with both internal and external learning partners.

This year, 140 Assistant Managers participated in the Catalyze program. Notably, the top 10% rankers will receive personalized one-on-one coaching from our internal coaches for an entire year. Our commitment to talent development ensures a robust leadership pipeline and sustained organizational growth.

ENCOURAGING HIGH PERFORMANCE

We believe an organization's progress is closely tied to its employees' growth. Thus, we prioritize comprehensive employee development, using performance reviews as a key tool. Our focus is on providing constructive feedback and necessary resources for personal success and delivering lasting value to our organization.

MULTIDIMENSIONAL PERFORMANCE APPRAISAL PROGRAM

360-DEGREE FEEDBACK

One of our key practices is providing 360-degree feedback to leaders at the Deputy General Manager level and above, twice a year. Through this process, leaders gain a deeper understanding of their strengths and areas for improvement, all aligned with Godrej's competencies. In FY2023-24, a total of 225 employees participated in this comprehensive feedback mechanism, with 44 women among them. Our commitment to continuous improvement drives our leadership effectiveness.

BEING DIVERSE & INCLUSIVE

At Godrej Properties, we believe that diversity and inclusion (DEI) are essential for fostering innovation, driving growth, and creating a positive work environment. We recognize the immense strength that lies in our diverse workforce.

Our D&I Vision is

"We want all our employees to contribute, collaborate and ultimately thrive at GPL, irrespective of their race, age, ethnicity, gender, gender identity, sexual orientation, disabilities, or any other factor that makes them a minority. Only when our employees thrive, can GPL create joy for our customers."

We celebrate this rich tapestry of experiences, while it enables us to form stronger connections with our customers, navigate a global yet local marketplace, foster innovation, and create a positive impact.

Inclusion is embedded into our organizational culture, with our value Show Respect.

- We treat people like we would want to be treated.
- We embrace and celebrate diversity.
- We foster collaboration.

We continuously strive to enhance diversity and inclusivity in our teams. We have undertaken the following goals in Diversity & Inclusion:

- We aim to have 35% representation across all cohorts of Cis-Women, LGBTQIA+, PwD employees by the end of FY25.
- Our long-range plan is to end FY28 with 50% representation across all cohorts of Cis-Women, LGBTQIA+, PwD employees.

We focus on building for and from the LGBTQ+ community, and we lead in hiring and engaging with this community within our sector.

GENDER DIVERSITY

Recruitment

We prioritize diversity by actively recruiting women through campus programs. We identify suitable roles across departments, actively seek out and support qualified female candidates, and target female applicants for specific positions within the first two weeks of the recruitment process.

Generational Diversity

We recognize that our workforce comprises individuals from multiple generations, each with unique needs related to engagement, learning, career development, and workplace environment. By embracing diverse experiences and perspectives, we foster a resilient, innovative, and dynamic organizational culture.

Diversity, Equity, and Inclusion (DEI) Initiatives

In FY 2023-24, we accelerated the hiring of the LGBTQ+ community and made a commitment for the future.

FIRST ALL-INCLUSIVE SITE AT MAAN HINJE

- Our workforce at this site maintains a balance with 50% representation from cis-men, 40% cis-women and 10% from LGBTQ+, and PwD employees.
- We provide gender-neutral and PwD-compliant washrooms, equipped with amenities like menstrual hygiene products, alongside designated women's rest areas featuring breastfeeding-friendly spaces.
- The office embraces an "Everyone is Welcome" theme, marked by a celebratory flag at the entrance and cards at every desk.
- Better accessibility is ensured with clear, well-lit pathways, non-slip surfaces, visible signage with high colour contrast, and designated parking spaces for persons with disabilities.
- We've set up a Silent Site for inclusivity and equal job opportunities for those with speech and hearing impairments. An ISL translator ensures smooth communication for our staff.

Policies

We are deeply committed to making our organisation an inclusive workplace. We have many policies and procedures in place that enable us to do the same:

- Gender-Neutral Anti-Harassment Policy
- Same-Sex Partner Benefits at par with Married Spouses
- Gender-Neutral Adoption Benefit & Support
- Queers & Allies ERG
- Gender Transition Support
- Gender-Neutral Washrooms
- Transgender Accommodation Assistance Policy

LGBTQ+INCLUSION INITIATIVES: FOSTERING EQUALITY AND COMMUNITY

We have undertaken various measures to ensure we can help in building equity and support our LGBTQIA+ employees in succeeding in their careers:

Use of Taken Name Vis-à-Vis Given Name:

- We ensure the use of taken names of the candidates and employees everywhere, and legal names are only used in Form 16 or ticket bookings, where it is necessary. This solves for a major issue of social exclusion.

Pride Internship

We launched the Make Your Mark - Pride Internship, a program designed to increase LGBTQIA+ representation in the real estate sector.

- Through on-the-job training, mentorship, and a nine-month internship, we introduce LGBTQIA+ talent to the industry and build a pipeline of diverse professionals. This initiative has increased our LGBTQIA+ workforce and achieved notable conversion rates for interns.
- 77% of Pride Interns have transitioned from their internships to job opportunities, with 47% becoming Full-Time Employees and 30% joining us in a contractual capacity.

Testimonials from our Pride Interns

What struck me most...the deep commitment to inclusion... It's about understanding that the world isn't designed for everyone to thrive equally and working to change that... I have realised- "When you work in an inclusive organization, you understand it's the world that is in the closet, not you."

-A PRIDE Intern at GPL

For the first time, I felt like I belonged somewhere. I could be myself without the fear of judgment or ridicule. Godrej was a symbol of hope and acceptance... I love it when someone pronounces my chosen name and uses, she/her as my pronouns, something that was missing for 24 years of my life.

-A PRIDE Intern at GPL

Testimonial by employees availing accommodation

"I was struggling to find accommodation because people were very reluctant to give me a rental house as I am a transgender woman. So, I requested the HR & Admin team to help me, and they shifted me to the Aundh guest house. It has been 3-4 months I have been living here, and I am incredibly happy. All the team members and helpers are incredibly supportive, and it is a pleasant experience for me."

-CC, West East Zone

Transgender Accommodation Assistance Program

- The Transgender Accommodation Assistance Program identified a major equity gap &
- addresses housing discrimination against transgender individuals in India.
- Godrej Properties recognizes the importance of safe and inclusive housing for employee well-being and success.
- The initiative involves renting and subletting company guesthouses to create welcoming and secure living environments for transgender employees.
- Currently, eight transgender employees are housed in six guesthouses across India.

All-Inclusive Practices

- We have proactively accommodated specific groups, such as LGBTQ+ individuals, people with disabilities, and nursing mothers.
- Our marketing/sales office guidelines now provide clear directives for washrooms designed for sites with diverse representation.
- Currently, we maintain 38 gender-neutral washrooms for trans and non-binary employees across our sites, with our gender-neutral washroom tracker ensuring prompt resolution of any needs.
- Twelve employees have sought gender affirmation support from GPL, with three already undergoing their transition journey.

Queers and Allies

Queers & Allies marked their first anniversary in October 2023 with a vibrant celebration. The community members gathered for a day-long event that included sessions on "Telling Your Own Story," an abridged version of "Leading Self." The day concluded with a significant event attended by all the company's MCs. Pirojsha Godrej gave a Chairman's Address, followed by a fireside chat. The event wrapped up with the finale of Spark Tank, where Q&A ERG members presented innovative solutions to business problems. This allowed them to gain leadership support and work on projects they are passionate about.

POSH Sensitization

At GPL, we prioritize a safe and respectful workplace through comprehensive POSH (Prevention of Sexual Harassment) Trainings:

- IC Member Training: Annual two-day sessions for Internal Committee (IC) members .
- Awareness: Quarterly sessions for all employees, including induction and LGBTQ+ sensitization, covering our Gender Neutral Anti-Sexual Harassment Policy.
- E-Learning: Online POSH training module on Godrejite.
- Ongoing Communication: Year-round email reminders and standees highlighting our zero-tolerance policy and IC member contacts.

A home is truly a home when it includes everyone. Our workplace is our GPL home, and we pledge to enable everyday joys for everyone.

Walk The Talk and Silent site initiative at Godrej Maan Hinjewadi

Enabling Everyday Joys for Everyone

At Godrej Properties, inclusivity is a core value. We appreciate every employee's efforts in making GPL more inclusive for women and the LGBTQ+ community, ensuring everyone feels a sense of belonging.

This year, we are strengthening our teams with the ThisAble Me initiative. This effort aims to raise awareness of the challenges faced by Persons with Disabilities (PwD) and enhance our work environment to be inclusive and accessible for PwD. Currently, 80 People with Disabilities work at GPL as both full-time and off-roll employees. Through ThisAble Me, we continue to build an inclusive workplace for all.

GPL's View on Disability

We view disability not as a personal trait, but as a result of mismatched interactions between individuals and their environment, leading to social, physical, and cognitive exclusion. As leaders in real estate, we must understand how our spaces impact these interactions.

ThisAble Me

Enabling Everyday Joys for Everyone

The ThisAble Me initiative fosters disability confidence through a multifaceted approach. The program sensitizes employees with impactful stories from colleagues with disabilities. It targets hiring through job analysis and disability mapping to match individuals with suitable roles. The "Silent Site" promotes inclusivity for those with speech and hearing impairments, creating a truly inclusive workplace.

We introduced 'Super Godrejite & Allies', a video series inspired by Mario Games, showcasing how individuals with different disabilities navigate the workplace:

We have also shared a comprehensive content booklet to educate and engage our employees. These videos were streamed across sites and offices, with tent cards placed on all desks with a scanner code to access the video and our website on disability, along with information on correct terminologies when addressing a person with a disability.

ALL-INCLUSIVE GPL SALES AND MARKETING OFFICES GUIDELINES

At GPL, we prioritize creating inclusive, welcoming, and supportive environments for all our employees. Our "All-Inclusive GPL Sales and Marketing Offices Guidelines" ensure that our offices cater to the well-being and diverse needs of our team.

Designing Inclusive Spaces

Our guidelines provide a comprehensive framework for designers to ensure inclusivity.

Accessibility: Offices are equipped with ramps, elevators, and accessible restrooms, ensuring ease of access for individuals with disabilities.

Ergonomic Workstations: We provide adjustable ergonomic furniture, including height-adjustable desks and supportive chairs.

Flexible Workspaces: We offer a mix of open-plan areas, private offices, and collaborative spaces to accommodate varied work styles.

Wellness Areas: Dedicated spaces for relaxation and meditation promote mental well-being.

Inclusive Facilities: Gender-neutral restrooms, prayer rooms, and nursing rooms cater to diverse needs.

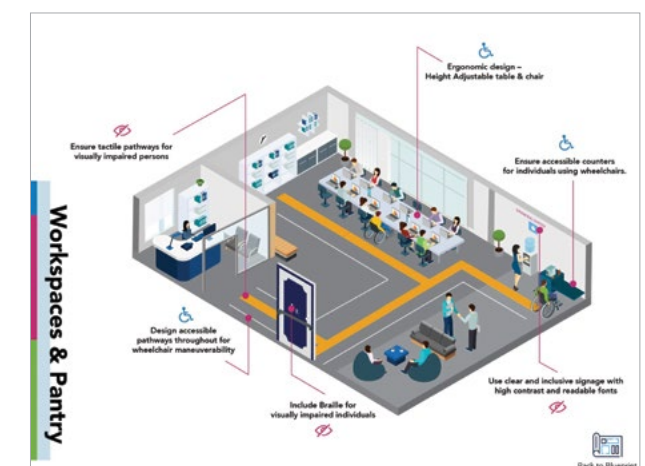

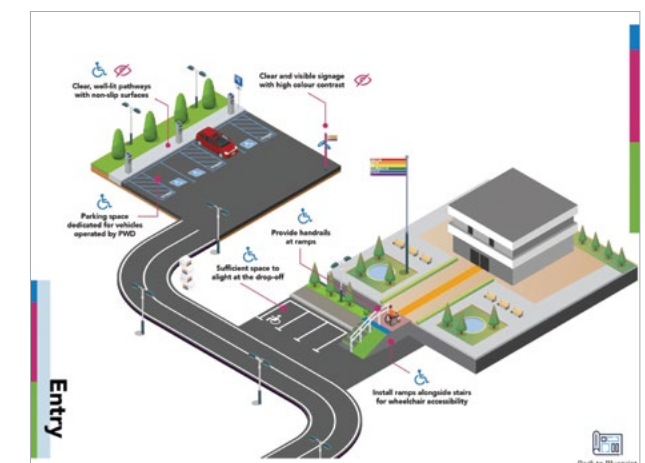

Sustainable Practices: Eco-friendly materials, energy-efficient lighting, and recycling programs support a sustainable workplace.

Cultural Sensitivity: We incorporate cultural elements in artwork and décor to celebrate diversity.

Guidelines for Designers

To consistently meet these standards, our designers

- Conduct thorough assessments to understand office needs.
- Collaborate with employees for input and feedback.
- Use inclusive design principles for functional and pleasing spaces.
- Regularly update designs with new technologies and practices for enhanced inclusivity and sustainability.

SUPPORTING OUR WOMEN WORKFORCE

At our organization, we actively cultivate a culture that supports women, emphasizing equality, well-being, and trust. Our unwavering focus is on creating a workplace that is not only welcoming and secure but also fosters the professional development of our women employees. To achieve this, we implement a range of programs that undergo regular assessment for measurable impact. Our dedication extends to developing women leaders within our organization.

Notable Achievements include:

- A 1.06% increase in female diversity (from 27.44% to 28.79% in FY 2024).
- 31.60% hiring diversity in female (added over 654 women in FY2024), an improvement from 30% (270+ women added), in FY2023.
- An upward trajectory in women’s engagement scores.

CRECHE FACILITIES

We are partnering up with day-care facilities across India to extend this benefit to all our women employees.

SAFETY FOR WOMEN EMPLOYEES

The purpose of the late-night cab facility is to offer a secure transportation option to women who have to work late in the office due to work related emergencies.

EXIT WITH GRACE

We conduct exit interviews with all women employees leaving the organization to gain insights into their reasons for departure and to obtain feedback for organizational improvement.

WOMEN'S AREA

We have created a dedicated relaxation space for women in selected offices.

MATERNITY LEAVE

We offer a fully paid maternity leave of 26 weeks and provide the option to extend the leave as per the employee's requirements. Additionally, we provide flexible work arrangements to support new mothers. We have specially designed guidelines for Employees on Maternity leave so that they don't miss out on Performance review process

ADOPTION BENEFITS

We offer employee benefits to parents who have adopted, including a 3-month leave with full pay and benefits for the primary caregiver, and 7 working days for non-primary caregivers.

CAREGIVER TRAVEL POLICY

This policy allows mothers the comfort of taking their child up to one year of age along with a caretaker (Family member or nanny) for work related travel.

WELCOME BACK

Our Welcome Back process provides a platform for our Alumni to join us back.

ASSISTANCE PROGRAM

We have launched a Maternity Assistance Program tailored to support women through major life transitions like maternity, childbirth, childcare, and postpartum adjustments. This program includes access to counselling services, customized flexible work arrangements, informational resources on childcare choices, and guidance for handling any professional challenges that may emerge during these transitions

SAFEGUARDING THE WELL-BEING OF OUR EMPLOYEES

We have implemented various policies and programs to promote the overall well-being of our employees, including their mental, emotional, and physical health.

EMPLOYEE WELLNESS PROGRAM

At our organization, we greatly value the health and well-being of our employees. To ensure that they are taken care of, we have implemented various policies and initiatives. One such initiative is our Employee Wellness Program. Through this program, our employees have access to expert counsellors who are available 24/7, providing confidential mental wellness support. We take care of the mental, emotional, and physical health of our workforce, and help them manage their stress levels.

We have partnered with Inner Hour, a mental health platform, to provide our employees and their families with access to self-help tools and confidential mental wellness sessions. Our aim is to support our employees in managing personal and work-related concerns, allowing them to deal with sensitive situations outside of work.

We also promote sports and fitness activities to facilitate overall physical health of our workforce.

RETIRE WITH CONFIDENCE

In addition, we care about the welfare of our retired employees and offer tax benefits to employees, their spouses, children, and parents under Section 80D. We also provide ongoing medical insurance to ensure their well-being even after they leave the company.

WORK-LIFE BALANCE MEASURES

HYBRID WORK STRUCTURE

Our hybrid in-office model, which we implemented post-COVID, upholds our flexible work policy. We recognize that remote work can offer many benefits, including the opportunity for employees to devote more time to their personal lives while also increasing productivity by allowing them to work more efficiently. However, we also understand that some collaborations and conversations are more impactful when conducted in person.

TRUST-BASED SICK LEAVE

All our employees are eligible to avail of sick leave on a 'need-to' basis. Absentee Rate for FY24 is 0.42% and for FY23 is 0.20%

SABBATICAL

To encourage our employees to pursue their personal goals, we provide leave for those who aim to further their studies and return to aspirational roles.

EMPLOYEE HEALTH, SAFETY, AND WELL-BEING

Our commitment towards health and safety covers all our stakeholders. Through constant engagement and feedback, we ensure an effective and efficient safety management system.

INTERNATIONAL SOS

We partnered with International SOS to ensure that our employees are taken care of in the event of any health and safety risks at their international locations.

MEDICAL SUPPORT

Our medical benefit scheme offers full support to our employees and their family members during an accident or any other major medical event. We also reimburse all the medical expenditures incurred.

HARMONY HOURS

OBJECTIVE

This policy defines Harmony hours – specific hours in the work-day where employees must avoid any kind of two-way official communication (meetings, calls, mails, texts). This will enable individuals to have focused time for themselves and their families.

The scope of this policy extends to the following:

- 8 pm to 8 am, on regular working days
- An employee's planned/sick leaves
- Holidays, as defined by the Holiday calendar

Employees at GPL

FINANCIAL SUPPORT RELATED MEASURES

PROVIDENT FUND ADMINISTRATION

To provide seamless support for the transfer of funds and facilities for incoming and outgoing employees, we have incorporated an in-house support mechanism. This mechanism ensures the smooth transfer of funds and transfer forms to the department through an appointed agency.

TAX-SAVING SESSIONS

We cover information related to income tax-saving options by way of investments under several heads of Section 80C, home loan, education loan, availability of house rent exemption benefits.

TRANSFER ALLOWANCE

To encourage diversity in our recruitment practices, we provide a transfer allowance to our employees who are relocating across cities for work. This is to ensure that their financial burden is reduced and they can focus on their work without worrying about the additional expenses.

FAMILY-ORIENTED RELATED MEASURES

CAREGIVER TRAVEL POLICY

This policy allows mothers the comfort of taking their child up to one year of age along with a caretaker (family member or nanny) for work-related travel.

PATERNITY LEAVE AND BENEFITS

We support fathers in spending quality time with their newborns by offering ten working days of paternity leave with full pay and benefits. This leave can be taken in up to two instalments and is available up to six months after the birth of the child.

ADOPTION LEAVE AND BENEFITS

We offer employee benefits for those who have adopted or are primary caregivers of a child under one year or older than one year. The employee is entitled to three months of leave with full pay and benefits at the beginning.

We provide equal leaves and benefits to our LGBTQ+ employees, mirroring those offered to employees in heterosexual partnerships.

INCLUSIVE MEASURES

INCLUSIVE EMPLOYEE ONBOARDING POLICY

We at Godrej endorse the adoption of a 'chosen name' whenever appropriate and guarantee confidentiality for individuals who choose to keep their identities undisclosed.

PARTNER POLICY

Godrej acknowledges the importance of partners in the lives of our LGBTQ+ colleagues and extends benefits, including leave travel allowance, maternity/paternity benefits, and hospitalization, to their partners.

INCLUSION OF PARTNER HOSPITALIZATION COVER

We also include "partner" in the hospitalization cover policy for LGBTQ+ colleagues.

GENDER AFFIRMATION POLICY

We provide support for the medical expenses that an employee might incur while undergoing gender transition.

HEALTH AND INSURANCE RELATED MEASURES

LIFE INSURANCE PLAN

We take care of our employees by providing benefits such as mediclaim, life and accident insurance, across levels.

HEALTH INSURANCE PLAN

We prioritize the health and well-being of our employees and their dependents by providing a comprehensive health insurance plan at no additional cost to the employee. We also arrange health check-ups and consultations for our managers above the age of 30 every two years and annually for those above 40. The company bears the expenses for these check-ups and consultations

GROUP TERM INSURANCE SCHEME

We offer insurance coverage to our employees in the unfortunate event of their untimely death. The employee is responsible for paying the insurance premium. In case of accidental death, the amount payable would be one and a half times the sum insured.

HOSPITALIZATION

In the event of hospitalization of any employee, we continue to offer our full support in ensuring their speedy recovery. This is carried out through various schemes that cover employees, parents, spouse, and children.

IMPROVING THE HEALTH AND WELL-BEING OF OUR WORKFORCE

We have recently expanded our pledge towards sustainable construction by integrating health and well-being into our efforts. Consequently, we are proud to announce that all our offices have been successfully certified by the IGBC for Health and Well-being.

WELL-BEING:

We encourage occupants to focus on their physical and mental well-being by providing designated recreation areas.

AIR QUALITY CONTROL:

We regularly measure temperature, humidity, and air velocity in frequently used areas during different seasons to ensure high air quality.

DAYLIGHTING:

In 86.5% of regularly used office spaces, we achieve daylight illumination.

PEST MANAGEMENT:

We have an Integrated Pest Management system in place to effectively manage pests.

SANITIZATION MEASURES:

We follow strict hygiene practices and system cleaning procedures in our workplaces.

QUALITY DRINKING WATER:

We provide access to sufficient water purifiers based on floor capacity to ensure safe drinking water.

GREEN CONNECT:

We emphasize connecting indoor and outdoor spaces with landscaping, courtyards, and terraces.

FRESH AIR AND VENTILATION:

We utilize HVAC and AHU systems that are designed to provide effective fresh air ventilation.

ERGONOMICS:

The interior design of our spaces and furniture adheres to Time Saver Standards to ensure comfort and productivity.

HEALTH AND HYGIENE:

We offer a customized cafeteria menu to promote healthier eating habits among our occupants.

FORTIFYING OUR DIGITAL INFRASTRUCTURE

We are proud to announce our achievement of ISO 27001:2022 certification, a globally recognized standard for our Information Security Management System. Innovation in technology plays a crucial role in optimizing workflows and enhancing efficiency within the property industry. Yet, this technological progression also escalates the need for comprehensive IT frameworks and stronger measures for cybersecurity. Amidst these evolving conditions, maintaining the security, privacy, and accessibility of information is paramount. Godrej Industries Limited and Associated Companies (GILAC) has implemented an Information Security Incident Management Process that details a methodical approach, interconnectedness, and critical metrics for effectively detecting, classifying, reducing, and managing security breaches in a systematic way. This process is mandatory for all GILAC staff and contractors, including those from GPL, who use GPL's resources, networks, and technology for IT-related activities.

DATA PROTECTION AND MEASURES TO SECURE SENSITIVE DATA

Protecting customer information and sensitive data holds utmost importance at GPL. Following GILAC's guidance, we enforce measures to limit bulk downloads and strictly control access, permitting only authorized personnel to reach

vital data. Moreover, we employ techniques like data masking and anonymization to add an additional shield against unauthorized entry. These proactive steps showcase our steadfast dedication to safeguarding sensitive data's confidentiality and integrity.

While safeguarding sensitive data remains our priority, some measures may inadvertently lead to user dissatisfaction, such as extra authentication steps or restricted access to previously available data. To mitigate potential discomfort, we prioritize transparent communication to explain the reasons behind the changes and emphasize the advantages of bolstered data protection. We also provide thorough training to ensure users can adeptly navigate the updated protocols. In cases where necessary, we offer alternative access routes or data sources for those adversely affected by the alterations. Our proactive approach ensures a seamless transition and minimizes any adverse impacts on users.

CYBERSECURITY AWARENESS TRAINING

Recognizing the utmost significance of cybersecurity awareness, GILAC orchestrates an annual training regimen, actively involving GPL. Our aim is to cultivate a cybersecurity-conscious culture and arm our

workforce with indispensable skills and knowledge to fortify our defenses and adeptly mitigate cyber threats. This proactive stance underscores our unwavering dedication to shielding sensitive data and upholding a resilient security posture amidst the ever-shifting digital landscape.

Adhering to GILAC's Information Security Policy (ISMS Policy), GPL diligently follows established protocols that outline our information security objectives. This policy undergoes regular scrutiny and updates, occurring at least annually or in response to significant alterations, and is effectively communicated across all user levels. Annually, GPL conducts risk assessment exercises to pinpoint and evaluate various information security risks, gauging their potential impact on the business and likelihood of occurrence, thus enabling us to prioritize necessary control measures. Furthermore, we conduct annual internal audits to gauge the effectiveness of IT general controls, ensuring their efficiency. Comprehensive training and awareness initiatives tailored to address the prevailing Cyber Security Threat Landscape are provided to all employees. Additionally, we have established a clear escalation protocol for employees to follow in case of suspicious observations.

FOSTERING CUSTOMER CONNECTIONS

In alignment with our purpose statement - "to create spaces that foster everyday joys; one community, one family, and one home at a time," we are committed to delivering a holistic customer experience, beginning from the point of sale, and extending through possession.

Each customer is assigned a dedicated relationship manager, providing a direct point of contact for any inquiries, concerns, grievances, or suggestions. All interactions with customers are meticulously documented within the Service Request Module of our electronic customer relationship management (e-CRM) system.

As part of our Net Promoter Score (NPS) surveys, customers are invited to rate the likelihood of recommending Godrej Properties to friends and family on a scale from 0 to 10, facilitating straightforward and insightful feedback on GPL's products and services. This year, we have enhanced our internal performance measurement system

by incorporating NPS scores from various surveys, including episodic surveys focusing on critical stages like onboarding, registration, site visits, and apartment handover.

In our commitment to sustainability, we have extended our focus beyond building certifications to include IGBC Green Residential Societies during the product use phase. Through handover manuals, sustainability master classes, and targeted site visits, we educate customers on our comprehensive climate-related resilience strategies, ensuring that project-level green building measures translate into tangible customer value.

Our mobile app empowers customers to efficiently manage all aspects of their investment post-purchase, streamlining site visits, addressing complaints, and facilitating communication. Additionally, the app features a notification system for timely updates, announcements, and emergency alerts, ensuring residents remain well-informed.

The Godrej Properties mobile app empowers customers to conveniently manage post purchase aspects of their investment at their fingertips. This app streamlines various community site functions, such as addressing complaints, managing visitors, and facilitating communication. With its complaint management feature, residents are empowered to report any issues or grievances to the community management team, who promptly respond and take appropriate actions. Moreover, the visitor management feature ensures that only authorized individuals gain entry, thereby strengthening community security. The app also includes a notification feature for easy and swift communication of essential updates, announcements, and emergency alerts to keep residents well-informed. Ultimately, this community management application enables the management team to enhance residents' quality of life and cultivate a safe and efficiently run community.

The Mobile App delights customers, maintaining a 4.3 rating on the Playstore (with over 1,000 ratings) and a 4.4 rating on the Appstore (with over 300 ratings).

These high ratings reflect the satisfaction of more than 73% of our existing customers who now use the app. To further enhance convenience, we expanded the app's payment functionality to include Debit and Credit card payments in addition to Netbanking

GUARANTEEING CUSTOMER HEALTH AND WELLBEING

After our customers move into their homes post-possession, GPL implements various initiatives to ensure their continued health and well-being.

CUSTOMER SAFETY

- Our facilities align with the applicable local rules and regulations to cover all life, fire, and safety aspects in the built environment.
- The Fire Department conducts building audits to validate safety protocols and firefighting systems.
- We adhere to IGBC and other green standards, avoiding harmful chemicals and reducing exposure to toxins.
- Our Facility Management teams prioritize customer well-being, offering hazard awareness and updates on ongoing works.
- At project handover, we inform customers about health and safety features included in the delivered project.
- We also provide home safety recommendations to ensure a secure environment for our customers.
- We have created an internal guideline for accessibility in design, titled “Beyond Barriers,” which outlines the standards to be followed to ensure accessible and safe spaces for all customers during the design process.

ELEVATING CUSTOMER SATISFACTION

The contentment and delight of our customers are crucial for our ongoing advancement. Hence, achieving customer satisfaction remains an ongoing objective that we consistently pursue.

NPS PERFORMANCE

As pioneers in the real estate sector, we embraced Net Promoter Score (NPS) early on and leveraged it as a strategic tool to enhance customer advocacy. Since FY 2018-19, we have integrated NPS into employee key result areas (KRAs) to instill a focus on continually enhancing our NPS scores. Utilizing Net Promoter Score (NPS) allows us to assess customer satisfaction and loyalty based on product recommendations. Establishing a benchmark within our industry is crucial for effective metric use. Comparing our NPS with industry averages helps gauge performance, considering factors like geography, industry, survey channels, company size, market dynamics, and customer expectations.

THIS WIDELY ACCEPTED METRIC ALSO OFFERS THE BENEFITS LISTED BELOW:

- 1. Gather valuable customer feedback easily to enhance the customer experience.
- 2. Evaluate performance upon completion basis customer ratings.
- 3. Drives design innovation based on customer feedback & insights.

In FY 2023-24, the relationship survey was sent to 41,634 customers and 14,267 responses were received. The response rate achieved was 34%.

DEMONSTRATING AGILITY IN REGISTRATIONS

We streamlined Agreement registration for over 12,000 customers. Additionally, during FY 24, we conducted mass registrations across our projects, with over 100 customers per project completing their registrations in a single day. Thanks to our targeted efforts in Agreement registrations over the past two years, we successfully decreased the duration from booking to agreement registration by more than 60%.

IMPROVING TRANSPARENCY IN CONSTRUCTION PROGRESS

We welcomed over 15,000 customers, completed more than 13,000 registrations, and facilitated over 20,000 customer site visits. Our monthly construction newsletters provided detailed updates on the company's quality initiatives. In FY2023-24, we continued to enhance our systems to ensure a joyful experience during handover and post-possession.

FOCUSSING ON HANDOVER EXPERIENCE AND LIVING EXPERIENCE

The inception of Godrej Living Pvt. Ltd. marks a significant step toward our goal of bringing joy during the handover and post-possession phases. Through our collaboration with Godrej Living, we have introduced two indices: the Handover Index and Liveability Index. These indices systematically evaluate and gauge customers' experiences during these stages, enabling both teams to collaborate effectively in delivering an exceptional living experience after possession.

In FY 24, we organized more than 50 events, including celebrations of all Indian festivals, to foster community engagement and connection among residents.

SERVICE LEVEL ADHERENCE (SLA)

We meticulously monitor service level adherence and document all customer interactions via our e-CRM Management System. Any unresolved issues undergo automatic escalation to the Management Committee members at the highest level, utilizing the pre-existing workflow within this module. Through the implementation of a relationship manager model, we have significantly enhanced our responsiveness, ensuring swift and satisfactory resolutions for our customers.

UNLOCKING SAFETY EXCELLENCE THROUGH CONTRACTOR PARTNERSHIPS

Construction Activity at The Trees, GPL

At GPL, we prioritize the safety and well-being of our workers above all else. We've implemented a thorough framework that covers everything from selecting contractors to enforcing Occupational Health & Safety measures at all our sites. This is facilitated through the following strategies:

- We pre-qualify contractors before awarding contracts.
- We enforce contract safety rules and regulations.
- We conduct kick-off meetings for on-boarded contractors.
- All employees, including contract workers, undergo mandatory safety induction.
- In addition to induction, we provide job-specific trainings at our locations.
- Quarterly internal safety audits identify improvement areas.
- We evaluate and support contractor performance.

CONTRACTOR PRE-QUALIFICATION

We begin by evaluating potential contractors' Occupational Health & Safety (OH&S) capabilities through a pre-qualification (PQ) assessment before awarding contracts. This assessment gauges their capacity, resources, management practices, and performance. Based on the PQ score, we develop a mitigation plan to address any identified business risks. Contractors with strong OH&S performance and ISO 45001 certification receive preference during this evaluation process.

CONTRACT SAFETY RULES & REGULATIONS AND VERIFICATION

Occupational Health & Safety requirements are a part of the Contractors Agreement; a legal document signed before work begins. This agreement integrates our robust Contracts and Procurement process, which pre-qualifies contractors and consultants. It involves conducting of health checks for contractor's employees, and the data is securely preserved with the contractor's health professional. We meticulously follow this process, making it a prerequisite for every contractor before they are awarded any contract.

Once contracted, the contractor's team implements the required safety measures on-site, which includes infrastructure improvements, training programs, well-equipped first aid center staffed by a certified male nurse, and maintaining an emergency vehicle, all in compliance with laws. We also prioritize confidentiality in handling contractor data to ensure data privacy assurance.

Our Safety Contract rules and regulations are seamlessly integrated into the contract agreement which ensures comprehensive addressing of occupational health and safety (OHS) requirements throughout the project execution.

Workers are informed of their rights through a comprehensive program such as safety induction sessions and regular toolbox talks. Backed by rigorous site visits and mock drills by GPL. The purpose of this verification is to ensure upholding of the rules and regulations.

Note : The above data encompasses project sites outside the reporting the boundary. The rates have been calculated based on 1,000,000 hours worked.

We follow IS 3768, 1983 standards for compiling data, which govern how we compute frequency and severity rates for industrial injuries and classify industrial accidents. Our processes also align with the Building and Other Construction Workers (BOCW) Act to ensure compliance with regulations that are relevant to the safety and well-being of workers.

CONTRACTOR SUPPORT

We start by holding kickoff meetings with all newly on-boarded contractors to ensure they fully grasp our requirements, setting the right tone from the beginning. Following this, contractors submit site safety plans aligned with our agreement for immediate implementation. We also provide specialized training programs tailored to each job to improve safety awareness among contract workers. Additionally, we aid contractors in preparing Hazard Identification and Risk Assessment (HIRA) documents and implementing control measures based on the hierarchy of controls.

WE SUPPORT OUR WORKERS IN THE FOLLOWING WAYS

MEDICAL SUPPORT

We maintain on-site medical facilities including a first aid centre, a male nurse, a first aid kit, an ambulance, and regular doctor visits as a part of our emergency preparedness. Additionally, we have agreements with nearby hospitals for emergency situations.

EQUIPMENT SUPPORT

Our safety induction hall is equipped with audio-visual facilities, and all required personal protective equipment (PPE). We conduct job-specific training sessions and toolbox talks to enhance workers' safety knowledge.

HEALTH GUIDANCE

We ensure all employees and workers undergo health check-ups before starting work and regularly thereafter. We actively encourage them to prioritize their health. For high-risk workers, we conduct medical exams and competency tests upon hiring and periodically to confirm their fitness for the job.

HEALTH MANAGEMENT SERVICES

A medical officer visits each site at least once a week, with designated timings prominently displayed for easy access. We encourage all workers to use this facility for any non-occupational medical issues.

REGULAR HEALTH AND SAFETY CAMPS

We regularly conduct campaigns on smoking and alcohol risks, HIV awareness, and organize medical camps to ensure all workers receive these services.

FOCUSING ON WORKPLACE HEALTH AND SAFETY

Establishing a healthy and safe workplace is paramount for the sustained success of our company. We adhere to a stringent health management system and consistently provide training to our employees on Occupational Health and Safety (OH&S) practices to safeguard their well-being.

HEALTH AND SAFETY MANAGEMENT SYSTEM (HSMS)

At GPL, we prioritize safety of our workers and prevention of accidents through every phase of our projects. We have established a dedicated Occupational Health and Safety (OH&S) Management System to uphold this commitment. This commitment stems from our core values and our recognition of the paramount importance of safeguarding the health and well-being of our employees, contractors, visitors, and the communities in which we operate. Senior management has allocated resources and defined responsibilities to ensure the implementation of safety measures effectively. Our OH&S Management system is underpinned by clear procedures outlined in alignment with our Health & Safety Policy, ensuring consistency across all our sites and applies to all the operational projects and workers within the organization's scope.

To address the dynamic nature of health and safety concerns, our OH&S management system follows the principles of the PDCA cycle. We integrate these principles into the planning, design, construction, and delivery of residential townships and commercial complexes in India. Additionally, we have developed specific standard operating procedures (SOPs) GPL P HS 02 for identifying tracking and monitoring hazards, assessing associated risks, implementing controls to mitigate those risks, and identifying opportunities for improving occupational health and safety (OH&S) within our organization.

The framework includes 5 steps:

- Elimination: Remove hazards
- Substitution: Find safer alternatives.
- Engineering: Control isolate hazards
- Administrative controls: Implement policies.
- Personal Protective Equipment (PPE): Provide final protection, prioritizing personnel safety.

As an ISO 45001:2018 certified organization, we regularly review and update our Health and Safety Management system to uphold the highest standards. Furthermore, we have established procedures for investigating incidents, determining root causes, and implementing corrective actions. We actively share these practices with others to foster ongoing improvement in safety across our projects.

Furthermore, in accordance with the approved procedure, The Hazard Identification, Risk Assessment, and Control (HIRAC) Team is formed, including Project Manager, Project Safety Manager, contractor personnel, and trained worker representatives, ensures quality procedures and competent execution. This comprehensive approach ensures thorough risk evaluation for all project activities."

Additionally, to ensure that the quality of these processes, including the competency of persons who carry them out, the Hazard Identification, Risk Assessment, and Control (HIRAC) Team is formed at our projects, as per the established process. It comprises key stakeholders including the Project Manager (PM), Project Safety Manager (PSM), representatives from contractor personnel, as well as other experienced members such as worker representatives, who are also trained for conducting HIRAC. This inclusive approach ensures a comprehensive assessment of potential hazards and risks across all project activities.

TRAINING AND ASSESSMENT

We have developed comprehensive programs aimed at educating and promoting occupational health and safety among our employees. These initiatives include training sessions, motivational events, and health camps. Additionally, we consistently organize blood donation drives, health lectures, and safety campaigns.

Moreover, our facilities actively participate in events such as National Safety Day, Road Safety Week, and National Fire Service Day to raise awareness about safety and foster a culture of vigilance and preparedness.

THE PILLARS OF GPL'S HEALTH & SAFETY MANAGEMENT SYSTEM ARE:

Implementing and ensuring the effectiveness of our Occupational Health and Safety (OH&S) Management System is a fundamental aspect of our operations.

Fostering a safety-centric culture and enhancing capabilities through effective leadership and people development are key priorities for us.

Continual improvement in monitoring, audits, and compliance is integral to our operational framework.

ENSURING A SECURE WORK ENVIRONMENT FOR OUR EMPLOYEES AND WORKERS

COMMITMENT TOWARDS SAFETY:

To enforce adherence to safety protocols by contractors across our locations, GPL has instituted Joint Project Safety Committees (JPSC) at each site. These committees, led by a GPL Project Manager, comprise representatives from Project Management Consultants and Contractors who follow predefined Standard Operating Procedures (SOPs). The JPSC conducts regular monitoring and provides support for contractor safety measures. Attendance at monthly meetings is mandatory for all participants to discuss and address any safety issues.

Our OH&S Management system includes a comprehensive procedure for the establishment and operation of safety committees at all our locations. For contractors employing more than 100 workers at our sites, the Contractor Site Safety Committee (CSC) is mandated in compliance with BOCW Central Rules 1998, Chapter XXI, Rule 208. Led by the contractor's Project Manager, the CSC convenes at least once a month to ensure full compliance with all safety requirements. Importantly, the CSC includes worker representation to facilitate the reporting of any work-related hazards. Workers are encouraged to report any hazardous conditions or concerns to their immediate supervisor or designated safety personnel.

The GPL Occupational HSMS, as outlined in the Safety Manual, comprehensively delineates the roles and responsibilities of each stakeholder, including workmen. Key elements of the Safety Manual include:

- **Roles and Responsibilities:** The manual clearly defines the roles of project stakeholders—management, supervisors, contractors, consultants, and workers—detailing their safety responsibilities and incident prevention guidelines.
- **Worker Roles:** The Safety Manual underscores workers' authority to refuse unsafe work, prioritizing their safety and enabling prompt hazard mitigation to prevent accidents or injuries.

Additionally, to investigate work-related incidents and employ corrective actions using the hierarchy of controls, GPL follows a structured incident investigation process (SOP: GPL P HS14) to identify root causes, assess risks, and implement corrective actions. Key steps include incident reporting, forming investigation teams, analyzing incidents, conducting root cause analysis, implementing controls based on the hierarchy of controls, and driving continuous improvement in the OH&S MS.

- 

Workers are recognized and rewarded for their contributions at suitable forums.
- 

Comprehensive safety induction trainings are conducted to equip workers with the knowledge to handle potential work-related hazards.
- 

Instructions are delivered in the language understood by the majority of workers to ensure clear communication.
- 

Workers are provided with toolboxes to instil a safety-oriented mindset. They are empowered to halt or decline work in unsafe conditions that pose a risk to their safety and health.
- 

To ensure workers' safety at construction sites at all locations, the right to refuse to work is reserved with the workers. They are encouraged to report any hazardous conditions or concerns to their immediate supervisor or designated safety personnel.
- 

The Contractor Site Safety Committee (CSC) is mandatory for contractors with over 100 employees at our facilities, meeting monthly under the contractor's project manager to ensure compliance with safety regulations. Worker representation aids in reporting work-related hazards.
- 

Assistance and monitoring from the HIRAC team.

4 KEY ELEMENTS OF OHS RISK MANAGEMENT

AT GPL, OUR OBJECTIVE IS TO PROVIDE A SAFE WORK ENVIRONMENT FOR ALL STAFF AND WORKERS, RELYING ON FOUR KEY ELEMENTS OF OHS RISK MANAGEMENT.

CONTINUAL IMPROVEMENT

To ensure adherence to safety standards, GPL employs a robust Internal Audit mechanism that monitors the safety performance of each location. This process identifies areas for improvement, following which the site team ensures compliance with the audit report findings.

SAFETY INFRASTRUCTURE

GPL ensures that every location is equipped with proper safety amenities. This includes safety induction facilities, medical resources such as nurse, ambulance services, and tie-ups with hospitals. Additionally, we provide Personal Protective Equipment (PPE), safety resources, and appropriate electrical equipment to enhance safety measures.

OHS MANAGEMENT SYSTEMS

At GPL, we boast a robust Occupational Health and Safety (OH&S) Management system dedicated to ensuring the implementation and effectiveness of safety measures. We guarantee on-the-ground execution through the preparation of Site Safety Plans, comprehensive Hazard Identification and Risk Assessment for all activities, a stringent Work Permit System, and regular internal safety audits to evaluate effectiveness.

PEOPLE & LEADERSHIP

To cultivate a culture of safety and foster capability building, GPL implements initiatives including Safety Induction sessions for newcomers, Job-Specific trainings tailored to specific roles, Motivational Programs to inspire safety awareness, Safety campaigns to reinforce best practices, regular review meetings such as CSC, Joint site safety committee, and Management review meetings, Health check-ups to monitor well-being, and Toolbox talks to provide practical safety guidance for all employees.

EVOLVING WORKPLACE WELLNESS & SAFETY STANDARDS

We uphold the highest Occupational Health & Safety (OH&S) standards across all GPL projects. We have established a robust Safety Management System aligned with the ISO 45001:2018 standard. Our OH&S Management System, supported by the comprehensive Standard Operating Procedure (SOP) detailed in GPL P HS 05, meticulously plans, and executes Health & Safety training across all locations.

We are pleased to announce that this system has been successfully implemented and verified by a certifying agency during a surveillance audit. Our commitment to maintaining a sustainable safety management system aims to achieve zero harm.

We identify training needs through a multifaceted process that includes:

- Accident Investigation: Inputs from past incidents.
- Safety Observation: Inputs from workforce behavior.
- Upcoming Activities: Nature of construction activities at project sites.
- HIRAC Risk Rating: Work activities with higher risk ratings.
- Health & Safety Updates: Inputs from monthly updates and audit summaries.
- OH&S Campaigns: Recommended safety campaigns and awareness programs.
- Internal Customer Demand: Training needs expressed by senior management and Function/Project Heads.
- Change Management: Introduction of new processes, equipment, machinery, or workmen groups.

- General Awareness: OH&S awareness training on general topics such as policy, legal requirements, and other communications.

Based on these training needs, we prepare and disseminate a monthly Training Calendar to all relevant stakeholders. These training sessions are free of cost and conducted during working hours. We systematically collect feedback from employees using a standardized feedback form (GPL F HS 06) and interactive verbal exchanges at the conclusion of training sessions, maintaining records on attendance sheets. This approach ensures our workforce is equipped with the necessary knowledge and skills to uphold the highest health and safety standards.

TRAININGS CONDUCTED

- Refresher training sessions on ISO 45001 to reinforce understanding and compliance.
- Sensitization workshops for management to deepen awareness of safety protocols.
- Workshops for Project Managers and Safety In-charge personnel to enhance safety expertise.
- Implementation of 'BSC Online Training & Awareness Module' programs targeting Occupational Health (OH), Construction Heads (CH), Project Managers (PM), Regional Safety Managers (RSM), and Project Safety Managers (PSM) to improve OH&S competencies.

KEY OUTPUTS OF THE PROCESS

The implementation process has established various OH&S documents and protocols at GPL:

- GPL OH&S Manual: 01
- GPL Standard Operating Procedures (SOPs): 19
- Occupational Health & Safety Work Instructions: 27
- Occupational Health & Safety Guidelines: 03
- Occupational Health & Safety Annexures: 02

OH&S integration as a cultural concept at GPL has institutionalized three levels for reviewing the OH&S management system:

- Management Review at Organization Level (Level I)
- Management Review at Regional Level (Level II)
- Management Review at Project Level (Level III)

With a vision to establish robust safety processes and foster a safety-oriented culture, all our projects adhere to standard safety requirements and hold ISO 45001:2018 certification.

EMBEDDING HUMAN RIGHTS ACROSS OUR VALUE CHAIN

We prioritize the consideration of human rights in all our interactions with employees, independent contractors, suppliers, clients, and the public. Throughout our value chain, we advocate for safety, diversity, and inclusion, fair compensation, reasonable working hours, and equal opportunities for all individuals. Our labor practices align with our core values, the International Labor Organization's Declaration on Fundamental Principles and Rights at Work, and other international agreements. Our value chain is designed with a focus on respecting human rights, and we have policies in place to mitigate human

rights risks. Mandatory training on human rights aspects, such as Prevention of Sexual Harassment (POSH) and anti-discrimination Code of Conduct, is provided to all employees. Additionally, we conduct human rights due diligence for various groups, including our employees, contractual workers, women, children, construction laborers, and supply chain partners. We have conducted Human Rights Self-Assessment (HRSA) across all active Project Sites and GPL offices, following GPL's Human Rights Policy and the guidelines set forth by the United Nations on Human Rights.

As per the Universal Declaration of Human Rights we are building mechanisms to ensure our workers wage is sufficient to afford a decent standard of living for all their household members, including nutritious food, clean water, housing, education, healthcare, and other essential needs, such as provision for unexpected events.

These assessments are obligatory and cover various areas include:

- Health and Safety
- Hours
- Wages and Leave
- Fair Treatment
- Community Impacts
- Product Stewardship
- Freedom of Association
- Forced Labor
- Child Labor
- Discrimination
- Compliance Monitoring

SELF-ASSESSMENT FOR FY2023-24

External third party audits were undertaken across 7 sites on our internal human rights processes and no instances of non-compliance were found across our sites, thereby obviating the necessity for remedial actions. However, minor observations were noted, and efforts are underway to address them promptly.

THE NUMEROUS HUMAN RIGHTS MEASURES UNDERTAKEN AT GPL CONSISTS OF:

DISCRIMINATION AND HARASSMENT PREVENTION

All Employees

- In order to protect employees from sexual harassment and mitigate the organization's liability, we have implemented Policies on Prevention of Sexual Harassment (POSH). Mandatory training in POSH is provided to all new employees.
- In response to two complaints of sexual harassment, GPL promptly took necessary action. By the end of the financial year, all cases were resolved with appropriate measures.
- Employees have the option to file complaints with an Internal Complaints Committee (ICC) at both regional and central levels within the organization.

HUMAN RIGHTS CULTURE BUILDING

Security Personnel

- Our security personnel undergo human rights training as part of their contractual agreements with agencies.
- We structure our operations and investment agreements with stringent human rights clauses and conduct thorough reviews.

Employees

- Chai-pe-charcha, team huddles, and site events are among the engagement formats we utilize to formally address employee grievances.
- All employees have the opportunity to connect with our leaders, and the steps to do so are accessible on the company's intranet.

COMMUNITY RIGHTS

Local Communities

- We protect the land rights of all communities and uphold the principle of free, prior, informed consent.

FAIR REMUNERATION

- We offer competitive employee compensation packages that align with industry standards and the local labour market.
- The Central Labour Law Compliance Team ensures that contractors adhere to minimum wage requirements.

HEALTH & SAFETY

- Guaranteeing a safe, hygienic, and healthy workplace for our contractor workforce in full compliance with relevant health and safety regulations.
- Minimizing the likelihood of accidents, injuries, and exposure to health risks by adhering to applicable health and safety laws.

Our Human Rights policy affirms our commitment to upholding dignity and respect for all individuals

ENSURING A SUSTAINABLE SUPPLY CHAIN

Establishing robust supply chain networks is crucial for fostering sustainable real estate development. This enables us to mitigate supply chain risks that could impact our operations, business continuity, and reputation. We prioritize anti-corruption policies and collaborate with individuals and organizations that uphold these standards. Our approach includes thoroughly assessing joint venture partners, contractors, vendors, and other third parties as part of our anti-corruption due diligence process. We enforce laws pertaining to worker wages, health and safety, and other workplace regulations across all our partnerships. By openly discussing industry best practices with our partners, we contribute to the advancement of the ecosystem.

Moreover, we have strengthened GPL's Vendor Code of Conduct, incorporating minimum requirements that vendors must meet before engaging in business with us. The updated Vendor Code of Conduct now includes provisions for minimum Environmental, Social, and Governance (ESG) requirements, encompassing the monitoring of greenhouse gas emissions, hazardous waste treatment, and resource optimization. This code guarantees that our

vendors adhere to our Human Rights policy, with enhanced scrutiny of principles such as human rights, labor laws, and working conditions.

We understand the criticality of reducing supply chain risks. Our targets, approved by SBTi, mandate that we ensure 88.5% of our suppliers by emissions in FY 2021 adopt Science-based Targets for emissions related to purchased goods and services by FY2026. In line with the set targets, we are developing a supplier engagement strategy. This involves steps such as assessing and analyzing current suppliers, outlining criteria for supplier selection, designing structured engagement programs, facilitating capacity building workshops, promoting transparency, establishing performance metrics and monitoring, conducting audits to ensure supply chain compliance and focusing on continual improvement. This demonstrates our strategy at Godrej Properties to manage risks throughout the value chain while motivating suppliers to embrace sustainability autonomously.

SUPPLY CHAIN ENGAGEMENT FRAMEWORK

ONBOARD SCREENING

During the on-boarding process, suppliers must comply with GPL's Code of Conduct and policies, covering business ethics, human rights, health, and safety. Supplier screening occurs in the pre-construction phase using specified criteria to ensure they meet these standards. We evaluate significant suppliers considering environmental, social, governance, and business relevance factors. Our screening process for significant suppliers also considers, country-specific, sector-specific, and commodity-specific risks.

GAP IDENTIFICATION

We identify gaps through the promotion of supplier capability development initiatives, in accordance with requirements as per IGBC or equivalent rating systems

VENDOR SCREENING

The contract and procurement team at GPL undergoes awareness sessions on the Supply Chain Engagement process and the Supplier Assessment framework. Zonal contract and procurement teams are tasked with conducting vendor assessments within their respective regions. We have a robust vendor ESG screening framework to provide capacity building support to our suppliers

FOSTERING SUSTAINABILITY IN SUPPLIER NETWORKS

At GPL, we recognize the significance of responsible procurement. We encourage our suppliers to report on Environmental, Social, and Governance (ESG) parameters to align with our strategic objectives. Additionally, we prioritize nominated human rights initiatives, which involves raising awareness about contractors' and suppliers' working conditions and emissions resulting from supply chain operations. By the end of 2026, our goal is to ensure that 88.5% of our suppliers, based on emissions, will have Science-based Targets.

SUPPLIER ASSESSMENT

We acknowledge that Scope 3 emissions accounted for 99.74% of our overall emissions in 2023 and 99.81% in 2024. With our Scope 3 target validated by SBTi, we are committed to further streamlining the procurement process and supporting our suppliers in achieving their independent ESG targets. To achieve this, we conducted a mapping of our Tier 1 suppliers based on their emission profile and business volume, identifying those most relevant to our operations. Subsequently, we prioritized our Tier 1 suppliers for the top 5 material categories based on their emission profile.

Furthermore, we enhanced our vendor assessment form by incorporating essential ESG parameters such as human rights, safety management systems, emission reduction initiatives, environmental targets (SBTi), internal carbon pricing, and grievance redressal mechanisms. Leveraging our online ESG portal 'GREEN DASH', we distributed the Supplier Assessment Questionnaire to our Tier 1 suppliers to evaluate their performance. We have been diligently reviewing the responses received through desk reviews and are currently conducting audits and capacity-building sessions with our suppliers to assist them in achieving their sustainability targets.

GPL was recognized by CDP as a Supplier Engagement Leader in 2023, and is among the top 19% assessed for supplier engagement on climate change, based on 2023 CDP disclosure.

SUPPLY CHAIN ASSESSMENTS

Risk Assessment: Our Technical Standard for Supplier and Contractor Management outlines the core components of our Supplier Risk Management process, offering a uniform method to manage supplier related risks and their impact on our organisation.

SOURCING SUSTAINABLE MATERIALS

GPL has consistently aimed to substitute conventional materials with sustainable alternatives that have lower emission profiles. For instance, we have adopted the use of Ground Granulated Blast-furnace Slag (GGBS) and fly ash to reduce use of virgin cement consumption. Similarly, we prioritize sourcing Forest Stewardship Council (FSC) certified renewable wood over virgin wood.

GPL’s Supplier ESG programs are comprehensive and include key components. We have strong oversight from the Executive Management to ensure commitment and accountability. Our purchasing practices are regularly reviewed to align with our Supplier Code of Conduct and Procurement Policy, promoting ethical and sustainable sourcing. We give priority to suppliers with superior ESG performance, such as those with green certification and local presence, to minimize transportation distances and environmental impact. Additionally, we continue to explore suppliers providing low embodied carbon materials.

To support these efforts, we conduct training programs for company buyers and internal stakeholders, ensuring they understand their roles in the supplier ESG program and make informed decisions aligned with our sustainability goals. Additionally, we’re engaging with suppliers in concrete (RMC), tiles, steel (TOR), and cement to set SBTi targets by FY 2026.

LINKING ESG PERFORMANCE WITH CSR IMPACT

Integrating sustainability into core operations, we align our corporate social responsibility initiatives with overarching environmental, social, and governance objectives. Our CSR initiatives are aligned towards Group wide Good and Green goals and focus areas. Through strategic partnerships with non-profits, regulatory bodies, government institutions, and communities, we strive to create measurable positive social and environmental impact, fostering shared value creation and business continuity.

NARRATIVES FROM OUR CRECHES

NURTURING DEVANSH: OVERCOMING MALNUTRITION

Devansh Sheshrao Umap (World City – 1), aged 2.1 years and weighing 8.40 kg, was admitted to the daycare center due to being underweight and malnourished. Additionally, Devansh showed discomfort in interacting with peers and reluctance to eat meals or drink milk at the center.

In response, our staff actively encouraged Devansh's mother to attend mealtimes regularly at the center to feed him. This approach allowed Devansh to gradually adjust to eating alongside other children of his age. Furthermore, after a health check-up, Devansh started receiving regular nutritional supplements as recommended by the doctor. These interventions resulted in a significant improvement in Devansh's oral food intake, leading to a weight gain of 2 kg, and he now exhibits playful behavior.

VISIONARY CARE: A TALE OF TWO SISTERS

During their first check-up at the center, a visiting doctor referred Mehek Shaikh, aged 3.10 years, and Munafa Shaikh, aged 8.2 years, to H V Desai Eye Hospital for further evaluation due to eyesight issues. At the hospital, both sisters received tailored spectacles. Mehek's condition required eye surgery, scheduled for a follow-up after April 24th, while Munafa was prescribed eye drops and identified with a minor cataract spot in one eye, requiring a follow-up after two months. The sisters have since returned to their native place and plan to revisit the hospital shortly for ongoing treatment and monitoring of their eye health.

BRINGING SMILE TO OUR BABY GIRL – KHUSHI

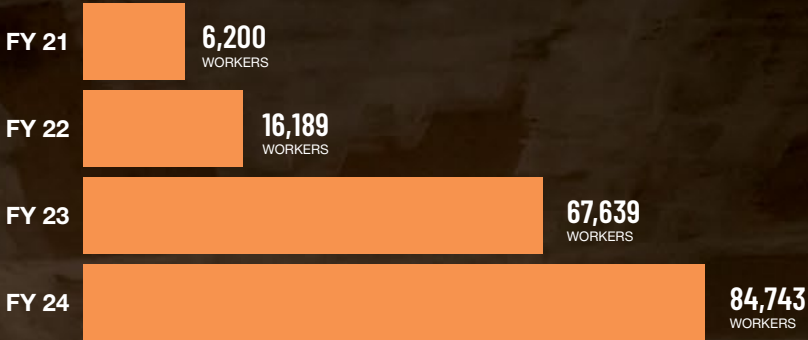

Khushi, a resident of Bongai village in Assam state, shows great promise. Due to her parents' strained relationship and subsequent remarriages, Khushi found herself in a vulnerable situation. In Sohna city, Gurugram, Haryana, Khushi's maternal grandmother stepped in to care for her. Khushi, a student in the 2023-2024 session, faces challenges, with her grandmother collecting garbage in the early morning to sustain the household. Despite sometimes having limited food, Khushi's determination remains strong.

Upon encountering Khushi during their fieldwork, the staff of Parivartan Kendra recognized her potential and persuaded her grandmother to enroll her in school. This decision meant Khushi could receive nutritious meals, stationery, and free education. Through her perseverance, Khushi has begun to speak and understand Hindi, walks long distances to school daily, and has mastered writing skills appropriate for her grade level. She consistently attends school in proper attire, embodying the qualities of a dedicated student.

FOSTERING SOCIAL PROTECTION FOR WORKFORCE

One of the biggest groups of workers in the unorganized sector is the building and other construction workers (BOCW). Our goal at GPL is to assist these underrepresented yet significant stakeholders. We collaborate with our non-governmental organization partners to unlock government money and grant access to social protection and entitlements. We offer full help and make welfare schemes easier to access. These programmes are specially made with construction workers in mind.

GENERATING SOCIAL IMPACT THROUGH WATER CONSERVATION AND SOCIAL IMPACT

WATER CONSERVATION

One of the most urgent issues of the modern day is water scarcity. We are aware of this and constantly work to preserve water. In the Beed district of Maharashtra, we started an integrated watershed development initiative in 2016 across around 3,300 hectares of land in the villages of Bavi, Zapewadi, and Jamb. 2019 marked the completion of the watershed interventions' implementation. The National

Bank for Agriculture and Rural Development (NABARD) and Nisarg Vikas Bahuudeshiya Sevabhavi Sanstha (Nisarg) collaborated to support the planning and execution of these watershed initiatives.

We worked with Ekonnnect Knowledge Foundation to evaluate the effects of the watershed development.

2. September 2022 (Monsoon)
3. March 2023 (Post Monsoon)

WHAT

1. 26 wells across the 3 villages
2. Analysis of:
 - Water quality and quantity
 - Changes in vegetation cover
 - Surface water quantity
3. More than 286 Households (17% of the total no. of households) for social impact

TOOLS USED

- Remote Sensing and Geographic Information System (GIS)
- Structured questionnaire for household surveys
- Focused group discussion (FGD) guide
- In-depth interview guide

APPROACH TO ESTIMATE POTENTIAL GROUND WATER RECHARGE

1. Direct groundwater infiltration of rainwater from land surface with less than 20% slope.
2. Groundwater infiltration at check dams and other rainwater harvesting structures that allow rainwater sufficient time to percolate.
3. Partial groundwater infiltration of irrigation water in the crop land area.

CONCLUSION

1. The Potential groundwater recharge stood at 248.16 Ha-m in Bavi, 263.59 Ha-m Zapewadi, and 301.68 Ha-m in Jamb.
2. There was a significant rise in surface water bodies such as lakes, streams, water channels etc. in the pre-monsoon and post-monsoon seasons, across Jamb, Zapewadi and Bavi.

PROMOTING CARBON SEQUESTRATION ON FARM AND COMMUNITY LAND

As part of our journey towards carbon neutrality we have instituted 'Afforestation of Land' programs across India. We partnered with Sankalptaru Foundation for the implementation of tree plantation project on farmlands. Through our tree plantation project with farmers in Buldhana in Maharashtra, 100% of beneficiaries were benefitted through distribution of saplings in addition to drip irrigation provided to them to maintain the saplings. Through these endeavours, we also hope to contribute towards climate change mitigation and revitalization of local ecosystems and focus on economic growth of farmers.

MANAGING CROP RESIDUE

Cropping cycles have been seriously influenced by changing weather patterns. Farmers in North India are forced to burn crop leftovers on their fields in order to prepare them for the following harvest since the monsoon has been delayed. We started a trial Crop residue management (CRM) initiative last year as part of our CSR commitment, and this year we've ramped it up. The project complies with the 2020 criteria for CRM for Punjab, Haryana, Uttar Pradesh, and the National Capital Territory of Delhi as forth by the Indian government.

Reducing stubble burning was mandated because of its detrimental effects on the NCR's air pollution levels. We are happy to announce that, as of this year, 4,929 hectares of farmland have been spared from stubble burning, an increase from 2,379 hectares the previous year. Stubble is gathered to make Biomass pellets, used as mulch in soil, and utilized as fuel in sugarcane manufacturers.

MINIMIZING WASTE TO LANDFILL

We have established decentralized solid waste management in Konark, Bhubaneswar, Agra, Budni, Gohad, Dhanpuri, and Bakho to meet our aim of "Minimising waste to landfill." Furthermore, we have implemented a pilot program for bioremediation and biomining at the Chakrata landfill site, in addition to establishing a Material Recovery Facility and Micro-composting centre on the site.

GLOBAL ECONOMY

In 2023, the global economy faced a complex scenario characterized by persistent inflation, geopolitical tensions, tightening monetary policies, and ongoing pandemic repercussions, all contributing to a decline in growth. According to the World Economic Output (WEO) update, global growth slowed from 3.5% in CY2022 to 3.0% in CY2023. Central Banks raised interest rates in CY2023 to counter inflationary pressures. Despite challenges such as supply chain disruptions and elevated inflation, major economies received support from fiscal stimulus, monetary policies, trade agreements, international aid, green initiatives, and technological investments.

The International Monetary Fund (IMF) projects moderate and stable growth for CY2024 & CY2025 at 3.2%, albeit lower than the historical average of 3.1%. This expectation reflects sluggish economic activity, primarily attributed to a slowdown in advanced economies. The growth rate of these economies, which stood at 1.6% in CY2023, is anticipated to remain sluggish at 1.7% to 1.8% over the next two years due to policy tightening, financial sector turmoil, high inflation, the ongoing conflict between Israel and Gaza, and the lingering effects of four years of the COVID pandemic.

The slow growth rate persists amidst a cost-of-living crisis triggered by disruptions in energy and food markets due to Russia's conflict in Ukraine, coupled with global monetary tightening to address inflationary pressures and reduced fiscal support. However, the resilience seen in the United States and several significant emerging market economies, along with continued fiscal support in China, will bolster global growth.

Inflation rates are declining more rapidly than anticipated across most regions, supported by tight monetary policies. Combined with a modest uptick in economic activity, this sets the stage for a softer-than-expected economic slowdown.

In advanced economies, growth rates are forecasted to reach 1.7% in CY2024, improving to 1.8% in CY2025. The US demonstrates resilient consumption and investment, while Euro area activity is expected to remain sluggish. Among emerging markets and developing economies, growth is estimated at 4.2% in CY2025. China faces challenges from its real estate crisis, tax hikes, spending cuts, and weakening confidence, yet it is anticipated to grow at 4.6% in CY2024 due to increased government spending. India is set to maintain its position as the fastest-growing large economy, driven by robust domestic demand.

Global inflation is projected to decrease from an estimated 6.8% in CY2023 to 5.9% in CY2024 and further to 4.5% in 2025, primarily due to accelerated disinflation in advanced economies. Declining inflationary pressures vary by country

but generally stem from reduced core inflation, influenced by ongoing tight monetary policies, softened labor markets, and impacts from lower energy prices. The IMF forecasts a 2.3% decline in oil prices in CY2024, while non-fuel commodity prices are expected to drop by 0.9%. Heightened tensions in the Gaza-Israel region, which accounts for approximately 35% of global oil exports, could lead to supply shocks if the conflict escalates. Continued trade distortions and geopolitical fragmentation are anticipated to persist, exerting pressure on global trade levels.

The risks to global economic growth are balanced, with potential upside from quicker disinflation, slower withdrawal of fiscal support measures, robust economic expansion in China, and advancements in supply-side reforms. Conversely, downside risks include spikes in commodity prices due to geopolitical or weather-related disruptions, ongoing core inflation necessitating tighter monetary policies, potential slowdowns in Chinese growth, and potential disruptions from abrupt fiscal consolidations.

INDIAN ECONOMY

The Indian economy continues to strengthen despite the global headwinds. As per the First Advance Estimates (FAE) released by the National Statistical Office (NSO), real Gross Domestic Product (GDP) is expected to grow by 7.3%, in FY2023-24, underpinned by strong investment activity ¹.

For FY2024-25, growth, while still healthy, may see a moderation to 6.8%-7% as per various estimates due to high interest rates and lower fiscal impulse would temper demand and the net tax impact would normalize. Also, the uneven economic growth of some trading partners and escalation of geopolitical uncertainties can drag down exports.

Support will come from other areas. Household consumption is expected to improve as continued disinflation will prop up the purchasing power of consumers. Secondly, healthy rabi sowing and good kharif output assuming a normal monsoon will support agricultural income. Thirdly, prospects of fixed investment remain bright owing to an upturn in the private capex cycle, improved business sentiments, healthy balance sheets of corporates and banks as well as the government's continued thrust on capital expenditure. A sustained economic growth will lead India to become the 3rd largest and an upper middle-income economy in years to come.

Improving the outlook for global trade and increasing integration in the global supply chain will support net external demand. Headwinds from geopolitical tensions, volatility in international financial markets and geoeconomic

fragmentation, however, pose risks to the outlook. The Reserve Bank of India (RBI) has kept the Repo Rate unchanged since February 2023 to manage retail inflation within its target range, which has consistently stayed above the 4% mark. In July 2023, Consumer Price Index (CPI) inflation rose to 7.44%, the highest level seen since September 2022. The CPI has since eased and is hovering around 5%. The RBI anticipates a 4.5% inflation for FY2025. Economists expect the RBI MPC to maintain the repo rate at 6.5%, marking the seventh consecutive unchanged rate. Indian banks, with approximately 70% of assets in floating-rate loans, face less exposure to interest rate risks compared to their global counterparts. This arrangement allows them to benefit from rising rates and reduces potential losses on bond holdings as interest rates climb.

The World Bank expects India to grow by 6.6% in FY2024-25 after an estimated growth of 7.5% in the previous financial year.

Although the short-term outlook appears challenging due to rising interest rates, external supply shocks, and geopolitical tensions, we believe the government is taking appropriate measures to ensure a sustainable growth trajectory for the country. The union budget presented this year strongly supports the long-term growth of India's real estate sector through its focus on urban infrastructure and the digital economy. The government's significantly expanded capital expenditure target for the year is expected to generate job opportunities and stimulate higher economic activity.

REAL ESTATE SECTOR

In FY2024, the real estate sector saw remarkable growth, driven by strong housing demand, stable interest rates, and a robust economy. Real estate investments in India reached \$5.1 billion, with a substantial portion allocated to land acquisitions, representing 40% of total investments. This trend expanded to tier 2 and tier 3 cities, highlighting real estate's attractiveness as an investment avenue, including options like direct purchases, Real-Estate-Investment-Trusts (REITs), and Mortgage-backed-Securities (MBS).

FY2024 was a milestone year for India's real estate sector, with record-breaking sales and sustained growth. Despite a notable increase in new launches, inventory levels remained stable or decreased in tier-1 cities, highlighting strong demand. The residential segment excelled, driven by stable interest rates, a robust economy, and evolving consumer preferences. The demand for Commercial office space recovered from slowdown induced by remote work trends and global economic slowdown, while the retail real estate sector experienced a robust revival, surpassing pre-pandemic consumption levels.

RESIDENTIAL REAL ESTATE MARKET

In CY2023, India's residential real estate sector demonstrated resilience with sustained strong demand. Property sales surged significantly higher than the previous year. This robust performance reflects enduring demand fueled by a robust economic rebound, favorable affordability, and positive macroeconomic conditions. However, challenges like

soaring raw material costs, consumer inflation, and increased borrowing expenses emerged.

The lockdown periods led to heightened savings and minimal income disruptions among mid to high-income segments, bolstering sustained demand. Additionally, the real estate sector found relief in the RBI's decision to maintain the policy repo rate. The sector experienced notable changes in underlying factors during CY2023, indicating evolving market dynamics, as per property consultant Knight Frank ¹. The sales performance in CY2023 demonstrated significant strength. The total value of homes sold in CY2023 rose by 38% compared to the total sales value for all of CY2022.

The Knight Frank Affordability Index, which monitored the ratio of Equated Monthly Instalment (EMI) to income for households, showed signs of improvement after a brief decline in affordability levels observed in CY2022. This improvement was driven by stronger-than-anticipated economic momentum, and inflation levels remaining within the central bank's tolerance band. These factors resulted in higher income levels that offset the rise in prices and interest rates.

Although there was only a marginal overall improvement in affordability, Mumbai remained the only city surpassing the affordability threshold of 50%, with Ahmedabad retaining its position as the most affordable housing market at 21% affordability. Other cities like Pune and Kolkata followed closely at 24% in CY2023. Affordability levels across cities significantly improved compared to pre-pandemic CY2019 levels, with NCR's affordability index rising from 34% in CY2019 to 27% in CY2023, and Bengaluru increasing from 32% in CY2019 to 26% in CY2023.

The surge in demand led to a rapid pace of residential development, with annual unit launches reaching nine-year peaks. Despite rising inventory levels, the Quarters to Sell (QTS) metric decreased from 8.7 in H2 CY2020 to 5.9 quarters (less than 18 months) in H2 CY2023, reflecting robust market fundamentals amid growing demand and development activity.

The real estate market experienced an unprecedented surge in CY2023, surpassing expectations and setting new records. This has created significant opportunities for both domestic and international investors, driving the economy forward. Overall, the residential sector remains a focal point for growth, fueled by sustained demand and stable economic conditions.

NCR

In CY2023, NCR maintained a steady performance, with robust growth seen in homebuying demand within the primary residential market. The milestone of 60,002 residential units sold was achieved, marking the highest level since CY2013. The year CY2023 witnessed a 3% year-on-year (YoY) increase in residential sales volume compared to CY2022, driven partly by pent-up demand following the pandemic. However, delays in purchasing decisions arose due to a scarcity of ready-to-move-in projects in preferred locations, somewhat hindering sales growth.

¹ Press Note, First Advance Estimates of National Income, 2023-24, Released by National Statistical Office

¹ Knight Frank report on India Real Estate for H2CY23

Over the past two years, the share of residential products with ticket sizes > INR 10 mn in the total sales volume consistently surged in the NCR. This category's share expanded from 37% in CY2021 to 65% in CY2023. Homebuyer preference for products priced upwards of INR 10 mn remained strong, reflecting a trend where spacious homes with high-end amenities are redefining post-pandemic living for high-net-worth individuals.

In contrast to residential sales, new launches in CY2023 experienced a slight decline of 1% compared to CY2022, dropping from 63,233 units to 62,649 units. Despite this decrease, developers continued to introduce new projects to capitalize on the demand for new homes and prioritized acquiring new land for future project pipelines.

MMR

In CY2023, the Mumbai real estate market experienced robust growth despite global challenges, retaining its position as the top market with 86,871 units sold, marking the highest sales in eleven years. This surge stemmed from a positive economic outlook, increased disposable income among buyers, a shift towards larger homes, and a fear of missing out on opportunities in the flourishing market amidst rising prices.

Sales surged during festive seasons like Navratri, Dussehra, and Diwali, which traditionally witness heightened real estate activities due to positive sentiments and developer strategies of introducing new projects with attractive payment plans.

The momentum in new project launches remained strong, with Mumbai witnessing 93,051 new units introduced in CY2023, the highest since CY2014. The residential market in Mumbai is poised for continued growth, driven by strong consumer demand fueled by ongoing infrastructural developments, rising affluence, and evolving consumer preferences.

Bengaluru

Bengaluru's residential real estate market in CY2023 showed resilience despite rising borrowing costs and economic challenges from tech sector volatility and funding constraints in the startup ecosystem. The city experienced a nine-year high in residential sales volume, reaching 54,046 units, indicating sustained interest in home ownership. This strong sales performance boosted developer confidence, leading to an increase in large-scale project launches with 51,126 units introduced during the year, marking a multi-year high and attracting both local and non-local developers.

Residential prices in Bengaluru grew by 9% YoY, with a weighted average price of INR 63,505/sq m. The price growth is primarily driven by demand as the hybrid work structure and return to office are encouraging people, especially those in the IT sector, to move back to the city. To meet this demand, residential supply in the city is also increasing, as seen in the multi-year high launches in 2023. Looking ahead, as supply aligns with demand, price growth is expected to moderate in 2024. Nevertheless, Bengaluru's real estate market is expected to remain vibrant due to the city's growing economic profile.

Pune

In CY2023, Pune's real estate market experienced significant growth, with 49,266 units sold, marking a 13% YoY increase. This surge was propelled by migrant workers and heightened demand during festive seasons. New project launches also rose by 10% YoY to 42,437 units, indicating a preference for larger homes with dedicated workspaces. The growth was particularly prominent in the West Zone, which accounted for 41% of total sales, driven by Pune's status as an IT hub and focused infrastructure development efforts. This evolution has positioned Pune as a pivotal housing destination, prompting leading developers to actively pursue opportunities in this burgeoning market.

OFFICE MARKET

The office market across major Indian cities demonstrated resilience in CY2023, despite global challenges. Bengaluru's average rentals grew by 6.6% YoY to INR 930/sq m/month, driven by increased demand in key micro markets like PBD East and ORR. Mumbai's office rents rose by 3.6% YoY, supported by improved infrastructure and new metro lines. The National Capital Region (NCR) saw unprecedented growth in office leasing, reaching a decadal high of 0.9 mn sq m in transaction volume, with a 14% increase over CY2022.

In Bengaluru, the acceleration of firms returning to office and growth in India-facing businesses boosted demand, while stable inflow from western markets supported Mumbai's rental growth. NCR's office market saw a decline in vacancies to 12.3% due to record leasing in CY2023, indicating a positive trend for market health. Pune's office rents also rose moderately by 2% YoY, reflecting increased transactions amid limited supply.

BUDGET 2024 - TAKEAWAYS

This year's union budget was supportive to fostering long-term growth in India's real estate sector, emphasizing urban infrastructure development and the digital economy. The Government's heightened emphasis on infrastructure capital expenditure sets a favorable backdrop for real estate opportunities. Key measures in this regard include:

Inclusive Development

Despite COVID-19 challenges, PMAY (Rural) is close to its three crore houses target, with plans for two crores more houses in five years. The PMAY scheme for affordable housing includes PMAY (Urban) and PMAY (Rural), with a total allocation of ₹80,671 crore, of which ₹54,500 crore is for PMAY (Rural). PM-SVANidhi successfully supported 78 lakh street vendors with credit. The government aims for holistic development, envisioning 'Viksit Bharat' by 2047.

Housing

The PM Awas Yojana announced plans for 2 crore houses in the future, but details about the urban wing were lacking. Additionally, a target of 1 crore houses for rooftop solarization was set, offering urban households 300 units of free

electricity monthly. The Budget highlighted a new scheme for middle-class urban residents in rented housing, slums, chawls, or unauthorized colonies, allowing them to buy or build their own homes.

Urban Reforms

The ongoing municipal reforms featured an incentivization package and a fifty-year loan to states, with a focus on capital project utilization and urban planning reforms to boost municipal bond creditworthiness.¹

BUDGET 2024 – KEY TAKEAWAYS FOR CLIMATE CHANGE

The Union Budget for FY 2024-25 reflects India's resolute stride towards sustainability, harnessing renewable energy, and fostering sustainable development amidst the pressing global climate challenges. Emphasizing "Amrit Kaal," the budget outlines an ambitious pathway to achieve a "Prosperous Bharat in harmony with nature, modern infrastructure, and opportunities for all," aiming for net-zero emissions by 2070. The capital expenditure outlay has been raised by 11.1%, with India's Real GDP expected to expand at a rate of 7.3%. The government's commitment to stimulating growth through infrastructure development is underscored by its decision to expand the PM Awas Yojana (Grameen), aiming to construct an additional two crore homes over the next five years in response to the growing number of households. The fund allocation has risen to ₹80,671 crore, up from the previous year's budget estimate of ₹79,590 crore. Furthermore, the initiative to provide one crore households with up to 300 units of free electricity each month through rooftop solarization aligns with this strategic focus on bolstering infrastructure and sustainable development.

The government is set to enhance the electric vehicle infrastructure, supporting the production and expansion of charging stations. It aims to boost the use of electric buses across public transportation systems with the help of a payment security mechanism. Budget allocations reflect this focus: funding for Solar Power (Grid) has risen from ₹4,970 crore in 2023-24 to ₹8,500 crore in 2024-25. In a similar vein, investment in the National Green Hydrogen Mission has increased from ₹297 crore to ₹600 crore. These increases highlight the government's commitment to advancing renewable energy and fostering eco-friendly practices. Additionally, a systematic integration of compressed biogas with natural gas for vehicles and homes will be initiated.²

During the 26th session of the Conference of the Parties (COP-26) to the United Nations Framework Convention on Climate Change (UNFCCC) in 2021, India set forth ambitious climate objectives. The country has updated its goals for 2030, aiming to achieve 500 GW of non-fossil fuel energy capacity, meet 50% of its energy needs with renewable resources, cut the carbon intensity of its economy by 45% from 2005 levels, and reach carbon neutrality by 2070. The following COP-27, convened in Sharm El-Sheikh, Egypt, marked a shift from setting goals to implementing them, with

a spotlight on the adaptation agenda and the integration of technology. Support was garnered for financing the achievement of these climate goals and advancing the development of models for a low carbon transition. The promotion of carbon credits and the establishment of carbon markets to assist in the transition towards low carbon emissions were also emphasized. At COP28, India articulated a stance on climate action, underscoring its achievements, commitments, and the principle of climate justice as central to global efforts. The country highlighted its progress towards its Nationally Determined Contributions (NDCs), including a significant reduction in emission intensity and a substantial increase in non-fossil fuel-based electric capacity ahead of its 2030 targets. To reach net-zero emissions by 2070, blending compressed biogas with CNG and PNG will be gradually enforced. Moreover, by 2030, there are plans to install coal gasification and liquefaction facilities with a capacity of 100 metric tonnes. In pursuit of India's 'net-zero' goal by 2070, key initiatives include: allocating viability gap funding for 1 GW of offshore wind energy, establishing a 100 MT coal gasification and liquefaction capacity by 2030 to decrease imports, mandating phased blending of CBG with CNG and PNG, and offering financial support for biomass aggregation machinery.

The 2024-25 Union Budget presents a blueprint that combines technology, environmental sustainability, and economic advancement. It is geared towards creating jobs by investing in renewable energy, eco-friendly fuels, and sustainable farming. The budget's financial provisions are aimed at supporting a green revival and fulfilling climate commitments in a thorough and inclusive manner.

IMPACT OF CLIMATE CHANGE ON REAL ESTATE SECTOR

In 2022, emissions from buildings, covering both operational (26%) and embodied emissions (7%), made up about a third of total energy system emissions. The emissions intensity of cement production has increased by close to 10% since 2015, which is challenging to decarbonize. The rest stems from direct on-site emissions, predominantly from electricity use for lighting and air conditioning. There's a significant yet unexplored opportunity to reduce emissions, hindered by the ongoing reliance on fossil fuel-driven assets, the absence of potent energy-efficiency mandates, and a deficit in investments towards sustainable buildings³.

Due to the nature of business, the real estate sector is a significant contributor to the GDP of India. It is also responsible for nearly one-fifth of the nation's emissions, and 33% of total energy consumption. Considering India's rigorous climate objectives, including the goal of Net-Zero by 2070, the Indian real estate sector is required to act quickly and effectively. As climate change increasingly affects economies and this sector, there are both physical and transitional risks that could harm assets and the markets they are part of, either directly or indirectly.

Real estate portfolios are exposed to various risks, including the impact of climate change, which can cause damage to

properties through extreme weather events. These impacts can be chronic, reflecting long-term trends, or acute, indicating severe short-term occurrences, and vary by location or in response to efforts to shift towards a low-carbon economy. The urgency for drastic measures is underscored by the observable effects of climate change, such as escalating temperatures, rising sea levels, and increased frequency of extreme weather events. Additionally, environmental hazards adversely affect the ability to provide safe, healthy, and adequate working conditions, alongside job availability. Climate change exacerbates risks to occupational health and safety, with high temperatures already contributing to a 1.4% loss in working hours in 1995. Studies suggest that without addressing climate change, and with an expected temperature increase of 1.3°C by 2030, we could see a productivity loss of 2.2%, equating to 80 million full-time jobs. Recognizing their contribution to climate change, real estate firms must urgently implement innovative strategies to adapt their buildings, operations, workforce, products, and services to these significant and impending changes.

In recent years, there's been a noticeable uptick in worldwide investments aimed at diminishing the energy consumption of buildings. This move by the real estate sector towards minimizing its environmental footprint marks a positive trend. Governments, policymakers, investors, and the general populace are shifting their views on climate change and are taking bold actions to counteract its effects. The creation of tools that encourage eco-friendly building practices and the widespread acceptance of green building certifications are helping more areas to align their construction activities with the goals of the Paris Agreement. While the surge in investment is indeed encouraging, it also highlights the necessity of engaging with additional external partners to leverage technology effectively, ensuring seamless operations, accountability, and transparency.

OPPORTUNITIES

Housing Demand

A combination of economic growth, increasing income levels, and the perception that housing prices are stabilizing has led to a notable uptick in the demand for homes. This trend is evident as potential buyers, previously on the sidelines, are now entering the market as first-time homeowners or existing homeowners looking for larger spaces. The shift towards remote and hybrid work models is further influencing the desire for more spacious living arrangements. Employers offering flexible work options continue to be a significant factor in this trend, as it allows employees the freedom to live further from the office, thereby boosting demand for residential properties in various segments.

Sector Consolidation

The Indian real estate sector, characterized by its highly fragmented nature, has been undergoing a significant consolidation phase for several years. This consolidation has been accelerated by various factors, including the pandemic, which has effectively sidelined less robust participants. The current environment in the real estate industry poses challenges to the entry of new competitors. With the trend

leaning towards a smaller number of dominant developers in each region, this period of consolidation offers an attractive chance for current real estate firms to meet the increasing demand for housing.

Affordable housing

The segment of affordable housing remains a pivotal area for developers and a primary focus for the government. As per the new Union budget, a housing for Middle Class scheme is to be launched to encourage the middle class to buy their own houses. The Pradhan Mantri Awas Yojana (PMAY) is close to achieving 3 crore houses, additional 2 crore houses are targeted for the next 5 years, as discussed above. This shows that the affordable housing market is projected to experience a surge in demand, bolstered by an anticipated economic revival and increasing income levels.

Digital Real Estate Sales

Digital marketing has become a key strategy for real estate developers to boost sales and connect with customers. Since the pandemic, their marketing efforts have expanded beyond attracting new customers and building brand awareness to include creating personal connections digitally. Thanks to technology that allows property purchases online, developers have seen strong sales, even during lockdown periods. They're using digital tools to engage with potential buyers, present project details, offer virtual tours, and target Non-Resident Indians (NRIs) to increase sales. Advanced technologies like virtual reality, augmented reality, and AI-driven chatbots are increasingly employed to offer tailored services to potential clients. Moving forward, developers will need to keep up with technological advancements, as the share of real estate transactions conducted online is expected to grow.

THREATS & CHALLENGES

Regulatory Hurdles

The real estate industry is subject to extensive regulation, and any negative adjustments in governmental policies or the regulatory framework can negatively influence the sector's performance. Significant delays in procedures related to acquiring land, determining land use, initiating projects, and obtaining construction approvals are common. Changes in policy applied retrospectively, along with regulatory obstacles, could affect profitability and diminish the appeal of both the sector and the companies active within it.

Monetary Tightening and Funding Issues

In recent years, the landscape of real estate financing has shown a marked divergence. Well-established developers with lower debt levels have continued to secure funding with relative ease, benefiting from the selective approach of lenders, while those with weaker financial standings have encountered challenges in accessing capital. The performance of the real estate sector is intricately connected to the broader economic recovery and the prevailing monetary policies. The RBI has maintained an accommodative stance to bolster economic growth. However, it is anticipated that there will be a shift towards tighter monetary policies as efforts intensify

to manage persistent inflation. The budding economic revival, coupled with potential increases in interest rates, may pose challenges for the real estate sector shortly. Higher housing loan costs and an escalation in financing costs for developers, who are already contending with margin pressures due to the rising prices of commodities, could have implications.

Shortage of Manpower & Technology

As the country's second-largest employment provider, the real estate sector relies significantly on manual labor. The pandemic severely impacted this sector due to labor shortages, disrupting project completion schedules. Consequently, there's a pressing need for the adoption of alternative construction methods that are less dependent on manual labor and more on technology.

ABOUT GODREJ PROPERTIES LIMITED

Godrej Properties Limited (GPL), part of the venerable Godrej Group founded in 1897, stands out as a leading entity in India's real estate sector. Upholding the Group's ethos of innovation, sustainability, and excellence, Godrej Properties has been synonymous with trust and quality for over a century. With a focus on leveraging advanced design and technology, GPL is committed to exceeding stakeholder expectations by crafting exceptional and innovative spaces, rooted in deep consumer understanding. At its core, GPL believes in the power of collaboration to achieve excellence, partnering with premier designers, architects, and contractors both in India and internationally. This approach ensures that every development not only meets the present needs of its residents and communities but is also durable and forward-thinking, reflecting the best the world has to offer in real estate.

A. Leveraging the Godrej Brand

The ‘Godrej’ brand is well-recognized throughout India due to its long history in the market, the diverse sectors the Godrej Group operates in, and the trust it has built over time. This strong brand reputation aids in several business activities, such as establishing joint development agreements, moving into new cities and markets, and forming business partnerships. Godrej Properties Limited (GPL) has also entered the plotted development space in Tier-2 cities, recognizing their sales potential. The brand has been crucial in developing solid relationships with customers, service providers, partners, investors, and lenders, helping us secure a strong position in the industry. Additionally, GPL's binding arrangements with Godrej & Boyce appointing GPL as the development manager for developing all its lands in Vikhroli further provides an opportunity to enhance the scope of our portfolio.

B. Sales Momentum

This year marks the 7th consecutive year of record annual sales for GPL, underscoring the strength of our brand and the quality of our products. Your company reached INR 22,527 crore booking value in FY24, a growth of 84% year-on-year and 61% above guidance for FY24. This success was driven by an enhanced mix of projects and a significant 31% increase in sales volume. Your company stands as the largest developer in India by sales value in FY24. This surge was the result of launching 26 new projects or phases in FY2023-24.

Sales momentum significantly increased in the second half of the year, with Q4 FY2023-24 being our most successful quarter ever, contributing ₹9,519 Crore, or 42% of our annual booking value. This was the highest quarterly sales announced to date by any publicly listed real estate developer in India.

Sales were driven by superlative consumer demand in some key new project launches. 4 projects i.e. Godrej Zenith, Godrej Aristocrat and Godrej Tropical Isle in NCR as well as Godrej Reserve in MMR achieved a booking value of more than INR 2,000 crore. Your company's bookings in NCR in FY 24 grew 180% to over INR 10,000 crore and in MMR grew 114% to over INR 6,500 crore.

As the challenges of recent global disruptions begin to recede, we are optimistic that a revival in the real estate sector, coupled with our robust balance sheet and a strong pipeline of projects, will enable us to boost sales momentum in the coming year. Below is a brief on our performance in key markets.

NCR

In FY2023-24, the NCR region remained GPL's top-performing area, marking yet another year of record-breaking sales driven by enthusiastic responses to new launches and consistent sales performance. The company achieved sales of 7.50 million sq. ft., an increase of 110% year-over-year, and booking value increase of 180% YoY to ₹10,016 Crore. This impressive sales outcome was supported by several successful new projects and phase launches, alongside sustained sales from ongoing developments.

A significant highlight this year was the outstanding performance of Godrej Zenith, Godrej Aristocrat and Godrej Tropical Isle, each of them achieving a booking value of more than INR 2,000 crore. Godrej Zenith in Sector 89, Gurugram was the best ever launch for your company, achieving a booking value of ₹3,008 Crore across 2.08 million sq. ft. Godrej Aristocrat in Sector 49, Gurugram achieved a booking value of ₹2,877 Crore across 1.46 million sq. ft. while Godrej Tropical Isle in Sector 146 Noida achieved a booking value of ₹2,098 Crore across 1.56 million sq. ft.. Furthermore, Godrej Parkland Estate in sector 41, Kurukshtra reported booking value of ₹627 Crore across 1.39 million sq. ft. and 3 projects, Godrej Woods, Godrej 101 and Godrej South Estate, each reported booking value of more than ₹200 Crore in FY2023-24, driven by sustenance sales and a strong market reception to new phase launches.

Mumbai

Sales in Mumbai reached approximately 4.10 million sq. ft., generating a booking value of ₹6,545 Crore, marking a 114% increase year-over-year. This strong sales figure performance was fueled by the launch of 9 new projects/phases over the year, along with sustained sales momentum from ongoing projects. Notably, Godrej Reserve in Kandivali recorded sales of 1.51 million sq. ft., achieving a booking value of ₹2,693 Crore, positioning it as one of our standout projects for the year. Godrej Avenue Eleven in Mahalaxmi, another standout project, reported sales of 0.24 million sq. ft., with a booking value of ₹755 Crore. Furthermore, Godrej City achieved a booking value of ₹546 Crore across 0.84 million sq. ft., Godrej Horizon achieved a booking value of ₹470 Crore across 0.21

million sq. ft., Godrej Ascend achieved booking value of ₹468 Crore across 0.39 million sq. ft., Godrej Vistas achieved a booking value of ₹438 Crore across 0.17 million sq. ft. and 2 projects i.e. Godrej Urban Park and Godrej Tranquil achieved booking value of more than ₹200 Crore each in FY2023-24.

Pune

In Pune, total sales reached about 3.27 million sq. ft., with a booking value of ₹2,686 Crore, marking a 26% increase year-over-year. This sales achievement was propelled by the launch of 6 new projects/phases over the year and solid sales performance from ongoing projects. New project launches in Hinjewadi namely ‘The Gale’, led to Maanhinje together with all its phases achieving sales of 1.01 million sq. ft. and a booking value of ₹832 Crore. On the back of 2 new launches, all phases of Mahalunge together achieved sales of 0.81 million sq. ft. and a booking value of ₹652 Crore. Our new project, Godrej Emerald Waters, launched in 3 parts, recorded sales of 0.54 million sq. ft., with a booking value of ₹578 Crore. The combined phases in Manjri accounted for sales of 0.53 million sq. ft., with a booking value of ₹398 Crore. The combined phases in Mamurdi also achieved a booking value of just under ₹200 Crore.

Bengaluru

In Bengaluru, total sales reached around 3.00 million sq. ft., generating a booking value of ₹2,460 Crore, a increase of 10% compared to the previous year. This was driven by the introduction of two new phases over the year in Godrej Ananda and Godrej Park Retreat, along with strong sales from ongoing projects. Godrej Ananda registered sales of 1.40 million sq. ft., with a booking value of ₹998 Crore, while Godrej Park Retreat registered sales of 0.69 million sq. ft., with a booking value of ₹596 Crore. 2 other projects Godrej Splendour and Godrej Athena carried the momentum from last year’s launch and achieved booking value of ₹457 Crore and ₹385 Crore respectively, from sale of 0.59 million sq. ft. and 0.28 million sq. ft. respectively.

Other Cities

Your company also achieved sales of around 2.13 million sq. ft., generating a booking value of ₹820 Crore, a decrease of 33% compared to the previous year, from markets outside of the above. There were 4 project/phase launches in markets of Nagpur, Kolkata and Chennai. Godrej Forest Estate and Godrej Orchard Estate in Nagpur achieved sales of booking value of ₹375 Crore and ₹129 Crore respectively, from sale of 1.12 million sq. ft. and 0.29 million sq. ft. respectively. Godrej Seven in Kolkata reached sales of 0.36 million sq. ft., with a booking value of ₹195 Crore and Godrej Sunrise Estate in Chennai reached sales of 0.24 million sq. ft., with a booking value of ₹63 Crore.

D. Business Development

The financial year FY2023-24 is a landmark year for Godrej Properties as it marked our entry into Hyderabad market with 2 new deals which materialized in the last quarter. During this period, we introduced 10 new residential projects, characterized by a high degree of economic interest. These projects, which cover a saleable area of approximately

18.93 million sq. ft., carry an anticipated revenue potential of around ₹21,225 Crore. This figure notably exceeds the initial annual forecast of ₹15,000 Crore in estimated booking value. The strategic locations of these projects are poised to bolster our continued rapid growth and significantly enhance our company’s margin profile, particularly as most of these projects are entirely owned by us.

The ongoing consolidation in the real estate sector, accelerated by the pandemic, continues to present significant opportunities for companies like GPL to further their business development. With growth capital at our disposal, we plan to concentrate on opportunistic investments and expand our project portfolio in FY2023-24. Below is the list of residential deals signed by GPL in FY2023-24

Particulars	Estimated Saleable Area (million sq. ft.)	Expected Booking Value (₹ Cr)

E. Customer Centricity

FY2023-24 demonstrates GPL’s commitment to delivering top-notch customer experience while balancing exponential growth and scale. Our performance, measured through the Net Promoter System, which we adopted in FY2018-19, reflects the impact of our customer experience and the customer advocacy it creates. In FY2023-24, we continued our upward trajectory and delivered an all-time high NPS since its inception in 2018.

Survey Year	FY 2018-19*	FY 2019-20*	FY 2020-21*	FY 2021-22	FY 2022-23	FY 2023-24
Relationship NPS Survey Responses	9,306	12,283	8,857	8,806	13,332	14,267
Combined relationship NPS	28%	61%	42%	55%	65%	68%

**NPS Scores for FY2018-19, FY2019-20, FY2020-21 are revised to only account for completed responses to the survey and discard any customer response that was filled but not submitted.*

We sharpened our focus towards actualizing our ‘Purpose’ to bring Joy to our customers. The major highlights of our efforts for enhanced customer experience in FY2023-24 are as follows:

1. Improving experiences during key moments of truth:

A. Operating at scale: In FY2023-24

a. We welcomed 15000+ customers,

b. Completed 13,000+ registrations, and

c. Handed over 7,400+ homes

d. Facilitated 20,000+ customer site visits

B. Quality as a talking point: The monthly construction newsletters were detailed with the company’s initiatives on quality.

C. Focus on Handover Experience: In FY2023-24, we continued to strengthen our systems for delivering joy during handover and post-possession.
2. Technology as a service:

A. The Godrej Properties Ltd. Mobile App, launched in FY2021-22, empowers customers to manage all aspects of their purchases at their fingertips. Continuing customer delight through the App, the Godrej Properties Ltd Mobile App continued to maintain a 4+ rating with 4.3 on Playstore (1000+ ratings) and 4.4 on Appstore (300+ ratings). The ratings resonate with the voices of over 73%+ of our existing customers, who have started using the App.

B. Adding another layer of convenience for the customers, we expanded the payment functionality on the App to allow our customers to make payments using Debit cards and Credit cards in addition to Netbanking.

F. Global recognition for sustainability initiatives

GPL has been included in the leadership index of emerging markets and has secured a place in the sustainability yearbook of the prestigious S&P’s Dow Jones Sustainability Index (DJSI), affirming commitment to ESG excellence. DJSI is globally recognized as a leading benchmark for corporate sustainability, assessing companies based on ESG performance and transparency. GPL’s achievement in the DJSI underscores a proactive approach to sustainability, with strategic enhancements across various dimensions such as climate strategy, human rights, occupational health & safety, and information security/cybersecurity governance. By aligning practices with the rigorous criteria set forth by DJSI, GPL demonstrates leadership in sustainable real estate development. This recognition within the DJSI framework reflects dedication to driving positive change and fostering long-term value creation while meeting evolving expectations of stakeholders in the global sustainability landscape. The DJSI which comprise indices tracking the financial performance of companies recognized as leaders in environmental, social, and governance (ESG) practices. Being included in the DJSI signifies a company’s dedication to sustainability. DJSI selects “global, sustainable stocks” and features indices of world-leading companies known for their exceptional business operations with a strong emphasis on sustainability. S&P Global conducts an annual sustainability

assessment and ranking based on economic, social, and environmental indicators in alignment with sustainable business development guidelines.

G. Health and Safety Management System

At GPL, safety is our top priority and a critical component for achieving our ambitious business growth goals. We are committed to the health and safety of our employees and all stakeholders, as outlined in the GPL Health & Safety Policy. To ensure a strong safety culture where every employee takes responsibility for safety, GPL has implemented a robust health and safety management system certified to the ISO 45001:2018 international standard. Our safety management system follows a proactive PDCA cycle, emphasizing leadership commitment, consultation, and participation at all levels and functions to achieve a "Score Zero" safety record. We have established predefined safety processes and standard operating procedures (SOPs), including comprehensive safety checks and inspections starting from the contractor pre-qualification stage. Each location has a dedicated safety team tasked with promoting safety awareness among employees and implementing various training programs as part of our monthly safety activity plan. Additionally, our Health and Safety Management system undergoes regular assessment by certifying agencies through surveillance audits to ensure continual improvement and compliance.

Visible Safety Leadership

Visible Safety Leadership is an essential aspect of GPL’s safety management system, as outlined in the GPL Health & Safety Policy. This policy reflects the commitment of top management to implement and monitor occupational health and safety (OH&S) measures within GPL. This commitment includes ensuring a safe workplace, compliance with OH&S regulations, soliciting stakeholder input, and continuously improving safety processes.

With the objective of making OH&S a business imperative that enables operational excellence, GPL engaged with top management to reinforce safety practices through visible leadership. This initiative involves three levels of Management Review Meetings (MRM) to assess organizational performance and promote a positive safety culture. MRM Level 1, chaired by the COO at the Head Office, is followed by Level 2, chaired by the Operations Head at the regional level, and Level 3, chaired by the Project Manager at the project level. Additionally, GPL has implemented a "Safety Involvement Index" mechanism to encourage active participation of Operations Heads in various OH&S initiatives at project sites.

Contract Health and Safety Management System

The Contract Health and Safety Management System is a proactive approach that begins well before contract awarding. It involves evaluating prospective contractors through a pre-qualification (PQ) procedure, assessing business risks, and developing mitigation plans based on the contractor’s PQ score. Preference is given to contractors who are ISO 45001 certified during the pre-qualification stage. A joint safety kick-off meeting briefs the contractor, and the subsequent mobilization phase is monitored and audited by a safety and health infra tracker. Contractors are required to sign a formal

undertaking while implementing the site health and safety plan, which includes standard operating procedures (SOPs), work instructions, and guidelines to ensure compliance during work execution on-site.

Hazard Identification and Risk Assessment (HIRA)

One crucial aspect of the GPL Safety System is assessing risks using an approved risk matrix before commencing any activity. At each site, a cross-functional Hazard Identification and Risk Assessment (HIRA) team is formed to identify hazards, evaluate associated risks, and develop control measures following the hierarchy of control. While the main responsibility of this team is conducting a comprehensive HIRA exercise, they also provide workers with training on hazards, risks, and control measures. The implementation of these controls on-site is enforced through the Permit to Work system.

Training and Awareness Campaign

We prioritize skill development, competence building, and awareness as the key pillars of our safety and health management system at GPL. Our focus revolves around conducting awareness campaigns, skill training sessions, motivational initiatives, and health camps. In the current reporting year, we organized safety training for over 34715 safety people across offices and construction sites. All crucial stakeholders received necessary training and awareness programs in preparation for the implementation of ISO 45001:2018.

We have formalized the process of identifying training needs and creating a training calendar for safety sessions at sites, effectively executing multiple programs to cultivate a robust safety culture across all project sites. National Safety Day, World Environment Day, Road Safety Week, and Fire Service Day are commemorated at our sites, serving as vital platforms for raising awareness about health and safety. Safety communications play a pivotal role in our Safety Management System, promoting safety awareness and fostering a strong safety culture throughout GPL. Additionally, GPL has conducted Safety Assessment exercises to assess the safety awareness levels among the execution team.

To further enhance safety culture and reinforce operational controls, we conduct safety campaigns on various topics such as the usage of cell phones at construction sites, rope-suspended platforms, fire prevention and control, and safety in-store management. The "horizontal deployment of learnings" initiative aids in developing a positive safety culture and continual improvement across GPL, aimed at preventing the recurrence of any unfortunate incidents.

Safety Audit

The safety audit serves as a regular evaluation of our entire occupational health and safety management system, encompassing policies and programs designed to prevent workplace accidents or incidents. We adhere to a stringent safety audit process in alignment with ISO 45001 requirements, conducting audits quarterly. Our qualified internal safety auditors oversee the audit, while our online safety audit portal efficiently monitors and manages the process. Through analysis of the safety audit findings, we

pinpoint gaps and areas for enhancement within our health and safety management system.

External Recognition

Achieving third-party recognition and accolades on health and safety systems endorses the organization’s reputation, brand value, and safety system implementation. GPL received over 70 external recognitions and accolades in the reporting year, including international and national safety awards such as the RoSPA (Royal Society for the Prevention of Accidents), British Safety Council International Safety Award, National Safety Council India, Global Safety Summit, and ICC National OH&S. These remarkable recognitions and accolades indicate a well-established and effective health and safety management system.

Health Surveillance Program

As part of our Health Surveillance Programme for workers at project locations, we conduct pre-employment medical examinations. Personnel responsible for operating machinery or driving vehicles undergo comprehensive medical assessments upon joining and at regular intervals thereafter.

H. Human Capital

At GPL, we've experienced significant business growth in the past year and are dedicated to sustaining this momentum. Consequently, our employee count has surged by 26% over the last year, rising from 2391 to 3015 employees.

We attribute our operational success to our dedicated team of Godrejites, who are instrumental in driving our aspirations for the future. At GPL, we take pride in fostering an inspiring workplace culture characterized by agility and high performance, aimed at attracting, nurturing, and retaining top talent.

As part of the esteemed 127-year-old Godrej Group, we cherish a legacy founded on strong values of trust, integrity, and respect. Meanwhile, our ambitious growth plans provide exceptional career prospects, even at the early stages of one's professional journey.

People philosophy

Our philosophy stands tall and proud on three principles:

Your Canvas

- Your Canvas:** “Our organization is growing and we want you to grow with us.” We have an internal talent marketplace and encourage our people to apply for aspirational roles. With our empowering culture, our people get a chance to lead early on.

Tough Love

- Tough Love:** “Go ahead and challenge yourself! We’ve got your back.” We believe the race for the future is not for the faint-hearted. We expect a lot from our people and differentiate basis performance and potential through career opportunities and rewards.

Whole self

- Whole self:** “We are selfish about your happiness.” Simply because happier people make for a more fun culture at Godrej.

Building talent from within

We prioritize internal talent development and actively cultivate the next generation of leaders within our organization. Rather than solely considering seniority and tenure, we place emphasis on performance and potential, making early investments in promising individuals. Over the past two years, 6 out of 7 openings on the Management Committee have been filled by internal candidates. Furthermore, 68% of our zonal leadership positions are held by individuals who have been groomed internally.

Diversity

At GPL, our goal is to cultivate an inclusive environment where every employee feels valued, irrespective of their race, ethnicity, gender, gender identity, sexual orientation, or disability.

Currently, cis-women represent 28.78% of our workforce, positioning us as a leader in the industry in this regard. We celebrate the achievements of our women leaders, with 3 serving on the GPL Management Committee and 6 as Profit & Loss Leaders. In achieving LGBTQIA+ and persons with disabilities (PwD) representation, we are making significant progress. Presently, we have 55 LGBTQIA+ employees and 7 Persons with Disabilities (PwD).

Cis-Women:

In our Graduate Campus Program, we’ve made it a priority to enhance the representation of women in real estate and operations, with over 68% of our entry-level campus hires being women this year. In Operations among campus hiring, we achieved a milestone of 46% diversity representation for the first time ever. Additionally we’ve launched initiatives like EmpowHER, an Employee Resource Group (ERG) aimed at providing networking and professional development opportunities for women within GPL. Our mission is to empower, engage, and retain women employees, with the aim to have 35% representation across all cohorts of Cis-Women, LGBTQIA+, PwD employees by the end of FY25.

LGBTQ:

We continue to support the Pride Internship Program, which has successfully transitioned 23 interns into full-time employees or contract staff. Moreover, we launched Employer Assisted Accommodation Program which ensures safe housing for transgender, genderqueer, and gender non-conforming employees, with 8 guesthouses currently available.

We celebrated the 1st anniversary of the Queers & Allies ERG that was launched year as our LGBTQ representation doubled over last year.

In addition to our existing inclusive policies such as a gender-neutral anti-harassment policy, same-sex partner benefits, gender-neutral adoption benefits, gender transition support, and gender-neutral washrooms.

We launched Queering Workspaces, a project to connect with LGBTQ community to share stories of persons working in the corporate space and celebrate their participation.

PwD:

The ThisAbleMe campaign that we launched this year seeks to enhance awareness, job mapping, accessibility, and representation for persons with disabilities. Through a video series inspired by Super Mario, we showcase employees with disabilities navigating GPL’s environments, fostering understanding and allyship.

We empower dyslexic thinking by providing reasonable accommodation through providing extra time in our verbal and numerical assessments at time of hiring.

Our All-Inclusive Model Site in Maan-Hinje, Pune, pioneers a new approach to creating accessible spaces for all user groups, including wheelchair users, visually and hearing impaired individuals, and more. Gender-neutral washrooms, accessible pathways, and ergonomic design features promote inclusivity. Additionally, we have launched an initiative called Silent Site in Pune which focuses on equal employment opportunities for individuals with speech and hearing impairments. We have a sign language interpreter on site to facilitate smooth communication by eliminating any communication barriers.

Our commitment to Diversity, Equity, and Inclusion (DEI) extends beyond workforce representation; we strive to create a workplace where everyone feels valued, empowered, and heard.

Agile, decentralized operating model

In the last three years, we have made agility a core focus of our operating model. We have designed our operations to be mostly site-based, with 69% of our employees working at the site level. To support this, we have increasingly decentralized decision-making at the last mile. As part of this effort, we have launched detailed RAPIDs this year, which give zonal and site leadership more power in making over 53% of decisions.

Campus

Our company is committed to bringing fresh talent into the industry and Indian corporate world. Every year, we provide employment opportunities to graduates and interns from top B-Schools through our Gallop (BLP) and Gurukul programs, which allow them to work on projects with early impact. In the past year, we have increased our intake from B-School campuses with a pool of partner campuses including ISB (for P&L roles),XLRI, IIM Indore, and IIM Lucknow.

Additionally, this year we have relaunched our Graduate Campus Program, which will result in approximately 150+ new hires across various departments including Sales, Operations, Customer Centricity, Legal, and Finance. Furthermore, we have also expanded our recruiting efforts to include premier graduate campuses such as IITs, NITs, Lady Shri Ram College, Hansraj College, Miranda House, St Xaviers Kolkata, NLSIU Bangalore, NLU Delhi, and Christ University.

Learning & development

In FY 2024, we launched “GPL Alchemy,” our in-house learning academy, to amplify and ramp up our organization-wide capabilities in different functional and leadership areas. Our vision is to create a best-in-class in-house learning academy, and we have partnered with leading experts and institutions wherever necessary to leverage outside-in knowledge and best practices while continuing to reinforce it with internal subject matter experts (SMEs). All the learning tracks on GPL Alchemy have been designed through a rigorous diagnostics exercise, and we assure that everyone will have varied constructive takeaways from the programs.

Our foundation at Alchemy consists of five vital business tracks aligned with our organization’s Long-Range Plan (LRP): Profitability, Growth (Sales & BD), Customer, Design, and Quality. Over the nine months following the launch, GPL Alchemy covered approximately 1400 unique employees in its various learning programs with a cumulative Net Promoter Score (NPS) of 60+.

What uniquely differentiates GPL Alchemy is the way we design our learning initiatives:

- We have a 360-degree understanding of training needs for stakeholders across all levels.
- Our curriculum is designed into Foundational, Strategic, and Advanced levels to bridge the gap between current and future outcomes in line with adult learning principles.
- We establish training effectiveness through the institutionalization of new ways of working for the target audience.

Here’s a glimpse of various GPL Alchemy learning initiatives in FY24:

- The Profitability track, with five modules focusing on Financial Acumen, Real Estate Finance, strategic levers, and lenses to enhance profitability and robust decision-making, covered 75 P&L and other allied functions.
- The Design track, with modules on Product Frameworks to standardize landscapes, clubhouses, facades, also included masterclasses with leading industry faculty.
- Our Sales Academy was launched with a focus on building Sales Essentials capabilities in Year 1.
- The Business Development track, in partnership with Simon Horton of Negotiation Mastery, focused on Deal Negotiation.
- We also launched the Customer Centricity track with Customer Essentials in the first leg.

Employee well- being

Hybrid Work

We have maintained our flexible work policy post-COVID by adopting a hybrid in-office model. We recognize the advantages of remote work, including the ability for individuals to prioritize their holistic well-being and enhance productivity through focused work. However, we also acknowledge the importance of in-person interactions for fostering impactful collaborations and conversations.

Mental Health Support

Our Employee Assistance Programme provides confidential mental wellness support through a team of expert counselors, available round the clock. Additionally, we have partnered with Inner Hour, a mental health platform, to offer self-help tools and confidential mental wellness sessions for employees and their families. Our focus is on assisting employees in managing personal and work-related concerns, empowering them to navigate sensitive situations both within and outside the workplace effectively.

Unlimited Sick Leave

We remain committed to offering 100% trust-based sick leave to all employees, allowing them to access sick leave whenever necessary based on their needs.

Harmony Hours

We introduced specific hours (8PM-8AM) in the workday where employees must avoid any kind of two-way official communication (meetings, calls, mails, texts). This was done to enable individuals to have focused time for themselves and their families.

Amber – Employee Listening

We introduced Amber, a Smart HR assistant which interacts with employees on various touchpoints with employees to continuously hear feedback from them & same is utilized by HR team to resolve issues faced by employees in day to day working.

Culture of recognition

We firmly believe in the power of recognition to enhance strategic clarity among our team members. It serves to underscore the organizational significance of key focus areas and exemplary behaviors. Through esteemed platforms such as the Spot Recognition scheme, Quarterly Regional awards, and Annual GPL Legends Awards, we honor and acknowledge employees who consistently demonstrate outstanding performance and embody our core values.

Recognizing the importance of acknowledgment, we’ve also introduced the OneGPL awards to further motivate our employees. However, it’s worth noting that the GPL Legends Awards stand as our pinnacle national recognition platform. Reserved for celebrating the most significant achievements of the previous fiscal year, this prestigious award honors the exceptional contributions of our top performers.

I. Internal Control System and their adequacy

GPL has implemented an internal control framework aimed at safeguarding and protecting all assets from unauthorized use or disposition, while ensuring that transactions are duly authorized, recorded, and reported accurately. This comprehensive framework encompasses internal controls over financial reporting, which uphold the integrity of the company’s financial statements and mitigate the risk of fraudulent activities. The Corporate Audit & Assurance department meticulously issues well-documented operating procedures and authorities embedded with appropriate controls. These protocols are implemented at the outset of any activity and are continuously monitored throughout the process to identify and address any significant changes.

As part of their audit procedures, the department conducts thorough reviews of key processes to assess the adequacy of controls in place. Our internal controls undergo rigorous testing for effectiveness across all project sites and functions by the Corporate Audit team. Management periodically reviews the findings to initiate corrective actions where necessary, ensuring continuous improvement and adherence to best practices.

THREATS, RISKS AND CONCERNS

1. Industry Cyclicity

The Inherent cyclical nature of the real estate market, which can be influenced by various macroeconomic factors, changes in governmental policies, fluctuations in supply and demand dynamics, availability of consumer financing, and market liquidity. Our company has strategically structured its business model to mitigate these risks by diversifying through owned projects, joint ventures, residential platforms, and development management services across India. However, any future significant downturn in industry and the overall investment climate may adversely impact business.

2. Statutory Approvals

In the operational landscape of the Indian real estate sector, regulatory oversight from central, state, and local governments plays a pivotal role. Compliance with a plethora of laws and regulations, encompassing land acquisition, property transfer, registration, and land usage policies, is imperative for real

estate developers. Notably, the regulatory framework varies significantly across different states. At present, several projects within our portfolio are in their initial planning phases, where the timely acquisition of approvals holds paramount importance. Any potential delays in obtaining these approvals may necessitate reevaluation and adjustment of project timelines.

3. Climate Change- Threats and Challenges for Real Estate Sector

The real estate industry in India is currently confronting significant shifts attributed to the impacts of climate change, with expectations of heightened intensity in the forthcoming years. These shifts present a spectrum of challenges and risks, broadly categorized into two main types: Physical and Transitional. Physical risks encompass both acute and chronic effects of climate change, including infrastructure damage at construction sites, disruptions to logistics routes, and decreased workforce efficiency due to heatwaves. On the other hand, transitional risks emerge from the transition towards a low-carbon economy, manifesting across four key categories: reputational, market, technology, and policy. In our management analysis, we have outlined a summary of pertinent physical and transitional risks that bear relevance to our firm’s operations. As extreme weather events increase in frequency and severity, real estate leaders across the globe are ramping up efforts to better understand and mitigate the impact of climate-related hazards on assets. ¹

¹ 2024 Global Sustainability Outlook: Top Five Themes in Real Estate - Urban Land Magazine (uli.org)

A summary of relevant physical and transitional risks material to the firm are listed below ¹

Nature of Risk	Material Risk	Description
Transition Risks	Increasing regulatory and policy pressure	The sector faces impacts from increasing regulation and new policies, including stricter building standards, carbon pricing, and additional reporting requirements. These changes are expected to shape operational strategies and decision-making processes within the industry.
	Cost of indirect emissions	Increasing costs associated with carbon-intensive building materials will necessitate a revision of our approach to construction, refurbishment, and demolition activities. While we may not have direct control over these emissions, our influence can mitigate their magnitude. As sustainability becomes paramount, we must adapt our strategies to minimize environmental impact and manage construction costs effectively
	Shifting market preferences	As climate change awareness escalates, tenants and buyers increasingly demand emissions reduction efforts from the real estate sector. This shift in preferences towards high-efficiency buildings with renewable energy sources presents new risks for the industry.
	Change in investor sentiment	In striving to align our portfolios with climate objectives, we endeavor to offset emissions within our portfolio, thereby mitigating the impact of high-emitting buildings, while also prioritizing investments in low-emission real estate assets.
	Reputation risk	Failure to take action to decarbonize may lead to increased public scrutiny on the real estate sector's contribution to emissions reduction.

Nature of Risk	Material Risk	Description
Physical Risks	Sea level rise and coastal flooding (Acute)	As sea levels continue to rise, coastal flooding events will occur with greater frequency and intensity, leading to heightened property damage and elevated expenses for repair and maintenance.
	Inland flooding (Acute)	As sea levels continue to rise, coastal flooding events will occur with greater frequency and intensity, leading to heightened property damage and elevated expenses for repair and maintenance.
	Extreme storms and wind (Acute)	The heightened severity and frequency of extreme storms, such as hurricanes, present significant risks to our commercial real estate portfolio. These events have the potential to cause extensive damage worth billions of dollars and can adversely impact the near-term value of our properties.
	Wildfires (Acute)	Considering the escalating intensity and severity of wildfires, millions of residential and commercial properties constructed in high-risk areas face an elevated threat of destruction.
	Subsidence (Acute)	As trajectory of real estate holdings, it is evident that a growing number of properties face an increased risk of subsidence in the coming years. This poses a substantial threat to the structural stability of buildings.
	Heat and water stress (Chronic)	As temperatures continue to rise, buildings will face heightened cooling demands, resulting in elevated operational expenses. Additionally, escalating water stress will drive up operating costs through increased water rates, necessitating enhanced water efficiency measures and compliance with stringent water usage regulations.

Additionally, climate change also offers some opportunities for the real estate sector to manage these risks and grow in a sustained manner. The most relevant opportunities for GPL are:

- Energy management of real estate assets: The long-term strength of any real estate portfolio hinges on effective energy management. The 2022 energy crisis and carbon markets highlight the importance of meticulous energy demand mapping. This approach not only optimizes operational costs but also aligns with evolving regulations, like the government's 2022 Energy Conservation Amendment Bill mandating non-fossil fuel sources for high-consumption buildings. By proactively embracing sustainable energy solutions and exceeding these standards, forward-thinking real estate companies can ensure the long-term value and environmental responsibility of their assets.
- Sustainable building materials and efficiency measures: To ensure long-term value and environmental responsibility, the company prioritizes sustainable building practices throughout the asset lifecycle. This includes incorporating lower carbon footprint materials and implementing energy-efficient technologies like sensor-operated lighting systems. These actions not only contribute to cost savings but also align with the evolving regulatory landscape. For example, as per Government of India's provision of the Energy Conservation (Amendment) Bill (2022), the Energy Conservation Building Code has been redefined as Energy Conservation and Sustainable Building Code. National Building code of India 2016¹ have also included a new and updated chapter on sustainability.
- Environmental and social stewardship: Incorporating robust environmental and social practices within our

operations, such as achieving Zero Waste to Landfill, is paramount for mitigating the adverse effects of our buildings, particularly newer constructions, on local communities and the environment. By fostering symbiotic relationships between our real estate assets and existing ecosystems and communities, we strive for holistic growth within the sector.

OUTLOOK

In FY2023-24, the real estate sector, including GPL, achieved remarkable milestones, marked by record-high sales, collections, project completions, and successful business development endeavors.

Post-pandemic, there has been a notable shift in the operational landscape of developers, emphasizing responsiveness to end-user demand and embracing innovation and digital transformation. We anticipate that FY2024-25 will sustain this positive sales momentum, underpinned by a robust structural framework, consistent demand, and housing loan rates that, while somewhat elevated, remain relatively affordable.

Amidst ongoing commodity cost inflation, which poses a challenge to operating margins, real estate entities, including GPL, have adeptly managed to absorb price escalations. However, potential interest rate adjustments to curb inflation may raise capital costs, thereby potentially disadvantaging weaker market players while benefiting financially robust developers like GPL.

GPL's solid financial standing, coupled with its reputation for exemplary execution, positions it favorably to capitalize on the prevailing cyclical upturn. We anticipate continued strong sales and operational performance in FY2024-25, driven by our promising project pipeline, robust balance sheet, and proven expertise in execution.

The Company does not propose to transfer any amount to the reserves.

2. DIVIDEND:

In terms of Regulation 43A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR Regulations"), the Dividend Distribution Policy of the Company is available on the website of the Company at <https://www.godrejproperties.com/investor/corporate-governance>

The Board of Directors strongly believes that the current market scenario would offer attractive business development opportunities in the real estate sector and reinvesting the capital in such opportunities would create more wealth and value for the shareholders in the long term. Accordingly, with a view to creating long-term economic value, the Board of Directors have not recommended any dividend for the year ended March 31, 2024.

3. SHARE CAPITAL:

During the financial year ended March 31, 2024, the Company issued and allotted 20,030 equity shares of ₹5 each to its eligible employees on exercise of options granted under the Godrej Properties Limited Employee Stock Option Scheme, 2011 ("GPL ESGS").

As of March 31, 2024, the issued, subscribed and paid-up equity share capital of the Company stands at 27,80,41,474 equity shares of ₹5 each. The Company has neither issued shares with differential rights as to dividend, voting or otherwise nor issued shares (including sweat equity shares) to the employees or Directors of the Company under any Scheme, other than GPL ESGS. Your Company has not resorted to any buy back of the equity shares during the financial year under review.

4. OVERVIEW OF OPERATIONS:

Godrej Properties delivered another record year in FY2023-24 by achieving the highest sales in its history, surpassing the industry growth. This was driven by continued focus across bringing better products with consumer centric approach, delivering best in class quality consistently and enhancing customer's trust on the brand.

Godrej Properties achieved a sales volume of 20 million square feet and booking value of ₹22,527 Cr in FY2023-24, resulting in a growth of 84% Y-o-Y. This is the highest ever annual sales reported by a listed developer in India until date.

Godrej Properties launched 26 new projects/ phases in FY2023-24, of which, 4 projects namely Godrej Zenith (NCR), Godrej Reserve (MMR), Godrej Aristocrat (NCR) and Godrej Tropical Isle (NCR), achieved booking value of more than ₹ 2,000 Cr each on launch. These remained amongst the most successful residential project launches for GPL.

Godrej Properties added ten new projects with saleable potential of around 18.93 million sq. ft. to its portfolio during the year, 4 in NCR, 2 each in Bengaluru and Hyderabad, 1 in Kolkata and 1 in Nagpur.

On the operational front, Godrej Properties successfully delivered ~12.5 million sq.ft across projects. With this, Godrej Properties has now successfully delivered ~47 million sq. ft. since FY2018. The Company's delivery record demonstrates its ability to operate at a large scale and keep pace with accelerating sales. Separately, Godrej Properties focused on exploring advanced construction technologies, improving Net Promoter Score (NPS) and design standardization.

Godrej Properties, among the most respected real estate developers in India, received 96 awards in FY 2023-24. Accolades include Euromoney's Global Real Estate Awards 2023 (Winner - Best Residential Developer – India), India Workplace Equality Index 2023 (Silver Winner – Top Employer), Asia Money Outstanding Company Poll, 2023 (Joint Winner - Outstanding Companies: Real estate category), Aon NASSCOM DEI Champions Award 2023 (Winner – DEI Champion - LGBTQIA+, Non –Tech), Bombay Chambers DEI Awards 2023 (Winner – LGBTQIA+ Inclusion).

For the financial year under review, on a consolidated basis, GPL's total income stood at ₹4,334 Cr, EBITDA was ₹1,197 Cr and net profit after tax and minority interest of ₹725 Cr.

5. PROSPECTS AND OUTLOOK:

Indian residential real estate sector has been witnessing a strong turn-around of the sectoral landscape over the past two to three years. There has been substantial boost in both demand and pricing with higher consumer propensity towards paying a premium for a superior product proposition. With interest rate being stable, the home buying intent and sales momentum remained robust with FY24 being the best-ever year in terms of sales booking for the industry. Home buying is long-term asset where a strong affordability and financial strength (which is still better than pre-Covid levels) shall supersede the natural rate-cycle, especially if demand is driven by self-consumptions.

Consolidation in the residential real estate sector has only accelerated over the last few years amid regulatory changes like demonetisation, RERA apart from NBFC liquidity crisis, leading to an increase in the market share of branded organized players such as your Company. Given the pace of urbanization, rising per capita disposable incomes, and income distribution shifting from pyramid to diamond shape, Godrej Properties remains optimistic about the long-term prospects in real estate. Consumer sentiments have remained robust, which will result in a multi-year residential real estate upcycle, provided price increase is disciplined. Your Company is poised for a high growth trajectory with a strong brand, pan-India presence, demonstrated track record and robust marketing capabilities.

In post pandemic era, the customer focus on product proposition and quality is strongest ever. Increasingly, there has been disproportionate focus by the large organised developers on better design as per customer preference, best in class experience and superior quality.

Godrej Properties shall seek to drive profitability, improve customer experience, and continue to adopt digital technologies. Moreover, operational momentum for your company is likely to be sustained by its healthy Balance Sheet and robust project pipeline.

6. MATERIAL CHANGES AND COMMITMENTS AFFECTING THE FINANCIAL POSITION OF THE COMPANY:

There have been no material changes and commitments affecting the financial position of the Company between March 31, 2024, and the date of this Report other than those disclosed in this Report. There has also been no change in the nature of Company's business.

7. DEPOSITORY SYSTEM:

The Company's equity shares are available for dematerialisation through National Securities Depository Limited ("NSDL") and Central Depository Services (India) Limited ("CDSL"). As of March 31, 2024, 99.99% of the Company's equity shares were held in dematerialised form.

8. ISSUE OF NON-CONVERTIBLE DEBENTURES:

During the year, the Company has issued following Non-Convertible Debentures ("NCDs"):

- Series A Debentures: 75,000 Rated Listed Unsecured Redeemable NCDs of the Face Value of ₹ 1,00,000 (Rupees One Lakh Only) each, aggregating to ₹ 750,00,00,000 (Rupees Seven Hundred & Fifty Crore Only);
- Series B Debentures: 75,000 Rated Listed Unsecured Redeemable NCDs of the Face Value of ₹ 1,00,000 (Rupees One Lakh Only) each, aggregating to ₹ 750,00,00,000 (Rupees Seven Hundred and Fifty Crore Only);
- Series I Debentures: 1,00,000 Rated Listed Unsecured Redeemable NCDs of the Face Value of ₹ 1,00,000 (Rupees One Lakh Only) each, aggregating to ₹ 1000,00,00,000 (Rupees One Thousand Crore Only); and
- Series II Debentures: 16,000 Rated Listed Unsecured Redeemable NCDs of the Face Value of ₹ 1,00,000 (Rupees One Lakh Only) each, aggregating to ₹ 160,00,00,000 (Rupees One Hundred and Sixty Crore Only)

The proceeds of the issue of NCDs were utilised towards the existing and new business development deals including land acquisition, repayment of existing borrowings (including CC / OD / CP / STL) used for business operations and shore up long term working capital requirements for core business of the Company and general corporate purposes.

9. ANNUAL RETURN:

As required under Section 92 of the Companies Act, 2013 (the "Companies Act") the Annual Return for the financial year ended March 31, 2024 is available on the website of the Company and can be accessed at <https://www.godrejproperties.com/investors/financials>

10. NUMBER OF MEETINGS OF THE BOARD:

15. ANNUAL EVALUATION OF PERFORMANCE OF THE BOARD:

The Company conducted a formal Board Effectiveness Review as part of its efforts to evaluate, identify improvements and enhance the effectiveness of the Board, its Committees and individual directors. This was in line with the requirements mentioned in the Companies Act and the SEBI LODR Regulations.

The Corporate HR team of Godrej Industries Limited and Associate Companies ("GILAC") worked directly with the Executive Chairperson and the Nomination & Remuneration Committee of the Board, to design and execute this process which was adopted by the Board. Each Board Member completed a confidential online questionnaire, providing vital feedback on how the Board currently operates and how it might improve its effectiveness.

The survey comprised four sections and compiled feedback and suggestions on:

- Board processes (including Board composition, strategic orientation and team dynamics);
- Individual committees;
- Individual Board members; and
- Chairperson's Feedback Report

The performance evaluation criteria for independent directors included a check on their fulfillment of the independence criteria and their independence from the management.

The following reports were created as part of the evaluation:

- Board's Feedback Report
- Individual Board Member's Feedback Report
- Chairperson's Feedback Report

The overall Board Feedback Report and feedback of Individual Committees was shared and discussed with the Independent Directors. The directors discussed strengths in board's working and also identified areas that can be strengthened further. The individual feedback report of Board Members was shared separately with respective directors and with the Executive Chairperson. Feedback report for Executive Chairperson's Feedback Report was also separately compiled and shared.

16. FAMILIARISATION PROGRAMME FOR INDEPENDENT DIRECTORS:

The Company conducts familiarization programs for Independent Directors to enable them to understand their roles, rights and responsibilities. The Independent Directors when they are appointed, are given detailed orientation regarding the Company, industry, strategy, policies and Code of Conduct, regulatory matters, business, financial matters, human resource matters and corporate social responsibility

initiatives of the Company. Presentations are also made at the Board and committee meetings which facilitate them to clearly understand the business of the Company and the environment in which the Company operates. Operational updates are provided for them to have a good understanding of Company's operations, businesses and the industry as a whole. They are periodically updated on material changes in regulatory framework and its impact on the Company. ANNEXURE I

TO THE DIRECTORS' REPORT

Nomination and Remuneration Policy

(Directors, KMP and Senior Management)

INTRODUCTION

In pursuance of the Company's philosophy to consider its employees as its invaluable assets, to pay equitable remuneration to all Directors, Key Managerial Personnel (KMP) and employees of the Company, to harmonize the aspirations of human resources consistent with the goals of the Company and, in terms of the provisions of the Companies Act, 2013, this policy on nomination and remuneration of Directors, Key Managerial Personnel and Senior Management has been formulated by the Nomination & Remuneration Committee and approved by the Board of Directors.

OBJECTIVE

The objective and purpose of the Policy are as given below:

- To lay down criteria and terms and conditions with regard to identifying persons who are qualified to become Directors (Executive and Non-Executive) and persons who may be appointed in Senior Management and Key Managerial positions and to determine their remuneration.
- To carry out evaluation of the performance of Directors, as well as Key Managerial and Senior Management Personnel.
- To provide them reward linked directly to their effort, performance, dedication and achievement of Organization's goals as entrusted on them.
- To retain, motivate and promote talent and to ensure long term retention of talented managerial persons and create competitive advantage.

In the context of the aforesaid objectives the following policy has been framed and recommended by the Nomination & Remuneration Committee jointly with the Human Resources Department of the Company and adopted by the Board of Directors at its meeting held on August 02, 2014.

DEFINITIONS

- Board means Board of Directors of the Company.
- Directors means Directors of the Company.
- Committee means Nomination & Remuneration Committee of the Company as constituted or reconstituted by the Board.
- Sub-committee consists of Managing Director and the Whole-time Directors
- Company means Godrej Properties Limited
- Independent Director means a director referred to in Section 149 (6) of the Companies Act, 2013.

- Key Managerial Personnel (KMP) means
 - Executive Chairperson and/ or Managing Director;
 - Whole-time Director;
 - Chief Financial Officer;
 - Company Secretary;
 - Such other officer as may be prescribed under the applicable statutory provisions / regulations.
- Senior Management means personnel of the Company occupying the position of Chief Executive Officer, Chief Operating Officer, Executive Vice President or Vice President of any unit / division of the Company. Unless the context otherwise requires, words and expressions used in this policy and not defined herein but defined in the Companies Act, 2013 as may be amended from time to time shall have the meaning respectively assigned to them therein.

This Policy is divided in two parts: Part – A covers the appointment and nomination and Part – B covers remuneration and perquisites etc.

PART – A

Policy for Appointment and Removal of Director, KMP and Senior Management

Appointment

- The candidate for a position at Director, KMP or Senior Management level is met by the Head HR and the Director to whom the position reports into. The interview is targeted at assessing the candidate on his/ her functional & leadership capabilities and cultural fitment to the organization.
- The MD assesses the shortlisted candidates.
- The candidate identified through the above rounds is met by the Group Corporate HR for fitment to the GILAC group values and leadership capability requirements.

The identified candidate's details and the proposed compensation is recommended by the sub-committee to the Nomination & Remuneration Committee. The Committee has discretion to decide whether the qualification, expertise and experience possessed by the person is sufficient/ satisfactory for the concerned position. The selected candidate's details is shared with the Board at the next board meeting.

Term/Tenure

The tenure for Directors shall be Company governed by the terms defined in the Companies Act, 2013.

However, the tenure for other KMP and Senior Management Personnel will be governed by GPL HR policy.

Independent Directors:

- An Independent Director shall hold office for a term up to five consecutive years on the Board of the Company and will be eligible for re-appointment on passing of a special resolution by the Company and disclosure of such appointment in the Board's report.
- No Independent Director shall hold office for more than two consecutive terms, but such Independent Director shall be eligible for appointment after expiry of three years of ceasing to become an Independent Director.

Provided that an Independent Director shall not, during the said period of three years, be appointed in or be associated with the Company in any other capacity, either directly or indirectly.

At the time of appointment of Independent Director it should be ensured that number of Boards on which such Independent Director serves is restricted to seven listed companies as an Independent Director and three listed companies as an Independent Director in case such person is serving as a Whole-time Director of a listed company.

Performance Evaluation

The performance of the whole-time Director, KMP and Senior Management Personnel is evaluated at regular intervals (half yearly/ yearly) by the whole-time Directors/ Managing Director, as applicable.

The performance evaluation of Independent Directors shall be done by the Board, excluding the Director being evaluated, basis the contributions made to the Board deliberations on various matters including business strategy, financial strategy, operations, cost and risk management, etc., and suggestions given in this regard.

Removal

Due to reasons for any disqualification mentioned in the Companies Act, 2013, rules made thereunder or under any other applicable Act, rules and regulations and Godrej Code of Conduct, the sub-committee may recommend, to the Committee and the Board with reasons recorded in writing, removal of a Director, subject to the provisions and compliance of the said Act, rules and regulations.

For other KMP or Senior Management Personnel, the removal will be governed by GPL HR policy and the subsequent approval of the sub-committee.

Retirement

The Director, KMP and Senior Management Personnel shall retire as per the applicable provisions of the Companies Act, 2013 and the prevailing policy of the Company. The Managing Director will have the discretion to retain the Director, KMP, Senior Management Personnel in the same position / remuneration or otherwise even after attaining the retirement age, for the benefit of the Company.

PART – B

Policy Relating to Evaluation and Remuneration of the Whole-Time Directors, KMP and Senior Management Personnel

Evaluation Process:

A Three Point Rating scale for performance review of Executive Director, KMP, and Senior Management is being followed:

- Rating on Basic Job Responsibilities: indicating whether the basic job responsibilities have been met during the year
- Rating on Goals: Annual rating on each goal on a fivepoint scale. Weighted average of the ratings is calculated to arrive at a 'Weighted Goal Score'.
- Rating on GCF: The qualitative aspects of the performance is assessed using the Godrej Capabilities Factors (GCF) by the supervisor on a five-point scale.

Based on a holistic view of the Three Point Rating, the supervisor provides an overall Rating. This rating is reviewed by the Managing Director who does a Qualitative review of the performance based on the efforts put in by the employee, results achieved and impact of the external and internal factors, to arrive at a 'Final Annual Rating'.

The revision in the total remuneration is directly linked to the 'Final Annual Rating' for all employees.

- The remuneration/ compensation/ commission etc. to the Whole-time Director, KMP and Senior Management Personnel will be determined by the subcommittee in accordance with the HR policy, which is based upon the Final Annual Rating, employee potential and market benchmark compensation. The revised remuneration is shared with the Nomination & Remuneration Committee for approval.
- The Company stock options granted under the Employee Stock Grant Scheme to the Whole-time Director and Senior Management Personnel will be determined by the Managing Director as per the ESGS guidelines and recommended to the Committee and the Board for approval in the subsequent board meeting.
- The remuneration/ compensation/ commission etc. shall be subject to the prior/ post approval of the shareholders of the Company and Central Government, wherever required.
- The remuneration and commission to be paid to the Whole-time Director shall be in accordance with the percentage / slabs / conditions laid down in the Articles of Association of the Company and as per the provisions of the Companies Act, 2013, and the rules made thereunder.
- Increments to the existing remuneration/ compensation structure may be recommended by the sub-committee to the Committee and the Board which should be within

the slabs approved by the Shareholders in the case of Wholetime Director. Increments will be effective from 1st April in respect of a Wholetime Director and other employees of the Company.

- Where any insurance is taken by the Company on behalf of its Whole-time Director, Chief Executive Officer, Chief Financial Officer, the Company Secretary and any other employee for indemnifying them against any liability, the premium paid on such insurance shall not be treated as part of the remuneration payable to any such personnel. Provided that if such person is proved to be guilty, the premium paid on such insurance shall be treated as part of the remuneration.

Remuneration to Non-Executive / Independent Director:

a. Remuneration/ Commission:

The remuneration/ commission shall be fixed as per the slabs and conditions mentioned in the Articles of Association of the Company and the Companies Act, 2013 and the rules made thereunder.

b. Sitting Fees:

The Non- Executive / Independent Director may receive remuneration by way of fees for attending meetings of Board or Committee thereof. Provided that the amount of such fees shall not exceed Rs. One lakh per meeting of the Board or Committee or such amount as may be prescribed by the Central Government from time to time.

c. Commission

Commission may be paid within the monetary limit approved by shareholders, subject to the limit not exceeding 1% of the profits of the Company computed as per the applicable provisions of the Companies Act, 2013.

d. Stock Options:

ANNEXURE III

TO THE DIRECTORS' REPORT

Information Pursuant to Section 134(3)(m) of the Companies Act, 2013, read with Rule 8(3) of the Companies (Accounts) Rules, 2014 in respect of Conservation of Energy, Technology Absorption and Foreign Exchange Earnings and Outgo

A. Conservation of Energy

1. Steps Taken for Conservation of Energy:

Optimum measures have been initiated to reduce energy consumption, as a part of our sustainable development initiatives. With an intent to provide an Energy Efficient final product to customers, the Company develops all its projects as green building projects. As an internal mandate within the Company, it is mandatory to have IGBC Silver rating (or equivalent in other rating systems) for its ongoing and upcoming projects. Currently out of the complete GPL portfolio, 100%* adheres to the green building guidelines and norms laid by the rating systems.

The Company is working towards achieving precertification or certification of all its projects under credible external green rating systems such as the Indian Green Building Council (IGBC), Leadership in Energy and Environmental Design (LEED), Green Rating for Integrated Habitat Assessment (GRIHA) and Excellence in Design for Greater Efficiencies (EDGE). Energy conservation is an integral part of all these prevalent green building rating systems.

Through better selection of sites, design, construction, operation, maintenance, i.e. the complete building life cycle, green buildings provide benefits such as:

- a) increased resource efficiency (energy, water and materials)
- b) reducing the impact on human health and the environment

Steps taken for energy conservation:

- a. Godrej Properties is advancing its commitment to utilize clean energy for its headquarters, project sites, and marketing offices. Godrej One has obtained IGBC certification as Net Zero Energy for its operations. Similarly, one of the projects at Carmichael Road has received IGBC pre-certification as Net Zero Energy (Design) during the operational phase. This shows our commitment to conserve energy;
- b. Conducting comprehensive energy-modelling during the design stage to achieve energy conservation while meeting the functional requirements for both residential and commercial projects;
- c. Using high efficiency pumps, motors and other equipments / machineries;

- d. Life Cycle Assessment Study shall be conducted to identify opportunities to further reduce energy consumption and reduce overall environmental footprint;
- e. Installation of LED lamps for common areas and pathways as well as solar street lights for the landscape areas;
- f. Usage of Energy efficient building envelopes for walls and roofs including Low E glass wherever possible;
- g. Usage of high-efficiency glazing that cuts down the heat ingress and noise while maintaining optimum day lighting levels.
- h. Adoption of efficient lighting technology including use of timers and/or sensors for operating the light fixtures in certain areas.
- i. Establishing effective preventive and predictive maintenance system for maintaining all energy intensive equipment i.e. DG sets for energy generation, cranes, hoists, loaders, excavators, trucks and other transport vehicles;
- j. Focusing on minimizing the lighting load through innovative and effective technologies;
- k. Create awareness and encourage occupants towards greener lifestyle through a formal handover event like use high-efficiency ACs and refrigerators (BEE 5 star rated) and other home appliances.

2. Steps Taken by the Company for Utilising Alternate Sources of Energy

The Company is actively investing in green technologies to reduce emissions and minimize waste generation. Additionally, it has committed to reducing Scope 1 & 2 GHG emissions by 72.6% per square meter across all offices, with FY2020-2021 serving as the baseline year, as validated by the Science Based Targets initiative.

Solar energy is the alternate source of energy integrated into our projects and their operations. As a part of the green building guidelines followed by us, solar energy is utilised to meet the energy demands of the common areas of our developments. At our projects, Godrej City in Mumbai & Manjari, Mahalunge, Maan Hinjewadi in Pune, we had installed an ON-GRID PV Solar System for the project offices. The installed capacity 200 KW & 460 KW capacity solar plant with an approximate investment of ₹74,68,000 and ₹ 2,20,00,000 respectively.

3. Capital Investment on Energy Conservation Equipment:

Godrej Properties Limited develops all its projects as green building projects. The Company captures these expenses separately under environmental protection expenditures/ green investments. Total green spending in FY 2023-24 was ₹13.01 Crore.

B. Technology Absorption

1. The Efforts Made Towards Technology Absorption

a. Technical Initiatives:

The Company had evaluated various technologies during design phases of the product to improve quality and project completion timeline. A Cross Functional Team (CFT) studies alternate material, methods and technologies along with the architect and consultants during the design phases to maximize the value engineering potential.

Some of the initiatives taken are:

- Complete or partial automation of activities;

• Using full or partial pre-fabrication at site to increase reliability and save time;

• Adaptation of new advanced technologies to improve efficiency of operations;

• Installation of Solar Panels and usage of solar energy for lighting in the common areas, parking areas and streets and water heating requirements of the residential buildings;

• Installation of efficient lighting fixtures across office buildings;

• Installation of low-flow fixtures for reduction of water consumption;

• Recycling water within the development area to reduce dependency on external water source.

These initiatives improve the quality of the product and reduce construction timelines for projects.

b. Process Initiatives:

The Company has implemented Environment Management System which is as per ISO14001:2015 across all operational sites. As a part of EMS implementation, we will further work to develop site-specific strategy for energy conservation and for increased usage of renewable energy.

2. The Benefits Derived Like Product Improvement, Cost Reduction, Product Development or Import Substitution:

These initiatives improve the quality of the product and reduce construction timelines for projects. There is cost reduction in the construction stage through utilization of scheduling and planning, efficient practices, prefabricated components, etc. As our products are certified 'green' and it results into cost reduction for the occupants as an outcome of measures undertaken as per the green building guidelines.

C. Information Regarding Imported Technology (Imported During Last 3 Years)

The Company has not imported any energy conservation/ saving technology during last 3 years.

D. Expenditure incurred on Research & Development:

Godrej Properties Limited develops all its projects as green building projects. The Company captures these expenses separately under environmental protection expenditures/ green investments. Total green spendings in FY 2023-24 was ₹13.01 Crore, which comprises expenditure for any research and analytics, consultant and certification fees, procurement and execution, green sites, community developments and waste management, across all GPL project locations. The total R&D expenses for FY 2023-24 is ₹3.46 Crore.

E. Foreign Exchange Earnings and Outgo

During the financial year 2023-24, expenditure in foreign currencies in terms of actual outflow amounted to ₹45.95 crore (previous year ₹52.27 crore) on account of capital expenditure, professional & consultation fees and expenses incurred for business promotion and maintaining offices abroad. The Company has not earned any foreign exchange during the year.

Directors and Officers Insurance (‘D&O Insurance’)

In line with the requirements of Regulation 25(10) of the Listing Regulations, the Company has taken D&O Insurance for all its Independent Directors for such quantum and for such risks as determined by the Board of Directors.

e) Independent Directors:

Independent Directors play a significant role in the governance process of the Board. By virtue of their varied expertise and experience, they enrich the Board’s decision-making and

prevent possible conflicts of interest that may emerge in such decision-making.

The appointment of Independent Directors is carried out in a structured manner in accordance with the provisions of the Act and the Listing Regulations. The Nomination & Remuneration Committee identifies candidates based on laid down criteria and takes into consideration the balance of skills, knowledge and experience in addition to the need for diversity of the Board and accordingly makes its recommendations to the Board.

Mrs. Lalita D. Gupte (DIN: 00043559) ceased to be an Independent Director of the Company with effect from the

conclusion of 38th Annual General Meeting of the Company held on August 02, 2023, upon completion of her tenure. Mr. Amitava Mukherjee (DIN: 00003285) ceased to be an Independent Director of the Company w.e.f. July 03, 2023 due to his sudden and sad demise. The Board of Directors, upon recommendation of the Nomination and Remuneration Committee, appointed Ms. Jayashree Vaidhyanathan (DIN: 07140297) and Mr. Sumeet Narang (DIN: 01874599) as an Additional Independent Director on the Board of the Company with effect from August 02, 2023 and August 18, 2023, respectively. Their appointment was approved by the Members by means of postal ballot on September 28, 2023 for a period of 5 (five) consecutive years with effect from August 02, 2023 and August 18, 2023, respectively.

Basis the declarations received from the Independent Directors, the Board of Directors has confirmed that the Independent Directors of the Company meet the criteria of independence as mentioned under Regulation 16(1)(b) of the Listing Regulations read conjointly with Section 149(6) of the Act and that, they are independent of the management.

As required under Regulation 46(2)(b) of the Listing Regulations, the Company has issued formal letters of appointment to the Independent Directors. The terms and conditions of their appointment are also posted on the Company's website and can be accessed at <https://www.godrejproperties.com/investors/governance-leadership>. In terms of Regulation 25(8) of the Listing Regulations, the Independent Directors have confirmed that they are not aware of any circumstances or situation that exists or may be reasonably anticipated that could impair or impact their ability to discharge their duties.

Pursuant to the requirement of Regulation 24(1) of the Listing Regulations, the Company has appointed one of its Independent Directors on the Board of its unlisted material subsidiary company - Godrej Projects Development Limited.

Meeting of Independent Directors:

During the year under review, the independent directors met on February 06, 2024, *inter alia*, to discuss, review and assess:

- the performance of non-independent directors and the board of directors as a whole;
- the performance of the Chairperson of the Company, taking into account the views of the Executive and Non-Executive Directors;
- the quality, content and timelines of flow of information between the Management and the Board that is necessary for the Board to effectively and reasonably perform its duties; and
- other related matters.

All the Independent Directors were present at the above meeting.

Familiarization Program for Independent Directors:

The Company conducts familiarization programs for Independent Directors to enable them to understand their roles, rights and responsibilities. At the time of appointment of Independent Directors, they are given a detailed orientation

on the Company, industry, strategy, policies and Code of Conduct, regulatory matters, business, financial matters, human resource matters and Corporate social responsibility initiatives of the Company. Presentations are also made at the Board and Committee meetings which facilitates them to clearly understand the business of the Company and the environment in which the Company operates. Operational updates are provided for them to have a good understanding of Company's operations, businesses and the industry as a whole. They are periodically updated on material changes in regulatory framework and its impact on the Company. The Company's Policy of conducting familiarisation program has been disclosed at the website of the Company at <https://www.godrejproperties.com/investors/governance-leadership>

Annual Evaluation of the Board and Individual Directors:

Pursuant to the provisions of the Act and the Listing Regulations, the Board has carried out the annual evaluation of its own performance, as well as the working of its individual Committees. A structured questionnaire was prepared after taking into consideration, inputs received from the Directors, which covered aspects of the Board's functioning such as adequacy of the composition of the Board and its committees, Board culture, execution and performance of specific duties, obligations and governance.

A separate exercise was carried out to evaluate the performance of individual directors to obtain an overview of the functioning of the Board/ Committees, *inter alia*, on the broad criteria i.e. attendance and level of participation at meetings of the Board/ Committees, independence of judgement exercised by Independent Directors, interpersonal relationship and so on.

The Independent Directors have expressed their satisfaction at the robustness of the evaluation process, the Board's freedom to express its views on matters transacted at the meetings and the openness and transparency with which the Management discusses various subject matters specified on the agenda of meetings. The consolidated Evaluation Report of the Board, based on inputs received from the Directors was discussed at the meeting of the Board held on February 06, 2024 and the action areas identified in the process are being implemented to ensure a better interface at the Board/ Management level.

f) Board Skills, Capabilities and Experiences:

The Company recognizes the importance of having a Board comprising of directors who have a wide range of experiences, capabilities and diverse points of view. 26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format:

S. No.	Material Issue Identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (indicate positive or negative implications)
1.	GHG Management	Risk	Real estate assets contribute substantially to global emissions through energy consumption and waste production. Failure to effectively manage these emissions exposes the company to regulatory risks, as governments worldwide implement stricter climate-related regulations and carbon pricing mechanisms	1. Employ renewable energy systems, achieving IGBC Health and Well-being certifications, and prioritize sustainable procurement of materials. 2. Implementing internal carbon pricing and enhancing energy efficiency through LED lighting, smart technologies, and efficient HVAC systems are crucial steps, along with adopting water-saving measures like low-flow fixtures and rainwater harvesting.	Negative
2.	Waste Management	Risk	Waste management poses a significant risk to real estate sectors due to the significant waste generated by development, operation, and demolition of properties. As environmental regulations become stricter and stakeholders demand more sustainable practices, effective waste management is crucial to ensure compliance, reduce landfill use, and lower environmental impact.	1. We have implemented comprehensive strategies focused on waste diversion, recycling, and reuse. By prioritizing the minimization of construction and operational waste sent to landfills, we actively reduce our environmental impact. 2. Our initiatives include robust recycling programs and onsite material reuse practice. 3. Additionally, through our corporate social responsibility (CSR) projects, we offset additional waste from landfills, further enhancing our commitment to sustainability	Negative
3.	Occupational Health & Safety	Risk	For real estate companies, it is essential to inherent risks associated with property management, construction, and maintenance activities. Providing a safe work environment and preventing accidents are paramount to protecting employees, contractors, and tenants from potential hazards. Compliance with safety regulations is not only a legal obligation but also a critical factor in mitigating financial risks related to workplace injuries, liability claims, and potential fines	1. Our OH&S Management system is aligned with ISO 45001: 2018, conducting thorough audits and risk assessments. 2.Comprehensive training programs ensure staff are versed in safety protocols. Robust incident reporting and transparent communication foster a safety culture, while regular monitoring and reviews enhance effectiveness.	Negative
4.	Sustainable Supply Chain	Risk	Sustainable supply chain management imposes inherent risks for a real estate business in today's interconnected global economy. As the real estate industry relies heavily on suppliers for construction materials, maintenance services, and operational necessities, disruptions or unethical practices within the supply chain can significantly impact project timelines, costs, and reputation.	1. Our approach encompasses thorough supplier screening procedures, designed to assess potential partners based on sustainability criteria and compliance with environmental and social standards. 2. Our vendor screening processes ensure that all partners align with our sustainability objectives, promoting transparency, accountability, and responsible business practices throughout our operations.	Negative
5.	Product & Service Quality	Opportunity	At GPL, Our main priority is to create customer joy through best-in-class delivery with a focus on quality by ensuring high-quality products and services. By consistently delivering superior products and services, such as well-maintained properties, efficient property management, and responsive customer support, the company can cultivate positive relationships with tenants, investors, and other stakeholders.		Positive

- Comprehensive Planning: Before any activities commence, we develop Site Safety Plans and conduct thorough Hazard Identification and Risk Assessments to mitigate potential risks effectively.

- Work Permit System: Our Work Permit System ensures that tasks are performed safely and in accordance with established protocols.
- Internal Safety Audits: Regular internal safety audits are conducted to evaluate the effectiveness of safety measures and identify areas for improvement.
- Culture for Safety and Capability Building: We foster a culture of safety and continuously build capabilities among our employees through:
 - Comprehensive Safety Induction programs for all new hires.
 - Job-specific trainings to equip employees with the necessary skills for safe task execution.
 - Motivational programs and safety campaigns to instill a positive safety culture.
 - Regular review meetings, including Contractor Site Safety Committee, Joint Site Safety Committee, and Management review meetings, to address safety concerns and drive improvements.
 - Health check-ups and toolbox talks to monitor employee well-being and reinforce safety practices.
- Continual Improvement: Our internal audit mechanism monitors safety performance and identifies areas for ongoing enhancement, ensuring compliance with safety standards and regulations.

These initiatives underscore our unwavering commitment to the safety and well-being of our employees and stakeholders, as well as our dedication to continually improving safety standards across all our operations.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Response: As part of our Occupational Health and Safety (OH&S) Management System, SOP GPL P HS 02 has been developed to provide a structured approach for hazard identification, risk assessment, control implementation, and improvement of occupational health and safety (OH&S) within our organization.

This SOP systematically guides the process for hazard identification for all activities, following the hierarchy of controls framework. This framework includes the following steps:

- Elimination: Identifying opportunities to remove hazards entirely from the workplace.
- Substitution: Identifying safer alternatives to hazardous materials, equipment, or processes.
- Engineering Controls: Implementing physical changes to the work environment to isolate or minimize exposure to hazards.
- Administrative Controls: Implementing policies, procedures, and training programs to reduce exposure to hazards.
- Personal Protective Equipment (PPE): Providing appropriate PPE to workers as a final line of defense against identified hazards.

The goal of this SOP is to prioritize risk control measures that effectively mitigate or eliminate identified hazards. By following this systematic approach, we aim to ensure the safety and well-being of all personnel involved in our operations.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Response: The GPL Occupational Health and Safety (OH&S) Management System, as outlined in the Safety Manual, comprehensively delineates the roles and responsibilities of each stakeholder, including workmen. The manual serves as a guiding document that ensures clear understanding and adherence to safety protocols throughout project execution.

Key elements of the Safety Manual include:

Roles and Responsibilities: The manual explicitly outlines the roles and responsibilities of all stakeholders involved in the project, including management, supervisors, contractors, consultants, and workmen. Each stakeholder is provided with clear guidance on their specific duties regarding safety compliance and incident prevention.

Worker Roles: It is emphasized within the Safety Manual that workers possess full rights to refuse work if they identify any unsafe conditions during project execution. This right empowers workers to prioritize their safety and well-being, ensuring that potential hazards are promptly addressed to prevent accidents or injuries.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

Response: GPL’s contract safety rules and regulations encompass a robust procedure for establishing and operating Health Management and Medical Facilities at all our locations. As part of this initiative, a medical officer regularly visits each site at least once a week, with designated timings prominently displayed for easy access. We strongly encourage all workers to utilize this facility for addressing any non-occupational medical issues they may encounter.

11. Details of safety related incidents, in the following format:

Safety Incident/Number	Category*	FY 2023-24	FY 2022-23
Lost Time Injury Frequency Rate (LTIFR) (per one million-person hours worked)	Employees	0	0
	Workers	0.03	0.059
Total recordable work-related injuries	Employees	0	0
	Workers	1	4
No. of fatalities	Employees	0	0
	Workers	1	0
High consequence work-related injury or ill-health (excluding fatalities)	Employees	0	0
	Workers	0	0

*Includes contractual workforce

12. Describe the measures taken by the entity to ensure a safe and healthy workplace.

Response: GPL has implemented a range of measures to ensure a safe and healthy workplace environment for all employees. These initiatives include:

- Developing Occupational Health and Safety Policy: GPL has developed a comprehensive Occupational Health and Safety (OH&S) policy that outlines the organization’s commitment to providing a safe work environment and adhering to relevant regulations and standards.
- Conducting Trainings: Regular safety trainings are conducted for employees to ensure they are equipped with the necessary knowledge and skills to identify and mitigate workplace hazards effectively. This includes training on hazard recognition, emergency procedures, and the proper use of personal protective equipment (PPE).
- Internal Audits: GPL conducts internal audits to assess the effectiveness of safety measures and identify areas for improvement. These audits help ensure compliance with safety regulations and standards and promote continuous improvement in safety performance.
- Daily Inspections: Daily inspections are carried out to identify and address potential hazards in the workplace promptly. This proactive approach helps prevent accidents and injuries and maintains a safe working environment.
- Hazard Identification and Risk Assessment: GPL conducts regular hazard identification and risk assessment activities to identify workplace hazards and assess the associated risks. This allows for the implementation of appropriate control measures to minimize risks to employee health and safety.
- Formation of Safety Committees: Safety committees comprising representatives from various departments are formed to promote employee involvement in safety initiatives. These committees facilitate communication and collaboration on safety matters and help drive continuous improvement in safety performance.
- Developing Emergency Response Plans (ERP): GPL has developed Emergency Response Plans to effectively respond to accidents, injuries, or other emergencies. This includes conducting regular emergency mock drills to ensure employees are familiar with emergency procedures and can respond appropriately in emergency situations.
- Developing Health & Safety Plan: A Health & Safety Plan is in place to outline specific measures and strategies aimed at promoting employee health and safety in the workplace. This plan includes initiatives such as safety campaigns, health and wellness programs, and awareness campaigns on issues like smoking cessation, alcohol addiction, and HIV awareness.
- Health and Wellness Programs: GPL offers health and wellness programs to employees to promote overall well-being. These programs may include initiatives such as smoking cessation programs, alcohol addiction support, HIV awareness campaigns, and other health promotion activities.
- Meeting Legal Requirements: GPL ensures compliance with all applicable occupational health and safety regulations, standards, and legal requirements. This includes regularly reviewing and updating safety policies and procedures to reflect changes in regulations and industry best practices.

By implementing these measures, GPL demonstrates its commitment to providing a safe and healthy workplace environment for all employees, promoting employee well-being, and fostering a culture of safety across the organization.

13. Number of Complaints on the following made by employees and workers:

	FY 2023-24			FY 2022-23		
	Filed during this year	Pending resolution at the end of year	Remarks	Filed during this year	Pending resolution at the end of year	Remarks

14. Assessments for the year:

	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Health & Safety practices	100%
Working Conditions	100%

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health & safety practices and working conditions.

Response: As per our process, hazard identification is systematically conducted for all activities to pinpoint potential risks. We then prioritize risk control measures in line with the hierarchy of controls, which includes elimination, substitution, engineering controls, administrative controls, and personal protective equipment (PPE). Once the control measures are finalized, we ensure dissemination of these hazards and controls to the execution team, including workers, to proactively eliminate hazards arising in day-to-day work. In addition to risk assessment, we actively share horizontal deployment related to incident case studies across all locations. This ensures the implementation of control measures and fosters a culture of continuous improvement in our safety practices.

Leadership Indicators

1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N).

Response: (A) Yes, (B) Yes

2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

Response: Statutory compliances/challans have been submitted by all the contractors during each RA bill from the Contractors. GPL also has monthly compliance audits in place to ensure compliance from the contractors.

3. Provide the number of employees / workers having suffered high consequence work related injury / ill-health / fatalities (as reported in Q11 of Essential Indicators above), who have been rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment.

Response:

	Total no. of affected employees/workers		No. of employees/workers that are rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment	
	FY 2023-24	FY 2022-23	FY 2023-24	FY 2022-23
Employees	0	0	0	0
Workers	0	0	0	0

4. Does the entity provide transition assistance programs to facilitate continued employability and the management of career endings resulting from retirement or termination of employment? (Yes/ No)

Response: No

5. Details on assessment of value chain partners

	% of value chain partners (by value of business done with such partners) that were assessed
Health and safety practices	100%*
Working Conditions	

Note: *Includes all contractors.

The general terms of the contract and safety SOP has been agreed and executed by all the contractors working at site which involves maintaining good working conditions at site. Health & safety, including working conditions are evaluated by the Safety team through frequent Audits as spelled out in our EHS SOP.

6. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from assessments of health and safety practices and working conditions of value chain partners.

Response: The general terms of the contract as well as the Supplier’s Code of Conduct require the value chain partners to maintain safe working conditions. Our safety policy applies to all contractors who are working on our project locations. As mentioned in the questions above, the entire project shares all areas of health and safety precautions and working conditions, including risk detection and corrective methods.

PRINCIPLE 4:
Businesses should respect the interests of and be responsive to all its stakeholders.

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity.

Response: Key stakeholders are individuals, organizations, parties, or entities are who are either impacted by GPL or have the power to influence GPL. They are prioritised based on criteria such as dependence, responsibility, influence on GPL and impact of GPL’s activities on them.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Stakeholder group	Whether identified as Vulnerable & Marginalized Group (Yes/No)	Channels of communication	Frequency of engagement (Annually/ Half yearly/ Quarterly / others – please specify)	Purpose and scopeof engagement including key topics and concerns raised during such engagement
Government Bodies and Regulatory Agencies	No	Meetings and personal interactions	Need Basis	Ensuring statutory compliance, environmental and social responsibility, robust corporate governance practices, and maximizing tax revenues are imperative facets of holistic business management.
Joint Venture Partners	No	Workshops, meetings, and personal interactions	Continuous engagement	Addressed through a structured process ensuring efficient delivery.
Suppliers	No	Feedback surveys and personal interactions	Continuous engagement	Encompass health and safety initiatives, regular capacity building efforts, and compliance measures
Consultants	No	Workshops, meetings, and personal interactions	Continuous engagement	Encompass capacity building and quality enhancement, addressing key topics and concerns raised throughout the consultation process
Contractors	No	Meetings and personal interactions	Continuous engagement	Encompass capacity building, health, and safety.

Leadership Indicators:

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

Response: At GPL, we carry out frequent interactions with our stakeholder groups. By actively involving the stakeholder groups and collecting their feedback on various topics, including economic, environmental, and social aspects, we ensure that key concerns and responses are effectively communicated to the board members. The Company also has established engagement plan based on stakeholder’s characteristics, needs and expectations. This plan serves as a guide for us to tailor our engagement activities and leverage diverse platforms.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Response: Yes, we periodically consult with our stakeholders to identify environmental and social topics of importance. We use a materiality lens to evaluate our top risks, considering both qualitative and quantitative likelihood and impact criteria to ensure a thorough evaluation across various dimensions. Our materiality is assessed using the six integrated reporting capitals and the most recent GRI frameworks. The evaluation of our engagement with local stakeholders is conducted by our ESG Committee. This evaluation is subsequently shared with the Board, which includes the Stakeholder Relationship Committee, for discussions, review, and improvement. The members of our ESG Committee, who supervise the outcomes of our materiality assessments, also identify the important issues relevant to our company. For efficient communication with our stakeholders, we have implemented a dedicated intranet site. Additionally, we adhere to standardized debriefing processes, develop training modules, and arrange internal conferences where local managers convene to exchange operational best practices.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

Response: We promote social protection for our workers through our partnerships with NGOs and regulatory bodies. Our focus is on registration under Building and Other Construction Workers (BOCW) and other welfare schemes.

PRINCIPLE 5:

Businesses should respect and promote human rights.

Essential Indicators

1. Employees and workers who have been provided training on human rights issues and policy(ies) of the entity, in the following format:

Remuneration includes fixed compensation and target variable pay.
Note: *This excludes 30 employees from ‘Other’ gender and those who are located in international geographies.

- b. Gross wages paid to females as % of total wages paid by the entity, in the following format

	FY 2023-24	FY 2022-23
Gross wages paid to females as % of total wages	21%	20%

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business?

Response: Yes, we have an internal committee and platform at all offices and sites of the company to address human rights issues such as complaints pertaining to sexual harassment and discrimination. Any employee found guilty of any form of harassment may face strong disciplinary action from the company administration. The links to the policies are mentioned in our website at: <https://www.godrejproperties.com/investor/corporate-governance>.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

Response: At GPL, we prioritize human rights in all our operations and investment agreements. We conduct thorough human rights reviews and incorporate stringent human rights clauses into our agreements. In addition to that, human rights training is provided for contractual personnel as part of contractual processes with agencies. To facilitate reporting and address any grievances related to human rights issues, we have established multiple platforms. We have various engagement formats and site events to address any grievances, as well as a provision to connect with leaders on any grievance matter through details available on the company’s intranet.

6. Number of Complaints on the following made by employees and workers.

	FY 2023-24			FY 2022-23		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases.

Response: The complainant's identity is concealed if they are not comfortable sharing. Also, in case the complainant wants to make a police complaint considering fear of retaliation by the respondent then the POSH IC helps raise the same. POSH IC or HR teams in case of discrimination take interim measures to avoid any interaction between both parties to avoid any adverse consequences during investigation period.

9. Do human rights requirements form part of your business agreements and contracts?

Response: Yes, the human rights norms and standards followed by GPL also extend to our business agreements and contracts.

10. Assessments for the year

	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Child Labour	100%
Forced/involuntary labour	100%
Sexual harassment	100%
Discrimination at workplace	100%
Wages	100%
Others- Health & Safety, Working hours	100%

11. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 10 above

Response: We have established several procedures to address human rights risks. Six sample sites have been chosen for assessments, and no instances of non-compliance with human rights have been identified across our sites, eliminating the need for remediation actions. Nonetheless, minor observations were observed during third-party assessments conducted on the selected sample sites for the audit.

Leadership Indicators

1. Details of a business process being modified / introduced as a result of addressing human rights grievances/complaints.

Response: We have put in place a code of conduct, company values, and policies to ensure that human rights are respected and upheld at every level of our operations. To encourage employees to voice their concerns, we have implemented an

open-door and whistleblower policy. There have been no human rights grievances/complaints resulting in introduction/ modification of business process.

2. Details of the scope and coverage of any Human rights due diligence conducted.

Response: We have diligently conducted Human Rights Assessments for this year, scrutinizing all our operations, including 100% of GPL's offices and project sites. These assessments, mandated by GPL's human rights policy and aligned with the United Nations' guidelines, comprehensively cover crucial areas such as health and safety, working hours, wages and leave policies, fair treatment practices, community impacts, product stewardship, freedom of association, prevention of forced labor and child labor, discrimination mitigation, and robust compliance monitoring. Additionally, every project and site office has undergone rigorous self-assessment on human rights issues. Furthermore, to ensure a deep understanding and commitment across our workforce, all employees have participated in thorough training sessions focused on human rights awareness.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

Response: Yes. Godrej One, Vikhroli our head office has had accessibility audits done and post that made accessible with usage of accessible elevators, ramps, and screen readers. We currently have accessibility walks and audits being conducted for our sites too basis which adjustments will be made to ensure accessibility for Persons with Disability.

4. Details on assessment of value chain partners:

	% of value chain partners (by value of business done with such partners) that were assessed
Sexual Harassment	0%
Discrimination at workplace Child Labour	0%
Child Labour	0%
Forced Labour	0%
Involuntary Labour Wages	0%

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Response: Yes, Grant Thornton Bharat LLP

*Implied PPP conversion rate for India by IMF (International Monetary Fund) is 22.573 for 2022, and 22.167 for 2023.

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Response: Godrej Properties Limited has committed to reduce scope 1 and 2 greenhouse gas (GHG) emissions by 72.6% per square meter of GPL's offices by FY 2034-35, compared to the base year of FY 2020-21. We have also set a target of achieving science-based targets for 88.5% of our suppliers in the category pertaining to purchased goods and target, we are dedicated to identifying and addressing the major sources of GHG emissions. To effectively reduce net emissions, GPL has adopted a comprehensive and multi-faceted approach. Firstly, we are increasing the adoption of alternative clean energy options to minimize our reliance on fossil fuels. By transitioning to renewable energy sources, such as solar and wind power, we can significantly reduce our carbon footprint. Additionally, we are actively supporting energy efficiency measures such as installation of renewable energy generation system on site across, switching to fuel efficient and low carbon equipment across our operations. To offset any remaining emissions, GPL is undertaking proactive afforestation and land use focused projects. By investing in these initiatives, we contribute to the restoration and preservation of ecosystems, which serve as natural carbon sinks. Through this multi-pronged approach, which encompasses clean energy adoption, energy efficiency measures, and carbon offset projects, GPL is committed to achieving substantial reductions in GHG emissions. By aligning our actions with sustainability goals, we aim to play a significant role in mitigating climate change and creating a more environmentally responsible future.

9. Provide details related to waste management by the entity, in the following format

*Construction and Demolition Waste includes debris.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Response: Appropriate management of waste is of utmost importance to us and hence, we are committed to strictly adhering to waste management regulations. However, we go beyond mere compliance by adopting a proactive approach to minimize the environmental impact of the waste we generate. In line with regulations, we ensure that hazardous waste is disposed of through authorized third-party recyclers. For non-hazardous waste, including metal scraps and construction debris, we also work with authorized recyclers to ensure proper disposal and recycling. This enables us to divert these materials from landfills and promote a circular economy. In the case of non-hazardous organic waste, we have implemented composting methods. By composting organic waste, we can produce high quality manure that is then utilized for project landscaping and in our plant nursery. To further enhance our waste management efforts, GPL has established integrated decentralized solid waste management programs in Konark, Bhubaneshwar, Batala, and Agra. These programs aim to minimize waste sent to landfills by implementing effective waste reduction and recycling strategies. We believe that collective action is crucial for achieving meaningful results. Therefore, we actively partner with various organizations and engage in clean-up drives and campaign rallies. By collaborating with these entities, we can translate innovative waste management practices into tangible on-ground results. Through our comprehensive waste management initiatives and collaborative partnerships, we are committed to minimizing waste to landfill and making a positive environmental impact.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

2. Please provide details of total Scope 3 emissions & its intensity, in the following format:

Parameter	Unit	FY 2023-24	FY 2022-23
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Tonnes of CO ₂ equivalent	1,594,025.04	1,951,267
Total Scope 3 emissions per rupee of turnover	tCO ₂ e/₹	0.000052	0.000086
Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity	tCO ₂ e/sq. ft. Produced	0.16	0.29

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.
Response: Yes, Refer IR page number 88-89, GRI 305-3 and Limited assurance is conducted on IR

3. With respect to the ecologically sensitive areas reported at Question 11 of Essential Indicators above, provide details of significant direct & indirect impact of the entity on biodiversity in such areas along-with prevention and remediation activities.

Response: Not Applicable.

4. If the entity has undertaken any specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated, please provide details of the same as well as outcome of such initiatives, as per the following format:

S. No.	Initiative Undertaken	Details of the initiative (Web-link, if any, may be provided along-with summary)	Outcome of the initiative
1.	Waste Management and Waste Reduction Initiative	In order to manage and reduce C&D waste at project sites, we implemented on-site material recovery facility (MRF) which enabled efficient segregation and management of waste with separate storage areas for different waste streams and linking them to authorized vendors for recycling. In first phase as a best practice, GPL has piloted setup of dedicated MRF centers at 10 project sites located in 3 Zones.	10 Projects has successfully setup Material Recovery Facility. Total 98% of Waste is Recycled or Reused.
2.	Use of Renewable energy for temporary structure at Projects	Solar energy is the alternate source of energy integrated into our projects and their operations. At our projects, Godrej City in Mumbai & Manjari, Mahalunge, Maan Hinjewadi in Pune, we had installed an ON-GRID PV Solar System for the project offices. The installed capacity 200 KW & 460 KW capacity solar plant.	Units generated till Date (KWh) 512,779 which eventually reduced emission by approximately 19,297.77 KgCO ₂ e

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Response: Yes, we recognize the importance of business continuity and disaster management in mitigating risks to our operations. With a methodical approach, GPL has developed a comprehensive plan to identify, assess, and minimize potential disasters. Through risk assessments, disaster management plans, and vulnerability analyses, GPL proactively works to reduce risks to both people and property. By implementing long-term action plans, the company ensures preparedness and resilience in the face of potential disasters. GPL's commitment to business continuity and disaster management demonstrates its dedication to safeguarding its assets and maintaining operational stability even in challenging circumstances.

PRINCIPLE 9:

Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

Response: 1) Each customer is assigned a Relationship Manager through whom the customer can raise complaints, seek clarifications or provide feedback. Each interaction with a customer is tracked in our ECRM through a Service Request Module.

2) Customers are provided information on the RM assigned, RM coordinates, and mechanism to raise a service request themselves via the GPL Mobile App.

3) GPL conducts half yearly relationship NPS survey with all its customers, asking them to rate their likelihood of recommendation Godrej Properties to friends and family on a scale of 0 to 10 (0 being lowest; 10 being highest). The survey also provides customers to share objective and qualitative feedback abouts Godrej Properties Ltd’s products and services.

4) GPL further conducts Episodic NPS surveys during key moments of truth in a customer lifecycle, namely, onboarding, registration of their unit, site visit and handover. These surveys provide customers another opportunity to rate their experience during these critical moments of truth.

2. Turnover of products and/ services as a percentage of turnover from all products/service that carry information about:

	As a % of total turnover
Environmental and social parameters relevant to the product	100%
Safe and responsible usage	100%
Recycling and/or safe disposal	100%

3. Number of consumer complaints in respect of the following:

4. Details of instances of product recalls on account of safety issues:

	Number	Reasons for recall
Voluntary Recalls	NA	NA
Forced Recalls	NA	

GPL is a real estate firm involved in the development of residential properties, commercial properties and townships. The features that we include in our goods, such as rainwater collection systems, sewage treatment plants, solar PV, and resource recovery centres, include safety as a key component. Through the resident assistant, customers are informed about how these features operate and how to use them. Therefore, product recalls do not pertain to our business.

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy.

Response: Yes, our ISMS policy can be found on our intranet ([GPL Information Security Policy](#)).

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.

Response: Not Applicable

7. Provide the following information relating to data breaches:

a. Number of instances of data breaches

Response: 0

b. Percentage of data breaches involving personally identifiable information of customers

Response: 0%

c. Impact, if any, of the data breaches

Response: Not Applicable

Leadership Indicators

1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).

Response: All the information about products and services of the entity is available in the public domain on the website. Please refer to <https://www.godrejproperties.com/>.

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

Response: Not Applicable. Although during the handing-over of the project, our teams inform and educate customers about safe and responsible usage of products and/or services through various engagement mechanisms including handover manuals, sustainability master classes, and focused site visits.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

Response: We have developed an app for our all our customers to help them through their post-possession journey, and the same app is used to share notification and information regarding all crucial matters including service disruption/ discontinuation (if any).

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/ Not Applicable) If yes, provide details in brief. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No).

Response: Yes, external creative communications contain the real estate regulatory authority (RERA) registration number. All projects listed on the website have all project details including the registration number. GPL is one of very few real estate companies that has adopted Net Promoter Score (NPS) as a metric to measure of customer satisfaction. We received encouraging NPS score of 68% an improvement from 65% in FY 2022-23 with over 14,267 of our customers providing us this performance rating.

FINANCIAL STATEMENTS

Independent Auditor’s Report

To the Members of Godrej Properties Limited

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Opinion

We have audited the standalone financial statements of Godrej Properties Limited (the “Company”) which comprise the standalone balance sheet as at 31 March 2024, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including material accounting policies and other explanatory information in which are incorporated returns from branches in Singapore, Qatar and Dubai (hereinafter referred to as “standalone financial statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (“Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2024, and its profit and other comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor’s Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue recognition

See Note 30 to the standalone financial statements

The Key audit matter	How the matter was addressed in our audit
<p>The Company’s most significant revenue streams involve sale of residential units, commercial units and plotted lands representing 78% of the total revenue from operations of the Company.</p> <p>Revenue is recognised post transfer of control to customers for the consideration (transaction price) which the Company expects to receive in exchange for those units / lands. The trigger for revenue recognition is normally completion of the project or receipt of approvals on completion from relevant authorities, post which the contract with customer becomes non-cancellable.</p> <p>The Company records revenue, over time till the actual possession to the customers, or on actual possession to the customers, as determined by the terms of contract with customers.</p> <p>Measurement of revenue recorded over time which is dependent on the estimates of the costs to complete</p> <p>Revenue recognition involves significant estimates related to measurement of costs to complete for the projects.</p> <p>Revenue from projects is recorded based on the Company’s assessment of the work completed, costs incurred and accrued and the estimate of the balance costs to complete.</p> <p>Considering the significant estimate involved in measurement of revenue and risk of revenue being recognised in an incorrect period, we have considered measurement of revenue as a key audit matter.</p>	<p>Our audit procedures included following:</p> <ul style="list-style-type: none">Obtaining and understanding revenue recognition process including identification of performance obligations and determination of transfer of control of the asset underlying the performance obligation to the customer.Evaluating the design and implementation and tested operating effectiveness of key internal controls around approvals of contracts, milestone billing, intimation of receipt of occupation certificate, recording of project cost and controls over collection from customers .Evaluating the accounting policies adopted by the Company for revenue recognition to check those are in line with the applicable accounting standards and their consistent application to the significant sales contracts.Testing timeliness of revenue recognition by comparing individual sample sales transactions to underlying contracts.Conducting site visits during the year for selected projects to understand the scope, nature and progress of the projects.Evaluating revenue overstatement by assessing Company’s key judgments in interpreting contractual terms. Determining the point in time at which the control is transferred by evaluating Company’s in-house legal interpretations of the underlying agreements i.e. when contract becomes non-cancellable.Assessing the costs incurred and accrued to date on the balance sheet by examining underlying invoices and signed agreements on a sample basis. Assessing contract costs to check no costs of revenue nature are incorrectly recorded in the balance sheet.Comparing, on a sample basis, revenue transactions recorded during the year with the underlying contracts, invoices raised on customers and collections in bank accounts. Also, checked the related revenue had been recognised in accordance with the Company’s revenue recognition policies.Comparing the costs to complete workings with the budgeted costs and inquiring for variance.Sighting Company’s internal approvals, on sample basis, for changes in budgeted costs along with the rationale for the changes.Scrutinising the revenue journal entries raised throughout the reporting period and comparing details of a sample of these journals, which met certain risk-based criteria, with relevant underlying documentation.Considering the adequacy of the disclosures in the standalone financial statements in respect of the judgments taken in recognising revenue for residential, commercial units and plotted lands units in accordance with Ind AS 115.

Investment in subsidiaries, joint ventures and an associate and loans to subsidiaries and joint ventures

(See Note 6, 7, 9, 18 to the standalone financial statements)

The Key audit matter	How the matter was addressed in our audit
<p>The carrying amount of the investments in subsidiaries, joint ventures and an associate held at cost less impairment represents 9.75 % of the Company's total assets. The loans to subsidiaries and joint ventures represents 29.42 % of the Company's total assets.</p> <p>Recoverability of investments in subsidiaries, joint ventures and an associate</p> <p>The Company's investments in subsidiaries, joint ventures and an associate are carried at cost less any permanent diminution in value. The investments are assessed for impairment at each reporting date.</p> <p>The impairment assessment involves the use of estimates. The identification of impairment event and the determination of an impairment charge also require the application of significant judgement by the Company. The judgement, in particular, is with respect to the timing and quantity and estimation of projected cash flows of the real estate projects in these underlying entities.</p> <p>In view of the significance of these investments and above, we consider valuation / impairment of investments in subsidiaries, joint ventures and an associate to be a key audit matter.</p> <p>Recoverability of loans given to subsidiaries and joint ventures</p> <p>The Company has extended loans to joint ventures and subsidiaries.</p> <p>These are assessed for recoverability at each period end.</p> <p>Due to the nature of the business in the real estate industry, the Company is exposed to heightened risk in respect of the recoverability of the loans granted to the aforementioned parties. In addition to nature of business, there is also significant judgment involved as to the recoverability of the working capital and project specific loans which depends on property development projects being completed over the time period specified in agreements.</p> <p>We have identified measurement of loans to subsidiaries and joint ventures as key audit matter.</p>	<p>Recoverability of investments in subsidiaries, joint ventures and an associate</p> <p>Our audit procedures included:</p> <ul style="list-style-type: none">Evaluating design and implementation and testing operating effectiveness of controls over the Company's process of impairment assessment and approval of forecasts.Assessing the valuation methods used, financial position of the subsidiaries, joint ventures and an associate to identify excess of their net assets over their carrying amount of investment by the Company and assessing profit history of those subsidiaries, joint ventures and an associate.For the investments where the carrying amount exceeded the net asset value, understanding from the Company regarding the basis and assumptions used for the projected profitability.Verifying the inputs used in the projected profitability.Testing the assumptions and understanding the forecasted cash flows of subsidiaries, joint ventures and an associate based on our knowledge of the Company and the markets in which they operate.Assessing the comparability of the forecasts with historical information.Analysing the possible indications of impairment and understanding Company's assessment of those indications.Considering the adequacy of disclosures in respect of the investments in subsidiaries, joint ventures and an associate. <p>Recoverability of loans to subsidiaries and joint ventures</p> <p>Our procedures included:</p> <ul style="list-style-type: none">Evaluating the design and implementation and testing operating effectiveness of key internal controls placed around the impairment assessment process of the recoverability of the loans.Assessing the net worth of subsidiaries and joint ventures on the basis of latest available financial statements.Assessing the controls for grant of new loans and sighting the Board approvals obtained. We have tested Company's assessment of the recoverability of the loans, which includes cash flow projections over the duration of the loans. These projections are based on underlying property development appraisals.Tracing loans advanced / repaid during the year to bank statement.Obtaining independent confirmations to assess completeness and existence of loans given to subsidiaries and joint ventures as on 31 March 2024.

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Management's and Board of Directors' Responsibilities for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of standalone financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Annexure A to the Independent Auditor's Report on the Standalone Financial Statements of Godrej Properties Limited for the year ended 31 March 2024

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment, Right-of-use Assets and Investment Properties.
- (B) The Company has maintained proper records showing full particulars of intangible assets.
- (i) (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment including investment properties are verified in a phased manner over a period of three years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than immovable properties where the Company is the lessee and the leases agreements are duly executed in favour of the lessee) disclosed in the standalone financial statements are held in the name of the Company.
- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.
- (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The inventory, except stocks lying with third parties, has been physically verified by the management during the year. For stocks lying with third parties at the year-end, written confirmations have been obtained. In our opinion, the frequency of such verification is reasonable and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory
- (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from a bank on the basis of security of current assets. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been sanctioned any working capital limits from financial institutions. In our opinion, the quarterly returns or statements filed by the Company with such bank are in agreement with the books of account of the Company.
- (iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has made investments in and granted loans, secured and unsecured, to companies, limited liability partnerships and other parties in respect of which requisite information is as below. The Company has not made investments and granted loans, secured or unsecured, to firms during the year. The Company has not provided any guarantee or security or granted any advances in the nature of loans, secured or unsecured to companies, firms, limited liability partnership or any other parties during the year.
- (a) Based on the audit procedures carried on by us and as per the information and explanations given to us the Company has provided loans to subsidiaries, joint ventures and other parties as below:

Particulars	Loans (Rs in crores)
Aggregate amount during the year	
Subsidiaries*	3,622.00

- (xiii) In our opinion and according to the information and explanations given to us, the transactions with related parties are in compliance with Section 177 and 188 of the Act, where applicable, and the details of the related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.

- (xiv) (a) Based on information and explanations provided to us and our audit procedures, in our opinion, the Company has an internal audit system commensurate with the size and nature of its business.
- (b) We have considered the internal audit reports of the Company issued till date for the period under audit.
- (xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Act are not applicable to the Company.
- (xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.
- (b) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(b) of the Order is not applicable.
- (c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.
- (d) According to the information and explanations provided to us, the Group (as per the provisions of the Core Investment Companies (Reserve Bank) Directions, 2016) does not have more than one CIC.
- (xvii) The Company has not incurred cash losses in the current and in the immediately preceding financial year.

- (xviii) There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.
- (xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- Also refer to the Other Information paragraph of our main audit report which explains that the other information comprising the information included in Directors' report is expected to be made available to us after the date of this auditor's report.
- (xx) In our opinion and according to the information and explanations given to us, there is no unspent amount under sub-section (5) of Section 135 of the Act pursuant to any project. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

Annexure B to the Independent Auditor's Report on the standalone financial statements of Godrej Properties Limited for the year ended 31 March 2024

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Godrej Properties Limited (“the Company”) as of 31 March 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2024, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference

Place: Mumbai

Date: May 03, 2024

to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Note 1

I. Company overview

Godrej Properties Limited (“the Company”) having CIN: L74120MH1985PLC035308 is engaged primarily in the business of real estate construction, development and other related activities. The Company is a public limited company incorporated and domiciled in India having its registered office at Godrej One, 5th Floor, Pirojshahnagar, Eastern Express Highway, Vikhroli, Mumbai - 400079. The Company’s equity shares are listed on The Bombay Stock Exchange Limited (BSE) and The National Stock Exchange of India Limited (NSE).

II. Basis of preparation and measurement

a) Statement of Compliance

The Standalone Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards (IND AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under the Section 133 of the Companies Act, 2013 (“the Act”) and the relevant provisions and amendments, as applicable. The Standalone Financial Statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently.

The Standalone Financial Statements of the Company for the year ended March 31, 2024 were authorized for issue by the Board of Directors on May 03, 2024.

b) Functional and presentation currency

These Standalone Financial Statements are presented in Indian rupees (INR), which is also the functional currency of the Company. All financial information presented in Indian rupees has been rounded to the nearest crore, unless otherwise stated.

c) Basis of measurement

These financial statements have been prepared on historical cost basis except certain financial instruments, defined benefit plans and share based payments measured at fair value.

d) Use of estimates and judgements

The preparation of the Standalone Financial Statements in conformity with IND AS requires the use of estimates, judgements and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. Management believes that the estimates made in the preparation of the standalone financial statements are prudent and reasonable. Actual results could differ from those estimates.

Any revision to accounting estimates is recognized prospectively in current, future periods and all periods presented in Standalone Financial Statements.

Information about judgments in applying accounting policies, as well as estimates and assumptions that have the most

significant effects on the amounts recognized in the financial statements included in the following notes:

Judgements

- Evaluation of satisfaction of performance obligation for the purpose of revenue recognition*

Determination of revenue under the satisfaction of performance obligation necessarily involves making estimates, some of which are of a technical nature, concerning, where relevant, the timing of satisfaction of performance obligation, costs to completion for the project or activity and the foreseeable losses to completion. Estimates of project income, as well as project costs, are reviewed periodically. The effect of changes, if any, to estimates is recognized in the standalone financial statements for the period in which such changes are determined.

- Recognition of deferred tax assets*

The deferred tax assets in respect of brought forward business losses is recognized based on reasonable certainty of the projected profitability, determined on the basis of approved business plans, to the extent that sufficient taxable income will be available to absorb the brought forward business losses.

Estimates

- Evaluation of Net realizable Value of Inventories*

Inventories comprising of finished goods and construction-work-in progress are valued at lower of cost and net realizable value. Net Realizable value is based upon the estimates of the management. The effect of changes, if any, to the estimates is recognized in the Statements financial statements for the period in which such changes are determined.

- Useful life and residual value of property, plant and equipment, intangible assets & Investment Property*

Useful lives of tangible, intangible assets and Investment property are based on the life prescribed in Schedule II of the act. In cases, where the useful lives are different from that prescribed in Schedule II of the Act, they are based on internal technical evaluation. Assumptions are also made, when the Group assesses, whether an asset may be capitalized and which components of the cost of the asset may be capitalized.

- Recognition and measurement of defined benefit obligations*

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and attrition rate. The discount rate is determined by reference to market yields at the end of the reporting period on government securities. The period to maturity of the underlying securities correspond to the probable maturity of the post-employment benefit obligations.

- Recognition and measurement of long-term incentive*

Accrual for long-term incentive scheme liability requires estimates and judgements in respect of achievement of

Notes Forming Part of Standalone Financial Statements

For the year ended March 31, 2024

(Currency in INR Crore)

parameters of individual and business performance, as well as market related parameters. These estimates are based on past performance, approved budgets and plans and forecast of market indicators based on best estimate as at the reporting date.

- Share based payments*

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which depends on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For the measurement of the fair value of equity-settled transactions with employees at the grant date, the Company uses Black-Scholes model.

The assumptions used for estimating fair value for share-based payment transactions are disclosed in Note 42 to the Standalone Financial Statements.

- Fair value measurement of financial instruments*

When the fair values of the financial assets and liabilities recorded in the balance sheet cannot be measured based on the quoted market prices in active markets, their fair value is measured using valuation technique. The inputs to these models are taken from the observable market where possible, but where this is not feasible, a review of judgement is required in establishing fair values. Any changes in the aforesaid assumptions will affect the fair value of financial instruments.

- Expected Credit losses (ECL) and Impairment losses on investment*

Measurement of ECL allowance for trade receivable and Impairment test for Investments: Key assumptions underlying recoverable amounts, weighted-average loss rate and Project cashflows.

- Provisions and contingencies*

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the amount included in other provisions.

e) Recent pronouncements

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

f) Material accounting policy information

The Company adopted Disclosure of Accounting Policies (Amendments to Ind AS 1) from 1 April 2023. Although the

amendments did not result in any changes in the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

The amendments require the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements.

g) Measurement of fair values

The Company’s accounting policies and disclosures require the measurement of fair values for financial and non-financial assets and liabilities.

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (Unobservable inputs)

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

h) Operating Cycle

The normal operating cycle in respect of operation relating to under construction real estate project depends on signing of agreement, size of the project, phasing of the project, type of development, project complexities, approvals needed and realization of project into cash and cash equivalents and range from 3 to 7 years. Accordingly, project related assets and liabilities have been classified into current and non-current based on operating cycle of respective projects. All other assets and liabilities have been classified into current and non-current based on a period of twelve months.

III. Material Accounting Policies

a. Property, plant and equipment and depreciation and amortization

i) Recognition and Measurement:

Items of property, plant and equipment, other than Freehold Land, are recognized and measured at cost less accumulated depreciation and impairment losses, if any. Freehold Land is carried at cost and is not depreciated. The cost of an item of property, plant and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and
- Any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment are derecognized from the Standalone Financial Statements, either on disposal or when no economic benefits are expected from its use or disposal. The gain or loss arising from disposal of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment recognized in the Standalone Statement of Profit and Loss in the year of occurrence.

Assets under construction includes the cost of property, plant and equipment that are not ready to use at the balance sheet date. Advances paid to acquire property, plant and equipment before the balance sheet date are disclosed under other non-current assets. Assets under construction are not depreciated as these assets are not yet available for use.

ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the expenditure can be measured reliably.

iii) Depreciation and amortization

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation on property, plant and equipment, other than Freehold Land, of the Company has been provided using the written down value method based on the useful lives specified in Schedule II to the Companies Act, 2013.

The useful lives of certain motor vehicles are estimated in the range of 3-8 years. The useful lives of certain furniture and fixtures (artworks) are estimated for 10 years and residual value at 50% of actual cost. These lives are different from those indicated in Schedule II and are based on internal technical evaluation.

Useful lives of site equipment's being not specified in Schedule II are based on internal technical evaluation i.e. 5-8 years representing the best estimate of the period over which such equipment is expected to be used. Site equipment's consists of shuttering materials used in the construction of the projects.

Assets costing less than INR 5,000 are depreciated at 100% in the year of acquisition.

Assets acquired on lease and leasehold improvements are amortized over the period of the lease on straight line basis.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

c. Investment property and depreciation

i) Recognition and measurement:

Investment properties comprises of land and building are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes.

ii) Subsequent Expenditure:

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably.

iii) Depreciation:

Depreciation on Investment Property is provided using the written down value method based on the useful lives specified in Schedule II to the Companies Act, 2013.

iv) Reclassification from/to investment property:

Transfers to (or from) investment property are made only when there is a change in use. Transfers between investment property, owner-occupied property and inventories do not change the carrying amount of the property transferred and they do not change the cost of that property for measurement or disclosure purposes.

d. Intangible assets and amortization

i) Recognition and measurement:

Items of Intangible Assets are recognized and measured at cost less accumulated amortization and impairment losses, if any. The cost of intangible assets comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and
- Any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Notes Forming Part of Standalone Financial Statements

For the year ended March 31, 2024

(Currency in INR Crore)

ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company and the cost of the expenditure can be measured reliably.

iii) Amortization

Intangible assets are amortized over their estimated useful life using straight line method.

Trademark is amortized over a period of 20 years.

Intangible assets (other than trademark) are amortized over a period of six years.

Amortization method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

e. Impairment of non-financial assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists.

If the carrying amount of the assets exceed the estimated recoverable amount, an impairment loss is recognized for such excess amount. The impairment loss is recognized as an expense in the Standalone Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a decrease to the extent a revaluation reserve is available for that asset.

The recoverable amount is the greater of the net selling price and the value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognized for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognized in the Standalone Statement of Profit and Loss, to the extent the amount was previously charged to the Standalone Statement of Profit and Loss. In case of revalued assets, such reversal is not recognized.

f. Investment in subsidiaries, joint ventures and associate

Investments in equity shares of subsidiaries, joint ventures and associate are recorded at cost and reviewed for impairment at each reporting date. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, joint ventures and associate, the difference between net disposal proceeds and the carrying amounts are recognized in the Standalone Statement of Profit and Loss.

g. Financial instruments

I. Financial assets Classification

The Company classifies financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Initial recognition and measurement

Trade receivables and debt securities issued are initially recognized when they originate and recorded at transaction price.

The company recognizes financial assets (other than trade receivables and debt securities) when it becomes a party to the contractual provisions of the instrument. All financial assets (excluding trade receivables that are recorded at transaction price) are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial asset. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent measurement

For the purpose of subsequent measurement, the financial assets are classified in three categories:

- Debt instruments at amortized cost
- Debt instruments at fair value through profit or loss
- Equity investments

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortization is included in Interest income in the Standalone Statement of Profit and Loss. The losses arising from impairment are recognized in the Standalone Statement of Profit and Loss.

Convertible Debt instruments

Debt instruments that are convertible into a fixed number of equity instruments of the issuer do not meet the "solely

Notes Forming Part of Standalone Financial Statements

For the year ended March 31, 2024

(Currency in INR Crore)

payment of principal and interest” criterion because the return on the debt instrument is inconsistent with a basic lending arrangement and reflects the value of the issuer’s equity. The Group classifies such debt instruments at fair value through profit or loss.

Debt instruments included in the fair value through profit or loss (FVTPL) category are measured at fair value with all changes recognized in the Standalone Statement of Profit and Loss. Net gains and losses, including any interest income, if any, are recognized in profit or loss.

Equity investments

All equity investments other than investment in subsidiaries, joint ventures and associate are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at fair value through other comprehensive income (FVTOCI) or FVTPL. The Company makes such election on an instrument-by- instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in other comprehensive income (OCI). There is no recycling of the amounts from OCI to the Standalone Statement of Profit and Loss, even on sale of such investments.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the Standalone Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognized when:

- (a) The rights to receive cash flows from the asset have expired, or the Company has transferred substantially all the risks and rewards of the asset, or
- (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of financial assets

The Company applies ‘simplified approach’ measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- b) Trade receivables.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime Expected Credit Loss at each reporting date, right from its initial recognition.

II. Financial Liabilities

Classification

The Company classifies all financial liabilities as subsequently measured at amortized cost.

Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the Effective Interest Rate (EIR) method. Gains and losses are recognized in the Standalone Statement of Profit and Loss when the liabilities are derecognized.

Amortized cost is calculated by taking into account any discount or premium on acquisition and transactions costs. The EIR amortization is included as finance costs in the Standalone Statement of Profit and Loss.

This category generally applies to loans and borrowings.

Derecognition

Financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Standalone Statement of Profit and Loss.

III Offsetting of financial instruments

Financial assets and financial liabilities are offset, and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle them on a net basis or to realize the assets and settle the liabilities simultaneously.

IV Share Capital

Ordinary equity shares

Incremental costs directly attributable to the issue of ordinary equity shares are recognized as a deduction from equity.

h. Inventories

Inventories are valued as under:

Inventories are measured at lower of cost or net realizable value. The cost of inventory is based on specific identification method for real estate segment . It includes cost of purchase, conversion costs and other costs incurred in bringing them to their present location or condition.

Construction Work-in-Progress/Finished Goods includes cost of land, premium for development rights, construction costs,

Notes Forming Part of Standalone Financial Statements

(Currency in INR Crore)

allocated interest and expenses incidental to the projects undertaken by the Company.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

i. Revenue Recognition

The Company derives revenues primarily from sale of properties comprising of commercial/residential units and sale of plotted and other lands and Sale of development management services.

The Company recognises revenue when it determines the satisfaction of performance obligations at a point in time and subsequently over time when the Company has enforceable right for payment for performance completed to date. Revenue is recognised upon transfer of control of promised products to customer in an amount that reflects the transaction price i.e. consideration which the Company expects to receive in exchange for those products.

In arrangements for sale of units the Company has applied the guidance in IND AS 115, on “Revenue from contracts with customers”, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering sale of units as distinct performance obligations. For allocating the transaction price, the Company has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer.

Contract assets are recognised when there is excess revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract Liabilities are recognised when there is billing in excess revenue earned over billings on contracts.

The Company enters into Development and Project Management agreements with landowners. Accounting for income from such projects, measured at transaction price, is done on accrual basis as per the terms of the agreement.

The Company receives maintenance amount from the customers and utilizes the same towards the maintenance of the respective projects. Revenue is recognized to the extent of maintenance expenses incurred by the Company towards maintenance of respective projects. The balance amount of maintenance expenses to be incurred is reflected as liability under the head other current non-financial liabilities.

j. Interest income

Interest income is accounted on an accrual basis at effective interest rate. Interest on delayed payment and forfeiture income are accounted based upon underlying agreements with customers.

k. Share of profits/losses in LLP

Share of profits/losses in LLP is recognized when the right to receive/liability to pay the same is established.

l. Leases

At the inception of a contract, the Company assesses whether a contract is or contains, a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration. To assess whether a contract conveys the right to control the use of an asset the Company assesses whether:

- The contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capability of a physical distinct asset. If the supplier has a substantive substitution right, then the asset is not identified
- The Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- The Company has the right to direct the use of the asset. The Company has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used.

As a Lessee

Right-of-use Asset

The Company recognizes a right-of-use asset and a lease liability at the lease commencement date. At the commencement date, a lessee shall measure the right-of-use asset at cost which comprises initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received, any initial direct costs incurred by the lessee; and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Lease Liability

At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee’s incremental borrowing rate.

Notes Forming Part of Standalone Financial Statements

For the year ended March 31, 2024

(Currency in INR Crore)

Short-term lease and leases of low-value assets

The Company has elected not to recognize right-of-use assets and lease liabilities for short- term leases that have a lease term of less than 12 months or less and leases of low-value assets, including IT Equipment. The Company recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The election for short-term leases shall be made by class of underlying asset to which the right of use relates. A class of underlying asset is a grouping of underlying assets of a similar nature and use in Company’s operations. The election for leases for which the underlying asset is of low value can be made on a lease-by-lease basis.

m. Income tax

Income tax expense comprises current tax and deferred tax. It is recognized in the Standalone Statement of Profit and Loss except to the extent that it relates to items recognized directly in equity or in OCI.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognized amounts; and
- b) intends either to realize the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves. Deferred tax liabilities are recognized for taxable temporary differences.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

n. Employee benefits

Short term employee benefits

Short-term employee benefits are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plans

Obligations for contributions to defined contribution plans such as Provident Fund and Employee State Insurance Corporations are expensed as the related service is provided.

Defined benefit plans

The Company’s net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, after discounting the same.

The calculation of defined benefit obligations is performed annually by an independent qualified actuary using the projected unit credit method.

Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses are recognized immediately in other comprehensive income (OCI). Re- measurement, if any, are not reclassified to the Standalone Statement of Profit and Loss in subsequent period. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, based on the market yield on government securities as at the reporting date, used to measure the net defined liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in the Standalone Statement of Profit and Loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in the Standalone Statement of Profit and Loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Notes Forming Part of Standalone Financial Statements

For the year ended March 31, 2024

(Currency in INR Crore)

Other long-term employee benefits

The Company’s net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. They are therefore measured at the present value of expected future payments to be made in respect of services provided by the employees up to the end of the reporting period using the projected unit credit method. The discount rates used are based on the market yields on government securities as at the reporting date. Re-measurements are recognized in the Standalone Statement of Profit and Loss in the period in which they arise.

Other long-term benefits include payable in respect of long-term incentive scheme recorded based on arithmetical model estimating the possible cash outflows based on assessment of parameters of the scheme and pro-rated to the completed service period and discounted at present value.

o. Share-based payment transactions

Employees Stock Options Plans (“ESOPs”) and Employee Stock Grant Scheme (“ESGS”): The grant date fair value of options granted to employees is recognized as an employee benefits expense, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the options. The expense is recorded for each separately vesting portion of the award as if the award was, in substance, multiple awards. The increase in equity recognized in connection with share based payment transaction is presented as a separate component in equity under “Employee stock grant scheme reserve”. The amount recognized as an expense is adjusted to reflect the actual number of stock options that vest.

p. Borrowing costs

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing.

Borrowing costs, pertaining to development of long term projects, are transferred to Construction work in progress, as part of the cost of the projects till the time all the activities necessary to prepare these projects for its intended use or sale are complete.

All other borrowing costs are recognized as an expense in the period in which they are incurred.

q. Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the Standalone Statement of Cash Flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company’s cash management.

r. Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares. If potential equity shares converted into equity shares increases the earnings per share, then they are treated as anti-dilutive and anti-dilutive earning per share is computed.

s. Provisions and contingent liabilities

A provision is recognized when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are discounted to their present value at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability and are determined based on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. The unwinding of the discount is recognized as finance cost.

Contingent liabilities are disclosed in the notes. Contingent liabilities are disclosed for

- (1) Possible obligations which will be confirmed only by future events not wholly within the control of the Company or
- (2) Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognized in the Standalone Financial Statements. However, the same are disclosed in the Standalone Financial Statements where an inflow of economic benefit is probable.

t. Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted with the Standalone Financial Statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

u. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

- (c) The Company's investment property under construction consists of some commercial and retail properties in India.
- (d) Based on the intention and business plans, part of residential property under development in Mumbai, is considered for Company's own use once completed, rather than for sale. Accordingly, the Company has re-classified the same from Inventories to Capital work in progress.
- (e) The Company has no restriction on the realisability of its investment property under construction.
- (f) Though the Company measures investment property under construction using cost based measurement, the fair value of investment property under development is based on valuation performed by an accredited independent valuer who has relevant valuation experience for similar office properties and is a registered valuer as defined under rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017. The main inputs used are location and locality, facilities and amenities, quality of construction, residual life of building, business potential, supply and demand, local nearby enquiry, market feedback of investigation and Ready Reckoner published by the Government.

(iv) The Principal assumptions used in determining the present value of defined benefit obligation for the Company's plan are given below:

Particulars	March 31, 2024	March 31, 2023
Discount Rate	7.19%	7.20%
Salary escalation rate	14%	14%
Attrition Rate	28%	30%
Mortality	Indian Assured Lives Mortality (2012-14) Urban	Indian Assured Lives Mortality (2012-14) Urban

(v) Sensitivity analysis

A quantitative sensitivity analysis on Defined Benefit Obligation for significant assumptions as at March 31, 2024 is shown below:

Particulars	March 31, 2024		March 31, 2023	
	Increase	Decrease	Increase	Decrease
Discount Rate (1 % movement)	(0.63)	0.68	(0.50)	0.54
Salary escalation rate (1 % movement)	0.64	(0.60)	0.50	(0.48)
Attrition Rate (1 % movement)	(0.26)	0.28	(0.19)	0.20

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior year.

(vi) The expected future cash flows in respect of gratuity as at March 31, 2024 were as follows:

b) Measurement of Fair Value

(i) The fair values of investments in mutual fund units is based on the net asset value ('NAV') as stated by the issuers of these mutual fund units in the published statements as at Balance Sheet date. NAV represents the price at which the issuer will issue further units of mutual fund and the price at which issuers will redeem such units from the investors.

(ii) The Company uses the Discounted Cash Flow valuation technique (in relation to financial assets measured at amortised cost and fair value through profit or loss) which involves determination of present value of expected receipt/ payment discounted using appropriate discounting rates. The fair value so determined for financial asset measured at fair value through profit and loss are classified as Level 2 or Level 3.

(iii) The Company uses the discounted cash flow valuation technique (in relation to financial liabilities measured at amortised cost) which involves determination of the present value of expected payments, discounted using bank rate. The fair value of non-convertible debentures is valued using FIMMDA guidelines.

40 FINANCIAL INSTRUMENTS – FAIR VALUES AND RISK MANAGEMENT (Continued)

(iv) For financial assets that are measured at fair value under Level 3, the carrying amounts are a reasonable approximation of fair value.

c) Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- (i) Credit Risk
- (ii) Liquidity Risk
- (iii) Market Risk.

Risk Management Framework

The Company's Board of Directors have overall responsibility for the establishment and oversight of the Company's risk management framework. The Board of Directors have established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the Board of Directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

(i) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, investments in debt securities, loans given to related parties and others and project deposits.

The carrying amount of financial assets represents the maximum credit exposure.

Trade Receivables

Customer credit risk is managed by requiring customers to pay advances through progress billings before transfer of ownership, therefore substantially eliminating the Company's credit risk in this respect.

The Company's credit risk with regard to trade receivable has a high degree of risk diversification, due to the large number of projects of varying sizes and types with numerous different customer categories in a large number of geographical markets.

As per simplified approach, the Company makes provision of expected credit losses on trade receivables to mitigate the risk of default payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk.

The ageing of gross trade receivables are as follows:

Particulars	March 31, 2024	March 31, 2023
More than 12 months	89.02	83.48
Others	220.96	226.65

The movement in the provision for expected credit loss for credit impairment of Trade Receivables due to lifetime expected credit loss during the year are as follows:

Particulars	March 31, 2024	March 31, 2023
Opening balance	57.04	42.95
Add: Impairment loss recognised	0.70	14.54
Less: Impairment loss reversed	(12.64)	(0.45)

40 FINANCIAL INSTRUMENTS – FAIR VALUES AND RISK MANAGEMENT (Continued)

Investment in Securities, Loans to Related Parties, Project Deposits and Other Financial Assets

The Company has investments in equity instruments, compulsorily convertible debentures / optionally convertible debentures, preference shares, loans to related parties and project deposits. The settlement of such instruments is linked to the completion of the respective underlying projects. The movement in the provision for expected credit loss due to lifetime expected credit loss during the year are as follows:

The Company has recorded /(reversed) provision / expected credit loss on investment in debt and equity instruments of INR (32.39 Crore) (Previous Year: INR NIL) and other current financial assets of INR (0.56 Crore) (Net of impairment) (Previous Year: INR NIL).

As at March 31, 2024, the Company had secured project deposits of INR 6.11 Crore (Previous Year: INR 6.11 Crore) and unsecured loans given to related parties of INR 14.47 Crore (Previous Year: INR 14.47 Crore), which have been considered as doubtful by the Company. The Company has provided such doubtful project deposits and unsecured loans in the previous year. The Company does not have any Loans for which credit risk has increased significantly in the current and previous year

Particulars	March 31, 2024	March 31, 2023
Opening balance	155.13	154.50
Add: Impairment loss recognised	10.50	5.63
Less: Impairment loss reversed	(43.45)	(5.00)
Closing balance	122.18	155.13

Cash and Bank balances

Credit risk from cash and bank balances is managed by the Company's treasury department in accordance with the Company's policy.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Management monitors rolling forecasts of the Company's liquidity position on the basis of expected cash flows. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents.

The Company has access to funds from capital and debt markets through loan from banks, commercial papers and other debt & equity instruments. The Company invests its surplus funds in bank fixed deposits and debt based mutual funds.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date:

The Company has sufficient current assets comprising of Trade Receivables, Cash & Cash Equivalents, Investment in Mutual Funds, Other Bank Balances (other than restricted balances), Loans, Inventories and Other Current Financial Assets to manage the liquidity risk, if any in relation to current financial liabilities.

(iii) Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rate and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

a) Currency Risk

Currency risk is not material, as the Company's primary business activities are within India and does not have significant exposure in foreign currency.

b) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The management is responsible for the monitoring of the Company's interest rate position. Various variables are considered by the management in structuring the Company's borrowings to achieve a reasonable, competitive cost of funding.

Exposure to interest rate risk

The interest rate profile of the Company's interest-bearing financial instruments as reported to the management is as follows:

Particulars	March 31, 2024	March 31, 2023
Financial liabilities		
Variable rate instruments	2,164.64	1,862.05
Fixed rate instruments	7,749.40	4,479.52
	9,914.04	6,341.57
Financial assets		
Variable rate instruments		
Fixed rate instruments	11,370.37	8,641.78
	11,370.37	8,641.78

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rate would have resulted in variation in the interest expense for the Company by the amounts indicated in the table below. Given that the Company capitalises interest to the cost of inventory to the extent permissible, the amounts indicated below may have an impact on reported profits over the life cycle of projects to which such interest is capitalised. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The year end balances are not necessarily representative of the average debt outstanding during the period.

41 CAPITAL MANAGEMENT

The Company’s policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

The Board of Directors seek to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages by a sound capital position.

The Company monitors capital using a ratio of ‘Net Debt to Equity’. For this purpose, net debt is defined as total borrowings (including interest accrued) less cash and bank balances and other current investments.

The Company’s net debt to equity ratio is as follows:

Particulars	INR (in Crore)	
	March 31, 2024	March 31, 2023
Net debt	6,563.64	4,200.54
Total equity	10,512.28	9,945.13
Net debt to Equity ratio	0.62	0.42

42 EMPLOYEE STOCK GRANT SCHEME

The Company instituted an Employee Stock Grant Scheme (GPL ESGS) approved by the Board of Directors, the Shareholders and the Remuneration Committee.

45 REVENUE FROM CONTRACTS WITH CUSTOMERS (Continued)

(c) Performance obligation

The Company is engaged primarily in the business of real estate construction, development and other related activities.

All the Contracts entered with the customers consists of a single performance obligation thereby the consideration allocated to the performance obligation is based on standalone selling prices.

Revenue is recognised upon transfer of control of residential and commercial units to customers for an amount that reflects the consideration which the Company expects to receive in exchange for those units. The trigger for revenue recognition is normally completion of the project or receipt of approvals on completion from relevant authorities or intimation to the customer of completion, post which the contract becomes non-cancellable by the parties.

The revenue is measured at the transaction price agreed under the contract. In certain cases, the Company has contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company adjusts the transaction price for the effects of a significant financing component.

Any costs incurred that do not contribute to satisfying performance obligations are excluded from the Company's input methods of revenue recognition as the amounts are not reflective of our transferring control of the system to the customer. Significant judgment is required to evaluate assumptions related to the amount of net contract revenues, including the impact of any performance incentives, liquidated damages, and other forms of variable consideration.

If estimated incremental costs on any contract, are greater than the net contract revenues, the Company recognises the entire estimated loss in the period the loss becomes known.

Variations in contract work, claims, incentive payments are included in contract revenue to the extent that may have been agreed with the customer and are capable of being reliably measured.

The Company recognises revenue from Operations and Maintenance services using the time-elapsed measure of progress i.e input method on a straight line basis.

The aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) as at March 31, 2024 is INR 16,521.82 Crore (Previous Year: INR 3,952.46 Crore), of which INR 2,702.57 Crore (Previous Year: INR 2,685.93 Crore), which will be recognised as revenue over a period of 1-2 years and INR 13,819.25 Crore (Previous Year: INR 1,266.53 Crore) which will be recognised over a period of 2-4 years.

(d) Reconciliation of revenue recognised in the Standalone Statement of Profit and Loss

The following table discloses the reconciliation of amount of revenue recognised as at March 31, 2024:

Independent Auditor’s Report

To the Members of Godrej Properties Limited

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Opinion

We have audited the consolidated financial statements of Godrej Properties Limited (hereinafter referred to as the “Holding Company”) and its subsidiaries (Holding Company and its subsidiaries together referred to as “the Group”), its associate and its joint ventures, which comprise the consolidated balance sheet as at 31 March 2024, and the consolidated statement of profit and loss (including other comprehensive income), consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policies and other explanatory information (hereinafter referred to as “the consolidated financial statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 (“Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associate and joint ventures as at 31 March 2024, of its consolidated profit and other comprehensive loss, consolidated changes in equity and consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, its associate and joint ventures in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue Recognition

(See Note 29 to consolidated financial statements)

The Key audit matter	How the matter was addressed in our audit
<p>The Group’s most significant revenue streams involve sale of residential, commercial units and plotted and other lands representing 87.74% of the total revenue from operations of the Group.</p> <p>Revenue is recognised post transfer of control to customers for the consideration (transaction price) which the Group expects to receive in exchange for those units. The trigger for revenue recognition is normally completion of the project or receipt of approvals on completion from relevant authorities post which the contract becomes non-cancellable. The Group records revenue, over time till the actual possession to the customers, or on actual possession to the customers, as determined by the terms of contract with customers.</p> <p>Measurement of revenue recorded over time which is dependent on the estimates of the costs to complete</p> <p>Revenue recognition involves significant estimates related to measurement of costs to complete for the projects. Revenue from projects is recorded based on the Group’s assessment of the work completed, costs incurred and accrued and the estimate of the balance costs to complete.</p> <p>Considering the significant estimate involved in measurement of revenue and risk of revenue being recognised in an incorrect period, we have considered recognition of revenue as a key audit matter.</p>	<p>Our audit procedures included following:</p> <ul style="list-style-type: none">Obtaining and understanding revenue recognition process including identification of performance obligations and determination of transfer of control of the asset underlying the performance obligation to the customer.Evaluating the design and implementation and tested operating effectiveness of key internal controls around approvals of contracts, milestone billing, intimation of receipt of occupation certificate, recording of project cost and controls over collection from customers.Evaluating the accounting policies adopted by the Group for revenue recognition to check those are in line with the applicable accounting standards and their consistent application to the significant sales contracts.Testing timeliness of revenue recognition by comparing individual sample sales transactions to underlying contracts.Conducting site visits during the year for selected projects to understand the scope, nature and progress of the projects.Evaluating revenue overstatement by assessing Group’s key judgments in interpreting contractual terms. Determining the point in time at which the control is transferred by evaluating Group’s in-house legal interpretations of the underlying agreements i.e. when contract becomes non-cancellable.Requesting confirmations, on a sample basis for trade receivables and advances from customer. In case of non-receipt of confirmations, we have performed alternative procedures by comparing details with contracts, collection details and other underlying project related documentation.Assessing the costs incurred and accrued to date on the balance sheet by examining underlying invoices and signed agreements on a sample basis. Assessing contract costs to check no costs of revenue nature are incorrectly recorded in the balance sheet.

The Key audit matter	How the matter was addressed in our audit
	<ul style="list-style-type: none">Comparing, on a sample basis, revenue transactions recorded during the year with the underlying contracts, progress reports, invoices raised on customers and collections in bank accounts. Also, checked the related revenue had been recognised in accordance with the Group's revenue recognition policies.Comparing the costs to complete workings with the budgeted costs and inquiring for variance.Sighting Group's internal approvals, on sample basis, for changes in budgeted costs along with the rationale for the changes.Scrutinising the revenue journal entries raised throughout the reporting period and comparing details of a sample of these journals, which met certain risk-based criteria, with relevant underlying documentation.Considering the adequacy of the disclosures in the standalone financial statements in respect of the judgments taken in recognising revenue for residential, commercial units and plotted and other lands in accordance with Ind AS 115.

Investments in joint ventures and an associate and loans to joint ventures

(See Note 6, 7 and 17 to consolidated financial statements)

The Key audit matter	How the matter was addressed in our audit
<p>The carrying amount of the investments in joint ventures and an associate held at cost less impairment represents 3.81% of the Group's total assets. The loans to joint ventures represent 4.59% of the Group's total assets.</p> <p>Recoverability of investments in joint ventures and associate</p> <p>The Group's investments in joint ventures and an associate are carried at cost less any diminution in value. The investments are assessed for impairment at each reporting date. The impairment assessment involves the use of estimates and judgements. The identification of impairment event and the determination of an impairment charge also require the application of significant judgement by the Group. The judgement, in particular, is with respect to the timing, quantity and estimation of projected cash flows of the real estate projects in these underlying entities.</p> <p>In view of the significance of these investments and above, we consider valuation / impairment of investments in joint ventures and an associate to be a key audit matter.</p> <p>Recoverability of Loans to Joint Ventures</p> <p>The Group has extended loans to joint ventures. These are assessed for recoverability at each period end.</p> <p>Due to the nature of the business in the real estate industry, the Group is exposed to heightened risk in respect of the recoverability of the loans granted to its joint ventures. In addition to nature of business, there is also significant judgment involved as to the recoverability of the working capital and project specific loans. This depends on property developments projects being completed over the time period specified in agreements.</p>	<p>Recoverability of investments in joint ventures and an associate</p> <p>Our audit procedures included:</p> <ul style="list-style-type: none">Evaluating design and implementation and testing operating effectiveness of controls over the Group's process of impairment assessment and approval of forecasts.Assessing the valuation methods used, financial position of the joint ventures and an associate to identify excess of their net assets over their carrying amount of investment by the Group and assessing profit history of those joint ventures and an associate.For the investments where the carrying amount exceeded the net asset value, understanding from the Group regarding the basis and assumptions used for the projected profitability.Verifying the inputs used in the projected profitability.Testing the assumptions and understanding the forecasted cash flows of joint ventures and an associate based on our knowledge of the Group and the markets in which they operate.Assessing the comparability of the forecasts with historical information.Analysing the possible indications of impairment and understanding Group's assessment of those indications.Considering the adequacy of disclosures in respect of the investment in joint ventures and an associate.

The Key audit matter	How the matter was addressed in our audit
We have identified measurement of loans to joint ventures as a key audit matter because recoverability assessment involves Group's significant judgement and estimate.	<p>Recoverability of Loans to Joint Ventures</p> <ul style="list-style-type: none">Evaluating the design and implementation and testing operating effectiveness of key internal controls placed around the impairment assessment process of the recoverability of the loans.Assessing the net worth of joint ventures on the basis of latest available financial statements.Assessing the controls for grant of new loans and sighting the Board approvals obtained. We have tested Group's assessment of the recoverability of the loans, which includes cash flow projections over the duration of the loans. These projections are based on underlying property development appraisals.Tracing loans advanced / repaid during the year to bank statement.Obtaining independent confirmations to assess completeness and existence of loans given to joint ventures as on 31 March 2024.

Other Information

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Management's and Board of Directors'/ Designated Partners' Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated state of affairs, consolidated profit/ loss and other comprehensive income, consolidated statement of changes in equity and consolidated cash flows of the Group including its associate and joint ventures in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. The respective Management

and Board of Directors of the companies/ Designated Partners of the Limited Liability Partnership(s) (LLPs) included in the Group and of its associate and joint ventures are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company/LLP and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies/ Designated Partners of the LLPs included in the Group and of its associate and joint ventures are responsible for assessing the ability of each company/LLP to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors/ Designated Partners either intends to liquidate the Company/ LLP or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies/ Designated Partners of the LLPs included in the Group and of its associate and joint ventures are responsible for overseeing the financial reporting process of each company/LLP.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate and joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

- a. Annexure B to the Independent Auditor’s Report on the consolidated financial statements of Godrej Properties Limited for the year ended 31 March 2024

Report on the internal financial controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

(Referred to in paragraph 2(A)(g) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Opinion

In conjunction with our audit of the consolidated financial statements of Godrej Properties Limited (hereinafter referred to as “the Holding Company”) as of and for the year ended 31 March 2024, we have audited the internal financial controls with reference to financial statements of the Holding Company and such companies incorporated in India under the Act which are its subsidiary companies, its associate company and joint venture companies, as of that date.

In our opinion, the Holding Company and such companies incorporated in India which are its subsidiary companies, its associate company and joint venture companies, have, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2024, based on the internal financial controls with reference to financial statements criteria established by such companies considering the essential components of such internal controls stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the “Guidance Note”).

Management’s and Board of Directors’ Responsibilities for Internal Financial Controls

The respective Company's Management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the respective company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial

controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Consolidated Statement of Changes in Equity

For the year ended March 31, 2024 (Currency in INR Crore)

(a) Capital Reserve

Profit on sale of treasury shares held by the ESOP trust is recognised in Capital Reserve.

(b) Capital Reserve on Account of Amalgamation / Acquisition

The excess of net assets taken, over the cost of consideration paid is treated as capital reserve on amalgamation / acquisition.

(c) Securities Premium

Securities premium is used to record the premium received on issue of shares. It is utilised in accordance with the provisions of the Companies Act, 2013.

(d) Employee Stock Grant Scheme Reserve

The fair value of the equity-settled share based payment transactions with employees including key management personnel is recognised in the Consolidated Statement of Profit and Loss with corresponding credit to Employee Stock Grant Scheme Reserve.

(e) General Reserve

The General reserve is created from time to time to transfer profits from retained earnings for appropriation purposes.

(f) Retained Earnings

Retained Earnings are the profits that the Company has earned till the balance sheet date, less any transfers to general reserve, debenture redemption reserve, dividends or other distributions paid to shareholders.

(g) Exchange differences on translating the financial statements of a foreign operation

Exchange differences arising on translation of the foreign operations are recognised in other comprehensive income and accumulated in a separate reserve within equity. The cumulative amount is reclassified to profit or loss when the net investment is disposed-off.

Note 1

I. Group Overview

Godrej Properties Limited (“the Company”) having CIN: L74120MH1985PLC035308, together with its subsidiaries collectively referred to as (“the Group”), its joint ventures and associate, is engaged primarily in the business of real estate construction, development, hospitality, and other related activities. The Company is a public limited company incorporated and domiciled in India having its registered office at Godrej One, 5th Floor, Pirojshanagar, Eastern Express Highway, Vikhroli, Mumbai – 400079. The Company’s equity shares are listed on The Bombay Stock Exchange Limited (BSE) and The National Stock Exchange of India Limited (NSE.)

II. Basis of preparation and measurement

a) Statement of compliance

The financial statements of the subsidiaries, joint ventures and associate used for the purpose of consolidation are drawn upto the same reporting date as that of the Company, i.e. March 31, 2024.

The consolidated financial statements (CFS) of the Group have been prepared in accordance with the Indian Accounting Standards (IND AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under the Section 133 of the Companies Act, 2013 (“the Act”) and the relevant provisions and amendments, as applicable. The consolidated financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently.

The consolidated financial statements of the Group for the year ended March 31, 2024 were authorized for issue by the Board of Directors on May 03, 2024.

b) Functional and Presentation Currency

These consolidated financial statements are presented in Indian rupees, which is also the functional currency of the Group. All financial information presented in Indian rupees has been rounded to the nearest crore, unless otherwise stated.

c) Basis of measurement

These consolidated financial statements have been prepared on historical cost basis except certain financial instruments, defined benefit plans and share based payments measured at fair value.

d) Use of estimates and judgements

The preparation of the consolidated financial statements in conformity with IND AS requires the use of estimates, judgements and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) and the reported income and expenses during the year. Management believes that the estimates made in the preparation of the consolidated financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision to accounting estimates is recognized

prospectively in current, future periods and all periods presented in consolidated financial statements.

Information about judgments in applying accounting policies, as well as estimates and assumptions that have the most significant effects on the amounts recognized in the financial statements included in the following notes:

Judgements

• **Evaluation of satisfaction of performance obligation for the purpose of revenue recognition**

Determination of revenue under the satisfaction of performance obligation necessarily involves making estimates, some of which are of a technical nature, concerning, where relevant, the timing of satisfaction of performance obligation, costs to completion, from the project or activity and the foreseeable losses to completion. Estimates of project income, as well as project costs, are reviewed periodically. The effect of changes, if any, to estimates is recognized in the consolidated financial statements for the period in which such changes are determined.

• **Evaluation of control**

The Group makes assumptions, when assessing whether it exercises control, joint control or significant influence over entities in which it holds less than 100 percent of the voting rights. These assumptions are made based on the contractual rights with the other shareholders, relevant facts and circumstances which indicate that the Group has power over the potential subsidiary or that joint control exists. Changes to contractual arrangements or facts and circumstances are monitored and are evaluated to determine whether they have a potential impact on the assessment as to whether the Group is exercising control over its investment.

• **Recognition of deferred tax asset**

The deferred tax assets in respect of brought forward business losses is recognized based on reasonable certainty of the projected profitability, determined on the basis of approved business plans, to the extent that sufficient taxable income will be available to absorb the brought forward business losses.

Estimates

• **Evaluation of Net realisable Value of Inventories**

Inventories comprising of finished goods and construction-work-in progress are valued at lower of cost and net realisable value. Net Realisable value is based upon the estimates of the management. The effect of changes, if any, to the estimates is recognized in the consolidated financial statements for the period in which such changes are determined.

• **Useful life and residual value of property, plant and equipment, intangible assets & Investment Property**

Useful lives of tangible, intangible assets and Investment property are based on the life prescribed in Schedule II of the act. In cases, where the useful lives are different from that

Notes forming part of Consolidated Financial Statements

For the year ended March 31, 2024

(Currency in INR Crore)

prescribed in Schedule II of the Act, they are based on internal technical evaluation. Assumptions are also made, when the Group assesses, whether an asset may be capitalised and which components of the cost of the asset may be capitalised.

• **Recognition and measurement of defined benefit obligations**

The obligation arising from defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and attrition rate. The discount rate is determined by reference to market yields at the end of the reporting period on government securities. The period to maturity of the underlying securities correspond to the probable maturity of the post-employment benefit obligations.

• **Recognition and measurement of long term incentive**

Accrual for long term incentive scheme liability requires estimates and judgements respect of achievement of parameters of individual and business performance as well as market related parameters. These estimates are based on past performance approved budgets and plans of market indicators based on best estimate as at the reporting date.

• **Share based payments**

Estimating fair value for share-based payment transactions requires determination of the most appropriate valuation model, which depends on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them. For the measurement of the fair value of equity-settled transactions with employees at the grant date, the Group uses Black- Scholes model.

The assumptions used for estimating fair value for share-based payment transactions are disclosed in Note 41 to the consolidated financial statements.

• **Fair value measurement of financial instruments**

When the fair values of the financial assets and liabilities recorded in the balance sheet cannot be measured based on the quoted market prices in active markets, their fair value is measured using valuation technique. The inputs to these models are taken from the observable market where possible, but where this is not feasible, a review of judgement is required in establishing fair values. Any changes in the aforesaid assumptions will affect the fair value of financial instruments.

• **Expected Credit losses and Impairment losses on investment**

The Group reviews its carrying value of investments carried at amortised cost annually or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

• **Provisions and contingencies**

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may therefore vary from the amount included in other provisions.

e) **Recent pronouncements**

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Group.

f) **Material accounting policy information**

The Group adopted Disclosure of Accounting Policies (Amendments to Ind AS 1) from 1 April 2023. Although the amendments did not result in any changes in the accounting policies themselves, they impacted the accounting policy information disclosed in the consolidated financial statements.

The amendments require the disclosure of 'material' rather than 'significant' accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the consolidated financial statements.

g) **Measurement of fair values**

The Group's accounting policies and disclosures require the measurement of fair values for financial and non-financial assets and liabilities.

The Group has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments.

When measuring the fair value of a financial asset or a financial liability, the Group uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (Unobservable inputs).

Notes forming part of Consolidated Financial Statements

For the year ended March 31, 2024

(Currency in INR Crore)

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

h) **Operating cycle**

The normal operating cycle in respect of operation relating to under construction real estate project depends on signing of agreement, size of the project, phasing of the project, type of development, project complexities, approvals needed and realisation of project into cash and cash equivalents and range from 3 to 7 years. Accordingly, project related assets and liabilities have been classified into current and non-current based on operating cycle of respective projects. All other assets and liabilities have been classified into current and non- current based on a period of twelve months.

III. Material Accounting Policies

a. **Basis of Consolidation**

i) **Business combination**

- The Group accounts for each business combination (other than common control transactions) by applying the acquisition method. The acquisition date is the date on which control is transferred to the acquirer. Judgment is applied in determining the acquisition date and determining whether control is transferred from one party to another.

- The Group measures goodwill as of the applicable acquisition date at the fair value of the consideration transferred, including the recognized amount of any non-controlling interest in the acquiree, less the net recognized amount (measured at fair value) of the identifiable assets acquired and liabilities (including contingent liabilities in case such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably) assumed. When the fair value of the net identifiable assets acquired and liabilities assumed exceeds the consideration transferred, a bargain purchase gain is recognized as capital reserve.

- Consideration transferred includes the fair values of the assets transferred, liabilities incurred by the Group to the previous owners of the acquiree, and equity interests issued by the Group. Consideration transferred also includes the fair value of any contingent consideration. Consideration transferred does not include amounts related to settlement of pre-existing relationships.

- Transaction costs that the Group incurs in connection with a business combination are expensed as incurred except to the extent related to the issue of debt or equity securities.

- On an acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets.

- Acquisitions of non-controlling interests are accounted for as transactions with equity holders in their capacity as equity holders. The difference between any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary is recorded in equity.

- Common control transactions are accounted for based on pooling of interests method where the assets and liabilities of the acquiree are recorded at their existing carrying values. The identity of reserves of the acquiree is preserved and the difference between consideration and the face value of the share capital of the acquiree is transferred to capital reserve, which is shown separately from other capital reserves.

- The financial information in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the consolidated financial statements irrespective of the actual date of the combination.

iii) **Subsidiaries**

Subsidiaries are all entities (including special purpose entities) that are controlled by the Company. Control exists when the Group is exposed to, or has the ability to affect those returns through power over the entity. In assessing control, potential voting rights are considered only if the rights are substantive. The financial statements of the Company and its subsidiaries have been combined on a line-by-line basis while eliminating the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. The financial statements of subsidiaries are included in these consolidated financial statements from the date that control commences until the date that control ceases. For the purpose of preparing these consolidated financial statements, the accounting policies of subsidiaries have been changed where necessary to align them with the policies adopted by the Group.

Upon loss of control, the Group derecognizes the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognized in the consolidated statement of profit and loss. If the Group retains any interest in the previous subsidiary, then such

Notes forming part of Consolidated Financial Statements

For the year ended March 31, 2024

(Currency in INR Crore)

interest is measured at fair value at the date that control is lost and the differential is recognized in the consolidated statement of profit and loss. Subsequently, it is accounted for as an equity-accounted investee depending on the level of influence retained.

iv) Joint Ventures and associate (equity accounted investees)
The Group’s interests in equity accounted investees comprise interests in joint ventures and associate.

An associate is an entity in which the Group has significant influence, but not control or joint control, over the financial and operating policies. A joint venture is an arrangement in which the Group has joint control and has rights to the net assets of the arrangement, rather than rights to its assets and obligations for its liabilities.

Interests in joint ventures and associate are accounted for using the equity method. They are initially recognized at cost which includes transaction costs. Subsequent initial recognition, the consolidated financial statements include the Group’s share of profit or loss and OCI of equity accounted investees until the date on which significant influence or joint control ceases.

When the Group’s share of losses in an equity accounted investment equals or exceeds its interest in an entity; the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of other entity.

v) Transactions eliminated on consolidation
Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions, are eliminated in full while preparing these consolidated financial statements. Unrealized gains or losses arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group’s interest in the investee, but only to the extent that there is no evidence of impairment. Deferred tax asset or liability is created on any temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

vi) Acquisition of non-controlling interest
Acquisition of some or all of the non-controlling interest (“NCI”) is accounted for as a transaction with equity holders in their capacity as equity holders. Consequently, the difference arising between the fair value of the purchase consideration paid and the carrying value of the NCI is recorded as an adjustment to retained earnings that is attributable to the Company. The associated cash flows are classified as financing activities. No goodwill is recognized as a result of such transactions.

b. Property, Plant and Equipment, depreciation and amortization

i) Recognition and Measurement
Items of property, plant and equipment, other than Freehold Land are measured at cost less accumulated depreciation

and impairment losses, if any. Freehold Land is carried at cost and is not depreciated. The cost of an item of property, plant and equipment comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates.
- any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment are derecognized from the consolidated financial statements, either on disposal or when no economic benefits are expected from its use or disposal. The gain or loss arising from disposal of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment recognized in the consolidated statement of profit and loss account in the year of occurrence.

Assets under construction includes the cost of property, plant and equipment that are not ready to use at the balance sheet date. Advances paid to acquire property, plant and equipment before the balance sheet date are disclosed under other non-current assets. Assets under construction are not depreciated as these assets are not yet available for use.

ii) Subsequent expenditure
Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the expenditure can be measured reliably.

iii) Depreciation and amortization
Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value.

Depreciation on property, plant and equipment, other than Freehold Land of the real estate segment has been provided using the written down value method and hospitality segment using straight line method based on the useful lives specified in Schedule II to the Companies Act, 2013.

The useful lives of certain motor vehicles are estimated in the range of 3-8 years. The useful lives of certain furniture and fixtures (artworks) are estimated for 10 years and residual value at 50% of actual cost. These lives are different from those indicated in Schedule II and are based on internal technical evaluation.

Useful lives of site equipments being not specified in Schedule II are based on internal technical evaluation i.e. 5-8 years representing the best estimate of the period over which such equipment is expected to be used. Site equipments consists of shuttering materials used in the construction of the projects.

Notes forming part of Consolidated Financial Statements

For the year ended March 31, 2024

(Currency in INR Crore)

Assets costing less than INR 5,000 are depreciated at 100% in the year of acquisition.

Assets acquired on lease and leasehold improvements are amortized over the period of the lease on straight line basis.

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

c. Investment property and depreciation

i) Recognition and Measurement:
Investment properties comprises of land and building are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. Though the Group measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes.

ii) Subsequent Expenditure:
Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably.

iii) Depreciation
Depreciation on Investment Property is provided using the written down value method based on the useful lives specified in Schedule II to the Companies Act, 2013.

iv) Reclassification from/to investment property:
Transfers to (or from) investment property are made only when there is a change in use. Transfers between investment property, owner-occupied property and inventories do not change the carrying amount of the property transferred and they do not change the cost of that property for measurement or disclosure purposes.

d. Intangible assets and amortization

a. Recognition and Measurement
Items of Intangible Assets are recognized and measured at cost less accumulated amortization and impairment losses, if any. The cost of intangible assets comprises:

- its purchase price, including import duties and nonrefundable purchase taxes, after deducting trade discounts and rebates; and
- Any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

b. Subsequent Expenditure
Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the expenditure can be measured reliably.

c. Amortization
Intangible assets are amortized over their estimated useful life using straight line method.

Trademark is amortized over a period of 20 years based on technical assessment.

Intangible Assets (other than trademark) are amortized over a period of six years.

Amortization method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

e. Impairment of non-financial assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists.

If the carrying amount of the assets exceeds the estimated recoverable amount, impairment loss is recognized for such excess amount. The impairment loss is recognized as an expense in the consolidated statement of profit and loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a decrease to the extent a revaluation reserve is available for that asset.

Goodwill on business combinations is included in intangible assets. Goodwill is not amortized but it is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognized for an asset (other than a revalued asset) in earlier accounting periods which no longer exists or may have decreased, such reversal of impairment loss is recognized in the consolidated statement of profit and loss, to the extent the amount was previously charged to the consolidated statement of profit and loss. In case of revalued assets, such reversal is not recognized.

f. Investment in joint ventures and associate

Investments in equity shares of joint ventures and associate are recorded at cost and reviewed for impairment at each reporting date. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in joint ventures and associate, the difference between net disposal proceeds and the carrying amounts are recognized in the Consolidated Statement of Profit and Loss.

g. Financial instruments

I. Financial Assets

Classification

The Group classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Initial recognition and measurement

Trade receivables and debt securities issued are initially recognized when they originate and recorded at transaction price. The company recognizes financial assets (other than trade receivables and debt securities) when it becomes a party to the contractual provisions of the instrument. All financial assets (excluding trade receivables that are recorded at transaction price) are recognized initially at fair value, plus in the case of financial assets not recorded at fair value through profit or loss (FVTPL), transaction costs that are attributable to the acquisition of the financial asset. However, trade receivables that do not contain a significant financing component are measured at transaction price.

Subsequent measurement

For the purpose of subsequent measurement, the financial assets are classified in three categories:

- Debt instruments at amortized cost
- Debt instruments at fair value through profit or loss
- Equity investments

Debt instruments at amortised cost

A ‘debt instrument’ is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and
- Contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or costs that are an integral part of the EIR. The EIR amortization is included in Interest income in the consolidated statement of profit and loss. The losses arising from impairment are recognized in the consolidated statement of profit and loss.

Convertible Debt instruments

Debt instruments that are convertible into a fixed number of equity instruments of the issuer do not meet the “solely

payment of principal and interest” criterion because the return on the debt instrument is inconsistent with a basic lending arrangement and reflects the value of the issuer’s equity. The Group classifies such debt instruments at fair value through profit or loss.

Debt instruments included within the fair value through profit or loss (FVTPL) category are measured at fair value with all changes recognized in the consolidated statement of profit and loss. Net gains and losses, including any interest income, if any, are recognized in profit or loss.

Equity investments

All equity investments other than investment in joint ventures and associate are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Group decides to classify the same either as at fair value through other comprehensive income (FVTOCI) or FVTPL. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in other comprehensive income (OCI). There is no recycling of the amounts from OCI to consolidated statement of profit and loss, even on sale of such investments. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the consolidated statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset) is primarily derecognized when:

- the rights to receive cash flows from the asset have expired, or
- the Group has transferred substantially all the risks and rewards of the asset, or
- the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment of Financial Assets

The Group applies ‘simplified approach’ measurement and recognition of impairment loss on Financial assets that are debt instruments, and are measured at amortised cost e.g., loans, debt securities, deposits and bank balance and 12-Month ECL on Trade receivables. The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime expected credit loss at each reporting date, right from its initial recognition.

II. Financial Liabilities

Classification

All financial liabilities as subsequently measured at amortised cost.

Notes forming part of Consolidated Financial Statements

For the year ended March 31, 2024

(Currency in INR Crore)

Initial recognition and measurement

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognized in the consolidated statement of profit and loss when the liabilities are derecognized. Amortised cost is calculated by taking into account any discount or premium on acquisition and transactions costs. The EIR amortization is included as finance costs in the consolidated statement of profit and loss. This category generally applies to loans and borrowings.

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the consolidated statement of profit and loss.

III. Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle them on a net basis or to realise the assets and settle the liabilities simultaneously.

IV. Share Capital

Ordinary equity shares

Incremental costs directly attributable to the issue of ordinary equity shares are recognized as a deduction from equity.

h. Inventories

Inventories are valued as under:

Inventories are measured at lower of cost or net realizable value. The cost of inventory is based on specific identification method for real estate segment and first-in-first out method for hospitality segment. It includes cost of purchase, conversion costs and other costs incurred in bringing them to their present location or condition. Construction work-in-progress / Finished Goods includes cost of land, premium for development rights, construction costs, allocated interest and expenses incidental to the projects undertaken by the Group. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. The inventory of construction work-in- progress is not written down below cost if flats /properties are expected to be sold at or above cost.

i. Revenue Recognition

The Group derives revenues primarily from sale of properties comprising of both commercial / residential units, sale of plotted and other lands and Sale of development management services and hospitality services.

The Group recognises revenue when it determines the satisfaction of performance obligations at a point in time and subsequently over time when the Group has enforceable right for payment for performance completed to date. Revenue is recognized upon transfer of control of promised products to customer in an amount that reflects the transaction price i.e. the consideration which the Group expects to receive in exchange for those products.

In arrangements for sale of units the Group has applied the guidance in IND AS 115, on “Revenue from contract with customer”, by applying the revenue recognition criteria for each distinct performance obligation. The arrangements with customers generally meet the criteria for considering sale of units as distinct performance obligations. For allocating the transaction price, the Group has measured the revenue in respect of each performance obligation of a contract at its relative standalone selling price. The price that is regularly charged for an item when sold separately is the best evidence of its standalone selling price. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer.

Contract assets are recognized when there is excess revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liabilities are recognized when there is billing in excess of revenue and advance received from customers.

The Group enters into Development and Project Management agreements with land-owners. Accounting for income from such projects, measured at transaction price, is done on an accrual basis as per the terms of the agreement.

The Group receives maintenance amount from the customers and utilises the same towards the maintenance of the respective projects. Revenue is recognized to the extent of standard maintenance expenses incurred by the Group towards maintenance of respective projects. Balance amount of maintenance expenses to be incurred is reflected as liability under the head other current non-financial liabilities.

Income From Operations Rooms, Food and Beverage & Banquets: Revenue is recognized at the transaction price that is allocated to the performance obligation. Revenue includes room revenue, food and beverage sale and banquet services which is recognized once the rooms are occupied, food and beverages are sold and banquet services have been provided as per the contract with the customer.

Other Allied Services: In relation to laundry income, communication income, health club income, airport transfers income and other allied services, the revenue has been recognized by reference to the time of service rendered.

j. Interest income

Interest income on financial assets at amortised cost is accounted on an accrual basis at effective interest rate.

Interest on delayed payment and forfeiture income are accounted based upon underlying agreements with customers.

k. Income tax

Income tax expense comprises current tax and deferred tax. It is recognized in the consolidated statement of profit and loss except to the extent that it relates to items recognized directly in equity or in OCI.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if, the Group:

- has a legally enforceable right to set off the recognized amounts; and
- Intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

Deferred Tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves. Deferred tax liabilities are recognized for taxable temporary differences.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- The Group has a legally enforceable right to set off current tax assets against current tax liabilities; and
- The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

l. Employee benefits

Short term employee benefits

Short-term employee benefits are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plans

Obligations for contributions to defined contribution plans such as Provident Fund and Employee State Insurance Corporations are expensed as the related service is provided.

Defined benefit plans

(i) Employee benefits

The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, after discounting the same.

The calculation of defined benefit obligations is performed annually by a qualified an independent actuary using the projected unit credit method.

Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses are recognized immediately in other comprehensive income (OCI). Re-measurement, if any, are not reclassified to the consolidated statement of profit and loss in subsequent period. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, based on the market yield on government securities as at the reporting date, used to measure the net defined liability / (asset). Net interest expense and other expenses related to defined benefit plans are recognized in the consolidated statement of profit and loss. When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in the consolidated statement of profit and loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Notes forming part of Consolidated Financial Statements

For the year ended March 31, 2024

(Currency in INR Crore)

(ii) Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. They are therefore measured at the present value of expected future payments to be made in respect of services provided by the employees upto the end of the reporting period using the projected unit credit method. The discount rates used are based on the market yields on government securities as at the reporting date. Re- measurement are recognized in the consolidated statement of profit and loss in the period in which they arise. Other long term includes payable in respect of long term incentive scheme recorded based on arithmetical model estimating the possible cash outflows based on assessment of parameters of the scheme and pro-rated to the completed service period and discounted at present value.

m. Share-based payment transactions

Employees Stock Options Plans ("ESOPs") and Employee Stock Grant Scheme ("ESGS"): The grant date fair value of options granted to employees is recognized as an employee expense, with a corresponding increase in equity, over the period that the employees become unconditionally entitled to the options. The expense is recorded for each separately vesting portion of the award as if the award was, in substance, multiple awards. The increase in equity recognized in connection with share based payment transaction is presented as a separate component in equity under "Employee stock grant scheme reserve". The amount recognized as an expense is adjusted to reflect the actual number of stock options that vest.

n. Leases

At the inception of a contract, the Group assesses whether a contract is or contains, a lease. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange of consideration. To assess whether a contract conveys the right to control the use of an asset the Group assesses whether:

- The contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capability of a physical distinct asset. If the supplier has a substantive substitution right, then the asset is not identified
- The Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- The Group has the right to direct the use of the asset. The Group has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used.

As a lessee

Right-of-Use Asset

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. At the commencement date, a lessee shall measure the right-of-use asset at cost which comprises initial measurement of the lease liability, any lease payments made at or before the commencement date, less any lease incentives received, any initial direct costs incurred by the lessee; and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Lease Liability

At the commencement date, a lessee shall measure the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the lessee shall use the lessee's incremental borrowing rate.

Short-term lease and leases of low-value assets

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of less than 12 months or less and leases of low-value assets, including IT Equipment. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The election for short-term leases shall be made by class of underlying asset to which the right of use relates. A class of underlying asset is a grouping of underlying assets of a similar nature and use in Group's operations. The election for leases for which the underlying asset is of low value can be made on a lease-by-lease basis.

o. Borrowing costs

Borrowing costs are interest and other costs that the Group incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing.

Borrowing costs, pertaining to development of long term projects, are transferred to Construction work in progress, as part of the cost of the projects till the time all the activities necessary to prepare these projects for its intended use or sale are complete.

All other borrowing costs are recognized as an expense in the period in which they are incurred.

p. Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short- term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

Notes forming part of Consolidated Financial Statements

For the year ended March 31, 2024

(Currency in INR Crore)

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

q. Earnings Per Share

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares. If potential equity shares converted into equity shares increases the earnings per share, then they are treated as anti- dilutive and anti-dilutive earning per share is computed.

r. Provisions and contingent liabilities

A provision is recognized when the Group has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. Provisions (excluding retirement benefits) are discounted to their present value at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability and are determined based

on the best estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. The unwinding of the discount is recognized as finance cost.

Contingent liabilities are disclosed in the notes. Contingent liabilities are disclosed for:

- possible obligations which will be confirmed only by future events not wholly within the control of the Group; or present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.
- contingent assets are not recognized in the consolidated financial statements. However, the same are disclosed in the consolidated financial statements where an inflow of economic benefit is probable.

s. Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted with the consolidated financial statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.

t. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

10 Deferred Tax Assets and Tax Expenses (continued)

(e) The Group has recognised deferred tax asset to the extent that the same will be recoverable using the estimated future taxable income based on the approved business plans and budgets of the Group. The Group is expected to generate taxable income in upcoming years. The business losses can be carried forward for a period of 8 years as per the tax regulations and the Group expects to recover the losses.

(f) Unrecognised deferred tax liabilities

As at March 31, 2024, undistributed earnings of subsidiaries and joint ventures amounted to INR 108.95 Crore (Previous Year: INR 227.70 Crore). The corresponding deferred tax liability is not recognised because the Company controls the dividend policy of its subsidiaries and is able to veto the payment of dividends of its joint ventures - i.e. the Company controls the timing of reversal of the related taxable temporary differences and management is satisfied that they will not reverse in the foreseeable future.

(g) Unrecognised deferred tax assets

(i) Deferred tax assets amounting to INR 6.56 Crore (Previous Year: INR 3.92 Crore) have not been recognised in respect of tax losses amounting to INR 25.71 Crore (Previous Year: 15.62 Crore) because it is not probable that future taxable profit will be available against which the Group can use the benefits therefrom.

The tax losses expire in 2025-29.

(h) As per the Group's assessment, there were no material income tax uncertainties over income tax treatments during the current and previous financial year.

(iv) The Principal assumptions used in determining the present value of defined benefit obligation for the Group's plan are given below:

Particulars	March 31, 2024	March 31, 2023
Discount rate	7.19%	7.20%
Salary Escalation rate	14%	14%
Attrition Rate	28%	30%
Mortality	Indian Assured Lives Mortality (2012-14) Urban	Indian Assured Lives Mortality (2012-14) Urban

(v) Sensitivity analysis

A quantitative sensitivity analysis on Defined Benefit Obligation for significant assumptions as at March 31, 2024 is shown below:

Particulars	March 31, 2024		March 31, 2023	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	(0.76)	0.78	(0.56)	0.60
Salary escalation rate (1% movement)	0.76	(0.69)	0.56	(0.53)
Attrition rate (1% movement)	(0.31)	0.32	(0.21)	0.22

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet. There was no change in the methods and assumptions used in preparing the sensitivity analysis from prior year.

(vi) The expected future cash flows in respect of gratuity as at March 31, 2024 were as follows:

b) Measurement of Fair Value

- (i) The fair values of investments in mutual fund units is based on the net asset value ('NAV') as stated by the issuers of these mutual fund units in the published statements as at Balance Sheet date. NAV represents the price at which the issuer will issue further units of mutual fund and the price at which issuers will redeem such units from the investors.
- (ii) The Group uses the Discounted Cash Flow valuation technique (in relation to financial assets measured at amortised cost and fair value through profit or loss) which involves determination of present value of expected receipt/ payment discounted using appropriate discounting rates. The fair value so determined for financial asset measured at fair value through profit and loss are classified as Level 2.
- (iii) The Group uses the discounted cash flow valuation technique (in relation to financial liabilities measured at amortised cost) which involves determination of the present value of expected payments, discounted using bank rate.The fair value of non-convertible debentures is valued using FIMMDA guidelines.

c) Financial risk management

The Group has exposure to the following risks arising from financial instruments:

- (i) Credit Risk
- (ii) Liquidity Risk
- (iii) Market Risk

Notes forming part of Consolidated Financial Statements

For the year ended March 31, 2024 (Currency in INR Crore)

Risk management framework

The Company's Board of Directors have overall responsibility for the establishment and oversight of the Group's risk management framework. The Board of Directors have established the Risk Management Committee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the Board of Directors on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Audit Committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

(i) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers, investments in debt securities, loans given to related parties and project deposits.

The carrying amount of financial assets represents the maximum credit exposure.

Trade Receivables

Customer credit risk is managed by requiring customers to pay advances through progress billings before transfer of ownership and also establishes specific payment period for its customers, therefore substantially eliminating the Group's credit risk in this respect.

The Group's credit risk with regard to trade receivable has a high degree of risk diversification, due to the large number of projects of varying sizes and types with numerous different customer categories in a large number of geographical markets.

As per 12 Month ECL approach, the Group makes provision of expected credit losses on trade receivables to mitigate the risk of default payments and makes appropriate provision at each reporting date wherever outstanding is for longer period and involves higher risk.

The ageing of gross trade receivables are as follows:

Particulars	March 31, 2024	March 31, 2023
More than 12 months	198.60	186.18
Others	230.47	405.02

The movement in the provision for expected credit loss for credit impairment of Trade Receivables due to lifetime expected credit loss during the year are as follows:

Investment in Securities, Loans to Related Parties, Project Deposits and Other Financial Assets

The Group has investments in equity instruments, compulsorily convertible debentures / optionally convertible debentures, preference shares, loans to related parties and project deposits. The settlement of such instruments is linked to the completion of the respective underlying projects. The movement in the provision for expected credit loss due to lifetime expected credit loss during the year are as follows:

As at March 31, 2024, the Group had secured project deposits of INR 6.11 Crore (Previous Year: INR 6.11 Crore) and unsecured loans given to related parties of INR 14.47 Crore (Previous Year: INR 14.47 Crore), which have been considered as doubtful by the Group. The Group has fully provided such doubtful project deposits and unsecured loans as at March 31, 2022. The Group does not have any Loans for which credit risk has increased significantly in the current and previous year.

Particulars	March 31, 2024	March 31, 2023
Opening balance	52.45	41.82
Add: Impairment loss recognised	10.50	5.63
Less: Impairment loss reversed	(8.32)	5.00
Closing balance	54.64	52.45

Cash and Bank balances

Credit risk from cash and bank balances is managed by the Group's treasury department in accordance with the Group's policy.

(ii) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Management monitors rolling forecasts of the Group's liquidity position on the basis of expected cash flows. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents.

The Group has access to funds from capital and debt markets through loan from banks, commercial papers and other debt & equity instruments. The Group invests its surplus funds in bank fixed deposits and debt based mutual funds.

Exposure to liquidity risk

Financial Liabilities						

The Group has sufficient current assets comprising of Trade Receivables, Cash & Cash Equivalents, Investment in Mutual Funds, Other Bank Balances (other than restricted balances), Loans, Inventories and Other Current Financial Assets to manage the liquidity risk, if any in relation to current financial liabilities.

(iii) Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rate and interest rates will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

a) Currency Risk

Currency risk is not material, as the Group's primary business activities are within India and does not have significant exposure in foreign currency.

b) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The management is responsible for the monitoring of the Group's interest rate position. Various variables are considered by the Group's management in structuring the Group's borrowings to achieve a reasonable, competitive, cost of funding.

Exposure to interest rate risk

The interest rate profile of the Group's interest-bearing financial instruments as reported to the management is as follows:

Particulars	March 31, 2024	March 31, 2023
Financial liabilities		
Variable rate instruments	2,719.32	1,862.05
Fixed rate instruments	7,760.91	4,491.17
	10,480.23	6,353.22
Financial assets		
Variable rate instruments	-	-
Fixed rate instruments	4,673.63	4,991.36
	4,673.63	4,991.36

Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

39 Financial instruments – Fair values and risk management (continued)

Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rate would have resulted in variation in the interest expense for the Group by the amounts indicated in the table below. Given that the Group capitalises interest to the cost of inventory to the extent permissible, the amounts indicated below may have an impact on reported profits over the life cycle of projects to which such interest is capitalised. This calculation also assumes that the change occurs at the balance sheet date and has been calculated based on risk exposures outstanding as at that date. The year end balances are not necessarily representative of the average debt outstanding during the year.

The Group does not have any additional impact on equity other than the impact on retained earnings.

40 Capital Management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

The Board of Directors seek to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages by a sound capital position.

The Group monitors capital using a ratio of 'Net Debt to Equity'. For this purpose, net debt is defined as total borrowings (including interest accrued) less cash and bank balances and other current investments.

The Group's net debt to equity ratio is as follows:

Particulars	March 31, 2024	March 31, 2023
Net debt	6,197.71	3,647.55
Total equity attributable to the shareholders of the Company	9,992.51	9,264.20

Significant change due to business combination	671.95	-
At the end of the reporting period	8,811.74	2,261.87

(c) Performance obligation

The Group engaged primarily in the business of real estate construction, development, hospitality, and other related activities.

All the Contracts entered with the customers consists of a single performance obligation thereby the consideration allocated to the performance obligation is based on standalone selling prices.

Revenue is recognised upon transfer of control of residential and commercial units to customers for an amount that reflects the consideration which the Group expects to receive in exchange for those units. The trigger for revenue recognition is normally completion of the project or receipt of approvals on completion from relevant authorities or intimation to the customer of completion, post which the contract becomes non-cancellable by the parties.

The revenue is measured at the transaction price agreed under the contract. In certain cases, the Group has contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group adjusts the transaction price for the effects of a significant financing component.

Any costs incurred that do not contribute to satisfying performance obligations are excluded from the Group's input methods of revenue recognition as the amounts are not reflective of our transferring control to the customer. Significant judgment is required to evaluate assumptions related to the amount of net contract revenues, including the impact of any performance incentives, liquidated damages, and other forms of variable consideration.

If estimated incremental costs on any contract, are greater than the net contract revenues, the Group recognises the entire estimated loss in the period the loss becomes known.

The aggregate amount of the transaction price allocated to the performance obligations that are unsatisfied (or partially unsatisfied) as at March 31, 2024 is INR 14,057.88 Crore (Previous Year: INR 7,647.89 Crore) out of which INR 9,511.07 Crore (Previous Year: INR 3,332.55 Crore), which will be recognised as revenue over a period of 1-2 years and INR 4,201.83 Crore (Previous Year: INR 4,408.64 Crore) which will be recognised over a period of 2-4 years.

Explanatory Statement pursuant to Section 102 of the Companies Act, 2013 and Regulation 36(3) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

Item No. 3:

The Members of the Company on December 12, 2022 had approved the appointment of and remuneration to Mr. Gaurav Pandey (DIN: 07229661) as the Managing Director and Chief Executive Officer of the Company, for the period of three years commencing from January 01, 2023 to December 31, 2025.

Under the leadership of Mr. Gaurav Pandey, the Company recorded its best-ever performance during FY24. The Company’s bookings grew to over INR 22,500 crore in FY24 at a growth of 84% year-on-year, driven by an improving project mix and strong volume growth. This was the highest ever annual sales announced by any publicly listed real estate developer in India. It was achieved through the sale of 14,310 homes with a total area of 20 million sq. ft. The Company has also achieved most of the internal operational parameters, including the highest-ever cash collections and net operating cash flows during FY24.

Some of the key achievements of the Company in FY24 are as follows:

- GPL achieved 161% of its booking value guidance for FY24 with volume growth of 31% during the year to 20 million sq. ft. and an improved project mix;
- Godrej Zenith in NCR achieved a booking value of more than INR 3,000 crore and Godrej Reserve in MMR achieved a booking value of INR 2,690 crore. Both these projects were the best ever launches for GPL in the respective markets;

- In FY24, 4 projects (including Godrej Aristocrat launched in Q3 and Godrej Tropical Isle launched in Q2) achieved over INR 2,000 crore booking value;
- GPL's bookings in NCR in FY24 grew 180% to over INR 10,000 crore and GPL's bookings in MMR grew 114% to over INR 6,500 crore.

Given the phenomenal performance of the Company under the strategic guidance and leadership of Mr. Gaurav Pandey as the Managing Director & Chief Executive Officer and in recognition of his contributions to driving significant transformation, the Board of Directors on the recommendation of Nomination and Remuneration Committee has proposed to revise his remuneration for the period from April 1, 2024 to December 31, 2025 (“remainder period of appointment”) as set out herein:

I. Fixed Compensation:

Fixed Compensation shall include basic salary, Company’s contribution to Provident Fund and Gratuity Fund.

Contribution to Provident Fund, Superannuation Fund, National Pension Scheme, Gratuity as per rules of the Fund/ Scheme in force, from time to time, would not be included in the computation of ceiling on remuneration to the extent these either singly or put together are not taxable under the Income-tax Act, 1961.

The basic salary for the remainder period of appointment shall be in the range of ₹ 1.75 crore per annum to ₹ 3 crore per annum payable monthly. The annual basic salary and increments in remuneration will be recommended by the Nomination & Remuneration Committee (“NRC”) and will be decided by the Board of Directors depending on the performance of Mr. Gaurav Pandey as the Managing Director & Chief Executive Officer, the profitability of the Company, general increases recommended for other executives and other relevant factors.

II. Flexible Compensation:

In addition to the Fixed Compensation and Variable Pay and Incentives, Mr. Gaurav Pandey will be entitled to the following allowances, benefits, facilities and amenities, subject to the relevant provisions of the Act, as amended (collectively, the “allowances”). These allowances may be granted to Mr. Gaurav Pandey as per the rules of the Company or in the manner as the NRC may recommend and the Board of Directors may decide:

- i. Housing or House Rent Allowance;
- ii. Supplementary Allowance;
- iii. Leave Travel Assistance;
- iv. Payment/ reimbursement of food vouchers;
- v. Reimbursement of car lease, fuel and maintenance, driver perk and reimbursement;

- vi. Provision of telephone(s) and internet broadband at residence, Payment/ reimbursement of telephone/ mobile phone/ internet expenses;

vii. Special Allowance

During the remainder period of appointment, the maximum aggregate value of the allowances for the Managing Director & Chief Executive Officer shall be upto ₹ 8 crore per annum.

III. Variable Pay and Incentives:

- i. Performance Bonus for Teams (“PBFT”) shall be according to the applicable scheme of the Company for each of the financial year as may be recommended by the NRC and decided by the Board of Directors. PBFT base target will be in the range of ₹ 3 crore per annum to ₹ 6 crore per annum and will be defined at the start of the financial year. However, the actual PBFT payout will be higher or lower than the PBFT base target depending on the key performance indicators comprising a combination of metrics like booking value, profitability, cashflow or any other metric as may be determined by the Board/ NRC in context of that financial year.
- ii. Stock options/ stock grants as per the prevailing schemes of the Company;
- iii. Long Term Incentives as may be approved by the Board of Directors/ NRC. The long-term incentives will be paid subject to the fulfilment of significantly stretched long term targets on operating, financial and share price performance, as may be determined by the Board or its Committee from time to time.

IV. Other Benefits:

- i. Car/ company driver/ transport facilities for official purposes;
- ii. Group Term Life Insurance cover, group hospitalization cover, payment/ reimbursement of medical/ hospitalization/ domiciliary expenses for self and family as per Company policy;
- iii. Club membership/facilities as per Company policy;
- iv. Provision of electricity and utilities at residence;
- v. Housing loan as per rules of the Company and contingency loan as per rules of the Company;
- vi. Consolidated privilege leave, not exceeding 30 days in a financial year. Encashment/ accumulation of leave will be permissible in accordance with the rules specified by the Company and shall not be included in the computation of ceiling on remuneration. Sick leave as per the rules of the Company;
- vii. Such other perquisites, allowances, benefits, amenities, privileges and facilities as per the policy/ rules of the Company in force and/ or as may be recommended by the NRC and approved by the Board from time-to-time.

Mr. Gaurav Pandey will also be entitled for the reimbursement of actual entertainment, travelling, boarding and lodging expenses incurred by him in connection with the Company’s business and such other benefits/ amenities and other privileges, as in force from time-to-time.

Explanation:

- i) For the Leave Travel Assistance and reimbursement of medical and hospitalization expenses, ‘family’ means the spouse and dependent children and dependent parents.
- ii) Perquisites shall be valued at actual cost, or if the cost is not ascertainable, the same shall be valued as per the applicable Income Tax Rules.

V. Overall Remuneration:

The aggregate of salary and perquisites as specified above or paid additionally in accordance with the rules of the Company in any financial year, which the Board in its absolute discretion may pay to the Managing Director & Chief Executive Officer from time-to-time, shall be in compliance of the provisions of Section 197 and other applicable provisions of the Act read with Schedule V to the said Act, including any amendment(s), statutory modification(s) or re-enactment(s) thereof as may for the time being in force.

VI. Minimum Remuneration:

Notwithstanding the foregoing, if in any Financial Year during the tenure of the Managing Director & Chief Executive Officer, the Company has no profits or its profits are inadequate, the remuneration as above will be subject to Schedule V to the Act.

Comparative Remuneration with respect to the industry, size of the Company, profile of the position:

Remuneration of Mr. Gaurav Pandey is commensurate with the remuneration of the Managing Director & Chief Executive Officer of similar organizations, taking into consideration the responsibilities shouldered by him. NRC has also factored in market comparables in real estate industry from a study conducted by an independent organization. The percentile positioning vis-à-vis the peers is commensurate to relative size of the company vis-à-vis the peers.

The draft Agreement to be entered into by the Company with Mr. Gaurav Pandey is available for inspection electronically by the Members basis the request being sent on secretarial@godrejproperties.com mentioning their name, DP ID, Client ID through their registered e-mail.

Pursuant to Sections 196, 197, 198 and all other applicable provisions of the Companies Act, 2013 (“the Act”) and the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014, including any statutory modification(s) or re-enactment(s) thereof for the time being in force, read with Schedule V of the Act, the revision in remuneration payable to

Mr. Gaurav Pandey is being placed before the Members at the Annual General Meeting for their approval by way of Ordinary Resolution. The Board is of the view that Mr. Gaurav Pandey’s knowledge and expertise continues to be of immense benefit and value to the Company and based on the Company’s performance and the individual performance, and pursuant to the recommendations of the NRC, the Board of your Company recommends the passing of the resolution contained in Item No. 3 of the accompanying Notice as an Ordinary Resolution.

Nature of concern or interest of Directors:

Mr. Gaurav Pandey, being director of the Company, is concerned or interested, financially or otherwise, in the above resolution. None of the other Directors, Key Managerial Personnel of the Company or their relatives are, in any way, concerned or interested, financially or otherwise, in the said Ordinary Resolution.

Item No. 4: Re-appointment of Ms. Sutapa Banerjee (DIN: 02844650) as an Independent Director of the Company for a period of five years from November 05, 2024 till November 04, 2029

Ms. Sutapa Banerjee was appointed as an Independent Director on the Board of the Company with effect from November 5, 2019 pursuant to the provisions of Section 149 of the Companies Act, 2013 (“Act”) read with the Companies (Appointment and Qualification of Directors) Rules, 2014. The shareholders of the Company at the 35th Annual General Meeting of the Company held on August 05, 2020 approved her appointment as an Independent Director on the Board of the Company for a period of five years with effect from November 05, 2019 till November 04, 2024 (“First Term”).

The Nomination and Remuneration Committee of the Board of Directors, after considering the evaluation of her performance and her skills, experience and time commitment, has recommended her re-appointment as an Independent Director for a second term of five years commencing from November 05, 2024 till November 04, 2029. The Nomination and Remuneration Committee has identified amongst others, expertise in strategy and business, market expertise, governance, finance & risk management, people and talent understanding and diversity of perspective as the skills required for this role and is of the view that Ms. Sutapa Banerjee possesses the requisite skills and capabilities as identified above.

The Board of Directors, after taking into consideration the performance evaluation of Ms. Sutapa Banerjee, and upon recommendation of the Nomination and Remuneration Committee approved her re-appointment as an Independent Director for a second term of five years from November 05, 2024, subject to approval of the Members.

The Nomination and Remuneration Committee and the Board of Directors of the Company are of the opinion that it would be immensely beneficial for the Company to continue Ms. Sutapa Banerjee as an Independent Director on the Board. Accordingly, it is proposed to re-appoint Ms. Sutapa Banerjee as an Independent Director for the second term upto November 04, 2029.

In the opinion of the Board, Ms. Sutapa Banerjee fulfills the conditions specified in the Act and the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 (“Listing Regulations”) and is independent of the management. The Board has also received her consent for the proposed re-appointment and declaration from Ms. Sutapa Banerjee that she meets the criteria of independence as provided in Section 149(6) of the Act and Regulation 16 of the Listing Regulations.

In accordance with Regulation 25(2A) of the Listing Regulations and Section 149(10) of the Act, approval of Members by a special resolution is required for re-appointment of an Independent Director on the Board of Directors of the Company.

Accordingly, the Board recommends the re-appointment of Ms. Sutapa Banerjee as an Independent Director for a second term of five years commencing from November 05, 2024 till November 04, 2029 as mentioned in Item No. 4 of this notice. The details of Ms. Sutapa Banerjee pursuant to Regulation 36 of the Listing Regulations and the Secretarial Standards on General Meetings issued by the Institute of Company Secretaries of India along with brief resume are given in the Annexure to the Notice.

The draft letter of appointment of Ms. Sutapa Banerjee setting out the terms and conditions of appointment is available for inspection by the Members.

Nature of concern or interest of Directors:

None of the directors and/or key managerial personnel of your Company and their relatives, except Ms. Sutapa Banerjee

and her relatives, are concerned or interested, financially or otherwise, in the above Resolution.

Item No. 5: Ratification of remuneration payable to Cost Auditors for FY 2024-25

The Board, on the recommendation of the Audit Committee, has approved the appointment and remuneration of M/s. R. Nanabhoy & Co., Cost Accountants, as Cost Auditors to conduct the audit of the cost records of the Company for the financial year 2024-25. In accordance with the provisions of Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors has to be ratified by the Members of the Company.

Considering the scope of audit, time and resources deployed by the cost auditors, in the opinion of the Board of Directors, the proposed remuneration payable would be fair and reasonable and do not in any way impair the independence and judgment of the Cost Auditors.

Accordingly, the Board of Directors recommends the ratification of remuneration amounting to ₹ 1.41 Lakh, exclusive of applicable taxes and out of pocket expenses, for the financial year 2024-25 as set out in Item No. 5 of this Notice to the Cost Auditors, for approval of the Members.

Nature of concern or interest of Directors:

None of the directors and/or key managerial personnel of your Company and their relatives are concerned or interested, financially or otherwise, in the above Resolution.

The criteria used by the Company to prepare the Identified Sustainability Information for the FY 2023 – 2024 are the BRSR Core – ‘Framework for assurance and ESG disclosures for value chain’ and BRSR format, issued under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (‘LODR Regulations’) read with SEBI circular SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122 dated 12 July 2023 (‘SEBI Circular’) and the Guidance note for BRSR read with National Guidelines for Responsible Business Conduct Issued by Ministry of Corporate Affairs (‘BRSR Framework’) (hereinafter referred to as ‘Criteria’).

Management’s Responsibilities

6. The Company’s management is responsible for selecting or establishing suitable criteria for preparing the Identified Sustainability Information, taking into account applicable laws and regulations, if any, related to reporting on the Identified Sustainability Information, identification of key aspects, engagement with stakeholders, content, preparation and presentation of the Identified Sustainability Information in accordance with the Criteria. This responsibility includes design, implementation and maintenance of internal control relevant to the preparation of the BRSR and the measurement of Identified Sustainability Information, which is free from material misstatement, whether due to fraud or error.

Inherent limitations

7. The absence of a significant body of established practice on which to draw to evaluate and measure non-financial information allows for different, but acceptable, measures and measurement techniques and can affect comparability between entities.

Auditor’s Independence and Quality Control

8. We are independent of the Company and have fulfilled our other ethical responsibilities in accordance with the requirements of the International Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants’ (‘IESBA’) and have the required competencies and experience to conduct this assurance engagement.
9. Our firm applies International Standard on Quality Management (ISQM) 1, “Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements” and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Auditor’s Responsibility

10. Our responsibility is to express a reasonable assurance in the form of an opinion on the Identified Sustainability Information based on the procedures we have performed and evidence we have obtained. We conducted our reasonable assurance engagement in accordance with the International Standard on Assurance Engagements (ISAE) 3000 (Revised), “Assurance Engagements other than Audits or Reviews of Historical Financial Information (‘ISAE 3000 (Revised)’)” issued by the International Auditing and Assurance Standards Board (‘IAASB’). This standard requires that we plan and perform our engagement to obtain reasonable assurance about whether the Identified Sustainability Information are prepared, in all material respects, in accordance with the Criteria.
11. A reasonable assurance engagement involves assessing the suitability in the circumstances of the Company’s use of the Criteria as the basis for the preparation of the Identified Sustainability Information, assessing the risks of material misstatement of the Identified Sustainability Information whether due to

fraud or error, responding to the assessed risks as necessary in the circumstances and evaluating the overall presentation of the Identified Sustainability Information.

12. The procedures we performed were based on our professional judgment and included inquiries, observation of processes performed, inspection of documents, evaluating the appropriateness of quantification methods and reporting policies, analytical procedures and agreeing or reconciling with underlying records.

13. Given the circumstances of the engagement, in performing the procedures listed above, we:

- Conducted physical site visits at the corporate office in Mumbai, Godrej Urban Park in Mumbai and Godrej Orchard in Kolkata, for data and document verification.
- Conducted desk reviews of the Godrej Emerald Waters, Godrej Nirvaan, Godrej Upavan, Godrej Riverhills – Hill Retreat, Godrej Riverhills – Meadows and Godrej Mann-Hinjawadi.
- Conducted desk review of Godrej Park Retreat and Godrej Meridien for safety disclosure.
- Interviewed senior executives to understand the reporting process, governance, systems and controls in place during the reporting period.
- Reviewed the records and relevant documentation including information from audited financial statements or statutory reports submitted by the Company to support relevant performance disclosures within our scope.
- Evaluated the suitability and application of Criteria and that the Criteria have been applied appropriately to the subject matter.
- Selected key parameters and representative sampling, based on statistical audit sampling tables and agreeing claims to source information to check accuracy and completeness of claims such as source data, meter data, etc.
- Re-performed calculations to check accuracy of claims,
- Reviewed data from independent sources, wherever available,
- Reviewed data, information about sustainability performance indicators and statements in the report.
- Reviewed and verified information/ data as per the BRSR framework;
- Reviewed accuracy, transparency and completeness of the information/ data provided;

Exclusions

14. Our reasonable assurance engagement scope excludes the following and therefore we do not express an opinion on the same:
 - Any disclosure other than those mentioned in the Scope section above
 - Data and information outside the defined reporting period
 - Data related to Company’s financial performance, strategy and other related linkages expressed in the Report.
 - The Company’s statements that describe expression of opinion, belief, aspiration, expectation, forward looking statements provided by the Company and assertions related to Intellectual Property Rights and other competitive issues.
 - Mapping of the Report with reporting frameworks other than those mentioned in Reporting Criteria above.

While we considered the effectiveness of management’s internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls.

The procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems.

Opinion

15. Based on the procedures we have performed and the evidence we have obtained, the Identified Sustainability Information included in the BRSR for FY 2023 – 2024 is prepared in all material respects, in accordance with the Criteria.

External Assurance Statement for Integrated Report

Restriction on use

16. Our reasonable assurance report has been prepared and addressed to the Board of Directors of the Company at the request of the Company solely, to assist the Company in reporting on the Company's sustainability performance and activities. Accordingly, the Assurance Statement may not be suitable for any other purpose and should not be used, referred to or distributed for any other purpose or to any other party without our prior written consent. Further, we do not accept or assume any duty of care or liability for any other purpose or to any other party to whom the assurance report is shown or into whose hands it may come without our prior consent in writing.

Boundary

Boundary of the report covers Godrej's operations in India, which includes the Corporate Office, 50 sites and 8 offices for verification.

Criteria

The Company has prepared the identified Sustainability Information included in the Integrated Annual report based on the principles of the International Integrated Reporting Framework published by the International Integrated Reporting Council ('IIRC') of the Value Reporting Foundation in accordance with Global Reporting Initiative ('GRI') Sustainability Reporting Standards ('the GRI Standards') issued by Global Sustainability Standards Board (GSSB).

Management's Responsibilities

The Company's management is responsible for selecting or establishing suitable criteria for preparing the Identified Sustainability Information, taking into account applicable laws and regulations, if any, related to reporting on the Identified Sustainability Information, identification of key aspects, engagement with stakeholders, content, preparation and presentation of the Identified Sustainability Information in accordance with the Criteria. This responsibility includes design, implementation and maintenance of internal control relevant to the preparation of the Integrated Annual Report and the measurement of the Identified Sustainability Information, which is free from material misstatement, whether due to fraud or error.

Inherent limitations

The absence of a significant body of established practice on which to draw to evaluate and measure non-financial information allows for different, but acceptable, measures and measurement techniques and can affect comparability between entities.

Auditor's Independence and Quality Control

- We are independent of the Company and have fulfilled our other ethical responsibilities in accordance with the requirements of the International Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants ('IESBA') and have the required competencies and experience to conduct this assurance engagement.
- Our firm applies International Standards on Quality Management ('ISQM') 1 - Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Auditor's Responsibility

Our responsibility is to express a limited assurance in the form of a conclusion on the Identified Sustainability Information based on the procedures we have performed and evidence we have obtained. We conducted our limited assurance engagement in accordance with the International Standard on Assurance Engagements ('ISAE') 3000 (Revised) – Assurance Engagements other than Audits or Reviews of Historical Financial Information ('ISAE 3000 (Revised)') issued by the International Auditing and Assurance Standards Board ('IAASB'). This standard requires that we plan and perform our engagement to obtain limited assurance about whether the Identified Sustainability Information is free from material misstatement

A limited assurance engagement involves assessing the suitability in the circumstances of the Company's use of the Criteria as the basis for the preparation of the Identified Sustainability Information, identifying areas where material misstatement is likely to arise in the Identified Sustainability Information whether due to fraud or error, designing and performing procedures to address identified risk areas as necessary in the circumstances and evaluating the overall presentation of the Identified Sustainability Information.

A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both the risk assessment procedures, including an understanding of internal control, and the procedures performed in response to the assessed risks.

The procedures we performed were based on our professional judgment and included inquiries, observation of processes performed, inspection of documents, evaluating the appropriateness of quantification methods and reporting policies, analytical procedures and agreeing or reconciling with underlying records.

Given the circumstances of the engagement, in performing the procedures listed above, our work procedures included the following:

- Physical visit to corporate office in Mumbai, and physical site visits to Godrej Urban Park in Mumbai and Godrej Orchard in Kolkata, for data and document verification.
- Desk reviews of the records and relevant documentation including information at the following sites: Godrej Emerald Waters, Godrej Nirvaan, Godrej Upavan, Godrej Riverhills – Hill Retreat, Godrej Riverhills – Meadows and Godrej Mann-Hinjawadi
- Desk review of records and relevant documentation including information for safety disclosures at following sites: Godrej Park Retreat and Godrej Meridien.
- Interviewing senior executives to understand the reporting process, governance, systems and controls in place during the reporting period.
- Reviewing the records and relevant documentation including information from audited financial statements or statutory reports submitted by the Company to support relevant performance disclosures within our scope.
- Evaluating the suitability and application of Criteria and that the Criteria have been applied appropriately to the subject matter.
- Selecting key parameters and representative sampling, based on statistical audit sampling tables and agreeing claims to source information to check accuracy and completeness of claims such as source data, meter data, etc.
- Re-performing calculations to check accuracy of claims,
- Reviewing data from independent sources, wherever available,
- Reviewing data, information about sustainability performance indicators and statements in the report.
- Reviewing and verifying information/ data as per the IIRC framework;
- Reviewing accuracy, transparency and completeness of the information/ data provided;

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement. Accordingly, we do not express a reasonable assurance opinion about whether the Identified Sustainability Information have been prepared, in all material respects, in accordance with the Criteria.

Exclusions

Our assurance engagement scope excludes the following and therefore we do not express an opinion/ a conclusion on the same:

Any disclosure other than those mentioned in the Scope section above

- Data and information outside the defined reporting period
- Data related to Company's financial performance, strategy and other related linkages expressed in the Integrated Annual Report.
- The Company's statements that describe expression of opinion, belief, aspiration, expectation, forward looking statements provided by the Company and assertions related to Intellectual Property Rights and other competitive issues.
- Mapping of the Report with reporting frameworks other than those mentioned in Reporting Criteria above.

While we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls.

The procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems.

Conclusion

Based on the procedures we have performed and the evidences we have obtained nothing has come to our attention that causes us to believe that Company's Identified Sustainability Information included in the Integrated Annual Report for the financial year ended 31 March 2024, is not prepared, in all material respects in accordance with the Criteria.

Restriction on use

Our assurance report has been prepared and addressed to the Board of Directors of the Company at the request of the Company solely, to assist the Company in reporting on the Company's sustainability performance and activities. Accordingly, the assurance statement may not be suitable for any other purpose and should not be used by any other party other than the Board of Directors of the Company. Further, we do not accept or assumes any duty of care or liability for any other purpose or to any other party to whom the assurance report is shown or into whose hands it may come.
